[Montgomery Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN DESIGNATED COUNTIES IN ALABAMA

Order No. G-1 under General Order No. 50. Maximum prices for malt and cereal beverages in the counties of Baldwin, Barbour, Bullock, Covington, Dallas, Escambia, Greene, Henry, Houston, Lee, Lowndes, Mobile, Montgomery, Perry, Pike, and Russell, in the State of Alabama.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Montgomery District Office of Region IV of the Office of Price Administration by General Order No. 50 issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, it is hereby ordered:

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt and cereal beverages including those commonly known as ale, beer and near-beer in containers by any eating, or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of the following named counties of the State of Alabama: Baldwin, Barbour, Bullock, Covington, Dallas, Escambia, Greene, Henry, Houston, Lee, Lowndes, Mobile, Montgomery, Perry, Pike and Russell.

SEC. 3. *Ceiling prices.* (a) On and after July 29, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the applicable heading "All other brands not listed above" is not appropriate to such beverage, you may make application to the Montgomery District Office of the Office of Price Administration requesting that such beverage be specifically included in Appendix A hereof. With or without such application the Montgomery District Office of the Office of Price Administration may, at any time and from time to time, add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set forth in Appendix A hereof.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. You must figure the group to which you belong as follows:

(1) *Group 1 B.* Your establishment belongs to Group 1 B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 1 B establishments.

(2) *Group 2 B.* Your establishment belongs to Group 2 B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 2 B establishments, but were less than those provided in Appendix A for Group 1 B establishments.

(3) *Group 3 B.* Your establishment belongs to Group 3 B if, during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2 B establishments. All establishments not in operation during the base period of April 4–10, 1943 also belong to Group 3 B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1 B or Group 2 B, you may file an application with the Montgomery District Office of the Office of Price Administration requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon and your establishment is reclassified, it must retain the classification of a Group 3 B seller, and must observe the ceiling prices as provided for that group in Appendix A hereof. All such applications for reclassification must contain the following information:

1. Name and address of the establishment and of its owner or owners.

2. A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

3. The selling prices by brand name of all beverages sold since the beginning of its operation.

4. The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

5. Any other information pertinent to such application, or which may be requested by the Office of Price Administration.

SEC. 5. *Filing with War Price and Rationing Board.* When you have figured your proper group under section 4 above, you must, on or before August 10, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the district in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the district.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the armed forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the armed forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales shall be governed by Restaurant Maximum Price Regulation 2 on and after July 31, 1944).

(e) Sales by the War Department or the Department of Navy of the United States through such departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4, 1943 to April 10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4 to April 10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50 as well as the provisions of Restaurant Maximum Price Regulation No. 2 (which shall become effective July 31, 1944) or as these may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary food records. Among other provisions of General Order No. 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate

of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of Prices.* If you are an operator of an eating and drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, sold.

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

SEC. 11. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1B," "OPA 2B," or "OPA 3B," whichever is applicable. You may use the card furnished you for this purpose by the War Price and Rationing Board.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same.

If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other Maximum Price Regulations.* This order supersedes the provisions of Maximum Price Regulation No. 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the meal shall be governed by the provisions of Restaurant Maximum Price Regulation No. 2 on and after July 31, 1944.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer."

(c) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(d) "Sales at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

However, grocery and other stores that do not sell food items or meals, or beverages for immediate consumption on the premises are specifically excluded from this definition.

(f) "Other definitions." Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance of the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Montgomery District Office.

SEC. 19. *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

Order Number 1 under General Order Number 50. Maximum prices for malt and cereal beverages in certain areas.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Richmond District Office of Region IV of the Office of Price Administration by General Order Number 50 issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order Number 17, issued May 5, 1944, it is hereby ordered:

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt and cereal beverages including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the following portion of Virginia:

The counties of: Accomack, Albemarle, Amelia, Brunswick, Buckingham, Caroline, Charles City, Chesterfield, Culpeper, Cumberland, Dinwiddie, Elizabeth City, Essex, Fluvanna, Gloucester, Goochland, Greene, Greensville, Hanover, Henrico, Isle of Wight, James City, King George, King and Queen, King William, Lancaster, Louisa, Lunenburg, Madison, Mathews, Mecklenburg, Middlesex, Nansemond, New Kent, Norfolk, Northampton, Northumberland, Nottoway, Orange, Powhatan, Prince Edward, Prince George, Princess Anne, Richmond, Southampton, Spottsylvania, Stafford, Surry, Sussex, Warwick, Westmoreland, and York.

All towns and municipalities in the said counties, and the cities or towns of: Charlottesville, Fredericksburg, Hampton, Hopewell, Newport News, Norfolk, Petersburg, Phoebus, Portsmouth, Richmond, South Norfolk, Suffolk, Williamsburg, and Yorktown.

SEC. 3. *Ceiling prices.* (a) On and after July 10, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the caption: "All other brands" or "All brands in all other container sizes" is not appropriate to such beverages, you may make application to the Richmond District Office of the Office of Price Administration requesting that such beverage be specifically included in Appendix A hereof. With or without such application the Richmond District Office of the Office of Price Administration may at any time and from time to time add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set forth in Appendix A hereof.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period. (b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. You must figure the group to which you belong as follows:

(1) *Group 1–B.* Your establishment belongs to Group 1–B, if during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 1–B establishments.

(2) *Group 2–B.* Your establishment belongs to Group 2–B if during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as or more than the prices listed in Appendix A hereof for Group 2–B establishments, but were less than those provided in Appendix A for Group 1–B establishments.

(3) *Group 3–B.* Your establishment belongs to Group 3–B if during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2–B establishments. All establishments not in operation during the base period of April 4–10, 1943, also belong to Group 3–B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, and if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1–B or Group 2–B, you may file an application with the Richmond District Office of the Office of Price Administration requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon and your establishment is reclassified, it must retain the classification of a Group 3–B seller, and must observe the ceiling prices as provided for that group in Appendix A hereof. All such applications for reclassification must contain the following information:

1. Name and address of the establishment and of its owner or owners.

2. A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

3. The selling prices by brand name of all beverages sold since the beginning of its operation.

4. The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this Order.

5. Any other information pertinent to such application, or which may be requested by the Office of Price Administration.

SEC. 5. *Filing with War Price and Rationing Board.* When you have figured your proper group under section 4 above, you must on or before July 6, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943, legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces

(as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 4–1).

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchange, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club. No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4, 1943, to April 10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4 to April 10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation 4–1, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order 50 are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating and drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught.

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

SEC. 11. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1–B", "OPA 2–B", or "OPA 3–B", whichever is applicable. You may use the card furnished you for this purpose by the War Price and Rationing Board.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same. If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order, you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation, you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order Number 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order, your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation Number 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the meal remain subject to the provisions of Restaurant Maximum Price Regulation 4–1.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer."

(c) "On draught" means dispensed by a seller at retail from any container of one-eighth (⅛) barrel or larger size.

(e) "Sales at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

(f) "Eating or drinking establishment" shall include any place, establishment or location, whether temporary or permanent, in which any prepared food item or meal, or any beverage is sold for immediate consumption on the premises or to be carried away without substantial change in form or substance. However, grocery and other stores that do not sell food items or meals, or beverages for immediate consumption on the

premises, are specifically excluded from this definition.

(g) "Other definitions." Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance of the provisions of Revised Procedural Regulation Number 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Richmond District Office.

SEC. 19. *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN TULSA, OKLA., DISTRICT

Revised Order No. 1 under Revised Restaurant MPR 5-6. Food and drink sold for immediate consumption. Specific prices for certain food items and meals.

Order No. 1 under Restaurant MPR 5-6 is redesignated as Revised Order No. 1 under Revised Restaurant MPR 5-6, and is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and under the authority reserved in the District Director of the Tulsa District Office of Region V of the Office of Price Administration by section 22 of Revised Restaurant MPR No. 5-6, it is hereby ordered:

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for certain food items, beverages and certain meals sold by eating or drinking places, except boarding houses, covered by Revised Restaurant MPR No. 5-6, in the City of Muskogee, Oklahoma.

SEC. 2. *Your ceiling prices.* Your ceiling prices for the food items listed in Appendix A and for the meals required to be served by section 5 are the prices entered in Appendix A for the group of eating or drinking places to which your establishment belongs. The meals are further described in Appendix B. The ceiling prices listed in Appendix A will prevail over the prices established under Revised Restaurant MPR No. 5-6 for these food items or meals. Your ceiling prices for all other food items or meals will continue to be those established under the regulation. Lower prices than those established by Appendix A may, of course, be charged.

SEC. 3. *Taxes.* The dollars-and-cents maximum prices for the meals and food items listed in Appendix A hereof include all Municipal, State, and Federal Taxes except the Oklahoma consumers sales tax and the Federal cabaret tax. In addition to the prices listed in Appendix A, you may charge the amount of:

(a) The Oklahoma consumers sales tax.

(b) The Federal cabaret tax, provided the following conditions are met:

(1) You are liable for payment of the cabaret tax on the sale being made.

(2) You actually pay the additional amount collected for this purpose.

(3) You state and collect the tax separately.

When the amount of the total sale, plus the exact amount of the cabaret tax results in a figure with a fractional cent, the amount to be collected shall be raised or lowered to the nearer even cent.

SEC. 4. *Classifications*—(a) *The groups.* This order classifies eating or drinking places into six groups and establishes ceiling prices applicable to each group. The groups are as follows:

(1) Any eating or drinking place operated by or in connection with a drug store belongs to group 1.

(2) Any eating or drinking place, other than those operated by or in connection with a drug store, belongs to either group 2 or group 3 if it derives the greatest percentage of its dollar volume of business from sales of sandwiches and drinks. It belongs to group 2 if the prices which it charged during the seven-day period from April 4 to April 10, 1943 correspond more closely to the ceiling prices listed in Appendix A for group 2 places than they do to the ceiling prices listed in that Appendix for group 3 places. Conversely, it belongs to group 3 if its April 4–10 prices correspond more closely to the group 3 than to the group 2 ceiling prices.

(3) Any other eating or drinking place belongs to either group 4, group 5, or group 6. It belongs to group 4 if the prices which it charged during the seven-day period from April 4 to April 10, 1943 correspond most closely to the ceiling prices listed in Appendix A for group 4 places; to group 5 if its April 4–10 prices correspond most closely to the ceiling prices established for that group; and to group 6 if its April 4–10 prices correspond most closely to the ceiling prices established for group 6.

(4) Any eating or drinking place which during the period April 4–10, 1943 did not sell any items contained in Appendix A shall be in the same group as other establishments in the vicinity having substantially the same clientele, the same service and the same quality of food.

(b) *Determination.* The District Director of the Office of Price Administration will determine the group to which your eating or drinking place belongs and will notify you of his determination. If, however, you have received no such notice by the effective date of this order or by the date when your place is first open, whichever is later, you must immediately inform the District Director and request him to determine your proper classification. When you have made such a request you may sell at the ceiling prices for the group to which you believe your place belongs under the terms of paragraph (a), until such time as the District Director notifies you of your proper classification. If you fail to request the District Director to determine your proper classification, your place is automatically classified in group 4, and you must not charge prices higher than the ceiling prices established for this group.

(c) *Review of determination.* If you believe you have been improperly classified by the District Director you may apply for a reconsideration of his determination. Your application must be filed within thirty days after you receive notice of the classification.

(3) *Delivered sales beyond the free delivery zone.* For deliveries beyond the free delivery zone the seller may add to the maximum price for delivered sales in the free delivery zone the sum of 25¢ per cwt. The cwt. charge on commodities covered by Appendix H and Appendix I shall be figured on the basis of gross weight.

(d) *Differentials for non-delivered and delivered sales of items under Maximum Price Regulation 285*—(1) *Non-delivered sales and delivered sales in the free delivery zone.* For non-delivered sales and for delivered sales in the free delivery zone the maximum price shall be the maximum delivered price computed under Maximum Price Regulation 285 for the type of sale being made. SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 59-17, 59-11, 54-25]

UNITED LIGHT AND POWER CO., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 5th day of August A. D. 1944.

In the matter of The United Light and Power Company, The United Light and Railways Company, American Light and Traction Company, Continental Gas & Electric Corporation, United American Company, and Iowa-Nebraska Light and Power Company, respondents, File No. 59-17; The United Light and Power Company and Its Subsidiary Companies, respondents, File No. 59-11; The United Light and Power Company, applicant, File No. 54-25.

Notice is hereby given, that The United Light and Power Company ("Power"), a registered holding company, and The United Light and Railways Company ("Railways"), also a registered holding company and a subsidiary of Power, have filed with this Commission an application, designated as "Application No. 14A", pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 with respect to a proposal to effect an interim distribution of common stock of Railways to the preferred stockholders of Power prior to final court review of pending plan for the liquidation and dissolution of Power.

By order dated April 6, 1943, this Commission approved a plan under section 11 (e) of the act for the liquidation and dissolution of Power as required by the Commission's order dated March 20, 1941. The plan provides, among other things, that 94.52% of the common stock of Railways should be distributed to the preferred stockholders of Power and 5.48% of the common stock of Railways should be distributed to Power's common stockholders, the distribution to be made on or after the thirtieth day following the date upon which the order approving the plan is no longer subject to judicial review. On August 4, 1943, the District Court for the District of Delaware entered an order approving and enforcing the plan, and on April 20, 1944, the United States Circuit Court of Appeals for the Third Circuit affirmed the action of the District Court upon appeal by Otis & Co., a preferred stockholder of Power. On June 12, 1944, the United States Supreme Court granted a petition by Otis & Co. for a writ of certiorari to review the judgment of the Circuit Court.

The question raised by Otis & Co. in its appeal to the Supreme Court is whether the common stockholders of Power are entitled to any participation in the distribution of the common stock of Railways. Application 14A has been filed for the stated purpose of effecting an interim distribution to the preferred stockholders of Power without awaiting final court determination of the foregoing question, on the theory that the pending litigation does not raise any question with respect to the propriety of the distribution of 94.52% of Railways common stock to which all parties to the litigation concede Power's preferred stockholders are entitled, and that, therefore, the interim distribution will not be prejudicial to any persons whose rights are being determined in the appeal. The application states that the proposed distribution will place Power's preferred stockholders in a position to receive dividends to the extent earnings are available, will accomplish a more equitable distribution of the voting power of the holding company system and will tend to create orderly markets for the common stock of Railways.

All interested persons are referred to said Application No. 14A, which is on file at the office of this Commission, for a full statement of the transactions therein proposed which are summarized as follows:

(1) The authorized common stock of Railways, now consisting of 1,000,000 shares of the par value of $35 each, shall be changed into 3,500,000 shares of common stock having a par value of $7 each; the 708,520 shares of common stock of Railways, now outstanding and held by Power, shall be exchanged for 3,173,638 shares of the new common stock; and the capital of Railways shall be reduced $2,581,334 by reducing the amount of capital represented by the outstanding common stock from $24,798,200 to $22,216,866, the amount of the reduction to be credited to paid-in surplus.

(2) As soon as practicable after the entry of an order by the Commission and by the United States District Court for the District of Delaware, upon application thereto by the Commission, approving the distribution, Power shall deposit with a Depositary and cause it to distribute to the preferred stockholders of Power, five shares of the new common stock of Railways for each share of preferred stock of Power.

(3) The 173,838 shares of common stock of Railways received by Power in the exchange and which are not to be distributed to the preferred stockholders of Power, together with all dividends paid on such stock, shall be held by Power for distribution to its common stockholders in accordance with the plan heretofore approved in these proceedings if it is approved by the United States Supreme Court. If the plan is not so approved, said shares and the dividends received thereon by Power shall be disposed of in such manner as the Commission and the United States District Court for the District of Delaware shall direct by subsequent order.

(4) Neither the failure to object to the entry of the order by the Commission hereby requested, nor the acceptance by Power of the common stock of Railways will constitute an approval of or acquiescence by the preferred stockholders of Power in the plan now pending on appeal, nor shall the common stockholders be prejudiced in any way by failing to object to the entry of the order hereby requested.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said Application No. 14A, and that said application shall not be granted except pursuant to further order of this Commission;

It is ordered, That a hearing be held with respect to the said Application No. 14A on August 23, 1944 at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania in such room as the hearing room clerk in Room 318 will at that time advise. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by its rules of practice, Rule No. XVII, on or before August 18, 1944.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by said application otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the proposed interim distribution is necessary or appropriate to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons to be affected thereby.

(2) Whether the proposed interim distribution and the accompanying transactions are in all respects in the public interest and in the interests of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder.

It is further ordered, That notice of said hearing be given to Power, Railways and Otis & Co. by registered mail and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by general release of this Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

By the Commission.

In the matters of Peoples Light and Power Company, and Subsidiary Companies, File No. 54-67; Peoples Light and Power Company, California Public Service Company, Texas Public Service Farm Company, Texas Public Service Company, and West Coast Power Company, File No. 59-64.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 7th day of August 1944.

The Commission having, on March 9, 1943 (Holding Company Act Release No. 4159), instituted proceedings under sections 11 (b) (1) and 11 (b) (2) of the Public Utility Holding Company Act of 1935 involving Peoples Light and Power Company ("Peoples"), a registered holding company and its subsidiaries; and said proceedings having been consolidated for the purpose of hearing with an application heretofore filed by Peoples pursuant to section 11 (e) of said act for approval of a Plan for compliance with sections 11 (b) (1) and 11 (b) (2) of said act; hearings having been held in respect of such consolidated proceedings and having been adjourned subject to call of the trial examiner;

Notice is hereby given that declarations and applications have been filed with this Commission pursuant to the Act by Peoples and its wholly-owned subsidiary, namely, West Coast Power Company ("West Coast"), designated as Amendments Nos. 28 and 29 to the aforementioned application for approval of a Plan. All interested persons are referred to said documents which are on file in the office of the Commission for a full statement of the transactions therein proposed, which may be summarized as follows:

1. West Coast proposes to sell to Idaho Power Company all of West Coast's electric property in the State of Idaho, including materials and supplies, merchandise held for sale and accounts receivable, but exclusive of cash, for a cash consideration of $685,000 subject to closing adjustments.

2. West Coast proposes to sell to the City of Hailey, Idaho, all of West Coast's water property and assets in the City of Hailey, Idaho, including materials and supplies and accounts receivable, but exclusive of cash, for the sum of $65,000 subject to closing adjustments.

3. West Coast proposes to redeem $386,000 principal amount of its outstanding first mortgage bonds with a portion of the proceeds received from the sale of its Idaho electric properties, and amend the provisions of its Indenture of Mortgage to Provident Trust Company of Philadelphia and Carl W. Fenninger, as Trustees, dated June 1, 1940, by a supplemental indenture so as to (a) permit the payment of dividends and/or the making of a distribution in partial liquidation to Peoples aggregating approximately $540,000; (b) provide for the release of the Idaho assets from the lien of the West Coast Mortgage; and (c) effect certain other modifications necessitated by the proposed transactions.

4. In connection with the proposed distribution in partial liquidation, West Coast will effect a reduction in its capital and stated value of its 11,500 shares of no par capital stock, pursuant to the laws of Delaware, consistent with the amount of such distribution.

The owner of all the presently issued and outstanding West Coast Bonds has agreed to retail $200,000 principal amount of West Coast Bonds and to the proposed modifications of the West Coast Mortgage.

5. Peoples proposes to sell to A. E. Fimmel all of the issued and outstanding shares of no par value Capital Stock (11,500 shares) of West Coast for a cash consideration of $115,000 subject to the terms and provisions of the Agreement between Peoples and Fimmel, dated July 14, 1944. The sale of the West Coast stock is conditioned expressly, among other things, on the consummation of the sales of the Idaho assets and the receipt by Peoples from West Coast of dividends and/or a distribution in partial liquidation aggregating not less than $500,000.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held in respect of the amendments hereinabove described and that the declarations with respect thereto shall not become effective nor said applications be granted except pursuant to further order of the Commission; and

It further appearing to the Commission that the hearing in respect of File Nos. 54-67 and 59-64, heretofore adjourned subject to the call of the trial examiner, should be reconvened;

It is ordered, That a hearing under the applicable provisions of the act and the rules of the Commission thereunder be reconvened on the 24th day of August, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by the rules of practice, Rule XVII, on or before August 21, 1944.

It is further ordered, That Robert P. Reeder or any other officer or officers designated by the Commission to preside at such hearing, shall exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of issues presented by these proceedings, attention will be directed at the hearing to consideration of the following matters and questions:

(1) Whether the proposed consideration to be received for the West Coast properties, assets and common stock is reasonable and bears a fair relation to the sums invested in, or the earning capacity of, the assets to be sold.

(2) Whether the proposed redemption of $386,000 of First Mortgage Bonds by West Coast and the modification of the West Coast Indenture of Mortgage complies with the applicable sections of the Act or the rules thereunder.

(3) Whether the proposed dividend out of earned surplus and the distribution in partial liquidation aggregating approximately $540,000 by West Coast to Peoples is in compliance with the applicable sections of the act and the rules thereunder.

(4) Whether the proposed reduction in the stated value of the common stock of West Coast meets the applicable standards of the act.

(5) What, if any, terms and conditions with respect to the proposed transaction should be prescribed in the public interest or for the protection of investors or consumers.

It is further ordered, That the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this order by registered mail to the applicants and declarants and to the Public Utility Commission of Idaho, and that notice shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all per-

sons by publication of this order in the FEDERAL REGISTER.

By the Commission.

NOTICE OF FILING AND ORDER RECONVENING HEARING AND DIRECTING CONSOLIDATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 4th day of August, A. D. 1944.

In the matters of Central States Utilities Corporation, Central States Power & Light Corporation, Missouri Electric Power Company, Ogden Corporation, File No. 54-42; Ogden Corporation and Subsidiary Companies, File No. 54-69; Ogden Corporation and Subsidiary Companies, File No. 59-65; Interstate Power Company, File No. 70-927; and Interstate Power Company, File No. 70-928.

Ogden Corporation ("Ogden"), a registered holding company, together with its subsidiary holding company, Central States Utilities Corporation ("Central Utilities"), and the latter's subsidiary, Central States Power & Light Corporation ("Central States"), having heretofore filed an application and amendments thereto, pursuant to section 11 (e) and other applicable sections of the Public Utility Holding Company Act of 1935 and the General Rules and Regulations promulgated thereunder, relating to a plan of liquidation of Central Utilities and Central States (File No. 54-42);

The Commission having entered an order dated May 20, 1943 approving a plan filed by Ogden and subsidiaries pursuant to section 11 (e) of the act designed to enable that company and certain of its subsidiary companies to comply with the provisions of section 11 (b) of the act, said plan providing for, among other things, the liquidation and dissolution of Central Utilities and Central States, and having directed, pursuant to section 11 (b), that the said companies take certain action to comply with the provisions of section 11 (b) (File Nos. 54—69 and 59-65); and

The proceedings in respect to the Plan filed by Central Utilities, Central States, and Ogden, pursuant to section 11 (e) of the act (File No. 54-42), and proceedings in respect of the Plan filed by Ogden and subsidiary companies pursuant to section 11 (e) of the act (File No. 54-69), and the proceedings instituted by the Commission directed to Ogden and subsidiary companies, respondents, pursuant to sections 11 (b) (1), 11 (b) (2), 15 (f) and 20 (a) of the act (File No. 59-65), having heretofore been consolidated, and hearings having been held in respect of such consolidated proceedings and having been continued subject to call of the trial examiner;

Notice is hereby given that an amendment to the aforesaid amended application (File No. 54-42) has been filed by Central Utilities, Central States, and Ogden pursuant to the applicable sections of the act and the rules promulgated thereunder.

Notice is further given that an application and declarations have been filed by Interstate Power Company ("Interstate"), a holding-operating subsidiary company of Ogden, pursuant to the applicable sections of the act and the rules promulgated thereunder.

All interested persons are referred to the said amendment (File No. 54-42) and the said application (File No. 70-927) and declarations (File No. 70-928) which are on file in the office of the Commission for a full statement of the transactions proposed therein, which may be summarized as follows:

1. Central States proposes to sell and Interstate proposes to buy the remaining physical properties, and other assets pertinent thereto, of Central States, known as its "Iowa-Minnesota properties", for a base price of $2,750,000 in cash, subject to certain adjustments to the date of sale. The properties involved consist primarily of electric generation, transmission, and distribution systems operated in northern Iowa and southern Minnesota.

2. Central States proposes to apply a portion of the proceeds of the aforesaid sale to discharge all of its then outstanding First Mortgage and First Lien Gold Bonds, 5½% Series, due 1953, ($919,770 unpaid principal amount outstanding as of July 1, 1944), by the payment to the holders thereof of an amount equal to the unpaid principal amount of such bonds and accrued interest thereon up to the date of such payment, but without the payment to such holders of any redemption premium in respect of such bonds. The balance of the proceeds of said sale remaining after the payment and discharge of all the outstanding 5½% Bonds as aforesaid, together with any additional assets of Central States, will be distributed to the holders of the securities junior to said 5½% Bonds in accordance with an amendment to the plan of Central States to be hereafter filed with this Commission.

3. Central States requests the Commission to approve the transactions proposed in said amendment to its plan (File No. 54-42) as a separate proposal or plan under section 11 (e) of the act, and then to apply to the United States District Court for the District of Delaware (which has previously approved other aspects of Central States' plan) pursuant to section 18 (f) of the act, to enforce and carry out the terms and provisions of such separate proposal or plan.

4. Interstate proposes to sell, and Otter Tail Power Company, a non-affiliated public utility company proposes to buy, Interstate's electric and water properties and other assets pertinent thereto, known as Interstate's "Bemidji-Crookston Districts", for a base price of $3,000,000 in cash, subject to certain adjustments to the date of sale. The properties involved are operated in the counties of Cass, Beltram, Clearwater, Clay, Norman, Polk, Red Lake, Marshall, Kittston, and Roseau, in the State of Minnesota. Interstate proposes to utilize approximately $2,750,000 of the proceeds of said sale to purchase Central States' "Iowa-Minnesota properties".

5. The obligations of Central States and Interstate under the contract of sale, referred to in paragraph 1 above, are conditioned upon, among other things, the following:

(a) The execution by The Chase National Bank of the City of New York as Trustee under the Trust Indenture securing Central Utilities' Ten-Year 6% Secured Gold Bonds of its consent in writing as a holder of all the common stock of Central States (pledged under said indenture), or the voting of such stock in such manner as shall authorize and enable Central States to carry out the provisions of the contract;

(b) The consummation of the aforesaid sale by Interstate of its "Bemidji-Crookston Districts" to Otter Tail Power Company, referred to in paragraph 4 above, and receipt of the cash consideration therefor, on or before the closing date specified in the said contract of sale between Central States and Interstate.

6. The obligations of Interstate and Otter Tail Power Company under the contract of sale, referred to in paragraph 4 above, are conditioned upon, among other things, the obtaining by Otter Tail Power Company of all necessary approvals of the North Dakota Public Service Commission and of the Federal Power Commission.

The filings designate sections 11 (b), 11 (e), 12 (d), 12 (f), 12 (c), 9 (a) (1) and 10 as applicable to the proposed transactions.

It appearing to the Commission that the hearing herein (File Nos. 54-42, 54-69 and 59-65) previously continued should be reconvened for the purpose of taking additional testimony necessitated by the amendment filed by Central Utilities, Central States and Ogden;

It further appearing to the Commission that the proceedings heretofore consolidated in respect of the plan filed pursuant to section 11 (e) of the act by Central Utilities, Central States and Ogden (File No. 54-42), the plan filed pursuant to section 11 (e) of the act by Ogden and subsidiary companies (File No. 54-69), and the proceedings instituted by the Commission directed to Ogden and subsidiary companies, respondents, pursuant to sections 11 (b) (1), 11 (b) (2), 15 (f) and 20 (a) of the act (File No. 59-65), and the proceedings relating to the application and declarations filed by Interstate (File Nos. 70-927 and 70-928) involve common questions of law and fact and should be consolidated;

It is ordered, That such proceedings be and the same hereby are consolidated, the Commission reserving the right to separate, either in whole or in part, or to dispose of in whole or in part, any of the issues or questions which may arise in these proceedings and to take such action as may appear conducive to an orderly, prompt, and economic disposition of the matters involved.

It is further ordered, That a hearing on said matters so consolidated be held on the 17th day of August, 1944, at 10:00 a. m., e. w. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. It is further ordered, That Henry C. Lank or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. 2. Whether the proposed acquisition by Interstate of Central States' "Iowa-Minnesota properties" will tend toward the economical and efficient development of an integrated public utility system and whether such acquisition will tend toward interlocking relations or concentration of control of public utility companies of a kind or to an extent detrimental to the public interest or to the interest of investors and consumers;

3. Whether competitive conditions were maintained in respect of each of the aforesaid sales;

4. Whether the proposed sale by Central States of its "Iowa-Minnesota properties" is necessary to effectuate the provisions of Section 11 (b) of the act and is fair and equitable to the persons affected thereby;

FEDERAL WATER AND GAS CORP. AND ALABAMA WATER SERVICE CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of August, A. D., 1944.

Notice is hereby given that Amendment No. 2 to applications and declarations previously filed has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Federal Water and Gas Corporation ("Federal"), a registered holding company, and by its subsidiary, Alabama Water Service Company ("Alabama"). All interested persons are referred to said amendment to said applications and declarations, which is on file at the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

(1) Federal will borrow $750,000 and will issue a one-day unsecured note therefor.

(2) Federal will contribute $1,350,000 to the paid-in surplus of Alabama.

(3) Alabama, with the consent of its sole three bondholders, will secure the release of its electric properties from the lien of its mortgage by depositing with the Trustee sufficient funds to retire $1,008,000 principal amount of its bonds at a call price of 103.9% of par. In order to accomplish this, Alabama, with the consent of its three bondholders, proposes to execute and deliver a Supplemental Indenture which will provide (a) for the release of the electric properties upon the retirement of the bonds as stated above, (b) that upon the sale of its largest remaining water property (located at Bessemer) all of the remaining bonds will be retired, and (c) that the present annual sinking fund of $21,000 will be maintained over the life of the bonds instead of being increased as is contemplated by the original indenture.

(4) Alabama will retire 6,793 shares of its $6 preferred stock (being all of said stock now in the hands of the public) at the call price of $105 per share, such retirement of stock requiring an expenditure of $713,265 by Alabama. The 3,643 shares of $6 preferred stock held by Federal are to remain outstanding.

(5) Alabama will distribute to Federal (then Alabama's sole stockholder) Alabama's electric utility properties including materials, supplies and accounts receivable pertaining to said properties without the surrender by Federal of any of Alabama's stock owned by Federal.

(6) Federal will sell the said electric properties including materials, supplies and accounts receivable of the Cities of Andalusia, Elba, and Opp and the Alabama Electric Cooperative, Inc. for $2,500,000 subject to certain adjustments for construction, retirements, depreciation, and current assets between December 1, 1943 and the date of closing; the respective prices to be paid before considering closing adjustments being:

Andalusia	$302,175
Elba	40,925
Opp	81,900
Cooperative	2,075,000
Total	2,500,000

(7) Federal will use the proceeds from said sale, or an amount equivalent thereto, to retire Federal's debentures within 24 months from the date of said sale. Federal will immediately, upon the consummation of said sale, repay its one day bank loan of $750,000 and at the next following redemption date will call for redemption $1,750,000 principal amount of its debentures and will within 24 months from the date of said sale call for redemption an additional $750,000 principal amount of its debentures.

The proposed transactions are stated to be steps in the consummation of Federal's plan for the divestment by it of its interests in the businesses and properties of Alabama Water Service Company, which plan in this respect was previously approved by the Commission (Holding Company Act Release No. 4113 (1943)).

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to Amendment No. 2 to said dec-

larations and applications and that Amendment No. 2 to said declarations and applications should not become effective or be granted, except pursuant to further order of the Commission;

It is ordered, That a hearing be held upon said matters on the 18th day of August, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. At such hearing cause shall be shown why such Amendment No. 2 may be granted, or become effective.

It is further ordered, That Charles S. Lobingier, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said Amendment No. 2 to said applications and declarations, particular attention will be directed at the said hearing to the following matters and questions:

(1) Whether the proposed transactions are consistent with, and appropriate to carry out, Federal's plan as heretofore approved by the Commission in its order dated February 10, 1943 (Holding Company Act Release No. 4113), and are in conformity with the provisions of the said order requiring the divestment by Federal of its interests in Alabama;

(2) Whether the proposed transactions are necessary to effectuate the provisions of section 11 (b) and fair and equitable to the persons affected thereby;

(3) Whether the terms of the proposed supplemental indenture are detrimental to the interests of investors;

(4) What terms and conditions, if any, are necessary or appropriate in the public interest or the interests of investors or consumers to insure compliance with the requirements of the Public Utility Holding Company Act and the rules and regulations or orders promulgated thereunder.

Notice of such hearing is hereby given to Federal Water and Gas Corporation and Alabama Water Service Company, to the Alabama Public Service Commission, and to any other person whose participation in such proceedings may be in the public interest and for the protection of investors and consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceedings shall file with the Secretary of this Commission, on or before August 15, 1944, his request or an application therefor as provided in Rule XVII of the rules and practice of the Commission.

By the Commission.

Secretary.

DESIGNATED AREAS IN WISCONSIN

MINIMUM WARTIME WORKWEEK

Designation of certain areas in the State of Wisconsin as subject to Executive Order No. 9301 (8 F.R. 1825).

By virtue of the authority vested in me as Regional Manpower Director of Region VI by § 903.2 of War Manpower Commission Regulation No. 3, "Minimum Wartime Workweek of 48 Hours", and having found that such action will aid in alleviating labor shortages which are impeding the war effort, I hereby designate the following areas as subject to the provisions of Executive Order No. 9301:

Dane County, Sauk County, and the Townships of Arlington, Caledonia, Dekorra, Fort Winnebago, Leeds, Lewiston, Lodi, Lowville, Marcellon, Newport, Pacific, West Point and Wyocena in Columbia County.

I. The effective date of this designation is August 1, 1944.

II. Not later than the effective date, each employer in the designated areas shall, in accordance with War Manpower Commission Regulation No. 3:

(a) Extend to a minimum wartime workweek of 48 hours, the workweek of any of his workers whose workweek can be so extended without involving the release of any worker;

(b) If extension of the workweek of any of his workers to a minimum wartime workweek of 48 hours would involve the release of any workers, submit to the Area Manpower Director the number and occupational classification of the workers whose release would be involved, together with proposed schedules for their release, and thereafter extend such workweek when and as directed in schedules authorized by the War Manpower Commission;

(c) File an application for a minimum wartime workweek of less than 48 hours for those workers engaged in employment in which the employer claims that a workweek of 48 hours would be impracticable in view of the nature of the operations, would not contribute to the reduction of labor requirements, or would conflict with any Federal, State or local law or regulation limiting hours of work.

"Minimum wartime workweek" as used in this order means a workweek of 48 hours, except in cases where a workweek of 48 hours (a) would be impracticable in view of the nature of the operations, (b) would not contribute to the reduction of labor requirements, or (c) would conflict with any Federal, State or local law or regulation limiting hours of work. In such cases, "minimum wartime workweek" means the greatest number of hours (less than 48) feasible in the light of the nature of the operations, the reduction of labor requirements or the applicable Federal, State and local law or regulation, as the case may be.

Date of issuance: July 3, 1944.

PART 3292—AUTOMOTIVE VEHICLE PARTS AND EQUIPMENT

[Limitation Order L-158, as Amended Aug. 9, 1944]

PRODUCTION OF REPLACEMENT PARTS FOR MOTOR VEHICLES

Section 3292.46 *Limitation Order L-158* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States having created a shortage in the supply of chromium, copper, nickel, and other materials required for the production of replacement parts for light, medium and heavy motor trucks, truck trailers, passenger carriers, off-the-highway motor vehicles, motorized fire equipment and passenger automobiles for defense, for private account and for export, the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3292.46 *Limitation Order L-158*—(a) *Definitions.* For the purpose of this order:

(1) "Replacement parts" for light, medium and heavy motor trucks, truck trailers, passenger carriers, off-the-highway motor vehicles, motorized fire equipment and passenger automobiles, means only the parts and assemblies listed on Schedules I and II to this Order, and the components entering into such items, produced for use in the repair, maintenance or improvement of these vehicles; but the term replacement parts does not include any parts specially designed for military vehicles. Schedules I and II may be amended from time to time.

(2) "Component" means any of the integral pieces or parts of the items listed on Schedules I or II. Components include products of types which, while used in automotive parts, are not so used exclusively. Parts which have no

functional duty in the operation of the vehicle or are only ornamental or decorative are not considered components of the authorized parts and may not be produced.

(3) "Rebuilt or reconditioned parts" means any replacement parts listed in Schedules I or II which have been used and restored for use through rebuilding or reconditioning operations.

(4) "Parts consumed in use" means those parts whose function in the operation of the vehicle results in a dissipation or deterioration of material, either in whole or in part, so that the residue has little or no salvage value.

(5) "Passenger automobile" means any passenger vehicle, including station wagons and taxicabs, propelled by an internal combustion engine and having a seating capacity of less than eleven (11) persons.

(6) "Light truck" means a complete motor truck or truck-tractor with a gross vehicle weight rating of less than 9,000 pounds, as authorized by the manufacturer thereof, or the chassis therefor.

(7) "Medium and heavy motor truck" means a complete motor truck or truck-tractor with a gross vehicle weight rating of 9,000 pounds or more, as authorized by the manufacturer thereof, or the chassis therefor.

(8) "Truck trailer" means a complete semi-trailer or full trailer designed for transportation of property or persons, or the chassis therefor.

(9) "Passenger carrier" means a complete motor coach for passenger transportation, having a seating capacity of not less than eleven (11) persons.

(10) "Off-the-highway motor vehicle" means a motor truck, truck tractor or trailer operating off the public highway, normally on rubber tires, and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects, or the chassis therefor.

(11) "Motorized fire equipment" means the chassis of a passenger automobile, light, medium or heavy motor truck, truck-tractor or trailer, used for the transportation of fire-fighting personnel or equipment.

(12) "Producer" means any individual, partnership, association, corporation or other form of business enterprise engaged in the manufacture of replacement parts, as defined in paragraph (a) (1) above.

(13) "Supplier" means a person who supplies a producer with materials or the component parts for the production or assembly of replacement parts.

(14) "Distributor" means any person not a producer or supplier whose business consists, in whole or in part, of the sale of replacement parts, as defined in paragraph (a) (1) above, from inventory. Distributor includes wholesalers, jobbers; dealers, retailers and other persons performing a similar function including garages and service stations.

(15) "Consumer" means the owner or operator of the automotive vehicle for which replacement parts are required, or the user of such replacement parts for any other purpose, not including the Army or Navy of the United States, the United States Maritime Commission, and other agencies listed in paragraph (p) (1) below.

(16) "Inventory" means a stock of new replacement parts held by a distributor for his own account. Inventory does not include any "as is", rebuilt, reconditioned or reconditionable parts, and does not include Army surplus stocks of replacement parts purchased from the Procurement Division of the Treasury Department.

Provisions Relating to Production

(b) *Preference ratings of AA-1 assigned for truck and bus parts and AA-2X for passenger car and light truck parts.* A preference rating of AA-1 is assigned to producers of replacement parts and to manufacturers of the components of such parts, enumerated in Schedules I and II to this order, except those parts and components for light trucks and passenger automobiles for the production of which a preference rating of AA-2X is hereby assigned.

(c) *Special provisions for production of replacement parts and components.* Priorities and CMP Regulations may be disregarded in applying the provisions of the following subparagraphs (1) and (2). This exemption, however, does not apply where the production authorized by these subparagraphs will interfere with any "frozen" schedule of Component Consumption Requirements issued under Order L-1-e or any other "frozen" schedule, as defined in Priorities Regulation No. 10.

(1) *Parts producers.* To provide for the production of automotive replacement parts to maintain civilian automotive transportation, each producer of automotive parts for original equipment and for replacement use is authorized to use in any month for the production of those automotive replacement parts on Schedule I up to five per cent (5%) of his total productive man or machine hours, or both, which were devoted during the preceding month to the production of automotive parts for original equipment and replacement use.

(2) *Other manufacturers.* Each manufacturer of the components of the automotive replacement parts on the list designated Schedule I is authorized to use in any month for the production of such components up to five per cent (5%) of his total productive man or machine hours, or both, which were devoted during the preceding month to the production of automotive type components. Each manufacturer of automotive type components is authorized to ship each month against orders from producers of automotive replacement parts up to five per cent (5%) of his total monthly production of such components.

(3) *Basis for calculation.* The calculation in respect to productive man or machine hours or both may be made on the basis of a calendar month or any successive period of one month, beginning at any time.

(4) *Notice of prospective interference with military orders.* Paragraphs (c) (1) and (2) shall not be applied by any producer of replacement parts or manufacturer of components for such parts in such a way as to interfere with the production of orders of the Army or Navy of the United States. Where interference with Army or Navy orders prevents or will prevent the producer of parts or the manufacturer of components from applying subparagraphs (1) and (2) above, the producer or manufacturer shall immediately notify the Automotive Division, War Production Board, in order that adjustments may be at once considered.

(5) *Parts actually critical to be produced.* The purpose of paragraphs (c) (1) and (2) is primarily to secure more critical replacement parts for civilian use, as enumerated on Schedule I. Production should be made of those Schedule I parts which are critical, against back orders where they exist. It is not the purpose of subparagraphs (1) and (2) to limit the use of facilities for production of parts or components to five per cent (5%) where additional facilities are available for this production.

(d) *Correction of critical shortages.* Whenever the War Production Board determines that a critical shortage exists in respect to replacement parts, the Board may order any producer or supplier to schedule and deliver his production in such manner as will relieve the shortage; and in addition, may direct any producer or distributor to deliver or sell to any other person, at regularly established prices and terms, such quantities of replacement parts available for civilian distribution as the War Production Board may determine.

(e) *Production restricted to listed replacement parts.* (1) No person shall manufacture any parts for use in the repair, maintenance or improvement of light, medium and heavy trucks, truck trailers, passenger carriers, off-the-highway motor vehicles, motorized fire equipment or passenger automobiles, except the items, and their components, on Schedule I and Schedule II to this order, as the same may be amended from time to time.

(2) In the production of such parts no materials shall be used which are prohibited by any orders, regulations or other restrictions on the use of critical materials now or hereafter issued by the War Production Board.

Standardization and Simplification Provisions

(f) *Pistons and bearings.* Producers shall make replacement pistons, piston pins, piston rings and engine bearings as components of engines, only according to the following standards:

(1) Pistons as components of engines only in standard sizes and the following oversizes: .005, .020, .030, .040, .060, and semi-finished.

(2) Piston pins as components of engines only in standard sizes and the following oversizes: .003, .005, .010.

(3) Piston rings as components of engines only in standard sizes and the following oversizes: .020, .030, .040, .060; and in addition, for medium and heavy trucks and busses, .030, .100.

(4) Engine bearings as components of engines only in standard sizes and the following undersizes: .002, .010, .020, .030, .040, .030, .090 and semi-finished. In addition, connecting rod bearings with oversize outside diameter, and the "special length Ford main bearings."

Provisions Relating to Distributors' Inventories

(g) *Restrictions on distributors' inventories.* (1) No distributor of replacement parts whose place of business is located in the eastern or central wartime zone shall accept delivery of new replacement parts which, in combination with his existing inventory of new replacement parts, measured in total dollar cost value, will exceed a sixty-day (60) supply. Sixty-day supply means a supply in dollar cost value equal to the distributor's total sales, at his cost, of such new parts in the preceding two months period.

(2) No distributor of replacement parts whose place of business is located in any other wartime zone shall accept delivery of new replacement parts which, in combination with his existing inventory of new replacement parts, measured in total dollar cost value, will exceed a ninety-day (90) supply. Ninety-day supply means a supply in dollar cost value equal to the distributor's total sales, at his cost, of such new parts in the preceding three months period.

(3) Irrespective of the restrictions in subparagraphs (1) and (2) above, a distributor may accept delivery of specific items of replacement parts even though his inventory then exceeds, or will by reason of such acceptance exceed, his maximum permissible inventory as specified in subparagraphs (1) and (2) above. The quantity of such specific items in dollar cost value shall not exceed the dollar cost value of his sales of such items during the preceding thirty days or the last thirty-day period in which a sale was made if the distributor is located in the eastern or central war time zones, and forty-five days in all other zones.

(h) *Initial inventory for new distributors.* Notwithstanding the restrictions of paragraph (g) above, any person may establish an initial inventory of replacement parts not to exceed one thousand ($1,000) dollars at dollar cost value for the purpose of selling replacement parts as a distributor.

(i) *Return of new replacement parts.* New replacement parts, returned by a distributor to another distributor, if not included in the inventory of the person receiving the parts during the calendar quarter in which received, shall be included in his inventory in the next succeeding calendar quarter.

(j) *Disposition of traded-in used parts.* No distributor may keep in his inventory, in his possession or under his control any used replacements parts which have been traded in and cannot be reconditioned, for a period of more than thirty (30) days after they have been determined to be unserviceable, but he must dispose of them through customary disposal or scrap channels. Traded-in parts which can be reconditioned must be reconditioned, or returned to be reconditioned, as quickly as minimum quantities will permit.

Provisions Relating to Distribution

(k) *No preference ratings required for delivery of replacement parts for resale.* No producer or distributor need require any preference rating for the delivery of finished replacement parts for resale as such or for use by a consumer, except on Army, Navy, Maritime Commission and War Shipping Administration orders as provided in paragraph (m). All deliveries of such parts for resale or to consumers may be made as if the orders therefor bore the preference ratings assigned to their production in paragraph (b), and without regard to orders bearing a lower rating. In addition, the provisions of this paragraph are applicable to orders for finished parts required for rebuilding or reconditioning operations.

(l) *Parts for emergency repairs—(1) How to order parts.* Notwithstanding the provisions of paragraph (g) above, a distributor may order and accept delivery of replacement parts which he does not have in stock when required by a consumer for the emergency repair of a particular vehicle which cannot be operated without such parts. In such emergency, a distributor must file with his order to the producer a certificate in the following form:

CERTIFICATE FOR EMERGENCY REPAIR ORDER AUTOMOTIVE REPLACEMENT PARTS

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation that the replacement parts specified in the attached order are essential for the repair of the following vehicle, which cannot now be operated without such parts:

Make _____ Engine Number _____

Signed _____

(Firm, partnership or corporation)

By _____

(Name and title of individual)

_____

(Address of firm, partnership or corporation)

Dated _____

A copy of the certificate must be retained by the distributor issuing it as a part of his records.

The standard form of certificate described in Priorities Regulation No. 7 may not be used in place of the above certificate.

(2) *Emergency repair orders take preference.* A producer receiving an order accompanied by a certificate for Emergency Repair must give such order precedence in shipment over other orders not of an emergency nature, and in ordering finished parts from suppliers should indicate quantity of such parts required to fill orders of this type.

(3) *Use of certificate restricted.* The Certificate for Emergency Repair may be used only to secure essential replacement parts for emergency repairs as described in this paragraph (l). It must not under any circumstances be used by a distributor to replenish his stock.

(m) *Preference ratings of AA-2X or higher required on sales by distributors to Army, Navy and Maritime Commission.* Irrespective of the provisions of this order, no distributor shall sell or deliver any replacement parts to the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration except upon receipt of an order bearing a preference rating of AA-2X or higher.

(1) *Special provisions for Army orders.* No distributor may accept a purchase order for replacement parts, except parts for "post exchange" and "contractor vehicles" (Army owned but contractor operated as defined in War Department Circular 285, dated November 6, 1943), submitted to him by the Army unless the order specifies in accordance with War Department instructions the type, manufacturer, model and United States Army registration number of the vehicles covered by the purchase order; and the order must carry a certification that such vehicles are "dead-lined" for emergency repair. Neither the registration number of the vehicle nor a certification that the vehicle is "dead-lined" for emergency repair is required if the Army certifies instead that the registration number is unavailable and that a survey has been made of Army stocks in accordance with War Department Circular No. 209, dated September 13, or other specified circular, and that the parts are needed to effect immediate shipment overseas. Delivery by distributors of replacement parts against such orders for the Army must be restricted to parts in the distributors' inventory which are in his stock and are available for immediate delivery at the time the order is received from the Army. It is not sufficient that they are in inventory immediately before delivery.

(n) *Restrictions on sales to consumers—(1) No sale of new parts where old can be rebuilt or reconditioned.* No new replacement part shall be sold or delivered to a consumer to replace a part which the producer or distributor can rebuild or recondition by use of available local reconditioning facilities. The provisions of this paragraph shall not apply to any replacement parts sold to a consumer where the old part is traded in on a unit exchange basis.

(2) *Used parts to be turned in.* No producer or distributor shall sell or deliver any replacement part either new, used or rebuilt, to a consumer unless the consumer turns in to the producer or distributor, concurrently with his purchase, a used replacement part of similar kind for each such replacement part delivered to the consumer. However, a used replacement part need not be turned in in the following cases:

(i) Where the used part has been consumed in use, lost or stolen;

(ii) Where the used part is a cab assembly;

(iii) Where the consumer is a Federal or Territorial Department, Bureau or Agency, or a State or political subdivision thereof, which is forbidden by law from making such disposal of replacement parts;

(iv) Where the new or rebuilt part is ordered by telephone, telegraph or mail, or is to be installed by the purchaser;

(v) Where the new part to be purchased by the consumer will improve the efficiency of the vehicle, its capacity or usefulness, such parts being as follows: for all vehicles—oil filters, governors, shims, piston and piston ring expanders, and balance weights; for medium and heavy trucks, truck trailers, passenger

carriers, off-the-highway motor vehicles, motorized fire and police equipment—auxiliary and heavier springs, differentials, trailer connections, brakes, fifth wheels for truck tractors, auxiliary fuel tanks, landing gears, heavy duty generators, auxiliary transmissions, two-speed and attachment third axles, power take-offs; heavy duty trailer axles, front wheel drive conversion units, frame extensions, wheels and rim markers, clearance and identification lamps, spot lamps, fog lamps, and backup lamps, signaling devices, reflex reflectors, windshield defrosters, truck and bus traction sanders; for off-the-highway motor vehicles—power steering booster devices.

(3) *Use of consumer's certificates.* In any of the cases provided for in subparagraphs (2), (ii), (iv) and (v) above, in which the consumer is not required to turn in a used part, he must sign and deliver to the producer or distributor concurrently with each purchase, or on the written confirmation thereof if the order is placed by telephone or telegraph, a Consumer's Certificate in the following form:

CONSUMER'S CERTIFICATE

AUTOMOTIVE REPLACEMENT PARTS

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that: (a) the replacement parts covered by this certificate are essential for the maintenance, repair or improvement of equipment he now owns or operates; (b) these parts will be used to replace parts which, to the best of his knowledge, cannot be rebuilt or reconditioned by use of available facilities; and (c) he will, within thirty days after receiving the parts, dispose of the old parts, if any, through scrap channels.

Signed_____
Vehicle owner or operator
Date_____ Address_____

The foregoing Consumer's Certificate must be retained by the producer or distributor making the sale to the consumer as part of his records.

The standard form of certificate described in Priorities Regulation No. 7 may not be used in place of the above certificate.

(4) *Emergency Stocks for Fleet Operators.* Any owner or operator of a fleet of twenty-five (25) or more medium or heavy trucks, passenger carriers, off-the-highway motor vehicles or taxicabs may, without turning in a similar used part or filing a Consumer's Certificate, purchase engines (less starting, ignition and fuel systems); radiators; clutch assemblies; transmission assemblies; front axle assemblies; and rear axle assemblies; in quantities that will not result in his possession of an inventory which exceeds one each such assembly for every twenty-five (25) such vehicles, or multiples of twenty-five (25), which he maintains in service currently licensed.

Miscellaneous Provisions

(o) *Applicability of War Production Board regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time except where otherwise stated.

(p) *Exceptions to applicability of this order.* (1) The terms and restrictions of this order, except as provided for in paragraphs (d) and (m) above, shall not apply to any replacement parts sold to or produced under contracts or orders for delivery to the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Offices of Scientific Research and Development.

(2) The terms and restrictions of this order under the headings "Provisions Relating to Distributors' Inventories" and "Provisions Relating to Distribution" shall not apply to any person located outside of the forty-eight states and the District of Columbia.

(q) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(r) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate with the Field Office of the War Production Board nearest appellant's place of business, referring to the particular provision appealed from and stating fully the grounds for appeal.

(s) *Communications.* All communications concerning this order shall, unless otherwise directed be addressed to: War Production Board, Automative Division, Washington 25, D. C., Ref: Order L-158.

Issued this 9th day of August 1944.

INTERPRETATION 1—RESIZING OF ENGINE PISTONS AND BEARINGS BY PRODUCERS' BRANCHES

The question of resizing engine pistons and bearings in the field to sizes other than those specified in paragraphs (f) (1) and (f) (4), respectively, of § 3292.46. Limitation Order L-158, has been the subject of some uncertainty in the industry. In order to clarify the order, with respect to the intent of these paragraphs, the following interpretation is hereby issued:

Producers' direct factory branches of warehouses, wholly owned or controlled by them, may finish engine pistons and bearings to any intermediate sizes not specified in paragraphs (f) (1) and (f) (4), respectively, of Limitation Order L-158, when ordered from the factory branch by a customer for immediate use in a specific engine. None of these intermediate sizes may be ordered from a factory branch for stock or to be held in inventory. A certificate for emergency order, as provided for in Order L-158, paragraph (1), should accompany each order placed with the factory branch for the intermediate sizes other than those specified in the paragraphs mentioned above, as a means of identifying the need for the part in a specific vehicle. (Issued Oct. 1, 1943.)

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 26 is amended in the following respects:

1. Section 8 (c) is amended to read as follows:

(c) For the purpose of paragraph (b), the following classifications of lumber of any different species constitute separate items:

(1) Boards, shiplap or strips, dimension, plank and small timber, and timbers (one or all these classifications constitute one item).
(2) Flooring.
(3) Siding.
(4) Ceiling and partition.
(5) Finish and rough clears.
(6) Stepping.
(7) Mouldings.
(8) Silo stock.
(9) Gutter.
(10) Cribbing.
(11) Lath and shingle band sticks.
(12) Casing and base.
(13) Shingles—any species (minimum 20 squares).

2. Section 16 (d) is amended to read as follows:

(d) *Combination grades.* Lumber sold on combination grades may not be sold above the maximum price for the lowest grade in the combination. For example, the maximum price for lumber sold as No. 2 and better is the maximum price fixed for No. 2. It is, however, permissible to quote with specified higher or lower grades developed to be shipped at the respective maximum price for each grade actually developed. Where shipments are made in this manner, each piece (or bundle if bundled) shall bear some symbol of grade identification, and each grade shall be separately invoiced and the identification symbol used on the lumber shall be shown opposite the respective grade on the invoice. Alternatively, shipper may separate grades in loading and clearly identify by symbol the grade of each separate lot in the shipment and on the invoice. Shop grades when sold to millwork manufacturers are exempt from the requirements of this paragraph.

3. In section 23, the paragraph preceding the price tables is amended to read as follows:

SEC. 23. *Douglas Fir.* The maximum prices for Douglas Fir lumber per 1000 feet board measure (or other designated measures where so indicated) shall be as shown in the following price tables, f. o. b. car at mill, f. o. b. normal loading dock, or at mill's customary rail shipping point when mill is located away from railroad. Where possession of lumber is acquired f. o. b. truck at a mill not located on railroad, the prices set forth in this section (except on direct retail sales) shall be reduced by the cost of transportation from mill to customary railroad loading out point in accordance with the computation of such costs as set forth under section 7 (b) or (c).

4. In section 23, Table 1, footnote 10a is added to read as follows:

[10a] Surfacing to ¾", when required by buyer, S2S or S4S, price same as S4S, A. L. S.: S1S or Hit and Miss deduct $5.00 from price of S4S, A. L. S.

5. In section 23, Table 10 (exclusive of footnotes) is amended to read as follows:

6. In section 23, Table 11, footnote 5a is amended and footnotes 9a and 9b are added, to read as follows:

[5a] For random lengths where a specified average of not over 20' nor under 14' is required, the price shall be the specified length price of the length specified as average. If average required is longer than 20' the price shall be the 6/20 B/L price, plus 75 per cent of the specified length addition applicable to the length specified as an average. No addition may be made for the elimination of shorts in either case.

[9a] 1/16", ½" or 9/16" Surfaced or full thickness rough, $7.00 less than 1" of corresponding grade and width; ¾" or 11/16", $5.00 less than 1" of corresponding grade and width.

[9b] Surfacing to ¾", when required by buyer, S2S or S4S price same as S4S, A. L. S.; S1S or Hit and Miss deduct $5.00 from price of S4S, A. L. S.

7. In section 23, Table 12, a new footnote 2a is added to read as follows:

[2a] "D" grade deduct $17.00 per M from price of B and Better of corresponding size.

8. In section 23, Table 12, footnote 7b is amended to read as follows:

[7b] For random lengths in any specified range with an average length required greater than the mean average of the range specified, the price shall be the specified length price of the length specified as an average. No addition permissible under footnote 4.

Where the average specified is the mean average or less of the range of lengths required, the price shall be the bracket price of the lengths shipped with any permissible addition under footnote 4. When a definite average is not specified on order at time of placement, the lengths shipped must be priced at bracket price in which they fall.

9. In section 23, Table 20, the table heading is amended to read "Ship Decking, Paragraph 286 and Margin Pieces When Graded under Paragraph 286—Rough Green"; the subcaption reading "Rough green, paragraph 286 and Margin Pieces" is deleted; and a footnote 14 is added to read as follows:

[14] The maximum prices shown in Table 20 apply only to direct mill shipments (See section 3 (a)) and only where final delivery is to shipyard operations, builders or repairers of ships, barges or other water transportation facilities, except on specific individual approval of the Lumber Branch.

10. In section 25, *General notes*, Notes XVI and XIX are amended and a new note XXII is added, to read as follows:

XVI. Extra Standard Surfacing: When required by buyer, surfacing standard nominal sizes, as shown in List WCLA Grading and Dressing Rules, thicker or wider than A. L. S. finished sizes, add $2.00 per M except that this charge may not be made where surfacing is "Hit and Miss". Where machine is set to full nominal rough size as shown in List 12, width and/or thickness, such material must be sold at rough price.

NOTE: Wherever the application of this note would conflict with a footnote under any price table, the table footnote governs.

XIX. For stenciling 10 per cent or more pieces, bundles or packages, of any shipments, when required by buyer, add 50 cents per M feet to price of items on which stenciling is required. This charge may not be made for grade-marking or for identification of items or lots even though a stencil is employed for such marking.

XXII. For any surfacing that does not remove sides surfaced from being classified as rough lumber, and where rough weight may be used in computing freight, if rough weight used, no charge may be made for surfacing. Alternatively, mill may charge for surfacing (where table permits) but in doing so, freight charges must be estimated on net surfaced nominal size under "Shipping Weight" formula for sizes not listed.

12. In Article VII, Tables of Estimated Weights, wherever the term "rough or S1E" appears, it is amended to read: "rough, S1E or S2E to A. L. S.".

This amendment shall become effective August 14, 1944.

Issued this 9th day of August 1944.

[RO 9A, [1] Amdt. 12]

STOVES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 9A is amended in the following respects:

1. Section 1.1 (a) is amended by adding the word "naphtha," before the word "kerosene", and by changing the last sentence to read: "This order does not cover any equipment which has been used more than 60 days, nor does it apply to electric, charcoal or alcohol stoves, gas hot plates, gas laundry stoves, coal-wood burning laundry stoves, furnaces, waterheaters, wick-lamp cooking stoves, gasoline camp stoves, or wood-burning sheet metal heating stoves which are not equipped with grates or cast iron base or cast iron linings, or equipment designed for commercial, industrial, agricultural or institutional use, or gas cooking stoves which have asbestos or other non-metallic outside panels."

2. Section 1.2 (a) is amended by adding the word "naphtha," before the word "kerosene," each time it appears.

3. Section 3.11 is added as follows:

SEC. 3.11 *Dealers and distributors must report inventories*—(a) *Stoves removed from rationing.* Within 10 days after any stove ceases to be a rationed stove, every dealer and distributor shall report to the Board with which he is registered, on OPA Form R-908, the number of such stoves in stock or in transit to him as of the close of business on the last day such stoves are rationed. Upon receipt of OPA Form R-908, giving all of the information required by the form, the Board may at the request of the dealer or distributor issue certificates for the same type not in excess of the number of stoves reported.

4. Section 3.12 is added as follows:

SEC. 3.12 *Boards to issue certificates to dealers or distributors only for excess over debt to it.* (a) Unless specifically provided to the contrary, whenever a certificate is to be issued to a dealer or distributor because of inventory increases or because stoves were damaged and sold or transferred certificate-free, or for any other reason, and the dealer or distributor currently owes the Board any certificates for the same type of stoves because of excess inventory or for any other reason, the Board may issue only the number of certificates in excess of those currently due and shall reduce the debt accordingly. If the number due the dealer or distributor is the same as or less than the number currently owing by him, the Board shall reduce the debt by that number and issue no certificates.

5. Section 6.11 is added as follows:

SEC. 6.11 *Return of certificates when stoves are removed from rationing.* (a) When a manufacturer, distributor, or dealer has received a certificate with an order for a stove which has not been transferred, delivered, or shipped on or before the day the stove ordered ceases to be a rationed stove, he shall return a certificate for the same type of stove to the person placing the order within 3 days after such stove ceases to be a rationed stove, or if by that time he has no certificate for that type of stove, as soon as he gets such a certificate. If a certificate other than the one issued to him is returned to a consumer, he shall promptly surrender it to his Board and he may, if he is still eligible, apply for a certificate to replace it.

6. Section 13.1 (a) (17) (ii) is amended by adding the word "naphtha," before the word "kerosene."

7. Section 13.1 (a) (17) (v) is amended by adding the word "naphtha," before the word "kerosene."

8. The undesignated paragraph following section 13.1 (a) (17) (viii) is amended to read: "The term includes a radiant heater, a sheet metal heating stove with grates or with a cast iron base or cast iron lining, and a portable oil stove. It does not include electric, charcoal or alcohol stoves, gas hot plates, gas laundry stoves, coal-wood burning laundry stoves, furnaces, waterheaters, wick-lamp cooking stove, or a gasoline camp stove, or gas cooking stoves which have asbestos or other non-metallic outside panels."

This amendment shall become effective August 15, 1944.

UNIFORM TIME CHARTER TERMS AND CONDITIONS FOR DRY CARGO VESSELS

(PART II)—(REVISED)

CLAUSE 1. The Vessel shall be placed at the disposal of the Charterer at the port of delivery at such safe ready dock, wharf, or place as the Charterer may direct. Any time lost by the Vessel awaiting the availibility of such dock, wharf, or place shall count as time on hire. The Vessel on her delivery shall be ready to receive cargo with cleanswept holds and, as far as due diligence can make her so, tight, staunch, strong, and in every way fitted for normal commercial service for a vessel of her size, type, and description, having winches and power sufficient to run all the winches at one and the same time and a Master, and a sufficient complement of officers and crew (hereinafter referred to collectively as the crew) for a vessel of her tonnage, and due diligence shall be exercised by the Owner to maintain her in such state during the currency of this Charter.

The Vessel shall be employed in carrying passengers (to the extent permitted by law and available accommodations) and lawful merchandise, including petroleum or its products in proper containers, in lawful trades between safe ports or places, as the Charterer or its agents may direct.

The Vessel may be employed to tow or may be towed, but the Charterer shall indemnify the Owner for any loss, damage, claims or expenses resulting from any such use of the Vessel.

For the purpose of this Charter the Owner shall be entitled to the benefits of all waivers in the navigation and inspection laws granted by an authorized officer or by law or regulation.

If radio or other equipment is required to enable the Vessel to comply with this Clause and such equipment is leased by the Owner, it shall pay the rental and maintenance charges therefor, or if such charges are paid by the Charterer, such charges may be deducted from the hire.

CLAUSE 2. The whole reach and burthen of the Vessel's hold, decks, and usual places of loading (but not more than she can reasonably stow and carry), shall be at the Charterer's disposal, reserving only space

proper and sufficient in the opinion of the Master for Vessel's crew, Master's cabin, tackle, apparel, furniture, provisions, fresh water, stores and fuel.

CLAUSE 3. A. Commencing with the time this Amended Charter becomes effective, the Charterer shall (except as otherwise expressly provided in this Charter) pay hire for the use of the Vessel and for the services required under the terms of this Charter at the rate provided in Clause C, of Part I of this Amended Charter and, subject to the provisions of said Clause C, in either case such hire shall continue until the time of the redelivery of the Vessel to the Owner as in this Charter provided, unless the parties hereto otherwise agree: *Provided, however,* That if the Vessel shall be an actual total loss, such hire or payments on account shall continue until the time of her loss, if known, or if the Vessel is unreported, such hire or payments shall continue for one-half the calculated time necessary for the Vessel to proceed from her last known position to the next port of call, but not exceeding 14 days. If the Vessel is a constructive total loss under the terms of any insurance thereon or is declared a constructive total loss by the Charterer under the provisions of Schedule A, such hire or payments shall continue until Noon (EWT) of the day of the last casualty resulting in or causing or contributing to her loss, except as otherwise provided in Clause 31 of this Charter.

CLAUSE 3. B. If at the time of redelivery under this Charter, the Vessel shall require repairs of any damage arising from risks insured against or assumed by the Charterer or for which the Charterer is otherwise liable, hire as herein provided shall continue until completion by the Charterer of such repairs and of any work required of the Charterer by Clause 11, Part II, subject to the provisions of Clause C, Part I and Clause 11 D, Part II hereof.

CLAUSE 3. C. On the first day of each calendar month, the hire provided for in this Amended Charter and all other monies accruing during the preceding month in favor of the Owner, shall be due and payable.

CLAUSE 3. D. The Charter or its agents may advance currency or perform any services, or furnish any supplies or equipment, which are required by the Owner and are for the Owner's account under this Charter, and the Owner, upon being furnished evidence thereof, shall reimburse or secure the Charterer for the fair and reasonable dollar value of any currency so advanced, services so performed, or supplies and equipment so furnished, or at the Charterer's election the equivalent thereof may be deducted from the hire. It is understood that any such advances made or services performed or supplied and equipment furnished by the government of any country as aid to or for the account of the United States shall be deemed currency advanced, services performed, or supplies and equipment furnished by the Charterer.

CLAUSE 4 In the event that the Vessel is detained because of the happening of any event caused or contributed to by another vessel, person, corporation, or others, for which detention such third parties are or may be liable (the period of such detention to include the time necessary to proceed to, survey, and effect repairs unaccomplished upon the date of redelivery of the Vessel under this Charter), then for such period of detention the Charterer's obligation to the Owner for hire and for other sums otherwise accruing hereunder shall cease: *Provided, however,* That the Charterer shall indemnify and save the Owner harmless from any loss whatsoever by reason of the cessation of such obligations, and notwithstanding said cessation shall pay to the Owner a sum not less than the amount which would otherwise be payable to the Owner for such obligations in the same manner and to the same extent as if such cessation had not occurred, but on performance of this indemnity the Charterer shall immediately become subrogated, to the extent of such indemnity, to all rights whatsoever of the Owner to recover for such detention from or against such vessel, person, corporation, or others, and the Charterer shall be entitled to bring and maintain suit or suits thereon in its own name or in the name of the Owner as the Charterer may see fit: *Provided, however,* That on the written request of the Charterer, the Owner shall in each instance, assert and prosecute such claims in the name of the Owner, but for and on behalf of the Charterer and at the Charterer's expense, such claims to be in a sum not less than the amount of the indemnity paid by the Charterer.

CLAUSE 5. A. Insofar as it is a factor in the Vessel's rate and valuation, deadweight capacity is to be established in accordance with normal Summer Freeboard as assigned pursuant to the International Load Line Convention, 1930, and shall be her capacity (in tons of 2,240 lbs.) for cargo, fuel, fresh water, spare parts and stores but exclusive of permanent ballast. Deadweight shall be calculated without deduction for weight lost by reason of cargo refrigeration installation heretofore made, if any, and weight added by installation of refrigerated cargo capacity (including offsetting permanent ballast required thereby), arming, degaussing, demagnetizing, or the installation of splinter-protection equipment or because of ice-strengthening, or other extraordinary wartime installation or equipment, including permanent ballast, heretofore or hereafter made or required by the Charterer or any other agency of the United States.

CLAUSE 5. B. In the event that the Vessel's deadweight or bale cubic refrigerated capacity, when finally determined as herein provided, shall not be in accord with the description contained in Part I hereof, the hire and valuation shall be equitably adjusted to be appropriate for the Vessel's deadweight and bale cubic refrigerated capacity. Certificates of deadweight or bale cubic refrigerated capacity, in satisfactory form, heretofore or hereafter furnished by the American Bureau of Shipping shall be accepted as final proof of deadweight capacity and bale cubic refrigerated capacity.

CLAUSE 6. Except as otherwise provided in this Charter:

(a) The Owner shall provide and pay for

(1) Wages of Master and crew;

(2) Subsistence;

(3) Galley, cabin, deck and engine room stores, supplies and equipment (except all water and fuel for any purpose);

(4) Maintenance and repair of Vessel and equipment to the extent required of the Owner under this Charter;

(5) Sales or other taxes based on the foregoing items; and

(6) Owner's overhead expenses.

(b) The Charterer shall provide and pay for all other charges and expenses whatsoever reasonably and properly incurred in the use, operation or employment of the Vessel hereunder.

For the purposes of this Charter:

(1) The term "wages" as used herein shall include all basic and emergency wages, bonuses for seniority or length of service, overtime and vacation allowances, life, health, retirement or other insurance benefits which are not required to be provided or paid for by the Charterer hereunder.

(2) The term "subsistence" shall include the cost, including delivery, loading and inspection charges thereon, of all edibles for consumption by Master and crew, and other persons covered by Clause 7 C hereof, and shall also include board and room allowances to Master and crew in lieu of subsistence and lodging aboard the Vessel.

(3) The term "galley, cabin, deck and engine room stores, supplies and equipment" shall mean those items referred to under the headings of "(15)" and "(24) Stores, Supplies and Equipment", page 8, of the General Financial Statement of the U. S. Maritime Commission, approved by the Budget Bureau No. 62-R.O. 10-42.

(4) The term "maintenance and repair of Vessel and equipment" shall mean the items referred to under the headings "(25) Other Maintenance Expense" and "(40)" and "(49) Repairs", page 8 of said General Financial Statement.

(5) The term "overhead expense" shall include administrative and general expenses as presently itemized in General Order No. 22 of the U. S. Maritime Commission, Owner's advertising expenses, Owner's taxes (except sales and similar taxes, taxes assessed or based upon freights earned, and other taxes of any kind determined by the Charterer to be properly classifiable as voyage expenses), and the cost of employing agents or branch houses to perform any of the services required of the Owner under this Charter.

CLAUSE 7. A. The Charterer shall reimburse the Owner for actual out-of-pocket expenses, including all taxes paid by the Owner with respect to such expenses, for:

(1) All war bonuses (war risk compensation) paid to the master and crew (which term as used in this Clause 7 shall refer to the actual crew on board, even though in excess of the normal complement) in the manner and to the extent provided for in applicable decisions or advices of the Maritime War Emergency Board, as amended or modified from time to time, or in judicial decisions relating hereto.

(2) All extra compensation, including overtime, paid to the crew for services performed by the crew (a) in connection with cargo, at sea or in port, (b) in connection with shifting of Vessel in port for Charterer's purposes, or (c) preparatory to loading or discharging or sailing in convoy. If the Vessel operates in the Alaska trade, the Charterer shall also pay the extra crew costs exceeding costs that would have been incurred in similar operations in other ocean-going trades.

(3) All wages, and overtime paid to any extra crew members beyond the normal complement of the Vessel, or to other persons carried, who are required to be employed by the Owner because of (a) the Vessel's service under this Charter, (b) the loading or discharging of cargo, or (c) to care for any persons covered by Clause 7 C hereof. Extra wages or overtime paid to the normal complement of the Vessel in lieu of employing extra crew members or persons for the purposes above set forth shall also be reimbursed to Owner. The term "normal complement" as used in this Charter shall refer to the normal peacetime complement for off shore foreign trading for the average vessel of the same size, type and description as the Vessel chartered hereunder, as determined by the Administrator.

(4) All wages and overtime paid to security watchmen provided in compliance with any security requirements of any United States or other Government agency, and all overtime or additional wages paid to the crew by reason of compliance with such requirements.

(5) All extra clothing or effects for the Master and crew necessitated by the Vessel's service under this Charter (Charterer to have title to such extra clothing and effects).

CLAUSE 7. B. The Charterer shall, to the extent the Owner is not reimbursed under the provisions of Schedule A attached hereto, reimburse the Owner for out-of-pocket expenses or disbursements made on behalf of the Master or crew, or payments made to the Master or crew, for repatriation transportation (including return to port of shipment), and for wages and subsistence while awaiting

and during such transportation, where such expenses, disbursements, or payments are assumed by the terms of the Ship's Articles, the Owner's collective bargaining agreements or found by the Owner to be reasonably necessary or desirable. The Owner shall also be reimbursed for the cost reasonably incurred in furnishing men to replace members of the crew whose employment has terminated at ports in Alaska or outside the continental United States except the country of the vessel's registry, where suitable replacements are not readily available.

CLAUSE 7. C. The Charterer shall pay the Owner at the rate of $1.50 per day per person (not in excess of fifty (50) persons) for providing subsistence aboard the Vessel for any person carried at the request of the Charterer or any agency of the United States or the military authorities of any Allied Government, or any extra crew members beyond the Vessel's normal complement required because of the Vessel's service under this Charter, and $1.50 per day per person for providing subsistence aboard the Vessel for any extra complement thereby required. If a total of more than 50 extra persons referred to in this Clause 7 C are carried on the Vessel at any one time, the Owner shall be reimbursed for his actual costs for subsistence of the number in excess of 50, unless subsistence rates or schedules applicable to such excess number have been agreed upon between the Owner and the Charterer, in which event such rates or schedules shall govern. The term "subsistence" as used in this subsection shall include victualling, supplying with linens, bedding, laundry, and similar services, but the Owner shall not be obliged to furnish linens and bedding for such extra persons in excess of 50, unless otherwise agreed.

CLAUSE 8. A. The Charterer may disallow in whole or in part, as may be appropriate, and deny reimbursement for any expenses for which it is required to reimburse the Owner which are in contravention of the terms of this Charter, or are otherwise improvident or excessive.

CLAUSE 8. B. The Charterer shall reimburse the Owner for any additional extraordinary costs incurred which the Charterer, in its discretion, may allow upon finding that such costs are not intended to be covered in the allowance for services hereunder. In the event the Vessel is assigned by the Charterer for service between foreign ports, the Charterer shall make such adjustment, if any, as it deems appropriate to allow for increased cost of operation.

CLAUSE 8. C. In the event the Vessel is physically incapable of working for a period in excess of twenty (20) days while in a Continental United States port (excluding Alaska) or for a period of thirty (30) days while in Alaska or outside the Continental United States, the charter hire otherwise payable hereunder shall be reduced for the excess period by an amount equal to twenty (20) percent of the service rate, plus eighty (80) percent of the actual savings in wages for Master and crew during the entire period of layup. The Owner shall furnish reports of wage savings as soon as practicable after the termination of each month of such lay-up.

CLAUSE 9. The Charterer shall provide necessary dunnage and shifting boards, also any extra fittings and materials requisite for a special trade or for the carriage of livestock or other unusual cargo, but the Owner shall allow the Charterer the use of any dunnage and shifting boards and fittings and materials already aboard the Vessel. The Charterer shall have the privilege of using shifting boards for dunnage. Upon redelivery of the Vessel, the Charterer shall make good any damage to or shortage of shifting boards, fittings or materials which are on board at delivery.

CLAUSE 10. The Charterer shall pay for all fuel on board upon delivery, and the Owner shall pay for all fuel on board on redelivery not in excess of Owner's normal requirements, at market prices current at the ports and times of delivery and redelivery, respectively.

CLAUSE 11. A. The Charterer or any agency of the United States may, at the expense of the Charterer or such agency and on the Charterer's time, install any equipment, gear or armament, and may make any alterations or additions to the Vessel. Such equipment, gear or armament so installed are to be considered Charterer's property and are to be maintained at Charterer's expense. Such work shall be done so as not to affect the seaworthiness of the Vessel or the safety of the crew, and as not to be in contravention of any applicable law of the United States or regulation made pursuant thereto. The Charterer shall, before redelivery and at its expense and on its time, remove any equipment, gear and armament installed by or at the request of the Charterer or any agency of the United States and restore the Vessel to her condition prior to any such installations, alterations, additions or changes, whether such installations, alterations, additions or changes were made under this Charter or prior to delivery under this Charter, except as may be otherwise provided herein.

CLAUSE 11. B. Commencing with the time this Amended Charter becomes effective, the Charterer shall pay the full actual cost of providing and maintaining all equipment and installations on the Vessel, beyond normal peace-time standards, then or thereafter set forth in sub-chapter O of Chapter I of the Regulations of the United States Coast Guard (Title 46, U.S.C.R.), or by other wartime regulations of any agency of the United States, except that if and so long as the Vessel remains under time charter, the Owner shall provide and pay for renewals, replacements and repairs to lifeboat equipment and for minor repairs to lifeboats not belonging to the Owner, unless any such renewals, replacements or repairs are caused by subsequent increases and changes in wartime Governmental requirements: *Provided, however,* That if the Owner has not entered into a form of addendum to the original time charter covering this Vessel designated as "Uniform Addendum to Time Charter Covering Adjustments of Certain Disputed Questions" and has not entered into a special agreement as and if contemplated in Paragraph Fourth of said addendum, then the obligations of the Charterer under this Clause 11–B shall be limited to items hereafter required and shall not cover items heretofore required as aforesaid. All such equipment and installations installed in or relating to lifeboats belonging to the Owner shall be the property of the Owner and all other equipment or installations shall belong to the Charterer and shall be considered as equipment installed or as alterations or additions made by the Charterer pursuant to Clause 11–A of the charter. The payments provided for in this paragraph shall be made in the same manner and shall not exceed in amount those payable to like American-flag vessels operating under similar Warshiptime (Rev.) or Warshipoiltime (Rev.) charters containing a clause substantially the same as the foregoing provisions of this paragraph.

CLAUSE 11. C. Any equipment, furniture, furnishings, or appliances belonging to the Vessel and not required by the Charterer may be removed by the Charterer, at the Charterer's expense, and upon termination of the Charter, unless the Vessel has been lost or requisitioned for title, any such removals are to be replaced on board the Vessel or made good by the Charterer at its expense. Storage charges arising from such removal shall be paid for by the Charterer.

CLAUSE 11. D. If, at the time of redelivery under this Charter the Vessel shall require any work or repairs of any damage arising from risks insured against or assumed by the Charter, or for which the Charterer is otherwise liable under this Clause, Clause 11 A or any other Clause hereunder, the Charterer may, at its option, discharge such obligations by payment to the Owner in advance of an amount for reconditioning sufficient to provide for such work or repairs, which amount shall also include compensation at the rate of hire that would otherwise have been payable under this Charter, for the time reasonably required under then existing conditions to complete such work or repairs and compensation for other expenses incident to such work or repairs. If the Owner and Charterer agree such obligations may be discharged by a mutually satisfactory agreement.

CLAUSE 12. The Owner agrees at its expense to drydock the Vessel for the purpose of cleaning and painting her bottom, when necessary and not less than once in every nine months unless the Charterer otherwise agrees, and, when drydocking is due, the Charterer agrees to send the Vessel to a port where she can so drydock, clean and paint. All towage, pilotage, and other expenses incidental to such drydocking and all port charges incurred in connection therewith, shall be for the Owner's account regardless of whether Charterer's repairs are concurrently made.

CLAUSE 13. The Charterer shall furnish the Master from time to time with all requisite instructions and sailing directions, in writing, and the Master, to the extent permitted by governmental orders or directions, shall keep a full and correct log of the voyage or voyages, which shall be patent to the Charterer or its agents, and furnish the Charterer or its agents, when required and to the extent permitted by governmental orders or directions, with a true copy of port and daily logs, showing the course of the Vessel, the distance run and the consumption of fuel.

CLAUSE 14. Subject always to the directions of the Charterer the Master shall prosecute his voyages with the utmost dispatch and shall render all customary assistance with Ship's crew and boats; and shall use due diligence in caring for and ventilating the cargo. The Master (although employed by the Owner) shall be under the orders and directions of the Charterer as regards employment, agency and prosecution of the voyages; and the Charterer shall load, stow, trim and discharge the cargo at its expense under the supervision of the Master, who, if requested, is to sign bills of lading for cargo as presented, in conformity with Mate's or Tally Clerk's receipts. Bills of lading are to be signed in the form and at any rate of freight that Charterer or its agents may direct, without prejudice to this Charter. The Charterer hereby agrees to indemnify the Owner against all consequences or liabilities that may arise from the Charterer or its agents (including the Master) signing bills of lading or other documents inconsistent with this Charter, or from any irregularities in papers supplied by the Charterer or its agents.

CLAUSE 15. Cargo may be laden or discharged in any dock or at any wharf or place that the Charterer or its agents may direct, provided that the Vessel can safely lie afloat at any time of tide.

CLAUSE 16. The Owner shall provide and maintain gear for all derricks and shall maintain the gear of the ship as fitted, and shall also provide ropes, falls and blocks customary in normal commercial operation. The Owner shall also provide on the Vessel lanterns and oil for night work, and give the use of electric lights when the Vessel is so fitted. The Charterer shall have the use of any gear on board the Vessel, including slings.

CLAUSE 17. The Vessel shall work night and day, if required by the Charterer, and all winches are to be at the Charterer's disposal during loading and discharging. Shore winchmen, when available and where required, shall be provided and paid by the Charterer.

CLAUSE 18. All bills of lading issued hereunder shall contain, directly or by reference, substantially the following clauses:

(i) *Clause Paramount:*

"This bill of lading shall have effect subject to the provisions of the Carriage of Goods by Sea Act of United States, approved April 16, 1936, which shall be deemed to be incorporated herein, and nothing herein contained shall be deemed a surrender by the Carrier of any of its rights or immunities or an increase of any of its responsibilities or liabilities under said Act. If any term of this bill of lading be repugnent to said Act to any extent, such term shall be void to that extent but no further."

(ii) *Both-to-Blame Collision Clause:*

"If the ship comes into collision with another ship as a result of the negligence of the other ship and any act, neglect or default of the master, mariner, pilot or the servants of the carrier in the navigation or in the management of the ship, the owners of the goods carried hereunder will indemnify the carrier against all loss or liability to the other or noncarrying ship or her owners in so far as such loss or liability represents loss of, or damage to, or any claim whatsoever of the owners of said goods, paid or payable by the other or noncarrying ship or her owners to the owners of said goods and set-off, recouped or recovered by the other or noncarrying ship or her owners as part of their claim against the carrying ship or carrier. The foregoing provisions shall also apply where the owners, operators or those in charge of any ship or ships or objects other than, or in addition to, the colliding ships or objects are at fault in respect of a collision or contact."

(iii) *General Average Clause:*

"General average shall be adjusted, stated, and settled, according to Rules 1 to 15, inclusive, 17 to 22, inclusive, and Rule F of York-Antwerp Rules 1924, at such port or place in the United States as may be selected by the carrier, and as to matters not provided for by these Rules, according to the laws and usages at the port of New York. In such adjustment, disbursements in foreign currencies shall be exchanged into United States money at the rate prevailing on the dates made and allowances for damage to cargo claimed in foreign currency shall be converted at the rate prevailing on the last day of discharge at the port or place of final discharge of such damaged cargo from the ship. Average agreement or bond and such additional security, as may be required by the carrier, must be furnished before delivery of the goods. Such cash deposit as the carrier or his agents may deem sufficient as additional security for the contribution of the goods and for any salvage and special charges thereon, shall, if required, be made by the goods, shippers, consignees, or owners of the goods to the carrier before delivery. Such deposit shall, at the option of the carrier, be payable in United States money, and be remitted to the adjuster. When so remitted the deposit shall be held in a special account at the place of adjustment in the name of the adjuster pending settlement of the general average and refunds or credit balances, if any, shall be paid in United States money."

(iv) *Amended "Jason" Clause:*

"In the event of accident, danger, damage, or disaster before or after commencement of the voyage resulting from any cause whatsoever, whether due to negligence or not, for which or for the consequence of which the carrier is not responsible by statute, contract, or otherwise, the goods, shippers, consignees, or owners of the goods shall contribute with the carrier in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred, and shall pay salvage and special charges incurred in respect of the goods. If a salvaging ship is owned or operated by the carrier, salvage shall be paid for as fully as if the salvaging ship or ships belong to strangers."

(v) *Liberties Clauses:*

"In any situation whatsoever and whereso-ever occurring and whether existing or anticipated before commencement of or during the voyage, which in the judgment of the carrier or master is likely to give rise to risk of capture, seizure, detention, damages, delay or disadvantage to or loss of the ship or any part of her cargo, or to make it unsafe, imprudent, or unlawful for any reason to commence or proceed on or continue the voyage or to enter or discharge the goods at the port of discharge, or to give rise to delay or difficulty in arriving, discharging at or leaving the port of discharge or the usual place of discharge in such port, the carrier may before loading or before the commencement of the voyage, require the shipper or other person entitled thereto to take delivery of the goods at port of shipment and upon their failure to do so, may warehouse the goods at the risk and expense of the goods; or the carrier or master, whether or not proceeding toward or entering or attempting to enter the port of discharge or reaching or attempting to reach the usual place of discharge therein or attempting to discharge the goods there, may discharge the goods into depot, lazaretto, craft or other place; or the ship may proceed or return, directly or indirectly, to or stop at any such port or place whatsoever as the master or the carrier may consider safe or advisable under the circumstances, and discharge the goods, or any part thereof, at any such port or place; or the carrier or the master may retain the cargo on board until the return trip or until such time as the carrier or the master thinks advisable and discharge the goods at any place whatsoever as herein provided; or the carrier or the master may discharge and forward the goods by any means at the risk and expense of the goods. The carrier or the master is not required to give notice of discharge of the goods or the forwarding thereof as herein provided. When the goods are discharged from the ship, as herein provided, they shall be at their own risk and expense; such discharge shall constitute complete delivery and performance under this contract and the carrier shall be freed from any further responsibility. For any service rendered to the goods as herein provided the carrier shall be entitled to a reasonable extra compensation.

"The carrier, master and ship shall have liberty to comply with any orders or directions as to loading, departure, arrival, routes, ports of call, stoppages, discharge, destination, delivery or otherwise howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or any department thereof, or by any committee or person having, under the terms of the war risk insurance on the ship, the right to give such orders or directions. Delivery or other disposition of the goods in accordance with such orders or directions shall be fulfillment of the contract voyage. The ship may carry contraband, explosives, munitions, warlike stores, hazardous cargo, and may sail armed or unarmed and with or without convoy.

"In addition to all other liberties herein the carrier shall have the right to withhold delivery of, reship to, deposit or discharge the goods at any place whatsoever, surrender or dispose of the goods in accordance with any direction, condition or agreement imposed upon or exacted from the carrier by any government or department thereof or any person purporting to act with the authority of either of them. In any of the above circumstances the goods shall be solely at their risk and expense and all expenses and charges so incurred shall be payable by the owner or consignee thereof and shall be a lien on the goods."

This Charter shall also be subject to the provisions of (ii), (iii), and (iv) of this Clause 18.

CLAUSE 19. The Vessel, her Master and Owner shall not, unless otherwise in this Charter expressly provided, be responsible for any loss or damage or delay or failure in performing under this Charter, arising or resulting from: Any act, neglect, default or barratry of the Master, pilots, mariners or other servants of the Owner, in the navigation or management of the Vessel; fire, unless caused by the personal design or neglect of the Owner; collision, stranding, or peril, danger or accident of the sea or other navigable waters; saving or attempting to save life or property; wastage in weight or bulk, or any other loss or damage arising from inherent defect, quality or vice of the cargo; any act or omission of the Charterer, the owner, shipper or consignee of the cargo, their agents or representatives; insufficiency of packing; insufficiency or inadequacy of marks; explosions, bursting of boilers, breakage of shafts, or any latent defects in hull, equipment or machinery; unseaworthiness of the Vessel unless caused by want of due diligence on the part of the Owner to make the Vessel seaworthy or to have her properly manned, equipped, and supplied; or from any other cause of whatsoever kind arising without the actual fault or privity of the Owner. And neither the Vessel, her Master or Owner, nor the Charterer shall, unless otherwise in this Charter expressly provided, be responsible for any loss or damage or delay or failure in performing under this Charter arising or resulting from: Act of God; act of war; act of public enemies, pirates, or assailing thieves; arrest or restraint of princes, rulers or people, or seizure under legal process; strike or lockout or stoppage or restraint of labor from whatever cause, either partial or general; or riot or civil commotion. The Vessel shall have liberty to sail with or without pilots, to tow or to be towed, to go to the assistance of vessels in distress and to deviate for the purpose of saving life or property or of landing any ill or injured person on board. No exemption afforded to the Charterer under this Clause shall diminish its obligations for hire under the other provisions of this Charter.

CLAUSE 20. The Insurance, Indemnity and Waiver program set forth in Schedule A annexed is hereby incorporated by reference in and made part of this Charter as though fully set forth in this Clause.

CLAUSE 21. All salvage moneys earned by the Vessel shall be divided equally between the Owner and the Charterer, after deducting the Master and crew's shares, legal expenses, hire of the Vessel during time lost, value of fuel consumed, repairs of damage, if any, and any other extraordinary loss or expenses sustained as a result of the service, which shall always be a first charge on such moneys: *Provided, however,* That to the extent necessary to effectuate the purposes of the Insurance, Indemnity and Waiver program (Schedule A), claims for salvage on behalf of the Owner shall be made solely at the discretion of the Charterer.

CLAUSE 22. If the Charterer shall notify the Owner that the employment or the continued employment of the Master or any member of the crew or any agent of the Owner is prejudicial to the interests of the United States in the prosecuting of the war, the Owner shall make any changes necessary in the appointment.

If the Charterer shall have reason to be dissatisfied with the conduct of any member of the crew, the Owner shall, on receiving particulars of the complaint, investigate and make any changes practicable in the appointments or practices aboard the Vessel with respect to the maintenance of proper dis-

cipline, necessary to eliminate the reasons for such dissatisfaction by the Charterer.

CLAUSE 23. Any provisions of this Charter to the contrary notwithstanding, the Owner shall have the benefit of all limitations of, and exemptions from, liability accorded to the Owner of vessels by any statute or rule of law for the time being in force. Nothing herein shall be deemed to affect the Charterer's right of limitation or exemption from liability accorded under the provisions of section 4 of Public Law 17, 78th Congress.

CLAUSE 24. Nothing herein stated is to be construed as a demise of the Vessel to the Charterer.

CLAUSE 25. Liability for nonperformance of this Charter shall be proved damages.

CLAUSE 26. The Charterer shall have the option of subletting or assigning this Charter, but the Charterer shall always remain responsible for the due fulfillment of this Charter in all its terms and conditions.

CLAUSE 27. The Charterer shall have a lien on the Vessel for all moneys paid in advance and not earned.

CLAUSE 28. The Master and the Vessel shall have liberty to comply with any orders or directions as to loading, departure, arrival, routes, ports of call, stoppages, discharge, destination, delivery or otherwise howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or of any department thereof, and if by reason of or in compliance with any such orders or directions anything is done or its not done, such shall not be deemed a deviation or breech of orders or neglect of duty by the Master or the Vessel: *Provided, however,* That whenever any such orders or directions given otherwise than by the Government of the United States or its representative are contrary to sailing directions or other orders of the Charterer as to the employment of the Vessel, the Master shall, if practicable, apply to the Charterer or its agents or to a representative of the United States for consent or advice and shall not comply with such orders or directions unless such consent or advice to comply is first obtained: *Provided further, however,* That if it is impracticable in any case to act in accordance with the foregoing proviso, the Master's decision as to compliance with any such orders or directions shall be made with due regard to the interests of all concerned, including the Charterer, the Owner, and the Vessel, her crew and cargo.

CLAUSE 29. If after redelivery the Vessel is arrested or attached upon any cause of action arising or alleged to have arisen from previous possessions or operation of the Vessel by the Charterer, or any subcharterer, or for which the Charterer is liable, the Charterer undertakes to use its best efforts to cause the release of the Vessel under the Suits in Admiralty Act or any other special remedy available to the Charterer, subject to the approval of the Attorney General of the United States.

CLAUSE 30. The Charterer (except as to matters affecting only the stability of the Vessel) shall be exclusively responsible for proper loading, stowage and discharge of goods of an inflammable, explosive or dangerous nature, and shall comply with all applicable regulations and furnish any necessary fittings.

CLAUSE 31. The Charterer shall reimburse the Owner for all expenses for wages, bonuses and subsistence of the Master and crew and other out-of-pocket costs incurred by the Owner subsequent to the date of and arising from an actual or constructive total loss of the Vessel to the extent not recovered or reimbursed under any insurance on the Vessel or under this Charter of otherwise. If the extent of the damage or injury is not sufficient to entitle the Owner to collect for an actual or constructive total loss under the provisions of any insurance on the Vessel in the absence of a declaration by the Charterer, then in addition to reimbursement of expenses as aforesaid, the Owner shall be entitled: (a) to charter hire at the rate of 8½ percent per annum on the then current valuation of the Vessel, commencing with the date when charter hire would otherwise terminate and ending four months thereafter or on the date of such declaration, whichever date is earlier; and (b) if the Vessel is declared a constructive total loss more than four months after the date charter hire would otherwise terminate, then to charter hire in an amount equal to the use rate payable under Part I from the end of such four months until the date of such declaration.

CLAUSE 32. The Administrator (Charterer), acting pursuant to delegation of authority by the War Contracts Price Adjustment Board to the Administrator by instrument dated February 26, 1944, having found that this Agreement is in the nature of a lease contract and that the profits of the use rate and agreed valuation (if any) hereunder can now be determined with reasonable certainty, that such use rate and agreed valuation (if any) are not in excess of just compensation to which the Owner is or may be entitled, and that the provisions of this Charter with respect thereto adequately prevent excessive profits, the said use rate and agreed valuation (if any) are hereby exempted from the provisions of the Renegotiation Act, pursuant to subsection (1) (4) of the said Act. Nothing in this Clause 32 shall be construed as an admission by the Owners that the items exempted from renegotiation as aforesaid would be subject to the Renegotiation Act in the absence of the foregoing provisions. The service rate under this Charter shall be subject to renegotiation in accordance with the provisions of said Act, and with respect thereto this Charter shall be deemed to contain all the provisions required by subsection (b) of said Act, with the expressed understanding and agreement that the aggregate of the amount received or accrued to the Owner on account of the service rate under this and all other WAR RISK TIME or WAR SHIPPING CLAUSE Charters containing similar renegotiation provisions shall be treated as a unit for the purpose of such renegotiation. There shall be inserted in each subcontract, subject to the Renegotiation Act and involving an estimated amount of more than $100,000, a clause reciting in substance that such subcontract shall be deemed to contain all the provisions required by the Renegotiation Act. This Clause 32 shall be applicable only from the effective date of this Amended Charter. Nothing in this Clause 32 shall be construed as an admission or agreement by the Owner as to the applicability of the Renegotiation Act to this Charter for the period prior to the effective date of this Amended Charter or to any charter hire or other sums accruing prior to the effective date of this Amended Charter: *Provided, however,* That all rights, if any, which the Administrator may have to renegotiate any charter hire or other sums accruing prior to the effective date of this Amended Charter are hereby reserved by the Administrator.

CLAUSE 33. A. No member of or delegate to Congress or Resident Commissioner is or shall be admitted to any share or part of this Charter or to any benefit that may arise therefrom, except to the extent allowed by Title 18 U. S. Code, Section 206. The Owner agrees not to employ any member of or delegate to Congress or Resident Commissioner, either with or without compensation, as an attorney, agent, officer or director.

CLAUSE 33. B. The Owner shall not employ any person who advocates, or who is a member of an organization that advocates, the overthrow of the government of the United States by force or violence, to perform any work under this Charter. As a condition to the employment of any person for the performance of such work, the Owner shall, if the Charter so directs, require each person to execute and file an affidavit in such form as to satisfy the requirements of Public Law No. 678, 77th Congress, or Public Law No. 23, 77th Congress, but the execution and filing of such affidavit shall be without prejudice to the right of the Charterer to require such further evidence in the premises as may be in the possession of the Owner as the Charterer may deem desirable.

CLAUSE 33. C. The Owner agrees that in performing the work required of it by this Charter, it will not discriminate against any worker because of race, creed, color, or national origin.

CLAUSE 33. D. The Owner shall not employ any person undergoing sentence of imprisonment at hard labor.

CLAUSE 33. E. The Owner warrants that it has not employed any person to solicit or secure this Charter upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this warranty shall give the Charterer the right to annul this Charter or in its discretion, to deduct from any sums payable under this Charter the amount of such commission, percentage, brokerage, or contingent fees. This warranty shall not apply to commissions payable by the Owner upon agreements or sales secured or made through bona fide established commercial or selling agencies maintained by the Owner for the purpose of securing business.

CLAUSE 34. Failure of the Master or Owner to protest against any act or omission of the Charterer, or any other agency of the United States, including any act, omission or order which in the opinion of the Master may affect the Vessel's seaworthiness or may be in contravention of the laws or regulations of the United States shall not prejudice the rights of the Owner under this Charter.

CLAUSE 35. Unless otherwise provided in this Charter or mutually agreed upon, all payments, notices and communications from the Charterer to the Owner, pursuant to the terms of or in connection with this Charter, shall be made or addressed to the Owner at the address provided in Part I, and all payments, notices and communications from the Owner to the Charterer, pursuant to the terms of or in connection with this Charter, shall be made or addressed to the Charterer at its offices in Washington, District of Columbia.

CLAUSE 36. A. In the event that this form of time charter is modified by the Charterer at any time prior to Oct 1, 1944, the owner shall, at its option, have the benefit of any such modifications, subject to the assumption by the Owner, at the request of the Charterer, of any obligations imposed in conjunction with such modifications. Said option shall be exercised within such reasonable time as the Charterer may prescribe, and, upon such exercise, the modifications shall become effective as of the date of this Charter. In the event of non-exercise by the Owner of said option, this Charter shall remain in full force and effect in accordance with its original terms.

CLAUSE 36. B. This Charter may be amended, modified or terminated at any time by mutual agreement between the parties hereto.

CLAUSE 37. This Charter consists of this Part II and of Part I which incorporates this Part II therein by reference. In the event of conflict between the provisions of this Part II and those of Part I, the provisions of Part I shall govern to the extent of such conflict.

SCHEDULE A (FORFLAG)—INSURANCE INDEMNITY AND WAIVER PROGRAM

I. INSURANCE

(A) Unless otherwise mutually arranged, at all times during the currency of this Charter the Charterer shall provide and pay for or assume as insurer:

(1) Insurance on the Vessel under the terms and conditions of the full form of standard hull war risk policy of the War Shipping Administration, (designated as Warshipreq. (FOR.), a copy of which is attached hereto) in the amount of the agreed value under this Charter, and covering only war risks (including malicious damage, sabotage, strikes, riots, and civil commotion.)

It is specially agreed, however:

(a) That the Owner, at its own expense except as provided in subparagraph (b) below will insure the Vessel with the American Marine Hull Insurance Syndicate in an amount to be determined by the Owner, and under the conditions of AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943) which insurance shall include the interest of War Shipping Administration as Charterer.

(b) That the Charterer will reimburse the Owner for premiums paid on insurance taken out by the Owner with the American Marine Hull Insurance Syndicate pursuant to subparagraph (a) above: *Provided, however,* Such reimbursement shall not exceed the amount of premiums payable on the value set forth in the Charter on the attachment of said insurance and at the time any further annual premium is due and payable. In consideration of such reimbursement, any recapture of profits from said Syndicate shall accrue to the sole benefit of the Charterer, and any return of premiums under the insurance procured by the Owner shall, to the extent that they represent premiums originally reimbursed by the Charterer, be repayable to the Charterer.

(c) That the Owner (at its option and expense) may procure excess insurance, including liability insurance, (without benefit of salvage, subrogation or right of contribution) above the limits of the insurance so procured, but such insurance shall not be on terms inconsistent with the provisions of this Charter or with the provisions of the insurance provided for above.

(d) That the insurance procured by the Owner pursuant to subparagraph (a) hereof as well as any additional insurance procured by the Owner pursuant to subparagraph (c) hereof, and any amount of self-insurance carried by the Owner in excess of the limits of the insurance procured pursuant to subparagraph (a) hereof, shall be subject to the provisions of Clause II of this Schedule A. In consideration of the foregoing, the Charterer hereby insures the Owner against any claim by the United States for damage to property or vessels of the United States or for loss of freight, demurrage or other claims covered by the collision clause in the AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943) policy, arising out of collision with the Vessel.

(e) That in the event of cancellation or termination of the insurance referred to in subparagraph (a) above (except for nonpayment of premium), or upon thirty (30) days written notice from Charterer to the Owner, the Vessel shall thereafter be insured for marine risks by the Charterer under the terms and conditions of the full form of standard hull policy of the War Shipping Administration (designated as Warshipreq. (FOR.) for the amount of the agreed value under this Charter.

(f) The Charterer hereby insures the Owner for payments of (a) sue and labor charges, (b) general average and salvage, and (c) collision liabilities, not recoverable under the insurance on the Vessel taken out by the Owner with the American Marine Hull Insurance Syndicate pursuant to sub-paragraph (a) above solely by reason of the insured valuation of said policies being insufficient to provide complete indemnity to the vessel Owner in respect of the liabilities specifically referred to in this sub-paragraph (f), and not recoverable under insurance arranged pursuant to sub-paragraph (c) above: *Provided, however,* That the liability of the Charterer under this subparagraph (f), in respect of any one such class of liabilities, shall be limited for any one collision, casualty or occurrence to the amount, if any, by which the market value of the Vessel in sound condition at the date of such collision, casualty or occurrence, plus the Vessel's then pending freight, exceeds the insured value of the Vessel for total loss purposes under the insurance taken out by the Owner pursuant to subparagraph (a) above; it being understood that the amount of the Charterer's liability hereunder, if any, shall be applicable separately to each of the foregoing three classes of liabilities, with the full amount open for each.

(g) Without limiting the liability of the Charterer as insurer under this Charter, all repairs to the Vessel coming within the terms of the insurance assumed by the Charterer or procured by the Owner pursuant to this Schedule A shall be subject to the approval of the Charterer as to the extent, time and place of repairs. All repairs shall be carried out under the supervision of the Owner.

(h) In the event the Vessel is covered by a mortgage or lien held by any department or instrumentality of the United States, then any sum or sums payable by virtue of the provisions of this Clause I of Schedule A shall be payable for distribution to such department or instrumentality and/or the persons entitled thereto as their interests may appear.

(2) All insurance which the Owner may be obligated to provide, covering the crew with respect to loss of life, disability (including dismemberment and loss of function), detention, repatriation and similar situations, and loss of or damage to personal effects. Unless otherwise directed by the Charterer, the Owner shall agree with the crew to provide the war risk insurance covering such items afforded by the Decisions of the Maritime War Emergency Board (as amended or modified from time to time) and the marine risk insurance covering such items afforded by the Second Seamen's War Risk Policy (published in the FEDERAL REGISTER of March 20, 1943, as Decision 1A of the Maritime War Emergency Board), as amended from time to time, and such Decisions and Policy shall be the measure and limit of the Charter's liability under this Clause. The Owner shall give effect to the foregoing by inserting the following language, or such other language as the Charterer may from time to time direct, in the form of a rider or otherwise, in the Ship's Articles or other contract of employment on all voyages of the Vessel under this Charter:

"It is agreed that the Master, Officers, and Members of the Crew shall be furnished the war risk insurance protection covering loss of life, disability (including dismemberment and loss of function), detention, repatriation and similar situations and loss of or damage to personal effects, required by the Decisions of the Maritime War Emergency Board, as amended or modified from time to time, and the marine risk insurance afforded by the Second Seamen's War Risk Policy, as amended from time to time."

(3) War risk protection and indemnity insurance under the terms and conditions of the standard WAR RISK PROTECTION AND INDEMNITY policy prescribed by the War Shipping Administration, a copy of which is attached hereto, for the benefit of the Owner and the Charterer, as their interests may appear.

It is specially agreed, however,

(a) That the Owner, unless otherwise agreed, shall procure marine protection and indemnity insurance under the terms and conditions of the WARTIMEPANDI Policy (Requisitioned Vessels 1943) from an American Protection and Indemnity Underwriter approved by the Charterer which issues said form of policy, which insurance shall include the interests of the Charterer and its Time Charter Agents under Service Agreements, Berth Agents and Sub-Agents acting on their behalf. The Charterer shall reimburse the Owner for all premiums paid on such insurance in consideration of which any readjustment of premiums and any return premium shall be for account of the Charterer.

(b) That to the extent that cargo claims are recoverable under said insurance or are reimbursable to the Owner under the terms of this Charter, the Charterer, and its duly authorized Agents are authorized by the Owner to attend to the adjustment and settlement of or otherwise dispose of cargo claims in such manner (not inconsistent with the terms of said Protection and Indemnity Insurance) as may be determined by the Charterer.

(c) That in the event of cancellation (except for nonpayment of premium) of the insurance referred to in subparagraph (a) above by the Protection and Indemnity Underwriters, or upon thirty days' written notice from the Charterer to the Owner of its intention to terminate such insurance, the Charterer will then provide and pay for or assume as insurer, identical marine protection and indemnity insurance for the benefit of the Owner and the Charterer and the Charterer's Agents as their interests may appear.

(d) That the Charterer assumes as insurer any liability of the Owner or the Charterer on account of loss, damage or expense in respect of lend lease cargo or cargo owned by the United States or any agency or department thereof, including but not limited to the War Department, Navy Department, Metal Reserves Company, Rubber Reserves Company, Defense Supplies Corporation, Reconstruction Finance Corporation or Foreign Economic Administration, which would be recoverable under the WARTIMEPANDI Policy (Requisitioned Vessels 1943) in the absence of the specific exclusion relating thereto, therein.

(e) That the Charterer hereby insures the Owner for excess protection and indemnity liabilities on said Vessel on terms and conditions identical to that provided by WARTIMEPANDI Policy (Requisitioned Vessels 1943) to the extent that said WARTIMEPANDI Policy (by reason of the insured amounts in said policy) does not provide the Owner with complete protection and indemnity. *Provided, however,* That the liability of the Charterer under this subparagraph (e) in respect of any one accident or occurrence shall be limited to the amount, if any, by which the market value of the vessel in sound condition at the date of such accident or occurrence plus the vessel's then pending freight exceeds the insured amounts in said WARTIMEPANDI Policy.

(f) That the Owner (at its option and expense) may procure additional insurance in excess of the limits of the insurance procured or provided pursuant to subparagraphs (a) and (e) hereof, but such insurance shall not be on terms inconsistent with the provisions of this Charter.

(g) That the Charterer shall reimburse the Owner for all claims paid by the Owner and not recoverable pursuant to the provisions of the standard WAR RISK PROTECTION AND INDEMNITY Policy, and WARTIMEPANDI Policy (Requisitioned Vessels 1943) referred to above, solely by reason of deductible

average, franchise or other similar deductions appearing in such policies.

(h) That the Charterer hereby insures the Owner for marine and war risk insurance against all carrier's liabilities with respect to cargo to be carried, carried, or which has been carried on board the Vessel directly incurred in consequence of the operation of the Vessel and not covered by the standard protection and indemnity insurance provided or procured pursuant to this paragraph (3), including, but not limited to, liability for deviation or overcarriage, liability for drydocking with cargo on board the Vessel, liability under ad valorem Bills of Lading, and liability for carrying on deck, cargo covered by under deck Bills of Lading.

(4) Marine and war risk insurance covering the Owner's actual loss (or in the case of slop chests, the actual loss of the owner thereof) as determined by the Charterer, for (i) slop chests, (ii) cash carried on board the Vessel but not in excess of $5000 unless otherwise agreed, and (iii) consumable stores. "Consumable Stores" within the meaning of this paragraph (4) shall mean all consumable and subsistence stores, (but not radio supplies, spares, expendable equipment, scrap and junk) listed in United States Maritime Commission Voyage Stores Reports, Forms 7915A, 7916A, 7918A and 7919A (Revised Forms 1939).

(B) (a) If the Charterer elects to insure with commercial underwriters any of the risks assumed or insured against by it pursuant to this Schedule A, the Owner agrees, if so instructed by the Charterer, to file with such underwriters on behalf of the Charterer, reports, declarations, claims and the customary insurance documents, it being understood that except to the extent of any payment to the Owner by the underwriters such action on the part of the Owner shall in no way affect the Charterer's direct liability to the Owner with respect to risks assumed or insured against by the Charterer under this Charter.

(b) As soon as practicable after attachment of this insurance, the Owner shall furnish to the Charterer a statement of all unrepaired damage known to the Owner existing at the time of attachment of this insurance, together with a report of all casualties known to the Owner which may have given rise to damage subsequent to the last drydocking in a U. S. Continental Port. Upon the request of the Charterer, the Owner shall also furnish to the Charterer copies of, or at Charterer's option permit it to inspect, all deck and engine room logs, if available, and all surveys made at or subsequent to the last drydocking of the Vessel in a U. S. Continental Port.

(c) In no case shall the insurance herein provided for cover loss or damage incurred prior to the attachment of this insurance.

(d) Insurance heretofore provided by the Charterer under this Charter shall terminate upon the attachment of this insurance: *Provided, however*, That claims for unrepaired damage under said prior insurance shall not be due and payable until the repairs are effected or if not so effected, until the termination of this insurance, but in no case shall the Charterer, as Charterer or insurer, be liable for such unrepaired damage in addition to a subsequent total or constructive total loss under this insurance or Charter.

(e) General average adjusters shall be appointed by the Owner, from a list of adjusters satisfactory to the Charterer, and shall attend to the settlement and collection of the general average, subject to customary charges. If the Vessel should put into a port of distress or be under average, she is to be consigned to the Charterer's agents who shall be entitled to receive the usual charges and commissions.

II. WAIVERS

(a) The Owner shall and does hereby waive all claims for general average, salvage, collision or demurrage against any vessel (1) owned by the United States, or (2) under charter to the United States on terms which would make the United States liable as Charterer, insurer or otherwise for such claims or (3) under charter to the United States and insured under the terms of the AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943).

(b) The Owner shall and does hereby waive all claims for general average, salvage, collision or demurrage against any other vessel owned by or under charter to any Government, and against any cargo carried on any such vessel or on any vessel described in subparagraph (a) above, to the extent such waiver may be required by the Charterer in any specific case or cases in order to give effect to any agreement for mutual or reciprocal waiver of claims entered into by the United States on behalf of vessels owned by or under charter to it.

(c) The waivers provided in this Clause II of Schedule A shall be effective only as to claims relating to the Vessel and arising out of her use or operation under this Charter, and such waivers shall not relieve the Charterer of any liability it may have to the Owner under the terms of this Charter.

(d) The Owner shall and does hereby waive any claim against any ship repairer, based on negligence or otherwise, arising out of repair or custody of the Vessel during the period of this Charter, to the extent that such claim, if not waived, would ultimately be borne by the United States under contract or insurance arrangement between the United States and the repairer; *Provided, however*, That such waiver shall not preclude recovery by the Owner against the repairer for amounts less than the customary contractual limit of $300,000 on the repairer's liability, nor for any claim by the Owner for proper replacement of defective workmanship or material in connection with any repairs which are for the Owner's account under the terms of this Charter.

(e) The Owner shall and does hereby waive any claim for loss of or damage to the vessel against any stevedore to the extent that such claim, if not waived, would ultimately be borne by the United States under contract or insurance arrangement between the United States and the stevedore, except with respect to claims which the Owner cannot recover under the provisions of Clause I, (A), (1) (a) of this Schedule A, by reason of the franchise in the insurance provided pursuant to said Clause.

III. INDEMNITY AND INSURANCE

(a) The Charterer shall insure the Owner for and against any loss or damage suffered, or liabilities incurred, by the Owner for which claim is waived under the provisions of Clause II of this Schedule A (except claims for salvage in excess of actual cost in connection therewith), and which is not recovered by the Owner under any other provision of this Charter; *Provided, however*, That this indemnity shall not entitle the Owner to recover for loss or damage to the Vessel in an aggregate sum in excess of the agreed valuation; *And provided further*, That this indemnity shall not entitle the Owner to recover for any period of detention or loss of use of the Vessel an aggregate sum in excess of the amount which would be payable to the Owner under the other terms of this Charter for such period.

(b) The Charterer shall reimburse, indemnify, and hold harmless the Owner, the Master and the Vessel for or from all consequences, losses and liabilities whatsoever directly resulting from compliance with or efforts to comply with any orders or directions of the Charterer, its agents, representatives or employees, or any other agency of the United States or of any allied government, or orders or directions given as provided in Clause 28 of this Charter, unless properly chargeable to the Owners under this Charter or Schedule, or recoverable under (or within the franchise of) any of the insurance procured pursuant to the terms of this Schedule A. The Owner shall, as far as may be practicable, keep the Charterer currently informed in writing as to any oral orders (involving substantial delay, expense or risk to the Vessel or her cargo) not promptly confirmed in writing by the person giving such orders.

(c) The Charterer hereby assumes and indemnifies the Owner for any loss or liability, if not covered by the terms and conditions of any of the insurances provided for in this Schedule A, arising out of performance of services under any towage or pilotage contract customarily in use in the trades in which the Charterer uses the Vessel or which is specially agreed to by the Owner upon request or instructions of the Charterer.

IV. CONSTRUCTIVE TOTAL LOSS DECLARATION BY CHARTERER

If the Charterer finds, in case of casualty or serious damage or injury to the Vessel during the period of this Charter, not constituting an actual or constructive total loss under the insurance provided in this Schedule A, that the continuation of the Charter is inadvisable because of the probable high cost of repairs or indefinite loss of use of the Vessel then the Charterer nonetheless shall have the option of declaring her a constructive total loss by so notifying the Owner in writing as soon as practicable after the occurrence causing such damage or injury. In the event of such a declaration by the Charterer, the Charterer as insurer, shall forthwith pay or cause to be paid to the Owner an amount to be determined in accordance with the valuation provisions of this Charter as though the Vessel were an actual total loss: *Provided, however*, If the Vessel is in fact a constructive total loss within the terms of the insurance provided by the Owner pursuant to this Schedule A, no such payment shall be made by or on behalf of the Charterer, or if the Owner shall have elected to recover for the estimated cost of repairing the damage to the Vessel under the terms and conditions of American Hull Form Revised (Requisitioned Vessels 1943) the amount payable by the Charterer to the Owner shall be reduced by the amount payable under such insurance. If the Owner does not so elect or shall not have so elected within ninety (90) days of declaration of a constructive total loss by the Charterer then the Charterer shall be subrogated to all of the rights of the Owner under such insurance. Against any such payments received by the Owner from the Charterer or the Owner's assurer, as the case may be, the Owner will, if the Charterer elects to take title, give such releases and instruments granting the Vessel or the property of her remaining to the Charterer as the Charterer may require and that are not inconsistent with the terms and conditions of the AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943).

V. ATTACHMENT OF INSURANCE

This Schedule shall be effective, and the insurance *to be provided* by the Charterer hereunder shall attach simultaneously with the effective date and time of this Amended Charter (Addendum) to which it is affixed: *Provided, however*, If the Vessel be then at sea the insurance provided by the Charterer shall not attach until Vessel's next arrival in safe port.

BY THIS POLICY OF INSURANCE DOES, in accordance with applicable provisions of law and subject to all limitations thereof, make insurance and cause to be insured, lost or not lost:

ON THE STEAMER (or Motor Vessel) called the ---------- (or by whatsoever name or names the said Vessel is or shall be called), under charter to the War Shipping Administration pursuant to Charter Number----------.

Loss, if any, payable to the person entitled thereto, or order.

IN A SUM as provided for in the Charter Party referred to above.

AT AND FROM ----------
to the day and hour of redelivery of the Vessel under, or to the termination of, the Charter referred to above, whichever shall first occur.

SPECIAL CONDITIONS:

A. THE FOLLOWING CONDITIONS SHALL APPLY TO ALL VESSELS INSURED HEREUNDER.

1. (a) This policy shall respond for payments of general average, salvage, and collision liabilities incurred by the vessel, if covered hereby, even though the amount of such charges or liabilities may exceed the sum insured hereby or the contributory value or limitation of liability value may be greater than the value named herein; provided, however, except as provided in subparagraph (b) hereof, the total amount payable hereunder in respect of all claims arising out of any one occurrence or disaster, for liabilities under the Collision Clause and liabilities for salvage and general average shall not exceed, in the aggregate, double the amount insured on the vessel, plus any expenses of litigation incurred with the written consent of the War Shipping Administration; but (in addition to the foregoing limitation on the aggregate amount payable) in the case of vessels built in 1934 or thereafter neither (a) the amount recoverable in respect of liabilities under the Collision Clause nor (b) the aggregate amount recoverable in respect of salvage and general average shall (in respect of any one occurrence or disaster), exceed 110% of the amount insured, plus the amount of any such expenses of litigation.

(b) It is further agreed that the limits of liability as stated above and sue and labor charges recoverable under this policy shall be increased by the amount, if any, by which the market value of the vessel in sound condition at the time of such collision, casualty or occurrence, plus the vessel's then pending freight, exceeds the insured value hereunder for total loss purposes; it being understood that the amount of such additional coverage shall be applicable separately to (a) sue and labor charges, (b) general average and salvage, and (c) collision liabilities, with the full amount open for each.

(c) Nothing contained in this Clause I shall be construed as increasing the amount recoverable in respect of claims for physical loss of or damage to the insured vessel.

2. This insurance shall not be prejudiced by the participation of the Assured in any agreement as to the Waiver of claims entered into by the United States on behalf of vessels owned by or under charter to it.

3. With respect to the risks and perils insured against hereunder, it is warranted that no insurance in excess of the value hereinafter provided for, whether for hull, machinery, disbursements, or other similar interests however described, exists or will be placed during the currency of this insurance except as permission to place additional insurance is granted by the Administrator, and then only in accordance with the terms of such permission. *Provided always* that a breach of this warranty shall not afford the Assurers any defense to a claim by mortgagees or other third parties who may have accepted this Policy without notice of such breach of warranty, nor shall it restrict the right of the Assured and/or their managers to insure in addition General Average and/or Salvage Disbursements whilst at risk, or general average, salvage or collision liabilities.

4. This insurance shall be subject to the following clauses:

(a) With leave to sail or navigate with or without pilots, to go on trial trips and to assist or tow vessels or craft whether customary or in distress or not, and whether under a pre-arranged contract or not, or be towed, all at no additional premium.

(b) This insurance shall not be subject to any Trading Warranties.

(c) Any notice required by the terms of this policy shall be transmitted by the Assured to the Director of Wartime Insurance as soon as may be reasonably practicable. In transmitting such notice the Assured shall comply with all relevant Security Orders of the War Shipping Administration.

(d) Radio apparatus and equipment and other apparatus or equipment used for the purposes of communication or as aids to navigation or safety devices shall be covered by this insurance and included within the amount insured on the vessel as hereinbefore set forth, even when not owned by the vessel owner, provided the vessel owner has prior to date of loss assumed liability therefor; but the liability of underwriters (either as to amount or as to the risks covered) shall not exceed the vessel owner's liability or the liability to which underwriters would be subject if the property were fully owned by the vessel owner, whichever shall be the lesser.

5. In the event of claims arising from collision between the insured vessel and a sister-ship, or in the event of claims for salvage services rendered to the insured vessel by a sister-ship the sister-ship salvage clause and the sister-ship collision clause contained in the attached form of policy shall be deemed deleted therefrom in any case where the assured by any charter, or other agreement entered into by the War Shipping Administration and binding upon the Assured, would be bound to waive such claims if the vessels were not sister-ships.

6. This policy is issued pursuant to the obligation assumed by the War Shipping Administration in Clause I of Schedule A of the Charter Party referred to herein, and shall not be deemed to govern the relationship between the War Shipping Administration and the owner except as to such obligation nor to override any other provisions of the Charter Party.

7. It is agreed that liability for damage to cargo arising under any agreement to which the War Shipping Administration is a party or is bound, for the waiver or adjustment of collision claims, shall be among the liabilities covered by the Collision Clause herein, subject, however, to the same limitations and conditions which apply to other liabilities covered by the same clause. It is further agreed that where, under any such agreement, cargo's liability for General Average is waived, the cargo's proportion of any General Average sacrifices and expenses incurred by the vessel shall be payable under this policy as part of the hull's proportion of General Average, to the extent provided in Special Condition No. 1 hereinabove.

8. As between this Policy and any other policy covering the same or similar risks on the insured Vessel, such other policy shall be deemed primary and this insurance secondary. It is agreed, nevertheless, that any losses which would be payable hereunder in the absence of such other insurance shall be advanced under this Policy if the Assured is unable to collect them under such other policy within 60 days after filing the usual proofs of loss and interest. Thereafter the Assured shall, at the expense and under the direction of the Administrator, take whatever steps the Administrator may deem necessary or advisable for the collection of such loss under such other policy; and the net recovery under such other policy shall be applied, so far as necessary to the reimbursement of the amount advanced by the Administrator.

9. Where, under the terms of the Charter Party, the Administrator has a right to declare and does declare the vessel a constructive total loss as between himself and the Assured, the Assurer shall not be liable for unrepaired damage.

B. This insurance covers only those risks which would be covered by this policy (including the Collision Clause) in the absence of the F. C. & S. Warranty contained herein but which are excluded by that warranty (such insurance being subject to the warranties and additional clauses contained in the War Risk Clauses).

C. Said Vessel, for so much as concerns the Assured, by agreement between the Assured and Underwriters in this policy, is and shall be valued at the amount in accordance with the provisions of the Charter Party, referred to above.

Unless deleted or superseded by the Underwriters the following warranty shall be paramount, and shall supersede and nullify any contrary provision of the policy:

F. C. & S. CLAUSE:

(1) Notwithstanding anything to the contrary contained in the Policy, this insurance is warranted free from any claim for loss, damage, or expense caused by or resulting from capture, seizure, arrest, restraint, or detainment, or the consequences thereof or of any attempt thereat, or any taking of the vessel, by requisition or otherwise, whether in time of peace or war and whether lawful or otherwise; also from all consequences of hostilities or warlike operations (whether there be a declaration of war or not), piracy, civil war, revolution, rebellion or insurrection, or civil strife arising therefrom.

(2) For the purpose of this warranty the term "consequences of hostilities or warlike operations" shall be deemed to include the following:

(a) Collision caused by failure, in compliance with wartime regulations, of the insured vessel or any vessel with which she is in collision to show the usual full peacetime navigation or anchorage lights.

(b) Stranding caused by the absence of lights, buoys, or similar peacetime aids to navigation consequent upon wartime regulations.

(c) Stranding caused by the failure of the insured vessel to employ a pilot in waters where a pilot would ordinarily be employed in peacetime but in which the employment of a pilot is dispensed with in compliance with military, naval or other Governmental orders, or with a view to avoiding imminent enemy attack.

For the purposes of this Paragraph (2) any such failure to show lights, or absence of lights, buoys, or similar peacetime aids to navigation, or failure to employ a pilot, shall be presumed to be the cause of the collision or stranding unless the contrary be proved, and stranding shall include sinking consequent upon stranding or contact with any part of the land.

(d) Collision with another vessel in the same convoy or collision with any military or naval vessel, that is to say, a vessel manned by and under the control of military or naval personnel and designed to be employed primarily in armed combat service.

(e) Stranding, collision or contact with any external substances other than water (ice included) as a result of deliberately placing

the vessel in jeopardy in compliance with military, naval or other Governmental orders in order to avoid imminent enemy attack, or as an act or measure of war taken in actual process of embarking or disembarking troops or material of war.

(3) The fact that the insured vessel or any vessel with which she is in collision is carrying troops or military or other supplies, or is proceeding to or from a war base, or is manned or operated by military or naval personnel, shall not alone be sufficient to exclude from this policy any claim which is not excluded under the terms of Paragraph (2) above.

(4) Where by reason of any of the foregoing provisions damage sustained by the insured vessel in collision would not be payable under this policy, it is understood and agreed that liability of the assured for damage caused in such collision shall not be covered by the Collision Clause in the Policy.

(5) It is agreed for the purposes of subdivision (2) (d) above all vessels manned and operated by the Department of the Navy of the United States of America shall be treated as though designed to be employed primarily in armed combat service.

This Policy is made and accepted subject to the foregoing stipulations and conditions and to the printed conditions on the following pages which are specially referred to and made part of this policy, it being understood and agreed in the case of any conflict or inconsistency the foregoing shall prevail over those which follow.

In no case shall the insurance herein provided for cover loss or damage incurred prior to the attachment of this insurance.

IN WITNESS WHEREOF, the War Shipping Administration has caused this Policy to be signed by the Administrator, but it shall not be valid unless countersigned by or on behalf of the Director of Wartime Insurance.

Administrator.

Beginning the Adventure. Beginning the Adventure upon the said Vessel, as above, and so shall continue and endure during the period aforesaid, as employment may offer, in port and at sea, in docks and graving docks, and on ways, gridirons and pontoons, at all times, in all places, and on all occasions, services, and trades whatsoever and wheresoever, under steam, motor power, or sail; with leave to sail or navigate with or without pilots, to go on trial trips and to assist and tow vessels or craft in distress, but if without the approval of Assurers the Vessel be towed, except as is customary or when in need of assistance, or undertakes towage or salvage services under a prearranged contract made by Owners and/or Charters, the Assured shall pay an additional premium if required by the Assurers, but no such premium shall be required for customary towage by the Vessel in connection with loading and discharging. With liberty to discharge, exchange and take on board goods, specie, passengers, and stores, wherever the Vessel may call at or proceed to, and with liberty to carry goods, live cattle, etc., on deck or otherwise. Including all risks of docking, undocking, changing docks, or moving in harbor and going on or off gridiron or graving dock as often as may be done during the currency of this Policy.

Notice of Accident and Survey. In the event of accident whereby loss or damage may result in a claim under this Policy, notice shall be given in writing to the Assurers, where practicable, prior to survey, so that they may appoint their own surveyor if they so desire. *All repairs shall be subject to the approval of the Assurer as to the extent, time and place of repairs and without limiting the foregoing* the Assurers shall be entitled to decide the port to which a damaged Vessel shall proceed for docking or repairing (the actual additional expense of the voyage arising from compliance with Assurers' requirements being refunded to the Assured) and Assurers shall also have a right of veto in connection with the place of repair or repairing firm proposed and whenever the extent of the damage is ascertainable the majority (in amount) of the Assurers may take or may require to be taken tenders for the repair of such damage.

Adventures and Perils—Sue and Labor. Touching the Adventures and Perils which the Assurers are content to bear and take upon themselves, they are of the Seas, Men-of-War, Fire, Enemies, Pirates, Rovers, Thieves, Jettisons, Letters of Mart and Counter-Mart, Surprisals, Takings at Sea, Arrests, Restraints, and Detainments of all Kings, Princes, and Peoples, of what nation, condition, or quality soever, Barratry of the Master and Mariners and of all other like Perils, Losses, and Misfortunes that have or shall come to the Hurt, Detriment, or Damage of the said Ship, etc., or any part thereof; excepting, however, such of the foregoing perils as may be excluded by provisions elsewhere in the policy or by endorsement, and in case of any Loss or Misfortune, it shall be lawful for the Assured, Their Factors, Servants, and Assigns, to sue, labor, and travel for, in, and about the Defense, safeguard, and Recovery of the said Vessel, etc., or any part thereof, without prejudice to this insurance, to the Charges whereof the Assurers will contribute their proportion as provided below. And it is expressly declared and agreed that no acts of the Assurers or Assured in recovering, saving, or preserving the property insured shall be considered as a waiver or acceptance of abandonment.

Latent Defect and Negligence. This insurance also specially to cover (subject to the Average Warranty) loss of or damage to hull or machinery directly caused by the following: Accidents in loading, discharging or handling cargo, or in bunkering or in taking in fuel; Explosions on Shipboard or elsewhere; Bursting of boilers, breakage of shafts or any latent defect in the machinery or hull (excluding, however, the cost and expense of repairing or renewing the defective part); Contact with Aircraft; Negligence of Master, Charterers, Mariners, Engineers, or Pilots: *Provided*, Such loss or damage has not resulted from want of due diligence by the Owners of the Vessel, or any of them, or by the Managers, Masters, Mates, Engineers, Pilots, or Crew not to be considered as part owners within the meaning of this clause should they hold shares in the vessel.

Sister-Ship Salvage. And it is further agreed that in the event of salvage, towage or other assistance being rendered to the Vessel hereby insured by any vessel belonging in part or in whole to the same Owners or Charterers, the value of such services (without regard to the common ownership or control of the Vessels) shall be ascertained by arbitration in the manner below provided for under the Collision Clause, and the amount so awarded so far as applicable to the interest hereby insured shall constitute a charge under this Policy.

General Average. General Average, Salvage, and Special Charges payable as provided in the contract of affreightment, or failing such provision, or there be no contract of affreightment, payable in accordance with the law and Usages of the Port of New York: *Provided always*, That when an adjustment according to the laws and usages of the port of destination is properly demanded by the owners of the cargo, General Average shall be paid in accordance with same.

G. A. and S. Liability. When the contributory value of the Vessel is greater than the valuation herein, the liability of the Assurers for General Average contribution (except in respect to amount made good to the vessel) or Salvage shall not exceed that proportion of the total contribution due from the Vessel that the amount insured hereunder bears to the contributory value; and if because of damage for which the Assurers are liable as Particular Average the value of the Vessel has been reduced for the purpose of contribution, the amount of the Particular Average claim under this policy shall be deducted from the amount insured hereunder and the Assurers shall be liable only for the proportion which such net amount bears to the contributory value.

S., S. C., and S. and L. Liability. In the event of expenditure for Salvage, Salvage Charges, or under the Sue and Labor Clause, this Policy shall only be liable for its share of such proportion of the amount chargeable to the property hereby insured as the insured value, less loss and/or damage, if any, for which the Assurers are liable, bears to the value of the salved property. *Provided*, That where there are no proceeds or there are expenses in excess of the proceeds, the expenses, or the excess of the expenses, as the case may be, shall be apportioned upon the basis of the sound value of the property at the time of the accident and this policy without any deduction for loss and/or damage shall bear its pro rata share of such expenses or excess of expenses accordingly.

Average Warranty. Notwithstanding anything herein contained to the contrary, this Policy is warranted free from Particular Average under 3 percent, or unless amounting to $4,850; but nevertheless when the Vessel shall have been stranded, sunk, on fire, or in collision with any other Ship or Vessel, the Assurers shall pay the damage occasioned thereby, and the expense of sighting the bottom after stranding shall be paid, if reasonably incurred, even if no damage be found.

Grounding in the Panama Canal, Suez, or in the Manchester Ship Canal or its connections, or in the River Mersey above Rock Ferry Slip, or in the River Plate (above a line drawn from the North Basin, Buenos Aires, to the Mouth of the San Pedro River) or its tributaries, or in the Danube or Demerara Rivers, or on the Yenikale Bar, shall not be deemed to be a stranding.

Average payable on each valuation separately or on the whole, without deduction of thirds, new for old, whether the Average be Particular or General.

No claim shall in any case be allowed in respect of scraping or painting the Vessel's bottom.

Voyage. The Warranty and conditions as to Average under 3 percent to be applicable to each voyage as if separately insured, and a voyage shall be deemed to commence at one of the following periods to be selected by the Assured when making up the claim, viz: at any time at which the Vessel (1) begins to load cargo or (2) sails in ballast to a loading port. Such voyage shall be deemed to continue during the ensuing period until either she has made one outward and one homeward passage (including an intermediate ballast passage, if made) or has carried and discharged two cargoes, whichever may first happen, and further in either case, until she begins to load a subsequent cargo or sails in ballast for a loading port. When the Vessel sails in ballast to effect damage repair such sailing shall not be deemed to be a sailing for a loading port although she loads at the repairing port. In calculating the 3 percent above referred to, Particular Average occurring outside the period covered by this Policy may be added to Particular Average occurring within such period provided it occur upon the same voyage (as above defined), but only that portion of the claim arising within such period shall be recoverable hereon. The commencement of a voyage shall not be so fixed as to overlap another voyage on which

a claim is made on this or the preceding policy.

Constructive Total Loss. No recovery for a Constructive Total Loss shall be had hereunder unless the expense of recovering and repairing the Vessel shall exceed the insured value.

In ascertaining whether the Vessel is a Constructive Total Loss, the insured value shall be taken as the repaired value, and nothing in respect of the damaged or break-up value of the Vessel or wreck shall be taken into account.

In the event of Total or Constructive Total Loss, no claim to be made by the Assurers for freight, whether notice of abandonment has been given or not.

Unrepaired Damage. In no case shall the Assurers be liable for unrepaired damage in addition to a subsequent Total Loss sustained during the term covered by this Policy.

Full Collision—Sister-Ship Collision. And it is further agreed that if the Vessel hereby insured shall come into collision with any other ship or vessel and the Owners or Charterers in consequence thereof or the Surety for either or both of them in consequence of their undertaking shall become liable to pay and shall pay by way of damages to any other person or persons any sum or sums in respect of such collision, the Assurers will pay the Owners or Charterers such proportion of such sum or sums so paid as the Assurers' subscription hereto bears to the value of the Vessel hereby insured: *Provided always*, That their liability in respect of any one such collision shall not exceed their proportionate part of the value of the Vessel hereby insured. And in cases where the liability of the Vessel has been contested, or proceedings have been taken to limit liability, with the consent in writing of a majority (in amount) of the Underwriters on the hull and/or machinery, the Assurers will also pay a like proportion of the costs which the Owners or Charterers shall thereby incur, or be compelled to pay; but when both vessels are to blame, then unless the liability of the Owners or Charterers of one or both of such vessels becomes limited by law, claims under the Collision Clause shall be settled on the principle of Cross-Liabilities as if the Owners or Charterers of each Vessel had been compelled to pay to the Owners or Charterers of the other of such Vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Owners or Charterers in consequence of such collision; and it is further agreed that the principles involved in this clause shall apply to the case where both Vessels are the property in part or in whole, of the same Owners or Charterers, all questions of responsibility and amount of liability as between the two Vessels being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of Arbitrators, one to be appointed by the Managing Owners or Charterers of both Vessels, and one to be appointed by the majority (in amount) of Hull Underwriters interested; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above, to be final and binding. *Provided always* that this clause shall in no case extend to any sum which the Owners or Charterers may become liable to pay or shall pay for removal of obstructions under statutory powers for injury to harbors, wharves, piers, stages and similar structures, consequent on such collision, or in respect of the cargo or engagements of the Insured Vessel, or for loss of life, or personal injury: *And provided also*, That in the event of any claim being made by the Charterers under this clause they shall not be entitled to recover in respect of any liability to which the Owners of the Vessel, if interested in this Policy at the time of the Collision in question, would not be subject, nor to a greater extent than the Shipowners would be entitled in such event to recover.

WAR RISK CLAUSES

It is agreed that this insurance also covers those risks which would be covered by the attached policy (including the Collision Clause) in the absence of the F. C. & S. Warranty contained therein but which are excluded by that warranty.

This insurance, insofar as it relates to war risks, is also subject to the following warranties and additional clauses:

The Adventures and Perils Clause shall be construed as including the risks of piracy, civil war, revolution, rebellion or insurrection, or civil strife arising therefrom, floating and/or stationary mines and/or torpedoes whether derelict or not, and/or military or naval aircraft and/or other engines of war including missiles from the land, and warlike operations and the enforcement of sanctions by members of the League of Nations, whether before or after declaration of war and whether by a belligerent or otherwise; but excluding arrest, restraint, or detainment under customs or quarantine regulations, and similar arrests, restraints, or detainments not arising from actual or impending hostilities or sanctions.

If the vessels be insured under marine policies which include the risks of pirates, claims arising from piracy shall nevertheless be paid under this policy and the underwriters hereof shall have no right to contribution from the underwriters of such marine policies it being understood that as between the two sets of policies losses due to piracy are payable under marine policies only to the extent that such losses are not collectible under the war risk policies.

The Franchise warranty in the attached policy is waived and average shall be payable irrespective of percentage and without deduction of new for old. The provisions of the attached policy with respect to constructive total loss shall apply only to claims arising from physical damage to the insured vessel.

Warranted free of any claim for delay or demurrage and warranted not to abandon in case of capture, seizure, or detention, until after condemnation of the property insured. Also warranted not to abandon in case of blockade and free from any claims for loss or expense in consequence of blockade or of any attempt to evade blockade; but in the event of blockade to be at liberty to proceed to an open port and there end the voyage.

Warranted free of any claim based upon loss of or frustration of the insured voyage or adventure caused by arrests, restraints, or detainments, of kings, princes or peoples.

Warranted free from any claim arising from capture, seizure, arrests, restraints, detainment, condemnation, preemption, or confiscation by the Government of the United States of America or any State or political subdivision thereof or any government which is or may become party signatory of the "United Nations Pact", promulgated on or about January 2, 1943.

This insurance also covers damage to or destruction of the property insured directly caused by strikers, locked out workmen, or persons taking part in labor disturbances or riots or civil commotions including damage caused by persons acting maliciously, but this paragraph shall not be construed to include or cover any loss, damage, or expense caused by or resulting from (a) civil war, revolution, rebellion, or insurrection, or civil strife arising therefrom, or (b) delay, detention, or loss of use.

Where, as a result of a risk or peril hereby insured against, damage sustained by the insured vessel in collision would be payable under the provisions of this policy, liability of the Assured for damage caused by such collision shall be deemed to be covered hereunder subject to the terms and provisions of the Collision Clause of this policy.

WAR RISK ONLY CLAUSES

The following War Risk only Clauses (Clauses A, B and C) shall be deemed to over-ride P. & I. Clauses (Articles 1 to 25 inclusive) wherever they may be in conflict.

Clause A. This insurance covers only those liabilities which would be covered by this Policy under Articles 1 to 25 inclusive in the absence of the F. C. & S. Clause (Article 25 (d)), but which are excluded by that Clause. The Assurer agrees to indemnify the Assured against loss, damage or expense as aforesaid which the Assured shall become liable to pay and shall by reason of the fact that the Assured is the owner, or charterer, or the general or time charter agent or agent or berth-agent or sub-agent of the owner or Charterer (mortgagee, trustee, or receiver thereof as the case may be) of the insured vessel.

Clause B. The Assurer shall also indemnify the Assured against losses arising as a result of the Assured's contractual liability, or against costs incurred by the Assured at the direction or in conformity with the wishes of the War Shipping Administration or any other Governmental agency, for repatriation of the crew to a United States port, as required, resulting from capture, seizure, arrest, restraint or detainment, or the consequences thereof or of any attempt thereat, or the consequences of hostilities or warlike operations, whether before or after declaration of war.

Clause C. This Policy is warranted free from any claim arising from capture, seizure, arrests, restraints, detainment, condemnation, preemption, requisition or confiscation by the Government of the United States of America, or any state or political sub-division thereunder, or any Government which is, or may become a party signatory of the "United Nations Pact" promulgated on or about January 2nd, 1942.

"P. AND I. CLAUSES"

(1) *Loss of life, injury and illness.* Liability for life salvage, loss of life of, or personal

injury to, or illness of, any person, not including, however, unless otherwise agreed by endorsement hereon, liability to an employee (other than a seaman) of the assured, or in case of his death to his beneficiaries, under any compensation act. Liability hereunder shall also include burial expenses not exceeding $200, where reasonably incurred by the assured for the burial of any seaman. The term Person as aforesaid shall include any Person or Persons carried on the insured vessel.

(a) Insurance hereunder, shall cover the liability of the assured for claims under any compensation act (other than hereafter excepted) in respect of employees (i) who are members of the crew of the insured vessel, or (ii) who are placed on board the insured vessel with the intention of becoming a member of her crew, or (iii) who, in the event of the vessel being laid up and out of commission, or engaged in the upkeep, maintenance or watching of the insured vessel, or (iv) who are engaged by the insured vessel or its Master to perform stevedoring work in connection with the vessel's cargo at ports in Alaska and ports outside the Continental United States where contract stevedores are not readily available. This insurance, however, shall not be considered as a qualification under any Compensation Act, but, without diminishing in any way the liability of the Assurer under this policy, the Assured may have in effect policies covering such liabilities. All claims under such Compensation Acts for which the Assurer is liable under the terms of this policy are to be paid without regard to such other policies.

(b) Insurance hereunder shall not cover any liability under the provisions of the Act of Congress approved September 7th, 1916 and as amended, Public Act #267, Sixty Fourth Congress, known as the U. S. Employees Compensation Act.

(c) Insurance hereunder in connection with the handling of cargo for the insured vessel shall commence from the time of receipt by the Assured of the cargo on dock or wharf, or on craft alongside for loading, and shall continue until due delivery thereof from dock or wharf of discharge or until discharge from the insured vessel on to a craft alongside.

(d) Notwithstanding anything to the contrary contained in Paragraph (20), liability hereunder shall be extended to cover claims of seamen under any Workmen's Compensation Act whether the liability of the Assured for such claims arises under contract or otherwise.

(2) *Repatriation Expenses.* Liability for expenses reasonably incurred in necessarily repatriating any member of the crew or any other person employed on board the insured vessel: *Provided, however, That the Assurer's liability for repatriation expenses shall be no greater than if the vessel were privately owned by an American Citizen or than if the employer were a private American Shipowner,* and that the Assured shall not be entitled to recover any such expenses incurred by reason of the expiration of the shipping agreement, other than by sea perils, or by *reason of* the voluntary termination of the agreement. Wages shall be included in such expenses when payable under statutory obligation during unemployment due to the wreck or loss of the insured vessel

(3) *Collision.* Liability for loss or damage arising from collision of the insured vessel with another ship or vessel insofar as such liability is excluded from the liabilities insured under the Four-fourths Collision Clause in the American Institute Hull Form of policy: "And it is further agreed that if the vessel hereby insured shall come into collision with any other ship or vessel and the Assured or the Charterers in consequence thereof or the Surety for either or both of them in consequence of their undertaking shall become liable to pay and shall pay by way of damages to any other person or persons any sum or sums in respect of such collision, we, the Underwriters, will pay the Assured or Charterers such proportion of such sum or sums so paid as our respective subscriptions hereto bear to the value of the vessel hereby insured, provided always that our liability in respect of any one such collision shall not exceed our proportionate part of the value of the vessel hereby insured. And in cases where the liability of the vessel has been contested, or proceedings have been taken to limit liability, with the consent in writing of a majority (in amount) of the Underwriters on the hull and/or machinery, we will also pay a like proportion of the costs which the Assured or Charterers shall thereby incur, or be compelled to pay; but when both vessels are to blame, then, unless the liability of the Owners or Charterers of one or both of such vessels becomes limited by law, claims under the Collision Clause shall be settled on the principal of Cross-Liabilities as if the Owners or Charterers of each vessel had been compelled to pay to the Owners or Charterers of the other of such vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Assured or Charterers in consequence of such collision; and it is further agreed that the principles involved in this clause shall apply to the case where both vessels are the property, in part or in whole, of the same Owners or Charterers, all questions of responsibility and amount of liability as between the two vessels being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of arbitrators, one to be appointed by the Managing Owners or Charterers of both vessels, and one to be appointed by the majority (in amount) of Hull Underwriters interested; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above, to be final and binding. Provided always that this clause shall in no case extend to any sum which the Assured or Charterers may become liable to pay or shall pay for removal of obstructions under statutory powers, for injury to harbors, wharves, piers, stages and a similar structures, consequent on such collision, or in respect of the cargo or engagement of the insured vessel, or for loss of life, or personal injury."

Provided, however, That insurance hereunder shall not extend to any liability, whether direct or indirect, in respect of the engagements of or the detention or loss of time of the insured vessel.

(a) Claims hereunder shall be settled on the principles of Cross-Liabilities to the same extent only as provided in the four-fourths Collision Clause above mentioned.

(b) Claims hereunder shall be separated among the several classes enumerated in this policy and each class shall be subject to the special conditions applicable in respect to such class.

(c) Notwithstanding the foregoing, the Assurer shall not be liable for any claims hereunder where the various liabilities resulting from such collision, or any of them, have been compromised, settled or adjusted without the written consent of the Assurer.

(4) *Damage Caused otherwise than by Collision.* Liability for loss of or damage to any other vessel or craft, or to property on board such other vessel or craft, caused otherwise than by collision.

(a) Where there would be a valid claim hereunder but for the fact that the damaged property belongs to the Assured, the Assurers shall be liable as if such damaged property belonged to another, but only for the excess over any amount recoverable under any other insurance applicable on the property.

(5) *Damage to Docks, Buoys, etc.* Liability for damage to any dock, pier, jetty, bridge harbor, breakwater, structure, beacon, buoy, lighthouse, cable or to any fixed or movable object or property whatsoever, except another vessel or craft or property on another vessel or craft or on the insured vessel unless elsewhere covered herein.

(a) Where there would be a valid claim hereunder but for the fact that the damaged property belongs to the Assured, the Assurers shall be liable as if such damaged property belonged to another, but only for the excess over any amount recoverable under any other insurance applicable on the property.

(b) Insurance hereunder shall cover all liabilities for said damages that the insured vessel or her owners would have if she were privately owned by an American citizen and irrespective of the ownership of any property the vessel may damage: *Provided, however,* That the rights of the Assurer shall be the same as though the vessel were privately owned.

(6) *Wreck removal.* Liability for costs or expenses of or incidental to the removal of the wreck of the insured vessel if legally liable therefore; *Provided, however,* That:

(a) From such costs and expenses shall be deducted the value of any salvage from or which might have been recovered from the wreck inuring, or which might have inured, to the benefit of the Assured;

(b) The Assurer shall not be liable for any costs or expenses which would be covered by full insurance under the American Institute Hull form of policy, 7/1/41 issued by the American Marine Hull Insurance Syndicate;

(c) *The Assurer shall not be liable for any costs or expenses for which a private American vessel owner would not be legally liable; or for any costs or expenses from which a private American vessel owner could relieve himself by abandonment of the wreck to the United States Government or by other appropriate action.*

(7) *Cargo.* Liability for loss of or damage to or in connection with cargo or other property (except mail or parcels post), including baggage and personal effects of persons other than members of the crew, and not exceeding $100 per person, to be carried, carried or which has been carried on board the insured vessel; *Provided, however,* That no liability shall exist hereunder for:

(a) *Specie, bullion, jewelry, etc.* Loss, damage or expense incurred in connection with the custody, carriage or delivery of specie, bullion, precious metals, precious stones, jewelry, silks, furs, bank notes, bonds or other negotiable documents, or similar valuable property.

(b) *Refrigeration.* Loss, damage or expense arising out of or in connection with the care, custody, carriage or delivery of cargo requiring refrigeration, unless the spaces, apparatus, and means used for the care, custody and carriage thereof have been surveyed by a classification or other competent disinterested surveyor under working conditions before the commencement of each round voyage and found in all respects fit, and unless the Assurer has approved in writing the form of contract under which such cargo is accepted for transportation;

(c) *Deviation.* Loss, damage or expense arising from any deviation or proposed deviation, not authorized by the contract of affreightment, known to the Assured in time to insure specifically the liability therefore, unless notice thereof is given to the Assurer and the Assurer agrees, in writing, that such insurance is unnecessary. Knowledge of the United States Governmental Departments or Agencies, other than the War Shipping Administration, its General or Time Charter Agents or Berth Agents in the conti-

nental United States, shall not be considered as knowledge of the Assured in respect to deviation or proposed deviation; furthermore, the Assured shall not be prejudiced in respect to insurance hereunder in event of delay in reporting any deviation to the Assurer due to laws or governmental regulations or practices due to military reasons.

(d) *Stowage in Improper Spaces.* Loss, damage or expense arising with respect to under deck cargo stowed on deck or with respect to cargo stowed in spaces not suitable for its carriage, unless the Assured shall show that every reasonable precaution has been taken by him to prevent such improper stowage;

(e) *Misdescription of Goods.* Loss, damage, or expense arising out of or as a result of the issuance of bills of lading which, to the knowledge of the Assured, improperly described the goods or their containers as to condition or quantity;

(f) Loss, damage or expense arising from issuance of clean bills of lading for goods known to be missing, unsound or damaged;

(g) Loss, damage or expense arising from the intentional issuance of bills of lading prior to receipt of the goods described therein, or covering goods not received at all;

(h) Loss, damage or expense arising from delivery of cargo without surrender of order bills of lading;

(i) *Freight.* Freight on cargo short-delivered, whether or not prepaid or whether or not included in the claim and paid by the Assured; *And provided further,* That:

(j) Liability hereunder shall in no event exceed that which would be imposed by law in the absence of contract;

(k) *Protective clauses required in contract of affreightment.* Liability hereunder shall be limited to such as would exist if the charter party, bill of lading, or contract of affreightment contained (i) a negligence general average clause in the form hereinafter specified under paragraph (12); (ii) a clause providing that any provision of the charter party, bill of lading, or contract of affreightment to the contrary notwithstanding, the Assured and the insured vessel shall have the benefit of all limitations of and exemptions from liability accorded to the owner or chartered owner of vessels by any statute or rule of law for the time being in force; (iii) such clauses, if any, as are required by law to be stated therein; (iv) and such other protective clauses as are generally in use in the particular trade;

(l) *Carriage of Goods by Sea Act.* When cargo carried by the insured vessel is under a bill of lading or similar document of title subject or made subject to the Carriage of Goods by Sea Act of the United States or a law of any other country of similar import, liability hereunder shall be limited to such as is imposed by said Act or law, and if the Assured or the insured vessel assumes any greater liability or obligation, either in respect of the valuation of the cargo or in any other respect, then the minimum liabilities and obligations imposed by said Act or law, such greater liability or obligation shall not be covered hereunder;

(m) *Limit of $500 per package.* When cargo carried by the insured vessel is under a charter party, bill of lading, or contract of affreightment not subject or made subject to the Carriage of Goods by Sea Act of the United States or a law of any other country of similar import, liability hereunder shall be limited to such as would exist if said charter party, bill of lading, or contract of affreightment contained a clause exempting the Assured and the insured vessel from liability for losses arising from unseaworthiness provided that due diligence shall have been exercised to make the vessel seaworthy and properly manned, equipped and supplied, and a clause limiting the Assured's liability for total loss or damage to goods shipped to $500 per package, or in case of goods not shipped in packages, per customary freight unit, and providing for pro rata adjustment on such basis for partial loss or damage. The provisions of clauses (k), (l) and (m) herein may, however, be waived or altered by the Assurer on terms agreed, in writing.

(n) *Oral contract.* In the event cargo is carried under an arrangement not reduced to writing, such cargo shall be deemed to be carried under a charter party, bill of lading, or contract of affreightment incorporating the terms and conditions of the War Shipping Administration uniform bill of lading in the present form as published in Vol. 7, No. 134, p. 5246–5251 of the FEDERAL REGISTER or as modified by the War Shipping Administration;

(o) *Assured's.* Where cargo on board the insured vessel is the property of the Assured, such cargo shall be deemed to be carried under a contract containing the protective clauses described in clauses (k), (l) and (m) herein; and such cargo shall be deemed to be fully insured under the usual form of cargo policy, and in case of loss of or damage to such cargo the Assured shall be insured hereunder in respect of such loss or damage only to the extent that he would have been if the cargo had belonged to another, but only in the event and to the extent that the loss or damage would not be recoverable from marine insurers under a cargo policy as above specified;

(p) *Land transportation.* No liability shall exist hereunder for any loss, damage or expense in respect of cargo being transported on land or on another vessel;

(q) *Cargo on dock.* No liability shall exist hereunder for any loss, damage or expense in respect of cargo before loading on or after discharge from the insured vessel caused by flood, tide, windstorm, earthquake, fire, explosion, heat, cold, deterioration, collapse of wharf, leaky shed, theft or pilferage unless such loss, damage or expense is caused directly by the insured vessel, her master, officers or crew;

(8) *Fines and penalties.* Liability for fines and penalties for the violation of any laws of the United States, or of any state thereof, or of any foreign country: *Provided, however,* That the Assurer shall not be liable to indemnify the Assured against any such fines or penalties resulting directly or indirectly from the failure, neglect or fault of the Assured or its managing officers to exercise the highest degree of diligence to prevent a violation of any such laws.

(9) *Mutiny misconduct.* Liability for expenses incurred in resisting any unfounded claim by the master or crew or other persons employed on board the insured vessel, or in prosecuting such persons or persons in case of mutiny or other misconduct; not including, however, costs which would not reasonably be incurred by a private American vessel owner under similar circumstances, nor costs of successfully defending claims elsewhere protected in this policy.

(10) *Quarantine expenses.* Liability for extraordinary expenses, incurred in consequence of the outbreak of plague or other disease on the insured vessel, for disinfection of the vessel or of persons on board, or for quarantine expenses, not being the ordinary expenses of loading or discharging, nor the wages or provisions of crew or passengers: *Provided, however,* That no liability shall exist hereunder if the vessel be ordered to proceed to a port where it is known that she will be subjected to quarantine:

(11) *Putting in expenses.* Liability for port charges incurred solely for the purpose of putting in to land an injured or sick seaman, and the net loss to the Assured in respect of bunkers, insurance stores and provisions as the result of the deviation.

(12) *Cargo's propn. G/A.* Liability for Cargo's proportion of General Average, including special charges, so far as the Assured cannot recover the same from any other source; *Provided, however,* That if the charter party, bill of lading or contract of affreightment does not contain the negligence general average clause quoted below, the Assurer's liability hereunder shall be limited to such as would exist if such clause were contained therein, viz:

Negligence G/A. clause. "In the event of accident, danger, damage or disaster, before or after commencement of the voyage resulting from any cause whatsoever, whether due to negligence or not, for which, or for the consequence of which, the Carrier is not responsible, by statute, contract, or otherwise, the goods, the shipper and the consignee, jointly and severally, shall contribute with the Carrier in general average to the payment of any sacrifices, losses, or expenses of a general average nature that may be made or incurred, and shall pay salvage and special charges incurred in respect of the goods. If a salving ship is owned or operated by the Carrier, salvage shall be paid for as fully and in the same manner as if such salving ship or ships belonged to strangers."

(13) *Expenses and law costs.* Liability for costs, charges and expenses reasonably incurred and paid by the Assured in connection with any liability insured under this policy, provided that the Assured shall not be entitled to indemnity for the cost or expense of prosecuting or defending any claim or suit unless the same shall have been incurred with the approval in writing of the Assurer, or the Assurer shall be satisfied that such approval could not have been obtained under the circumstances without unreasonable delay, or that the expenses were reasonably and properly incurred. The cost and expense of prosecuting any claim in which the Assurer shall have an interest by subrogation or otherwise, shall be divided between the Assured and the Assurer, in proportion to the amounts which they would have been entitled to receive respectively, if the suit should be successful.

(14) If the master of the insured vessel shall be sued by reason of any event which imposes on the Assured a liability against which the Assured is indemnified under this policy, the Assurer will pay the costs and expenses of the defense of such suit subject to the provisions of paragraph (13), and will indemnify the master of such vessel to the same extent as though he were an assured under this policy: *Provided, however,* That the Assurer shall not be liable to indemnify the master in excess of the amount (a) for which the owner of said vessel would have been liable, or to which such owner could have limited liability, if such owner has been sued instead of the master, or (b) for which the Assurer would be liable under this policy had the suit been brought against the owner of the vessel.

(15) Expenses which the Assured may incur under authorization of the Assurer in the interest of the Assurer.

GENERAL CONDITIONS AND LIMITATIONS

(16) *Prompt notice of claim.* In the event of any happening which may result in loss, damage or expense for which the Assurer may become liable, prompt notice thereof, on being known to the Assured, shall be given by the Assured to the Assurer, but failure to give such prompt notice because of wartime emergency conditions shall not prejudice this insurance.

The assurer shall not be liable for any claim not presented to the Assurer with proper proofs of loss within twelve (12) months after payment by the Assured.

(17) *Time for suit.* In no event shall suit on any claim be maintainable against the Assurer unless commenced within eighteen (18) months after the loss, damage or expenses resulting from liabilities, risks, events,

occurrences and expenditures specified under this policy shall have been paid by the Assured.

(18) *Settlement of claims.* The Assured shall not make any admission of liability, either before or after any occurrence which may result in a claim for which the Assurer may be liable. The Assured shall not interfere in any negotiations of the Assurer for settlement of any legal proceedings in respect of any occurrences for which the Assurer is liable under this policy: *Provided, however,* That in respect of any occurrence likely to give rise to a claim under this Policy, the Assured is obligated to and shall take such steps to protect his and the Assurer's interests as would reasonably be taken in the absence of this or similar insurance. If the Assured shall fail or refuse to settle any claim as authorized by Assurer, the liability of the Assurer to the Assured shall be limited to the amount for which settlement could have been made.

(19) *Defense of Claims.* Whenever required by the Assurer, the Assured shall aid in securing information and evidence, subject to any governmental limitations as to the confidential character of such information or evidence, and in obtaining witnesses and shall cooperate with the Assurer in the defense of any claim or suit or in the appeal from any judgment, in respect of any occurrence as hereinbefore provided.

(20) *Assumed Contractual Liability.* Unless otherwise agreed by endorsement hereon, the Assurer's liability shall in no event exceed that which would be imposed on the Assured by law in the absence of contract; provided, however, that the acceptance by the Assured of towage contract or agreement limiting the liability of towboats or their owners shall not affect the Assured's right of indemnity from the Assurer for any liability, loss, damage or expense covered under this policy.

(21) *Assignment.* No claim or demand against the Assurer shall be assigned or transferred, and no person, other than a receiver of the property or the estate of the Assured, shall acquire any right against the Assurer without the express consent of the Assurer: *Provided, however,* That this shall not affect the rights of any assignee under an assignment made by virtue of any governmental order or decree, in which event such assignee shall have and possess all of the rights of its predecessor in assignment.

(22) *Subrogation.* The Assurer shall be subrogated to all the rights which the Assured may have against any other person or entity, in respect of any payment made under this policy, to the extent of such payment, and the Assured shall, upon the request of the Assurer, execute all documents necessary to secure to the Assurer such rights.

(23) *Double Insurance.* The Assurer shall not be liable for any loss or damage against which, but for the insurance hereunder, the Assured is or would be insured under existing insurance excepting as provided in Paragraph (1) (a) hereof.

(24) *Limitation of liability.* If and when the Assured under this policy has any interest other than as an owner or bare boat charterer of the insured vessel, in no event shall the Assurer be liable hereunder to any greater extent than if such Assured were the owner or bareboat charterer and were entitled to all the rights of limitation to which a shipowner is entitled.

(25) Notwithstanding anything to the contrary contained in this policy, the Assurer shall not be liable for any loss, damage, or expense sustained, directly or indirectly, by reason of:

(a) Loss, damage or expense to hull, machinery, equipment or fittings of the insured vessel, including refrigerating apparatus and wireless equipment, whether or not owned by the Assured;

(b) Cancelment or breach of any charter or contract, detention of the vessel, bad debts, insolvency, fraud of agents, loss of freight, passage money, hire, demurrage, or any other loss of revenue;

(c) Any loss, damage, sacrifice, or expense which would be payable under the terms of the American Institute Hull form of policy, 7/1/44 issued by the America Marine Hull Insurance Syndicate on hull, machinery, etc., whether or not the insured vessel is fully covered by insurance sufficient in amount to pay such loss, damage, sacrifice or expense.

(d) Capture, seizure, arrest, restraint or detainment, or the consequences thereof, or of any attempt thereat, or the consequences of hostilities or war-like operations, whether before or after the declaration of war;

(e) The insured vessel towing any other vessel or craft, unless such towage was to assist such other vessel or craft in distress to a port or place of safety; *Provided, however,* That this exception shall not apply to claims covered under paragraph (1) of this policy.

(f) For any claim for loss of life, personal injury or illness in relation to the handling of cargo where such claim arises under a contract of indemnity between the Assured and his sub-contractor.

IN WITNESS WHEREOF, the War Shipping Administration has caused this policy to be signed by the Administrator, but it shall not be valid unless countersigned by or on behalf of the Director of Wartime Insurance.

CLAUSE A. PERIOD OF CHARTER: From the time of delivery to the time of expiration of the voyage current at the end of the emergency proclaimed by the President of the United States on May 27, 1941; *Provided, however,* That either party may sooner terminate this Charter upon not less than thirty (30) days' written or telegraphic notice to the other. RATE REVISION: At any time, either party may request a redetermination of the rate of charter hire upon thirty (30) days' written or telegraphic notice to the other, but no rate redetermination prior to July 1, 1945 shall involve a change in the use rate factor of the charter hire. If a revised rate is determined and agreed upon within such 30-day period, it shall become effective as of the date specified in the determination and shall continue for the balance of the period of this Charter, subject to further redetermination in accordance with the provisions of this paragraph. If a revised rate is not determined and agreed upon within any such 30-day period, then the rate of hire in effect at the time of such notice shall apply only until noon (EWT) of the day after the end of such 30-day period, and the Charterer shall make a redetermination of the rate of hire which shall apply for the balance of the period of this Charter. A change in the rate of charter hire under this paragraph shall not terminate the period of or otherwise modify the provisions of this Charter, and any such change shall be without prejudice to the rights of either party to terminate this Charter as provided in Clause A, Part I.

In the event of such termination by either party, the Charterer may, at its option, defer compliance with any or all of its redelivery obligations hereunder; *Provided, however,* That compliance with such obligations shall not be extended beyond the expiration of

CLAUSE D. For the period ending noon, E. W. T., April 20, 1945, the agreed valuation of the Vessel for the purposes of this Charter and the insurance provided by the Charterer, is the sum of $_____. For each subsequent twelve (12) month period the valuation, unless otherwise agreed, shall be reduced by_____.

By mutual agreement the valuation provisions of this Clause may be superseded as of the date of loss or any other mutually agreeable date in the event that the Charterer shall adopt any plan with respect to replacement of vessels which is applicable to this Vessel.

CLAUSE E. PORT OF DELIVERY:

CLAUSE F. TIME AND DATE OF DELIVERY:

CLAUSE G. PORT OF REDELIVERY: Port of delivery, unless otherwise agreed; *Provided, however*, That at Owner's option, redelivery shall be made at the U. S. continental port where the Owner maintains its principal operating headquarters.

CLAUSE H. NOTICE OF REDELIVERY: The Charterer shall give not less than thirty (30) days' written or telegraphic notice.

CLAUSE I. UNIFORM TERMS: This Charter consists of this Part I and Part II, conforming to the Amended Time Charter for Tank Vessels, published in the FEDERAL REGISTER of April __, 1944.

CLAUSE J. EFFECTIVE DATE OF THIS AMENDED CHARTER: Unless otherwise agreed this Amended Charter (Addendum) shall, conditioned upon the Vessel being in every way fitted for service as required by Clause 1 of Part II, be effective upon completion of discharge of the Vessel in a port in the Continental United States, excluding Alaska, on the voyage current on ————, 1944, or if the Vessel be in port in the Continental United States, excluding Alaska, on ————, 1944, then effective ————, 1944, or if the Vessel has not returned to a port in the Continental United States, excluding Alaska, prior to ————, 1944, then effective ———— 1944 if the Vessel be in any port at that date, otherwise effective upon the Vessel's next port of call.

CLAUSE K. SPECIAL PROVISIONS: (1) With respect to reimbursement of war bonuses by the Charterer under any provisions of this Charter the individual war bonuses paid to the crew, (including the Master and officers), shall not be in excess of the same percentage relation to the individual basic wages paid as exist between the individual basic wages and war bonuses paid on an American flag ship with a like complement in the same service: *Provided*, That in no event shall the war bonuses for each member of the crew exceed those payable to the corresponding individual crew members of an American flag vessel (including the Master and officers) with a like complement in the same service. If the Owner's arrangement is for the payment of a flat rate of wage per man (including the war bonuses), the Charterer agrees to reimburse the Owner the aggregate amount by which the aggregate flat wages paid by the Owner to the Master, officers or crew of the Vessel during the period of this Charter, exceed the aggregate wages (excluding the war bonuses) which would have been payable to the Master, officers and crew of an American-flag ship with a like complement in the same service: *Provided*, That in no event shall any aggregate amount so to be reimbursed be in excess of the aggregate of the war bonuses which would have been payable to the Master, officers and crew of an American-flag ship in the same service.

UNIFORM TIME CHARTER TERMS AND CONDITIONS FOR TANK VESSELS

(PART II) (REVISED)

CLAUSE 1. The Vessel shall be placed at the disposal of the Charterer at the port of delivery at such safe ready dock, wharf, or place as the Charterer may direct. Any time lost by the Vessel awaiting the availability of such dock, wharf, or place shall count as time on hire. The Vessel on her delivery, as far as due diligence can make her so, shall be ready to receive cargo with pipe lines and pumps in good working condition, and tight, staunch, strong, and in every way fitted for normal service for a Vessel of her size, type and description with a Master, and a sufficient complement of officers and crew (hereinafter referred to collectively as the crew) for a Vessel of her tonnage, and due diligence shall be exercised by the Owner to maintain her in such state during the currency of this Charter.

The Vessel shall be employed in carrying petroleum or its products in bulk, in lawful trades between safe ports or places, as the Charterer or its agents may direct.

The Vessel may be employed to tow or may be towed, but the Charterer shall indemnify the Owner for any loss, damage, claims or expenses, resulting from any such use of the Vessel.

For the purpose of this Charter the Owner shall be entitled to the benefits of all waivers in the navigation and inspection laws granted by an authorized officer or by law or regulation.

If radio or other equipment is required to enable the Vessel to comply with this Clause and such equipment is leased by the Owner, it shall pay the rental and maintenance charges therefor or, if such charges are paid by the Charterer, such charges may be deducted from the hire.

CLAUSE 2. The whole reach and burthen of the Vessel's holds, decks, and usual places of carriage (but not more than she can reasonably stow and carry), shall be at the Charterer's disposal reserving only space proper and sufficient in the opinion of the Master for Vessel's crew, Master's cabin, tackle, apparel, furniture, provisions, fresh water, stores, and fuel. The Charterer shall have the option of shipping lawful merchandise in cases, can or other packages in the Vessel's forehold, 'tween decks or other suitable space available, subject, however, to the Master's approval as to kind, character, amount and stowage, and to the extent that the Owner is not required thereby to obtain a certificate of convenience and necessity therefor under the Transportation Act of 1940. All expenses for dunnage, loading, stowing and discharging so incurred shall be paid by the Charterer, but the Owner is not to provide any equipment not already on board for handling such cargo, and such merchandise shall be shipped at the Charterer's risk and peril.

CLAUSE 3.A. Commencing with the time this Amended Charter becomes effective, the Charterer shall (except as otherwise expressly provided in this Charter) pay hire for the use of the Vessel and for the services required under the terms of this Charter at the rate provided in Clause C, of Part I of this Amended Charter, and subject to the provisions of said Clause C, such hire shall continue until the time of the redelivery of the Vessel to the Owner as in this Charter provided, unless the parties hereto otherwise agree: *Provided, however*, That if the Vessel shall be an actual total loss, such hire or payments on account shall continue until the time of her loss, if known, or if the date of loss cannot be ascertained, or if the Vessel is unreported, such hire or payments shall continue for one-half the calculated time necessary for the Vessel to proceed from her last known position to the next port of call, but not exceeding 14 days. If the Vessel is a constructive total loss under the terms of any insurance thereon or is declared a constructive total loss by the Charterer under the provisions of Schedule A, such hire or payments shall continue until Noon (EWT) of the day of the last casualty resulting in or causing or contributing to her loss, except as otherwise provided in Clause 30 of this Charter.

CLAUSE 3.B. If at the time of redelivery under this Charter, the Vessel shall require repairs of any damage arising from risks insured against or assumed by the Charterer or for which the Charterer is otherwise liable, hire as herein provided shall continue until completion by the Charterer of such repairs and of any work required of the Charterer by Clause 11, Part II; subject to the provisions of Clause C, Part I and Clause 11 D, Part II hereof.

CLAUSE 3. C. On the first day of each calendar month, the hire provided for in this Amended Charter, and all other monies accruing during the preceding month in favor of the Owner, shall be due and payable.

CLAUSE 3. D. The Charterer or its agents may advance currency or perform any services, or furnish any supplies or equipment, which are required by the Owner and are for the Owner's account under this Charter, and

the Owner, upon being furnished evidence thereof, shall reimburse or secure the Charterer for the fair and reasonable dollar value of any currency so advanced, services so performed, or supplies and equipment so furnished, or at the Charterer's election the equivalent thereof may be deducted from the hire. It is understood that any such advances made or services performed or supplies and equipment furnished by the government of any country as aid to or for the account of the United States shall be deemed currency advanced, services performed, or supplies and equipment furnished by the Charterer.

CLAUSE 4. In the event that the Vessel is detained because of the happening of any event caused or contributed to by another vessel, person, corporation, or others, for which detention such third parties are or may be liable (the period of such detention to include the time necessary to proceed to, survey, and effect repairs unaccomplished upon the date of redelivery of the Vessel under this Charter), then for such period of detention the Charterer's obligation to the Owner for hire and for other sums otherwise accruing hereunder shall cease: *Provided, however,* That the Charterer shall indemnify and save the Owner harmless from any loss whatsoever by reason of the cessation of such obligations, and notwitstanding said cessation shall pay to the Owner a sum not less than the amount which would otherwise be payable to the Owner for such obligations in the same manner and to the same extent as if such cessation had not occurred, but on performance of this indemnity the Charterer shall immediately become subrogated, to the extent of such indemnity, to all rights whatsoever of the Owner to recover for such detention from or against such vessel, person, corporation, or others, and the Charterer shall be entitled to bring and maintain suit or suits thereon in its own name or in the name of the Owner as the Charterer may see fit: *Provided, however,* That on the written request of the Charterer, the Owner shall in each instance, assert and prosecute such claims in the name of the Owner, but for and on behalf of the Charterer and at the Charterer's expense, such claims to be in a sum not less than the amount of the indemnity paid by the Charterer.

CLAUSE 5. A. Insofar as it is a factor in the Vessel's rate and valuation, deadweight capacity is to be established in accordance with normal Summer Freeboard as assigned pursuant to the International Load Line Convention, 1930, and shall be her capacity (in tons of 2240 lbs.) for cargo, fuel, fresh water, spare parts and stores but exclusive of permanent ballast. Deadweight shall be calculated without deduction for weight lost by reason of cargo refrigeration installation heretofore made, if any, and weight added by installation of refrigerated cargo capacity (including offsetting permanent ballast required thereby), arming, degaussing, demagnetizing, or the installation of splinter-protection equipment or because of ice-strengthening, or other extraordinary wartime installation or equipment, including permanent ballast, heretofore or hereafter made or required by the Charterer, or any other agency of the United States.

CLAUSE 5. B. In the event that the Vessel's deadweight or bale cubic refrigerated capacity, when finally determined as herein provided, shall not be in accord with the description contained in Part I hereof, the hire and valuation shall be equitably adjusted to be appropriate for the Vessel's deadweight and bale cubic refrigerated capacity. Certificates of deadweight or bale cubic refrigerated capacity, in satisfactory form, heretofore or hereafter furnished by the American Bureau of Shipping shall be accepted as final proof of deadweight capacity and bale cubic refrigerated capacity.

CLAUSE 6. Except as otherwise provided in this Charter:

(a) The Owner shall provide and pay for

(1) Wages of Master and crew;

(2) Subsistence;

(3) Galley, cabin, deck and engine room stores, supplies and equipment (except all water and fuel for any purpose);

(4) Maintenance and repair of Vessel and equipment to the extent required of the Owner under this Charter;

(5) Sales or other taxes based on the foregoing items; and

(6) Owner's overhead expenses.

(b) The Charterer shall provide and pay for all other charges and expenses whatsoever reasonably and properly incurred in the use, operation or employment of the Vessel hereunder.

For the purposes of this Charter:

(1) The term "wages" as used herein shall include all basic and emergency wages, bonuses for seniority or length of service, overtime and vacation allowances, life, health, retirement or other insurance benefits which are not required to be provided or paid for by the Charterer hereunder.

(2) The term "subsistence" shall include the cost, including delivery, loading and inspection charges thereon, of all edibles for consumption by Master and crew, and other persons covered by clause 7 C hereof, and shall also include board and room allowances to Master and crew in lieu of subsistence and lodging aboard the Vessel.

(3) The term "galley, cabin, deck and engine room stores, supplies and equipment" shall mean those items referred to under the heading of "(15)" and "(24) Stores, Supplies and Equipment", page 8, of the General Financial Statement of the U. S. Maritime Commission, approved by the Budget Bureau No. 62-RO, 10-42.

(4) The term "maintenance and repair of Vessel and equipment" shall mean the items referred to under the headings "(25) Other Maintenance Expense" and "(40)" and "(49) Repairs", page 8 of said General Financial Statement.

(5) The term "overhead expense" shall include administrative and general expenses as presently itemized in General Order No. 22 of the U. S. Maritime Commission, Owner's advertising expenses, Owner's taxes (except sales and similar taxes, taxes assessed or based upon freights earned, and other taxes of any kind determined by the Charterer to be properly classifiable as voyage expenses), and the cost of employing agents or branch houses to perform any of the services required of the Owner under this Charter.

CLAUSE 7. A. The Charterer shall reimburse the Owner for actual out-of-pocket expenses, including all taxes paid by the Owner with respect to such expenses, for:

(1) All war bonuses (war risk compensation) paid to the master and crew (which term as used in this Clause 7 shall refer to the actual crew on board even though in excess of normal complement), in the manner and to the extent provided for in applicable decisions or advices of the Maritime War Emergency Board, as amended or modified from time to time, or in judicial decisions relating thereto.

(2) All extra compensation, including overtime, paid to the crew for services performed by the crew (a) in connection with cargo, at sea or in port, (b) in connection with shifting of Vessel in port for Charterer's purposes, or (c) preparatory to loading or discharging or sailing in convoy. If the Vessel operates in the Alaska trade, the Charterer shall also pay the extra crew costs exceeding costs that would have been incurred in similar operations in other ocean-going trades.

(3) All wages and overtime paid to any extra crew members beyond the normal complement of the Vessel, or to other persons carried, who are required to be employed by the Owner because of (a) the Vessel's service under this Charter, (b) the loading or discharging of cargo, or (c) to care for any persons covered by Clause 7 C hereof. Extra wages or overtime paid to the normal complement of the Vessel in lieu of employing extra crew members or other persons for the purposes above set forth shall also be reimbursed to the Owner. The term "normal complement" as used in this Charter shall refer to the normal peacetime complement for off shore foreign trading for the average vessel of the same size, type and description as the Vessel chartered hereunder, as determined by the Administrator.

(4) All wages and overtime paid to security watchmen, provided in compliance with any security requirements of any United States or other Government agency, and all overtime or additional wages paid to the crew by reason of compliance with such requirements.

(5) All extra clothing or effects for the Master and crew necessitated by the Vessel's service under this Charter (Charterer to have title to such extra clothing and effects).

CLAUSE 7. B. The Charterer shall, to the extent the Owner is not reimbursed under the provisions of Schedule A attached hereto, reimburse the Owner for out-of-pocket expenses or disbursements made on behalf of the Master or crew, or payments made to the Master or crew, for repatriation transportation (including return to port of shipment), and for wages and subsistence while awaiting and during such transportation, where such expenses, disbursements, or payments are assumed by the terms of the Ship's Articles, the Owner's collective bargaining agreements or found by the Owner to be reasonably necessary or desirable. The Owner shall also be reimbursed for the cost reasonably incurred in furnishing men to replace members of the crew whose employment has terminated at ports in Alaska or outside the Continental United States, except the country of the Vessel's registry, where suitable replacements are not readily available.

CLAUSE 7. C. The Charterer shall pay the Owner at the rate of $1.50 per day per person (not in excess of fifty (50) persons) for providing subsistence aboard the Vessel for any person carried at the request of the Charterer or any agency of the United States or the military authorities of any Allied Government, or any extra crew members beyond the Vessel's normal complement required because of the Vessel's service under this Charter and $1.50 per day per person for providing subsistence aboard the Vessel for any extra complement thereby required. If a total of more than 50 extra persons referred to in this Clause 7 C are carried on the Vessel at any one time, the Owner shall be reimbursed for his actual costs for subsistence of the number in excess of 50, unless subsistence rates or schedules applicable to such excess number have been agreed upon between the Owner and the Charterer, in which event such rates or schedules shall govern. The term "subsistence" as used in this subsection shall include victualling, supplying with linens, bedding, laundry, and similar services, but the Owner shall not be obliged to furnish linens and bedding for such extra persons in excess of 50, unless otherwise agreed.

CLAUSE 8. A. The Charterer may disallow in whole or in part, as may be appropriate, and deny reimbursement for any expenses for which it is required to reimburse the Owner which are in contravention of the terms of this Charter, or are otherwise improvident or excessive.

CLAUSE 8. B. The Charterer shall reimburse the Owner for any additional extraordinary costs incurred which the Charterer, in its discretion, may allow upon finding that

such costs are not intended to be covered in the allowance for services hereunder. In the event the Vessel is assigned by the Charterer for service between foreign ports, the Charterer shall make such adjustment, if any, as it deems appropriate to allow for increased cost of operation.

CLAUSE 8. C. In the event the Vessel is physically incapable of working for a period in excess of twenty (20) days while in a Continental United States port (excluding Alaska) or for a period of thirty (30) days while in Alaska or outside the Continental United States, the charter hire otherwise payable hereunder shall be reduced for the excess period by an amount equal to twenty (20) percent of the service rate, plus eighty (80) percent of the actual savings in wages for Master and crew during the entire period of lay-up. The Owner shall furnish reports of wage savings as soon as practicable after the termination of each month of such lay-up.

CLAUSE 9. The Charterer shall provide necessary dunnage and shifting boards, also any extra fittings and materials requisite for a special trade or for the carriage of livestock or other unusual cargo, but the Owner shall allow the Charterer the use of any dunnage and shifting boards and fittings and materials already aboard the Vessel. The Charterer shall have the privilege of using shifting boards for dunnage. Upon redelivery of the Vessel, the Charterer shall make good any damage to or shortage of shifting boards, fittings or materials which are on board at delivery.

CLAUSE 10. The Charterer shall pay for all fuel on board upon delivery, and the Owner shall pay for all fuel on board on redelivery not in excess of Owner's normal requirements, at market prices current at the ports and times of delivery and redelivery, respectively.

CLAUSE 11. A. The Charterer or any agency of the United States may, at the expense of the Charterer or such agency and on the Charterer's time, install any equipment, gear or armament, and may make any alterations or additions to the Vessel. Such equipment, gear or armament so installed are to be considered Charterer's property and are to be maintained at Charterer's expense. Such work shall be done so as not to affect the seaworthiness of the Vessel or the safety of the crew, and as not to be in contravention of any applicable law of the United States or regulation made pursuant thereto. The Charterer shall, before redelivery and at its expense and on its time, remove any equipment, gear and armament installed by or at the request of the Charterer or any agency of the United States and restore the Vessel to her condition prior to any such installations, alterations, additions or changes, whether such installations, alterations, additions or changes were made under this Charter or prior to delivery under this Charter, except as may be otherwise provided herein.

CLAUSE 11.B. Commencing with the time this Amended Charter becomes effective, the Charterer shall pay the full actual cost of providing and maintaining all equipment and installations on the Vessel, beyond normal peace-time standards, then or thereafter set forth in sub-chapter O of Chapter I of the Regulations of the United States Coast Guard (Title 46, U. S. C. R.) or in other wartime regulations of any agency of the United States, except that if and so long as the Vessel remains under time charter, the Owner shall provide and pay for renewals, replacements and repairs to lifeboat equipment and for minor repairs to lifeboats not belonging to the Owner, unless any such renewals, replacements or repairs are caused by subsequent increases and changes in wartime Governmental requirements: *Provided, however*, That if the Owner has not entered into a form of addendum to the original time charter covering this Vessel designated as "Uniform Addendum To Time Charter Covering Adjustments of Certain Disputed Questions" and has not entered into a special agreement as and if contemplated in Paragraph Fourth of said addendum, then the obligations of the Charterer under this Clause 11-B shall be limited to items hereafter required and shall not cover items heretofore required as aforesaid. All such equipment and installations installed in or relating to lifeboats belonging to the Owner shall be the property of the Owner and all other equipment or installations shall belong to the Charterer and shall be considered as equipment installed or as alterations or additions made by the Charterer pursuant to Clause 11A of the Charter.

The payments provided for in this paragraph shall be made in the same manner and shall not exceed in amount those payable to like American-flag vessels operating under similar Warshiptime (Rev.) or Warshipoiltime (Rev.) charters containing a clause substantially the same as the foregoing provisions of this paragraph.

CLAUSE 11. C. Any equipment, furniture, furnishings or appliances belonging to the Vessel and not required by the Charterer may be removed by the Charterer, at the Charterer's expense, and, upon termination of the Charter, unless the Vessel has been lost or requisitioned for title, any such removals are to be replaced on board the Vessel or made good by the Charterer at its expense. Storage charges arising from such removal shall be paid for by the Charterer.

CLAUSE 11. D. If, at the time of redelivery under this Charter, the Vessel shall require any work or repairs of any damage arising from risks insured against or assumed by the Charterer, or for which the Charterer is otherwise liable under this Clause, Clause 11A or any other Clause hereunder, the Charterer may, at its option, discharge such obligations by payment to the Owner in advance, of an amount for reconditioning sufficient to provide for such work or repairs, which amount shall also include compensation at the rate of hire that would otherwise have been payable under this Charter, for the time reasonably required under then existing conditions to complete such work or repairs and compensation for other expenses incident to such work or repairs. If the Owner and Charterer agree such obligations may be discharged by a mutually satisfactory agreement.

CLAUSE 12. The Owner agrees at its expense to drydock the Vessel for the purpose of cleaning and painting her bottom, when necessary, but not less than once in every nine (9) months unless the Charterer otherwise agrees, and, when drydocking is due, the Charterer agrees to send the Vessel to a port where she can so drydock, clean and paint. The Owner undertakes to put the Vessel in drydock for cleaning and painting the bottom as soon thereafter as the Vessel is at the Owner's disposal, clear of oil and gas, at the port having suitable accommodations for the purpose. The Owner is always and solely responsible for clearing the Vessel of oil and gas but the expense and time thereof shall be for the Charterer's account. The expenses incidental to sending the Vessel to drydock for painting her bottom and all port charges incurred therein shall be for the Owner's account.

Except as otherwise provided herein the expense of clearing the Vessel of oil and gas as well as all other expenses incidental to sending the Vessel to drydock or repair yard and all port charges incurred therein shall be:

(1) For Owner's account when required primarily for Owner's repairs, or

(2) For Charterer's account when required primarily for Charterer's repairs, or

(3) For account of both Owner and Charterer when repairs under (1) and (2) above are carried out concurrently and such expense shall be apportioned in accordance with normal commercial practice.

CLAUSE 13. The Charterer shall furnish the Master from time to time with all requisite instructions and sailing directions, in writing, and the Master, to the extent permitted by governmental orders or directions, shall keep a full and correct log of the voyage or voyages, which shall be patent to the Charterer or its agents, and furnish the Charterer or its agents, when required and to the extent permitted by governmental orders or directions, with a true copy of port and daily logs, showing the course of the Vessel, the distance run and the consumption of fuel.

CLAUSE 14. Subject always to the directions of the Charterer the Master shall prosecute his voyages with the utmost dispatch and shall render all customary assistance with Ship's crew and boats; and shall use due diligence in caring for the cargo. The Master (although employed by the Owner) shall be under the orders and directions of the Charterer as regards employment, agency and prosecution of the voyages. Bills of lading are, if requested by the Charterer, to be signed by the Master in the form and at any rate of freight that Charterer or its agents may direct, without prejudice to this Charter. The Charterer hereby agrees to indemnify the Owner against all consequences or liabilities that may arise from the Charterer or its agents (including the Master) signing bills of lading or other documents inconsistent with this Charter, or from any irregularities in papers supplied by the Charterer or its agents.

CLAUSE 15. Cargo may be laden or discharged in any dock or at any wharf or place that the Charterer or its Agents may direct, *Provided*, That the Vessel can proceed thereto, lie at, and depart therefrom always safely afloat.

CLAUSE 16. Neither the Owner nor the Vessel shall be responsible for any admixture, if more than one quality of oil is shipped nor for leakage, contamination or deterioration in quality of the cargo. No injurious cargoes, including acids that are injurious to the Vessel, are to be shipped, it being understood that gasoline, Ethyl gasoline, benzol, creosote, molasses, and the various vegetable oils, customarily carried in tank vessels, are not to be considered as injurious. Charterer undertakes in case it employs the Vessel to carry any other cargo than petroleum and its products in bulk to indemnify the Owner against any damage that may arise to such cargo owing to the Vessel having previously loaded oil, or to oil after having loaded other cargo. If the Vessel's tanks at the time of delivery are gas free and clean and fit for the transportation of clean products, such as refined petroleum or naphtha, the Vessel is to be redelivered in the same condition as on delivery. Similarly, if her tanks are soiled at the time of delivery the Vessel may be redelivered with tanks in like condition.

CLAUSE 17. No petroleum product shall be shipped which fails to meet one or the other of the two following requirements: (1) The vapor pressure at one-hundred degrees Fahrenheit (100° F.) shall not exceed thirteen pounds (13 lbs.) as determined by the A. S. T. M. Method (Reid Method) identified as D-323 current at the time shipment is made. (2) The distillation loss shall not exceed four per cent (4%) and the sum of the distillation loss and the distillate collected in the receiving graduate shall not exceed ten per cent (10%) when the thermometer reads one-hundred twenty-two degrees Fahrenheit (122° F.). Note—The distillation test shall be made by A. S. T. M. Method identified as D-86 current at the time shipment is made. When products other than

naphtha or gasoline are tested, the distillation loss may be determined by distilling not less than twenty-five per cent (25%) and deducting from one-hundred per cent (100%) the sum of the volumes of the distillate and the residue in the flask (cooled to a temperature of sixty degrees Fahrenheit (60° F.)).

CLAUSE 18. All bills of lading issued hereunder shall contain, directly or by reference, substantially the following clauses:

(i) *Clause Paramount.* "This bill of lading shall have effect subject to the provisions of the Carriage of Goods by Sea Act of United States, approved April 16, 1936, which shall be deemed to be incorporated herein, and nothing herein contained shall be deemed a surrender by the Carrier of any of its rights or immunities or an increase of any of its responsibilities or liabilities under said Act. If any term of this bill of lading be repugnant to said Act to any extent, such term shall be void to that extent but no further."

(ii) *Both-To-Blame Collision Clause.* "If the ship comes into collision with another ship as a result of the negligence of the other ship and any act, neglect or default of the master, mariner, pilot or the servants of the carrier in the navigation or in the management of the ship, the owners of the goods carried hereunder will indemnify the carrier against all loss or liability to the other or noncarrying ship or her owners in so far as such loss or liability represents loss of, or damage to, or any claim whatsoever of the owners of said goods, paid or payable by the other or noncarrying ship or her owners to the owners of said goods and set-off, recouped or recovered by the other or noncarrying ship or her owners as part of their claim against the carrying ship or carrier. The foregoing provisions shall also apply where the owners, operators or those in charge of any ship or ships or objects other than, or in addition to, the colliding ships or objects are at fault in respect of a collision or contact."

(iii) *General Average Clause.* "General average shall be adjusted, stated, and settled, according to Rules 1 to 15, inclusive, 17 to 22, inclusive, and Rule F of York-Antwerp Rules 1924, at such port or place in the United States as may be selected by the carrier, and as to matters not provided for by these Rules, according to the laws and usages at the port of New York. In such adjustment, disbursements in foreign currencies shall be exchanged into United States money at the rate prevailing on the dates made and allowances for damage to cargo claimed in foreign currency shall be converted at the rate prevailing on the last day of discharge at the port or place of final discharge of such damaged cargo from the ship. Average agreement or bond and such additional security, as may be required by the carrier, must be furnished before delivery of the goods. Such cash deposit as the carrier or his agents may deem sufficient as additional security for the contribution of the goods and for any salvage and special charges thereon, shall, if required, be made by the goods, shippers, consignees, or owners of the goods to the carrier before delivery. Such deposit shall, at the option of the carrier, be payable in United States money, and be remitted to the adjuster. When so remitted the deposit shall be held in a special account at the place of adjustment in the name of the adjuster pending settlement of the general average and refunds or credit balances, if any, shall be paid in United States money."

(iv) *Amended "Jason" Clause.* "In the event of accident, danger, damage, or disaster before or after commencement of the voyage resulting from any cause whatsoever, whether due to negligence or not, for which or for the consequence of which the carrier is not responsible by statute, contract, or otherwise, the goods, shippers, consignees, or owners of the goods shall contribute with the carrier in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred, and shall pay salvage and special charges incurred in respect of the goods. If a salving ship is owned or operated by the carrier, salvage shall be paid for as fully as if the salving ship or ships belong to strangers."

(v) *Liberties Clauses:* "In any situation whatsoever and wheresoever occurring and whether existing or anticipated before commencement of or during the voyage, which in the judgment of the carrier or master is likely to give rise to risk of capture, seizure, detention, damages, delay or disadvantage to or loss of the ship or any part of her cargo, or to make it unsafe, imprudent, or unlawful for any reason to commence or proceed on or continue the voyage or to enter or discharge the goods at the port of discharge, or to give rise to delay or difficulty in arriving, discharging at or leaving the port of discharge or the usual place of discharge in such port, the carrier may before loading or before the commencement of the voyage, require the shipper or other person entitled thereto to take delivery of the goods at port of shipment and upon their failure to do so, may warehouse the goods at the risk and expense of the goods; or the carrier or master, whether or not proceeding toward or entering or attempting to enter the port of discharge or reaching or attempting to reach the usual place of discharge therein or attempting to discharge the goods there, may discharge the goods into depot, lazaretto, craft or other place; or the ship may proceed or return, directly or indirectly, to or stop at any such port or place whatsoever as the master or the carrier may consider safe or advisable under the circumstances, and discharge the goods, or any part thereof, at any such port or place; or the carrier or the master may retain the cargo on board until the return trip or until such time as the carrier or the master thinks advisable and discharge the goods at any place whatsoever as herein provided; or the carrier or the master may discharge and forward the goods by any means at the risk and expense of the goods. The carrier or the master is not required to give notice of discharge of the goods or the forwarding thereof as herein provided. When the goods are discharged from the ship, as herein provided, they shall be at their own risk and expense; such discharge shall constitute complete delivery and performance under this contract and the carrier shall be freed from any further responsibility. For any service rendered to the goods as herein provided the carrier shall be entitled to a reasonable extra compensation.

"The carrier, master and ship shall have liberty to comply with any orders or directions as to loading, departure, arrival, routes, ports of call, stoppages, discharge, destination, delivery or otherwise howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or of any department thereof, or by any committee or person having, under the terms of the war risk insurance on the ship, the right to give such orders or directions. Delivery or other disposition of the goods in accordance with such orders or directions shall be a fulfillment of the contract voyage. The ship may carry contraband, explosives, muntions, warlike stores, hazardous cargo, and may sail armed or unarmed and with or without convoy.

"In addition to all other liberties herein the carrier shall have the right to withhold delivery of, reship to, deposit or discharge the goods at any place whatsoever, surrender or dispose of the goods in accordance with any direction, condition or agreement imposed upon or exacted from the carrier by any government or department thereof or any person purporting to act with the authority of either of them. In any of the above circumstances the goods shall be solely at their risk and expense and all expenses and charges so incurred shall be payable by the owner or consignee thereof and shall be a lien on the goods."

This Charter shall also be subject to the provisions of (ii), (iii) and (iv) of this Clause 18.

CLAUSE 19. The Vessel, her Master and Owner shall not, unless otherwise in this Charter expressly provided, be responsible for any loss or damage or delay or failure in performing under this Charter, arising or resulting from: Any act, neglect, default or barratry of the Master, pilots, mariners or other servants of the Owner, in the navigation or management of the Vessel; fire, unless caused by the personal design or neglect of the Owner; collision, stranding, or peril, danger or accident of the sea or other navigable waters; saving or attempting to save life or property; wastage in weight or bulk, or any other loss or damage arising from inherent defect, quality of vice of the cargo; any act or omission of the Charterer, the owner, shipper or consignee of the cargo, their agents or representatives; insufficiency of packing, insufficiency or inadequacy of marks; explosions, bursting of boilers, breakage of shafts, or any latent defects in hull, equipment or machinery; unseaworthiness of the Vessel unless caused by want of due diligence on the part of the Owner to make the Vessel seaworthy or to have her properly manned, equipped and supplied; or from any other cause of whatsoever kind arising without the actual fault or privity of the Owner. And neither the Vessel, her Master or Owner, nor the Charterer shall, unless otherwise in this Charter expressly provided, be responsible for any loss or damage or delay or failure in performing under this Charter arising or resulting from: Act of God; act of war; act of public enemies, pirates, or assailing thieves; arrest or restaint of princes, rulers of people, or seizure under legal process; strike or lockout or stoppage or restraint of labor from whatever cause, either partial or general; or riot or civil commotion. The Vessel shall have liberty to sail with or without pilots, to tow or to be towed, to go to the assistance of vessels in distress and to deviate for the purpose of saving life or property or of landing any ill or injured person on board. No exemption afforded to the Charterer under this Clause shall diminish its obligations for hire under the other provisions of this Charter.

CLAUSE 20. The Insurance, Indemnity and Waiver program set forth in Schedule A annexed is hereby incorporated by reference in and made a part of this Charter as though fully set forth in this Clause.

CLAUSE 21. All salvage moneys earned by the Vessel shall be divided equally between the Owner and the Charterer, after deducting the Master and crew's shares, legal expenses, hire of the Vessel during time lost, value of fuel consumed, repairs of damage, if any, and any other extraordinary loss or expense sustained as a result of the service, which shall always be a first charge on such money: *Provided, however,* That to the extent necessary to effectuate the purposes of the Insurance, Indemnity and Waiver program (Schedule A), claims for salvage on behalf of the Owner shall be made solely at the discretion of the Charterer.

CLAUSE 22. If the Charterer shall notify the Owner that the employment or the continued employment of the Master or any member of the crew or any agent of the Owner is prejudicial to the interests of the United States in the prosecuting of the war, the Owner shall make any changes necessary in the appointment.

If the Charterer shall have reason to be dissatisfied with the conduct of any member of the crew, the Owner shall, on receiving particulars of the complaint, investigate and make any changes practicable in the appointments or practices aboard the Vessel with respect to the maintenance of proper discipline, necessary to eliminate the reasons for such dissatisfaction by the Charterer.

CLAUSE 23. Any provisions of this Charter to the contrary notwithstanding, the Owner shall have the benefit of all limitations of, and exemptions from, liability accorded to the Owner of vessels by any statute or rule of law for the time being in force. Nothing herein shall be deemed to affect the Charterer's right of limitation or exemption from liability accorded under the provisions of Section 4 of Public Law 17, 78th Congress.

CLAUSE 24. Nothing herein stated is to be construed as a demise of the Vessel to the Charterer.

CLAUSE 25. Liability for nonperformance of this Charter shall be proved damages.

CLAUSE 26. The Charterer shall have the option of subletting or assigning this Charter, but the Charterer shall always remain responsible for the due fulfillment of this Charter in all its terms and conditions.

CLAUSE 27. The Charterer shall have a lien on the Vessel for all moneys paid in advance and not earned.

CLAUSE 28. The Master and the Vessel shall have liberty to comply with any orders or directions as to loading, departure, arrival, routes, ports of call, stoppages, discharge, destinations, delivery or otherwise howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or of any department thereof, and if by reason of or in compliance with any such orders or directions anything is done or in not done, such shall not be deemed a deviation or breach of orders or neglect of duty by the Master or the Vessel: *Provided, however,* That whenever any such orders or directions given otherwise than by the Government of the United States or its representative are contrary to sailing directions or other orders of the Charterer as to the employment of the Vessel, the Master shall, if practicable, apply to the Charterer or its agents or to a representative of the United States for consent or advice and shall not comply with such orders or directions unless such consent or advice to comply is first obtained: *Provided further, however,* That if it is impracticable in any case to act in accordance with the foregoing proviso, the Master's decision as to compliance with any such orders or directions shall be made with due regard to the interests of all concerned, including the Charterer, the Owner, and the Vessel, her crew and cargo.

CLAUSE 29. If after redelivery the Vessel is arrested or attached upon any claims of action arising or alleged to have arisen from previous possessions or operation of the Vessel by the Charterer, or any subcharterer, or for which the Charterer is liable, the Charterer undertakes to use its best efforts to cause the release of the Vessel under the Suits in Admiralty Act or any other special remedy available to the Charterer, subject to the approval of the Attorney General of the United States.

CLAUSE 30. The Charterer shall reimburse the Owner for all expenses for wages, for bonuses and subsistence of the Master and crew and other out-of-pocket costs incurred by the Owner subsequent to the date of and arising from an actual or constructive total loss of the Vessel to the extent not recovered or reimbursed under any insurance on the Vessel, or under this Charter or otherwise. If the extent of the damage or injury is not sufficient to entitle the Owner to collect for an actual or constructive total loss under the provisions of any insurance on the Vessel in the absence of a declaration by the Charter, then in addition to reimbursement of expenses as aforesaid, the Owner shall be entitled: (a) to charter hire at the rate of 3½ percent per annum on the then current vaulation of the Vessel commencing with the date when charter hire would otherwise terminate and ending four months thereafter or on the date of such declaration, whichever date is earlier; and (b) if the Vessel is declared a constructive total loss more than four months after the date charter hire would otherwise terminate, then to charter hire in an amount equal to the use rate payable under Part I from the end of such four months until the date of such declaration.

CLAUSE 31. The Administrator (Charterer), acting pursuant to delegation of authority by the War Contracts Price Adjustment Board to the Administrator by instrument dated February 26, 1944, having found that this Agreement is in the nature of a lease contract and that the profits of the use rate and agreed valuation (if any) hereunder can now be determined with reasonable certainty, that such use rate and agreed valuation (if any) are not in excess of just compensation to which the Owner is or may be entitled, and that the provisions of this Charter with respect thereto adequately prevent excessive profits, the said use rate and agreed valuation (if any) are hereby exempted from the provisions of the Renegotiation Act, pursuant to subsection (i) (4) of the said Act. Nothing in this Clause 31 shall be construed as an admission by the Owners that the items exempted from renegotiation as aforesaid would be subject to the Renegotiation Act in the absence of the foregoing provisions. The service rate under this Charter shall be subject to renegotiation in accordance with the provisions of said Act, and with respect thereto this Charter shall be deemed to contain all the provisions required by subsection (b) of said Act, with the expressed understanding and agreement that the aggregate of the amount received or accrued to the Owner on account of the service rate under this and all other WAR-SHIPTIMES or WARSHIPONTIMES Charters containing similar renegotiation provisions shall be treated as a unit for the purpose of such renegotiation. There shall be inserted in each subcontract, subject to the Renegotiation Act and involving an estimated amount of more than $100,000, a clause reciting in substance that such subcontract shall be deemed to contain all the provisions required by the Renegotiation Act. This Clause 31 shall be applicable only from the effective date of this Amended Charter. Nothing in this Clause 31 shall be construed as an admission or agreement by the Owner as to the applicability of the Renegotiation Act to this Charter for the period prior to the effective date of this Amended Charter or to any charter hire or other sums accruing prior to the effective date of this Amended Charter: *Provided, however,* That all rights, if any, which the Administrator may have to renegotiate any charter hire or other sums accruing prior to the effective date of this Amended Charter are hereby reserved by the Administrator.

CLAUSE 32. A. No member of or delegate to Congress or Resident Commissioner is or shall be admitted to any share or part of this Charter or to any benefit that may arise therefrom, except to the extent allowed by Title 18 U. S. Code, Section 206. The Owner agrees not to employ any member of or delegate to Congress or Resident Commissioner, either with or without compensation, as an attorney, agent, officer or director.

CLAUSE 32. B. The Owner shall not employ any person who advocates or who is a member of an organization that advocates the overthrow of the government of the United States by force or violence to perform any work under this Charter. As a condition to the employment of any person for the performance of such work the Owner shall if the Charterer so directs require each person to execute and file an affidavit in such form as to satisfy the requirements of Public Law No. 678 77th Congress or Public Law No. 22, 77th Congress, but the execution and filing of such affidavit shall be without prejudice to the right of the Charterer to require such further evidence in the premises as may be in the possession of the Owner as the Charterer may deem desirable.

CLAUSE 32. C. The Owner agrees that in performing the work required of it by this Charter, it will not discriminate against any worker because of race, creed, color, or national origin.

CLAUSE 32. D. The Owner shall not employ any person undergoing sentence of imprisonment at hard labor.

CLAUSE 32. E. The Owner warrants that it has not employed any person to solicit or secure this Charter upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this warranty shall give the Charterer the right to annul this Charter or, in its discretion, to deduct from any sums payable under this Charter the amount of such commission, percentage, brokerage, or contingent fees. This warranty shall not apply to commissions payable by the Owner upon agreements or sales secured or made through bona fide established commercial or selling agencies maintained by the Owner for the purpose of securing business.

CLAUSE 33. Failure of the Master or Owner to protest against any act or omission of the Charterer, or any other agency of the United States, including any act, omission or order which in the opinion of the Master may affect the Vessel's seaworthiness or may be in contravention of the laws or regulations of the United States shall not prejudice the rights of the Owner under this Charter.

CLAUSE 34. Unless otherwise provided in this Charter or mutually agreed upon, all payments, notices and communications from the Charterer to the Owner, pursuant to the terms of or in connection with this Charter, shall be made or addressed to the Owner at the address provided in Part I, and all payments, notices and communications from the Owner to the Charterer, pursuant to the terms of or in connection with this Charter, shall be made or addressed to the Charterer at its offices in Washington, District of Columbia.

CLAUSE 35. A. In the event that this form of time charter is modified by the Charterer at any time prior to October 1, 1944 the Owner shall, at its option, have the benefit of any such modifications, subject to the assumption by the Owner, at the request of the Charterer, of any obligations imposed in conjunction with such modifications. Said option shall be exercised within such reasonable time as the Charterer may prescribe, and, upon such exercise, the modifications shall become effective as of the date of this Charter. In the event of non-exercise by the Owner of said option, this Charter shall remain in full force and effect in accordance with its original terms.

CLAUSE 35. B. This Charter may be amended, modified or terminated at any time by mutual agreement between the parties hereto.

CLAUSE 36. This Charter consists of this Part II and of Part I which incorporates this Part II therein by reference. In the event of conflict between the provisions of this Part II and those of Part I, the provisions of Part I shall govern to the extent of such conflict.

SCHEDULE A (FORPLAC)—INSURANCE INDEMNITY AND WAIVER PROGRAM

I. INSURANCE

(A) Unless otherwise mutually arranged, at all times during the currency of this Charter the Charterer shall provide and pay for or assume as insurer:

(1) Insurance on the Vessel under the terms and conditions of the full form of standard hull war risk policy of the War Shipping Administration, (designated as Warshipreq (FOR.), a copy of which is attached hereto) in the amount of the agreed value under this Charter, and covering only war risks (including malicious damage, sabotage, strikes, riots, and civil commotion).

It is specially agreed, however:

(a) That the Owner, at its own expense except as provided in subparagraph (b) below will insure the Vessel with the American Marine Hull Insurance Syndicate in an amount to be determined by the Owner, and under the conditions of AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943) which insurance shall include the interest of War Shipping Administration as Charterer.

(b) That the Charterer will reimburse the Owner for premiums paid on insurance taken out by the Owner with the American Marine Hull Insurance Syndicate pursuant to subparagraph (a) above, *Provided, however,* Such reimbursement shall not exceed the amount of premiums payable on the value set forth in the Charter on the attachment of said insurance and at the time any further annual premium is due and payable. In consideration of such reimbursement, any recapture of profits from said Syndicate shall accrue to the sole benefit of the Charterer, and any return of premiums under the insurance procured by the Owner shall, to the extent that they represent premiums originally reimbursed by the Charterer, be repayable to the Charterer.

(c) That the Owner (at its option and expense) may procure excess insurance, including liability insurance (without benefit of salvage, subrogation or right of contribution), above the limits of the insurance so procured, but such insurance shall not be on terms inconsistent with the provisions of this Charter or with the provisions of the insurance provided for above.

(d) That the insurance procured by the Owner pursuant to subparagraph (a) hereof as well as any additional insurance procured by the Owner pursuant to subparagraph (c) hereof, and any amount of self-insurance carried by the Owner in excess of the limits of the insurance procured pursuant to subparagraph (a) hereof, shall be subject to the provisions of Clause II of this Schedule A. In consideration of the foregoing, the Charterer hereby insures the Owner against any claim by the United States for damage to property or vessels of the United States or for loss of freight, demurrage or other claims covered by the collision clause in the AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943) policy, arising out of collision with the Vessel.

(e) That in the event of cancellation or termination of the insurance referred to in subparagraph (a) above (except for nonpayment of premium), or upon thirty (30) days written notice from Charterer to the Owner, the Vessel shall thereafter be insured for marine risks by the Charterer under the terms and conditions of the full form of standard hull policy of the War Shipping Administration (designated as Warshipreq (FOR.)) for the amount of the agreed value under this Charter.

(f) The Charterer hereby insures the Owner for payments of (a) sue and labor charges, (b) general average and salvage, and (c) collision liabilities, not recoverable under the insurance on the Vessel taken out by the Owner with the American Marine Hull Insurance Syndicate pursuant to sub-paragraph (a) above solely by reason of the insured valuation of said policies being insufficient to provide complete indemnity to the vessel Owner in respect of the liabilities specifically referred to in this sub-paragraph (f), and not recoverabe under insurance arranged pursuant to sub-paragraph (c) above. *Provided, however,* That the liability of the Charterer under this subparagraph (f), in respect of any one such class of liabilities, shall be limited for any one collision, casualty or occurrence to the amount, if any, by which the market value of the Vessel in sound condition at the date of such collision, casualty or occurrence, plus the Vessel's then pending freight, exceeds the insured value of the Vessel for total loss purposes under the insurance taken out by the Owner pursuant to subparagraph (a) above; it being understood that the amount of the Charterer's liability hereunder, if any, shall be applicable separately to each of the foregoing three classes of liabilities, with the full amount open for each.

(g) Without limiting the liability of the Charterer as insurer under this Charter, all repairs to the Vessel coming within the terms of the insurance assumed by the Charterer or procured by the Owner pursuant to this Schedule A shall be subject to the approval of the Charterer as to the extent, time and place of repairs. All repairs shall be carried out under the supervision of the Owner.

(h) In the event the Vessel is covered by a mortgage or lien held by any department or instrumentality of the United States, then any sum or sums payable by virtue of the provisions of this Clause I of Schedule A shall be payable for distribution to such department or instrumentality and/or the persons entitled thereto as their interests may appear.

(2) All insurance which the Owner may be obligated to provide, covering the crew with respect to loss of life, disability (including dismemberment and loss of function), detention, repatriation and similar situations, and loss of or damage to personal effects. Unless otherwise directed by the Charterer, the Owner shall agree with the crew to provide the war risk insurance covering such items afforded by the Decisions of the Maritime War Emergency Board (as amended or modified from time to time) and the marine risk insurance covering such items afforded by the Second Seamen's War Risk Policy (published in the FEDERAL REGISTER of March 20, 1943, as Decision 1A of the Maritime War Emergency Board), as amended from time to time, and such Decisions and Policy shall be the measure and limit of the Charterer's liability under this Clause. The Owner shall give effect to the foregoing by inserting the following language or such other language as the Charterer may from time to time direct, in the form of a rider or otherwise, in the Ship's Articles or other contract of employment on all voyages of the Vessel under this Charter:

"It is agreed that the Master, Officers, and members of the Crew shall be furnished the war risk insurance protection covering loss of life, disability (including dismemberment and loss of function), detention, repatriation and similar situations and loss of or damage to personal effects, required by the Decisions of the Maritime War Emergency Board, as amended or modified from time to time, and the marine risk insurance afforded by the Second Seamen's War Risk Policy, as amended from time to time."

(3) War risk protection and indemnity insurance under the terms and conditions of the standard war risk protection and indemnity policy prescribed by the War Shipping Administration, a copy of which is attached hereto, for the benefit of the Owner and the Charterer, as their interests may appear.

It is specially agreed, however,

(a) That the Owner, unless otherwise agreed, shall procure marine protection and indemnity insurance under the terms and conditions of the WARTIMEPAFMI Policy (Requisitioned Vessels 1943) from an American Protection and Indemnity Underwriter approved by the Charterer which issues said form of policy, which insurance shall include the interests of the Charterer and its Time Charter Agents under Service Agreements, Berth Agents and Sub-Agents acting on their behalf. The Charterer shall reimburse the Owner for all premiums paid on such insurance in consideration of which any readjustment of premiums and any return premium shall be for account of the Charterer.

(b) That to the extent that cargo claims are recoverable under said insurance or are reimbursable to the Owner under the terms of this Charter, the Charterer, and its duly authorized Agents are authorized by the Owner to attend to the adjustment and settlement of or otherwise dispose of cargo claims in such manner (not inconsistent with the terms of said Protection and Indemnity Insurance) as may be determined by the Charterer.

(c) That in the event of cancellation (except for nonpayment of premium) of the insurance referred to in subparagraph (a) above by the Protection and Indemnity Underwriters, or upon thirty days' written notice from the Charterer to the Owner of its intention to terminate such insurance, the Charterer will then provide and pay for or assume as insurer, identical marine protection and indemnity insurance for the benefit of the Owner and the Charterer and the Charterer's Agents as their interests may appear.

(d) That the Charterer assumes as insurer any liability of the Owner or the Charterer on account of loss, damage or expense in respect of lend lease cargo or cargo owned by the United States or any agency or department thereof, including but not limited to the War Department, Navy Department, Metal Reserves Company, Rubber Reserves Company, Defense Supplies Corporation, Reconstruction Finance Corporation or Foreign Economic Administration, which would be recoverable under the WARTIMEPANDI Policy (Requisitioned Vessels 1943) in the absence of the specific exclusion relating thereto, therein.

(e) That the Charterer hereby insures the Owner for excess protection and indemnity liabilities on said Vessel on terms and conditions identical to that provided by WARTIMEPANDI Policy (Requisitioned Vessels 1943) to the extent that said WARTIMEPANDI Policy (by reason of the insured amounts in said policy does not provide the Owner with complete protection and indemnity. *Provided, however,* That the liability of the Charterer under this subparagraph (e) in respect of any one accident or occurrence shall be limited to the amount, if any, by which the market value of the vessel in sound condition at the date of such accident or occurrence plus the vessel's then pending freight exceeds the insured amounts in said WARTIMEPANDI Policy.

(f) That the Owner (at its option and expense) may procure additional insurance in excess of the limits of the insurance procured or provided pursuant to subparagraphs (a) and (e) hereof, but such insurance shall not be on terms inconsistent with the provisions of this Charter.

(g) That the Charterer shall reimburse the Owner for all claims paid by the Owner and not recoverable pursuant to the provisions of the standard WAR RISK PROTECTION AND INDEMNITY Policy, and WARTIMEPANDI Policy (Requisitioned Vessels 1943) referred to above, solely by reason of deductible average, franchise or other similar deductions appearing in such policies.

(h) That the Charterer hereby insures the Owner for marine and war risk insurance against all carrier's liabilities with respect to cargo to be carried, carried, or which has been carried on board the Vessel directly incurred in consequence of the operation of the Vessel and not covered by the standard protection and indemnity insurance provided or procured pursuant to this paragraph (3), including, but not limited to, liability for deviation or overcarriage, liability for drydocking with cargo on board the Vessel, liability under ad valorem Bills of Lading, and liability for carrying on deck, cargo covered by under deck Bills of Lading.

(4) Marine and war risk insurance covering the Owner's actual loss (or in the case of slop chests, the actual loss of the owner thereof) as determined by the Charterer, for (i) slop chests, (ii) cash carried on board the Vessel but not in excess of $5000 unless otherwise agreed, and (iii) consumable stores. "Consumable Stores" within the meaning of this paragraph (4) shall mean all consumable and subsistance stores (but not radio supplies, spares, expendable equipment, scrap and junk) listed in United States Maritime Commission Voyage Stores Reports, Forms 7915A, 7916A, 7918A and 1919A (Revised Forms 1939).

(B) (a) If the Charterer elects to insure with commercial underwriters any of the risks assumed or insured against by it pursuant to this Schedule A, the Owner agrees, if so instructed by the Charterer, to file with such underwriters, on behalf of the Charterer, reports, declarations, claims and the customary insurance documents, it being understood that except to the extent of any payment to the Owner by the underwriters such action on the part of the Owner shall in no way affect the Charterer's direct liability to the Owner with respect to risks assumed or insured against by the Charterer under this Charter.

(b) As soon as practicable after attachment of this insurance, the Owner shall furnish to the Charterer a statement of all unrepaired damage known to the Owner existing at the time of attachment of this insurance, together with a report of all casualties known to the Owner which may have given rise to damage subsequent to the last drydocking in a U. S. Continental Port. Upon the request of the Charterer, the Owner shall also furnish to the Charterer copies of, or at Charterer's option permit it to inspect, all deck and engine room logs, if available, and all surveys made at or subsequent to the last drydocking of the Vessel in a U. S. Continental Port.

(c) In no case shall the insurance herein provided for cover loss or damage incurred prior to the attachment of this insurance.

(d) Insurance heretofore provided by the Charterer under this Charter shall terminate upon the attachment of this insurance: *Provided, however,* That claims for unrepaired damage under said prior insurance shall not be due and payable until the repairs are effected or if not so effected, until the termination of this insurance, but in no case shall the Charterer, as Charterer or insurer, be liable for such unrepaired damage in addition to a subsequent total or constructive total loss under this insurance or Charter.

(e) General average adjusters shall be appointed by the Owner, from a list of adjusters satisfactory to the Charterer, and shall attend to the settlement and collection of the general average, subject to customary charges. If the Vessel should put into a port of distress or be under average, she is to be consigned to the Charterer's agents who shall be entitled to receive the usual charges and commissions.

II. WAIVERS

(a) The Owner shall and does hereby waive all claims for general average, salvage, collision or demurrage against any vessel (1) owned by the United States, or (2) under charter to the United States on terms which would make the United States liable as Charterer, insurer or otherwise for such claims or (3) under charter to the United States and insured under the terms of the AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943).

(b) The Owner shall and does hereby waive all claims for general average, salvage, collision or demurrage against any other vessel owned by or under charter to any Government, and against any cargo carried on any such vessel or on any vessel described in subparagraph (a) above, to the extent such waiver may be required by the Charterer in any specific case or cases in order to give effect to any agreement for mutual or reciprocal waiver of claims entered into by the United States on behalf of vessels owned by or under charter to it.

(c) The waivers provided in this Clause II of Schedule A shall be effective only as to claims relating to the Vessel and arising out of her use or operation under this Charter, and such waivers shall not relieve the Charterer of any liability it may have to the Owner under the terms of this Charter.

(d) The Owner shall and does hereby waive any claim against any ship repairer, based on negligence or otherwise, arising out of repair or custody of the Vessel during the period of this Charter, to the extent that such claim, if not waived, would ultimately be borne by the United States under contract or insurance arrangement between the United States and the repairer: *Provided, however,* That such waiver shall not preclude recovery by the Owner against the repairer for amounts less than the customary contractual limit of $300,000 on the repairer's liability, nor for any claim by the Owner for proper replacement of defective workmanship or material in connection with any repairs which are for the Owner's account under the terms of this Charter.

(e) The Owner shall and does hereby waive any claim for loss of or damage to the vessel against any stevedore to the extent that such claim, if not waived, would ultimately be borne by the United States under contract or insurance arrangement between the United States and the stevedore, except with respect to claims which the Owner cannot recover under the provisions of Clause I, (A), (1) (a) of this Schedule A, by reason of the franchise in the insurance provided pursuant to said Clause.

III. INDEMNITY AND INSURANCE

(a) The Charterer shall insure the Owner for and against any loss or damage suffered, or liabilities incurred, by the Owner for which claim is waived under the provisions of Clause II of this Schedule A (except claims for salvage in excess of actual cost in connection therewith), and which is not recovered by the Owner under any other provision of this Charter: *Provided, however,* That this indemnity shall not entitle the Owner to recover for loss or damage to the Vessel in an aggregate sum in excess of the agreed valuation: *And provided further,* That this indemnity shall not entitle the Owner to recover for any period of detention or loss of use of the Vessel an aggregate sum in excess of the amount which would be payable to the Owner under the other terms of this Charter for such period.

(b) The Charterer shall reimburse, indemnify, and hold harmless the Owner, the Master and the Vessel for or from all consequences, losses and liabilities whatsoever directly resulting from compliance with or efforts to comply with any orders or directions of the Charterer, its agents, representatives or employees, or any other agency of the United States or of any allied government, or orders or directions given as provided in Clause 28 of this Charter, unless properly chargeable to the Owners under this Charter or Schedule, or recoverable under (or within the franchise of) any of the insurance procured pursuant to the terms of this Schedule A. The Owner shall, as far as may be practicable, keep the Charterer currently informed in writing as to any oral orders (involving substantial delay, expense or risk to the Vessel or her cargo) not promptly confirmed in writing by the person giving such orders.

(c) The Charterer hereby assumes and indemnifies the Owner for any loss or liability, if not covered by the terms and conditions of any of the insurances provided for in this Schedule A, arising out of performance of services under any towage or pilotage contract customarily in use in the trades in which the Charterer uses the Vessel or which is especially agreed to by the Owner upon request or instructions of the Charterer.

IV. CONSTRUCTIVE TOTAL LOSS DECLARATION BY CHARTERER

If the Charterer finds, in case of casualty or serious damage or injury to the Vessel during the period of this Charter, not constituting an actual or constructive total loss under the insurance provided in this Schedule A, that the continuation of the Charter is inadvisable because of the probable high cost of repairs or indefinite loss of use of the Vessel then the Charterer nonetheless shall have the option of declaring her a constructive total loss by so notifying the Owner in writing as soon as practicable after the occurrence causing such damage or injury. In the event of such a declaration by the Charterer, the Charterer as insurer, shall forthwith pay or cause to be paid to the Owner an amount to be determined in accordance with the valuation provisions of this Charter as though the Vessel were an actual total loss: *Provided, however,* If the Vessel is in fact a constructive total loss within the terms of the insurance provided by the Owner pursuant to this Schedule A, no such payment shall be made by or on behalf of the Charterer, or if the Owner shall have elected to recover for the estimated cost of repairing the damage to the Vessel under the terms and conditions of American Hull Form Revised (Requisitioned Vessels 1943) the amount payable by the Charterer to the Owner shall be reduced by the amount payable under such insurance. If the Owner does not so elect or shall not have so elected within ninety (90) days of declaration of a constructive total loss by the Charterer then the Charterer shall be subrogated to all of the rights of the Owner under such insurance. Against any such payments received by the Owner from the Charterer or the Owner's assurer, as the case may be, the Owner will, if the Charterer elects to take title, give such releases and instruments granting the Vessel or the property of her remaining to the Charterer as the Charterer may require and that are not inconsistent with the terms and conditions of the AMERICAN HULL FORM REVISED (Requisitioned Vessels 1943).

V. ATTACHMENT OF INSURANCE

This Schedule shall be effective, and the insurance to be provided by the Charterer hereunder shall attach simultaneously with the effective date and time of this Amended Charter (Addendum) to which it is affixed: *Provided, however,* If the Vessel be then at sea the insurance provided by the Charterer shall not attach until Vessel's next arrival in safe port.

SPECIAL CONDITIONS:

A. THE FOLLOWING CONDITIONS SHALL APPLY TO ALL VESSELS INSURED HEREUNDER: 1. (a) This policy shall respond for payments of general average, salvage, and collision liabilities incurred by the vessel, if covered hereby, even though the amount of such charges or liabilities may exceed the sum insured hereby or the contributory value or limitation of liability value may be greater than the value named herein: *Provided, however,* Except as provided in subparagraph (b) hereof, the total amount payable hereunder in respect of all claims arising out of any one occurrence or disaster, for liabilities under the Collision Clause and liabilities for salvage and general average shall not exceed, in the aggregate, double the amount insured on the vessel, plus any expenses of litigation incurred with the written consent of the War Shipping Administration; but (in addition to the foregoing limitation on the aggregate amount payable) in the case of vessels built in 1934 or thereafter neither (a) the amount recoverable in respect of liabilities under the Collision Clause nor (b) the aggregate amount recoverable in respect of salvage and general average shall (in respect of any one occurrence or disaster), exceed 110% of the amount insured, plus the amount of any such expenses of litigation.

(b) It is further agreed that the limits of liability as stated above and sue and labor charges recoverable under this policy shall be increased by the amount, if any, by which the market value of the vessel in sound condition at the time of such collision, casualty or occurrence, plus the vessel's then pending freight, exceeds the insured value hereunder for total loss purposes; it being understood that the amount of such additional coverage shall be applicable separately to (a) sue and labor charges, (b) general average and salvage, and (c) collision liabilities, with the full amount open for each.

(c) Nothing contained in this Clause I shall be construed as increasing the amount recoverable in respect of claims for physical loss of or damage to the insured vessel.

2. This insurance shall not be prejudiced by the participation of the Assured in any agreement as to the Waiver of claims entered into by the United States on behalf of vessels owned by or under charter to it.

3. With respect to the risks and perils insured against herunder, it is warranted that no insurance in excess of the value hereinafter provided for, whether for hull, machinery, disbursements, or other similar interests however described, exists or will be placed during the currency of this insurance except as permission to place additional insurance is granted by the Administrator, and then only in accordance with the terms of such permission. *Provided always,* That a breach of this warranty shall not afford the assurers any defense to a claim by mortgagees or other third parties who may have accepted this Policy without notice of such breach of warranty, nor shall it restrict the right of the Assured and/or their managers to insure in addition General Average and/or Salvage Disbursements whilst at risk, or general average, salvage or collision liabilities.

4. This insurance shall be subject to the following clauses:

(a) With leave to sail or navigate with or without pilots, to go on trial trips and to assist or tow vessels or craft whether customary or in distress or not, and whether under a pre-arranged contract or not, or be towed, all at no additional premium.

(b) This insurance shall not be subject to any Trading Warranties.

(c) Any notice required by the terms of this policy shall be transmitted by the Assured to the Director of Wartime Insurance as soon as may be reasonably practicable. In transmitting such notice the Assured shall comply with all relevant Security Orders of the War Shipping Administration.

(d) Radio apparatus and equipment and other apparatus or equipment used for the purposes of communication or as aids to navigation or safety devices shall be covered by this insurance and included within the amount insured on the vessel as hereinbefore set forth, even when not owned by the vessel owner: *Provided* The vessel owner has prior to date of loss assumed liability therefor; but the liability of underwriters (either as to amount or as to the risks covered) shall not exceed the vessel owner's liability or the liability to which underwriters would be subject if the property were fully owned by the vessel owner, whichever shall be the lesser.

5. In the event of claims arising from collision between the insured vessel and a sister-ship, or in the event of claims for salvage services rendered to the insured vessel by a sister-ship the sister-ship salvage clause and the sister-ship collision clause contained in the attached form of policy shall be deemed deleted therefrom in any case where the assured by any charter, or other agreement entered into by the War Shipping Administration and binding upon the Assured, would be bound to waive such claims if the vessels were not sister-ships.

6. This policy is issued pursuant to the obligation assumed by the War Shipping Administration in Clause I of Schedule A of the Charter Party referred to herein, and shall not be deemed to govern the relationship between the War Shipping Administration and the owner except as to such obligation nor to override any other provisions of the Charter Party.

7. It is agreed that liability for damage to cargo arising under any agreement to which the War Shipping Administration is a party or is bound, for the waiver or adjustment of collision claims, shall be among the liabilities covered by the Collision Clause herein, subject, however, to the same limitations and conditions which apply to other liabilities covered by the same clause. It is further agreed that where, under any such agreement, cargo's liability for General Average is waived, the cargo's proportion of any General Average sacrifices and expenses incurred by the vessel shall be payable under this policy as part of the hull's proportion of General Average, to the extent provided in Special Condition No. 1 hereinabove.

8. As between this Policy and any other policy covering the same or similar risks on the insured Vessel, such other policy shall be deemed primary and this insurance secondary. It is agreed, nevertheless, that any losses which would be payable hereunder in the absence of such other insurance shall be advanced under this Policy if the Assured is unable to collect them under such other policy within 60 days after filing the usual proofs of loss and interest. Thereafter the Assured shall, at the expense and under the direction of the Administrator, take whatever steps the Administrator may deem necessary or advisable for the collection of such loss under such other policy; and the net recovery under such other policy shall be applied, so far as necessary to the reimbursement of the amount advanced by the Administrator.

9. Where, under the terms of the Charter Party, the Administrator has a right to declare and does declare the vessel a constructive total loss as between himself and the Assured, the Assurer shall not be liable for unrepaired damage.

B. This insurance covers only those risks which would be covered by this policy (including the Collision Clause) in the absence of the F. C. & S. Warranty contained herein but which are excluded by that warranty (such insurance being subject to the warranties and additional clauses contained in the War Risk Clauses).

C. Said Vessel, for so much as concerns the Assured, by agreement between the Assured and Underwriters in this policy, is and shall be valued at the amount in accordance with the provisions of the Charter Party, referred to above.

Unless deleted or superseded by the Underwriters the following warranty shall be paramount, and shall supersede and nullify any contrary provision of the policy:

F. C. & S. CLAUSE. (1) Notwithstanding anything to the contrary contained in the Policy, this insurance is warranted free from any claim for loss, damage, or expense caused by or resulting from capture, seizure, arrest, restraint, or detainment, or the consequences thereof or of any attempt thereat, or any taking of the vessel, by requisition or otherwise, whether in time of peace or war and whether lawful or otherwise; also from all consequences of hostilities or warlike operations (whether there be a declaration of war or not), piracy, civil war, revolution, rebellion, or insurrection, or civil strife arising therefrom.

(2) For the purpose of this warranty the term "consequences of hostilities or warlike operations" shall be deemed to include the following:

(a) Collision caused by failure, in compliance with wartime regulations, of the insured vessel or any vessel with which she is in collision to show the usual full peacetime navigation or anchorage lights.

(b) Stranding caused by the absence of lights, buoys, or similar peacetime aids to navigation consequent upon wartime regulations.

(c) Stranding caused by the failure of the insured vessel to employ a pilot in waters where a pilot would ordinarily be employed in peacetime but in which the employment of a pilot is dispensed with in compliance with military, naval or other Governmental orders, or with a view to avoiding imminent enemy attack. For the purposes of this Paragraph (2) any such failure to show lights, or absence of lights, bouys, or similar peacetime aids to navigation, or failure to employ a pilot, shall be presumed to be the cause of the collision or stranding unless the contrary be proved, and stranding shall include sinking consequent upon stranding or contact with any part of the land.

(d) Collision with another vessel in the same convoy or collision with any military or naval vessel, that is to say, a vessel manned by and under the control of military or naval personnel and designed to be employed primarily in armed combat service.

(e) Stranding, collision or contact with any external substances other than water (ice included) as a result of deliberately placing the vessel in jeopardy in compliance with military, naval or other Governmental

orders in order to avoid imminent enemy attack, or as an act or measure of war taken in actual process of embarking or disembarking troops or material of war.

(3) The fact that the insured vessel or any vessel with which she is in collision is carrying troops or military or other supplies, or is proceeding to or from a war base, or is manned or operated by military or naval personnel, shall not alone be sufficient to exclude from this policy any claim which is not excluded under the terms of Paragraph (2) above.

(4) Where by reason of any of the foregoing provisions damage sustained by the insured vessel in collision would not be payable under this policy, it is understood and agreed that liability of the assured for damage caused in such collision shall not be covered by the Collision Clause in the Policy.

(5) It is agreed for the purposes of subdivision (2) (d) above all vessels manned and operated by the Department of the Navy of the United States of America shall be treated as though designed to be employed primarily in armed combat service.

This Policy is made and accepted subject to the foregoing stipulations and conditions and to the printed conditions on the following pages which are specially referred to and made part of this policy, it being understood and agreed in the case of any conflict or inconsistency the foregoing shall prevail over those which follow.

In no case shall the insurance herein provided for cover loss or damage incurred prior to the attachment of this insurance.

IN WITNESS WHEREOF, the War Shipping Administration has caused this Policy to be signed by the Administrator, but it shall not be valid unless countersigned by or on behalf of the Director of Wartime Insurance.

Administrator.

Countersigned at Washington, D. C., this ____ day of _____, 19__.

Beginning the Adventure. Beginning the adventure upon the said Vessel, as above, and so shall continue and endure during the period aforesaid, as employment may offer, in port and at sea, in docks and graving docks, and on ways, gridirons and pontoons, at all times, in all places, and on all occasions, services, and trades whatsoever and wheresoever, under steam, motor power, or sail; with leave to sail or navigate with or without pilots, to go on trial trips and to assist and tow vessels or craft in distress, but if without the approval of Assurers the Vessel be towed, except as is customary or when in need of assistance, or undertakes towage or salvage services under a prearranged contract made by Owners and/or Charterers, the Assured shall pay an additional premium if required by the Assurers, but no such premium shall be required for customary towage by the Vessel in connection with loading and discharging. With liberty to discharge, exchange and take on board goods, specie, passengers, and stores, wherever the Vessel may call at or proceed to, and with liberty to carry goods, live cattle, etc., on deck or otherwise. Including all risks of docking, undocking, changing docks, or moving in harbor and going on or off gridiron or graving dock as often as may be done during the currency of this Policy.

Notice of Accident and Survey. In the event of accident whereby loss or damage may result in a claim under this Policy, notice shall be given in writing to the Assurers, where practicable, prior to survey so that they may appoint their own surveyor if they so desire. *All repairs shall be subject to the approval of the Assurer as to the extent, time and place of repairs and without limiting the foregoing* the Assurers shall be entitled to decide the port to which a damaged Vessel shall proceed for docking or repairing (the actual additional expense of the voyage arising from compliance with Assurers' requirements being refunded to the Assured) and Assurers shall also have a right of veto in connection with the place of repair or repairing firm proposed and whenever the extent of the damage is ascertainable the majority (in amount) of the Assurers may take or may require to be taken tenders for the repair of such damage.

Adventures and Perils—Sue and Labor. Touching the Adventures and Perils which the Assurers are content to bear and take upon themselves, they are of the Seas, Men-of-War, Fire, Enemies, Pirates, Rovers, Thieves, Jettisons, Letters of Mart and Counter-Mart, Surprisals, Takings at Sea, Arrests, Restraints, and Detainments of all Kings, Princes, and Peoples, of what nation, condition, or quality soever, Barratry of the Master and Mariners and of all other like Perils, Losses, and Misfortunes that have or shall come to the Hurt, Detriment, or Damage of the said Ship, etc., or any part thereof; excepting, however, such of the foregoing perils as may be excluded by provisions elsewhere in the policy or by endorsement. And in case of any Loss or Misfortune, it shall be lawful for the Assured, their Factors, Servants, and Assigns, to sue, labor, and travel for, in, and about the Defense, safeguard, and Recovery of the said Vessel, etc., or any part thereof, without prejudice to this insurance, to the Charges whereof the Assurers will contribute their proportion as provided below. And it is expressly declared and agreed that no acts of the Assurers or Assured in recovering, saving, or preserving the property insured shall be considered as a waiver or acceptance of abandonment.

Latent Defect and Negligence. This insurance also specially to cover (subject to the Average Warranty) loss of or damage to hull or machinery directly caused by the following: Accidents in loading, discharging or handling cargo, or in bunkering or in taking in fuel; Explosions on Shipboard or elsewhere; Bursting of boilers, breakage of shafts or any latent defect in the machinery or hull (excluding, however, the cost and expense of repairing or renewing the defective part); Contact with Aircraft; Negligence of Master, Charterers, Mariners, Engineers, or Pilots: *Provided*, Such loss or damage has not resulted from want of due diligence by the Owners of the Vessel, or any of them, or by the Managers, Masters, Mates, Engineers, Pilots, or Crew not to be considered as part owners within the meaning of this clause should they hold shares in the vessel.

Sister-Ship Salvage. And it is further agreed that in the event of salvage, towage or other assistance being rendered to the Vessel hereby insured by any vessel, belonging in part or in whole to the same Owners or Charterers, the value of such services (without regard to the common ownership or control of the Vessels) shall be ascertained by arbitration in the manner below provided for under the Collision Clause, and the amount so awarded so far as applicable to the interest hereby insured shall constitute a charge under this Policy.

General Average. General Average, Salvage, and Special Charges payable as provided in the contract of affreightment, or failing such provision, or there be no contract of affreightment, payable in accordance with the law and Usages of the Port of New York; *Provided always*, That when an adjustment according to the laws and usages of the port of destination is properly demanded by the owners of the cargo, General Average shall be paid in accordance with same.

G. A. and S. Liability. When the contributory value of the Vessel is greater than the valuation herein, the liability of the Assurers for General Average contribution (except in respect to amount made good to the vessel) or Salvage shall not exceed that proportion of the total contribution due from the Vessel that the amount insured hereunder bears to the contributory value; and if because of damage for which the Assurers are liable as Particular Average the value of the Vessel has been reduced for the purpose of contribution, the amount of the Particular Average claim under this policy shall be deducted from the amount insured hereunder and the Assurers shall be liable only for the proportion which such net amount bears to the contributory value.

S., S. C., and S. and L. Liability. In the event of expenditure for Salvage, Salvage Charges, or under the Sue and Labor Clause, this Policy shall only be liable for its share of such proportion of the amount chargeable to the property hereby insured as the insured value, less loss and/or damage, if any, for which the Assurers are liable, bears to the value of the salved property. *Provided*, That where there are no proceeds or there are expenses in excess of the proceeds, the expenses, or the excess of the expenses, as the case may be, shall be apportioned upon the basis of the sound value of the property at the time of the accident and this policy without any deduction for loss and/or damage shall bear its pro rata share of such expenses or excess of expenses accordingly.

Average Warranty. Notwithstanding anything herein contained to the contrary, this Policy is warranted free from Particular Average under 3 percent, or less amounting to $4,850; but nevertheless when the Vessel shall have been stranded, sunk, on fire, or in collision with any other Ship or Vessel, the Assurers shall pay the damage occasioned thereby, and the expense of sighting the bottom after stranding shall be paid, if reasonably incurred, even if no damage be found.

Grounding in the Panama Canal, Suez Canal, or in the Manchester Ship Canal or its connections, or in the River Mersey above Rock Ferry Slip, or in the River Plate (above a line drawn from the North Basin, Buenos Aires, to the Mouth of the San Pedro River) or its tributaries, or in the Danube or Demerara Rivers, or on the Yenikale Bare, shall not be deemed to be a stranding.

Average payable on each valuation separately or on the whole, without deduction of thirds, new for old, whether the Average be Particular or General.

No claim shall in any case be allowed in respect of scraping or painting the Vessel's bottom.

Voyage. The Warranty and conditions as to Average under 3 percent to be applicable to each voyage as if separately insured, and a voyage shall be deemed to commence at one of the following periods to be selected by the Assured when making up the claim, viz: at any time at which the Vessel (1) begins to load cargo or (2) sails in ballast to a loading port. Such voyage shall be deemed to continue during the ensuing period until either she has made one outward and one homeward passage (including an intermediate ballast passage, if made) or has carried and discharged two cargoes, whichever may first happen, and further in either case, until she begins to load a subsequent cargo or sails in ballast for a loading port. When the Vessel sails in ballast to effect damage repair such sailing shall not be deemed to be a sailing for a loading port although she loads at the repairing port. In calculating the 3 percent above referred to, Particular Average occurring outside the period covered by this Policy may be added to Particular Average occurring within such period provided it occur upon the same voyage (as above defined), but only that portion of the claim arising within such period shall be recoverable hereon. The commencement of a voyage shall not be so fixed as to overlap another voyage on which a claim is made on this or the preceding policy.

Constructive Total Loss. No recovery for a Constructive Total Loss shall be had hereunder unless the expense of recovering and

repairing the Vessel shall exceed the insured value.

In ascertaining whether the Vessel is a Constructive Total Loss, the insured value shall be taken as the repaired value, and nothing in respect of the damaged or break-up value of the Vessel or wreck shall be taken into account.

In the event of Total or Constructive Total Loss, no claim to be made by the Assurers for freight, whether notice of abandonment has been given or not.

Unrepaired Damage. In no case shall the Assurers be liable for unrepaired damage in addition to a subsequent Total Loss sustained during the term covered by this Policy.

Full Collision—Sister-Ship Collision. And it is further agreed that if the Vessel hereby insured shall come into collision with any other ship or vessel and the Owners or Charterers in consequence thereof or the Surety for either or both of them in consequence of their undertaking shall become liable to pay and shall pay by way of damages to any other person or persons any sum or sums in respect of such collision, the Assurers will pay the Owners or Charterers such proportion of such sum or sums so paid as the Assurers' subscription hereto bears to the value of the Vessel hereby insured, provided always that their liability in respect of any one such collision shall not exceed their proportionate part of the value of the Vessel hereby insured. And in cases where the liability of the Vessel has been contested, or proceedings have been taken to limit liability, with the consent in writing of a majority (in amount) of the Underwriters on the hull and/or machinery, the Assurers will also pay a like proportion of the costs which the Owners or Charterers shall thereby incur, or be compelled to pay; but when both vessels are to blame, then unless the liability of the Owners or Charterers of one or both of such vessels becomes limited by law, claims under the Collision Clause shall be settled on the principle of Cross-Liabilities as if the Owners or Charterers of each Vessel had been compelled to pay to the Owners or Charterers of the other of such Vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Owners or Charterers in consequence of such collision; and it is further agreed that the principles involved in this clause shall apply to the case where both Vessels are the property in part or in whole, of the same Owners or Charterers, all questions of responsibility and amount of liability as between the two Vessels being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of Arbitrators, one to be appointed by the Managing Owners or Charterers of both Vessels, and one to be appointed by the majority (in amount) of Hull Underwriters interested; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above, to be final and binding. *Provided always*, that this clause shall in no case extend to any sum which the Owners or Charterers may become liable to pay or shall pay for removal of obstructions under statutory powers for injury to harbors, wharves, piers, stages and similar structures, consequent on such collision, or in respect of the cargo or engagements of the Insured Vessel, or for loss of life, or personal injury. *And provided also*, That in the event of any claim being made by the Charterers under this clause they shall not be entitled to recover in respect of any liability to which the Owners of the Vessel, if interested in this Policy at the time of the Collision in question, would not be subject, nor to a greater extent than the Shipowners would be entitled in such event to recover.

WAR RISK CLAUSES

It is agreed that this insurance also covers those risks which would be covered by the attached policy (including the Collision Clause) in the absence of the F. C. & S. Warranty contained therein but which are excluded by that warranty.

This insurance, insofar as it relates to war risks, is also subject to the following warranties and additional clauses:

The Adventures and Perils Clause shall be construed as including the risks of piracy, civil war, revolution, rebellion or insurrection, or civil strife arising therefor, floating and/or stationary mines and/or torpedoes whether derelict or not, and/or military or naval aircraft and/or other engines of war including missiles from the land, and warlike operations and the enforcement of sanctions by members of the League of Nations, whether before or after declaration of war and whether by a belligerent or otherwise; but excluding arrest, restraint, or detainment under customs or quarantine regulations, and similar arrests, restraints, or detainments not arising from actual or impending hostilities or sanctions.

If the vessels be insured under marine policies which include the risks of pirates, claims arising from piracy shall nevertheless be paid under this policy and the underwriters hereof shall have no right to contribution from the underwriters of such marine policies it being understood that as between the two sets of policies losses due to piracy are payable under marine policies only to the extent that such losses are not collectible under the war risk policies.

The Franchise warranty in the attached policy is waived and average shall be payable irrespective of percentage and without deduction of new for old. The provisions of the attached policy with respect to constructive total loss shall apply only to claims arising from physical damage to the insured vessel.

Warranted free of any claim for delay or demurrage and warranted not to abandon in case of capture, seizure, or detention until after condemnation of the property insured. Also warranted not to abandon in case of blockade and free from any claims for loss or expense in consequence of blockade or of any attempt to evade blockade; but in the event of blockade to be at liberty to proceed to an open port and there end the voyage.

Warranted free of any claim based upon loss of or frustration of the insured voyage or adventure caused by arrests, restraints, or detainments, of kings, princes or peoples.

Warranted free from any claim arising from capture, seizure, arrests, restraints, detainment, condemnation, presumption, or confiscation by the government of the United States of America or any State or political subdivision thereof or any government which is or may become party signatory of the "United Nations Pact," promulgated on or about January 2, 1943.

This insurance also covers damage to or destruction of the property insured directly caused by strikers, locked out workmen, or persons taking part in labor disturbances or riots or civil commotions including damage caused by persons acting maliciously, but this paragraph shall not be construed to include or cover any loss, damage, or expense caused by or resulting from (a) civil war, revolution, rebellion, or insurrection, or civil strife arising therefrom, or (b) delay, detention, or loss of use.

Where, as a result of a risk or peril hereby insured against, damage sustained by the insured vessel in collision would be payable under the provisions of this policy, liability of the Assured for damage caused by such collision shall be deemed to be covered hereunder subject to the terms and provisions of the Collision Clause of this policy.

WAR RISK ONLY CLAUSES

The following War Risk only Clauses (Clauses A, B and C) shall be deemed to over-ride P. & I. Clauses (Articles 1 to 25 inclusive) wherever they may be in conflict.

CLAUSE A. This insurance covers only those liabilities which would be covered by this Policy under Articles 1 to 25 inclusive in the absence of the F. C. & S. Clause (Article 25 (d)), but which are excluded by that Clause. The Assurer agrees to indemnify the Assured against loss, damage or expense as aforesaid which the Assured shall become liable to pay and shall pay by reason of the fact that the Assured is the owner, or charterer, or the general or time charter agent or agent or berth-agent or sub-agent of the owner or charterer (mortgagee, trustee, or receiver thereof as the case may be) of the insured vessel.

CLAUSE B. The Assurer shall also indemnify the Assured against losses arising as a result of the Assured's contractual liability, or against costs incurred by the Assured at the direction or in conformity with the wishes of the War Shipping Administration or any other Governmental agency, for repatriation of the crew to a United States port, as required, resulting from capture, seizure, arrest, restraint or detainment, or the consequences thereof or of any attempt thereat, or the consequences of hostilities or warlike operations, whether before or after declaration of war.

CLAUSE C. This Policy is warranted free from any claim arising from capture, seizure, arrests, restraints, detainment, condemnation, preemption, requisition or confiscation by the Government of the United States of America, or any state or political sub-division thereunder, or any Government which is, or may become a party signatory of the "United Nations Pact" promulgated on or about January 2nd, 1942.

"P. AND I. CLAUSES"

(1) *Loss of Life, Injury and Illness.* Liability for life salvage, loss of life of, or personal injury to, or illness of, any person, not including, however, unless otherwise agreed by endorsement hereon, liability to an employee (other than a seaman) of the

assured, or in case of his death to his beneficiaries, under any compensation act. Liability hereunder shall also include burial expenses not exceeding $200, where reasonably incurred by the assured for the burial of any seaman. The term Person as aforesaid shall include any Person or Persons carried on the insured vessel.

(a) Insurance hereunder, shall cover the liability of the assured for claims under any compensation act (other than hereafter excepted) in respect of employees (i) who are members of the crew of the insured vessel, or (ii) who are placed on board the insured vessel with the intention of becoming a member of her crew, or (iii) who, in the event of the vessel being laid up and out of commission, or engaged in the upkeep, maintenance or watching of the insured vessel, or (iv) who are engaged by the insured vessel or its Master to perform stevedoring work in connection with the vessel's cargo at ports in Alaska and ports outside the Continental United States where contract stevedores are not readily available. This insurance, however, shall not be considered as a qualification under any Compensation Act, but, without diminishing in any way the liability of the Assurer under this policy, the Assured may have in effect policies covering such liabilities. All claims under such Compensation Acts for which the Assurer is liable under the terms of this policy are to be paid without regard to such other policies.

(b) Insurance hereunder shall not cover any liability under the provisions of the Act of Congress approved September 7th, 1916 and as amended, Public Act #267, Sixty Fourth Congress, known as the U. S. Employees Compensation Act.

(c) Insurance hereunder in connection with the handling of cargo for the insured vessel shall commence from the time of receipt by the Assured of the cargo on dock or wharf, or on craft alongside for loading, and shall continue until due delivery thereof from dock or wharf of discharge or until discharge from the insured vessel on to a craft alongside.

(d) Notwithstanding anything to the contrary contained in Paragraph (20), liability hereunder shall be extended to cover claims of seamen under any Workmen's Compensation Act whether the liability of the Assured for such claims arises under contract or otherwise.

(2) *Repatriation Expenses.* Liability for expenses reasonably incurred in necessarily repatriating any member of the crew or any other person employed on board the insured vessel; *provided, however, that the Assurer's liability for repatriation expenses shall be no greater than if the vessel were privately owned by an American Citizen or than if the employer were a private American Shipowner,* and that the Assured shall not be entitled to recover any such expenses incurred by reason of the expiration of the shipping agreement, other than by sea perils, or by reason of the voluntary termination of the agreement. Wages shall be included in such expenses when payable under statutory obligation during unemployment due to the wreck or loss of the insured vessel.

(3) *Collision.* Liability for loss or damage arising from collision of the insured vessel with another ship or vessel insofar as such liability is excluded from the liabilities insured under the Four-fourths Collision Clause in the American Institute Hull Form of policy: "And it is further agreed that if the vessel hereby insured shall come into collision with any other ship or vessel and the Assured or the Charterers in consequence thereof or the Surety for either or both of them in consequence of their undertaking shall become liable to pay and shall pay by way of damages to any other person or persons any sum or sums in respect of such collision, we, the Underwriters, will pay the Assured or Charterers such proportion of such sum or sums so paid as our respective subscriptions hereto bear to the value of the vessel hereby insured, provided always that our liability in respect of any one such collision shall not exceed our proportionate part of the value of the vessel hereby insured. And in no cases where the liability of the vessel has been contested, or proceedings have been taken to limit liability, with the consent in writing of a majority (in amount) of the Underwriters on the hull and/or machinery, we will also pay a like proportion of the costs which the Assured or Charterers shall thereby incur, or be compelled to pay; but when both vessels are to blame, then, unless the liability of the Owners or Charterers of one or both of such vessels becomes limited by law, claims under the Collision Clause shall be settled on the principal of Cross-Liabilities as if the Owners or Charterers of each vessel had been compelled to pay to the Owners or Charterers of the other of such vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Assured or Charterers in consequence of such collision; and it is further agreed that the principles involved in this clause shall apply to the case where both vessels are the property, in part or in whole, of the same Owners or Charterers, all questions of responsibility and amount of liability as between the two vessels being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of arbitrators, one to be appointed by the Managing Owners or Charterers of both vessels, and one to be appointed by the majority (in amount) of Hull Underwriters interested; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above, to be final and binding. Provided always that this clause shall in no case extend to any sum which the Assured or Charterers may become liable to pay or shall pay for removal of obstructions under statutory powers, for injury to harbors, wharves, piers, stages and a similar structures, consequent on such collision, or in respect of the cargo or engagement of the insured vessel, or for loss of life, or personal injury."

Provided, however, That insurance hereunder shall not extend to any liability, whether direct or indirect, in respect of the engagements of or the detention or loss of time of the insured vessel.

(a) Claims hereunder shall be settled on the principles of Cross-Liabilities to the same extent only as provided in the four-fourths Collision Clause above mentioned.

(b) Claims hereunder shall be separated among the several classes enumerated in this policy and each class shall be subject to the special conditions applicable in respect to such class.

(c) Notwithstanding the foregoing, the Assurer shall not be liable for any claims hereunder where the various liabilities resulting from such collision, or any of them, have been compromised, settled or adjusted without the written consent of the Assurer.

(4) *Damage caused otherwise than by Collision.* Liability for loss of or damage to any other vessel or craft, or to property on board such other vessel or craft caused otherwise than by collision.

(a) Where there would be a valid claim hereunder but for the fact that the damaged property belongs to the Assured, the Assurers shall be liable as if such damaged property belonged to another, but only for the excess over any amount recoverable under any other insurance applicable on the property.

(5) *Damage to Docks, Buoys, etc.* Liability for damage to any dock, pier, jetty, bridge, harbor, breakwater, structure, beacon, buoy, lighthouse, cable or to any fixed or movable object or property whatsoever, except another vessel or craft or property on another vessel or craft or on the insured vessel unless otherwise covered herein.

(a) Where there would be a valid claim hereunder but for the fact that the damaged property belongs to the Assured, the Assurers shall be liable as if such damaged property belonged to another, but only for the excess over any amount recoverable under any other insurance applicable on the property.

(b) Insurance hereunder shall cover all liabilities for said damages that the insured vessel or her owners would have if she were privately owned by an American citizen and irrespective of the ownership of any property the vessel may damage, *Provided, however,* That the rights of the Assurer shall be the same as though the vessel were privately owned.

(6) *Wreck Removal.* Liability for costs or expenses of or incidental to the removal of the wreck of the insured vessel if legally liable therefore; *Provided, however,* That:

(a) From such costs and expenses shall be deducted the value of any salvage from or which might have been recovered from the wreck inuring, or which might have inured, to the benefit of the Assured;

(b) The Assurer shall not be liable for any costs or expenses which would be covered by full insurance under the American Institute Hull form of policy, 7/1/41 issued by the American Marine Hull Insurance Syndicate;

(c) *The Assurer shall not be liable for any costs or expenses for which a private American vessel owner would not be legally liable, or for any costs or expenses from which a private American vessel owner could relieve himself by abandonment of the wreck to the United States Government or by other appropriate action.*

(7) *Cargo.* Liability for loss of or damage to or in connection with cargo or other property (except mail or parcels post), including baggage and personal effects of persons other than members of the crew, and not exceeding $100. per person, to be carried, carried or which has been carried on board the insured vessel; *Provided, however,* That no liability shall exist hereunder for:

(a) *Specie, Bullion, Jewelry, etc.* Loss, damage or expense incurred in connection with the custody, carriage or delivery of specie, bullion, precious metals, precious stones, jewelry, silks, furs, banknotes, bonds or other negotiable documents, or similar valuable property.

(b) *Refrigeration.* Loss, damage or expense arising out of or in connection with the care, custody, carriage or delivery of cargo requiring refrigeration, unless the spaces, apparatus, and means used for the care, custody and carriage thereof have been surveyed by a classification or other competent disinterested surveyor under working conditions before the commencement of each *round* voyage and found in all respects fit, and unless the Assurer has approved in writing the form of contract under which such cargo is accepted for transportation;

(c) *Deviation.* Loss, damage or expense arising from any deviation or proposed deviation, not authorized by the contract of affreightment, known to the Assured in time to assure specifically the liability therefore, unless notice thereof is given to the Assurer and the Assurer agrees, in writing, that such insurance is unnecessary. Knowledge of the United States Governmental Departments or Agencies, other than the War Shipping Administration, its General or Time Charter Agents or Berth Agents in the continental United States, shall not be considered as

knowledge of the Assured in respect to deviation or proposed deviation; furthermore, the Assured shall not be prejudiced in respect to insurance hereunder in event of delay in reporting any deviation to the Assurer due to laws or governmental regulations or practices due to military reasons.

(d) *Stowage in Improper Spaces.* Loss, damage or expense arising *with respect to under deck cargo stowed on deck or with respect to* cargo stowed in spaces not suitable for its carriage, unless the Assured shall show that every reasonable precaution has been taken by him to prevent such improper stowage;

(e) *Misdescription of Goods.* Loss, damage, or expense arising out of or as a result of the issuance of bills of lading which, to the knowledge of the Assured, improperly described the goods or their containers as to condition or quantity;

(f) Loss, damage or expense arising from issuance of clean bills of lading for goods known to be missing, unsound or damaged;

(g) Loss, damage or expense arising from the intentional issuance of bills of lading prior to receipt of the goods described therein, or covering goods not received at all;

(h) Loss, damage or expense arising from delivery of cargo without surrender of *order* bills of lading;

(i) *Freight.* Freight on cargo short-delivered, whether or not prepaid or whether or not included in the claim and paid by the Assured: *And provided further* That:

(j) Liability hereunder shall in no event exceed that which would be imposed by law in the absence of contract;

(k) *Protective Clauses Required in Contract of Affreightment.* Liability hereunder shall be limited to such as would exist if the charter party, bill of lading, or contract of affreightment contained (i) a negligence general average clause in the form hereinafter specified under paragraph (12); (ii) a clause providing that any provision of the charter party, bill of lading, or contract of affreightment to the contrary notwithstanding, the Assured and the insured vessel shall have the benefit of all limitations of and exemptions from liability accorded to the owner or chartered owner of vessels by any statute or rule of law for the time being in force; (iii) such clauses, if any, as are required by law to be stated therein; (iv) and such other protective clauses as are *generally* in use in the particular trade;

(l) *Carriage of Goods by Sea Act.* When cargo carried by the insured vessel is under a bill of lading or similar document of title subject or made subject to the Carriage of Goods by Sea Act of the United States or a law of any other country of similar import, liability hereunder shall be limited to such as is imposed by said Act or law, and if the Assured or the insured vessel assumes any greater liability or obligation, either in respect of the valuation of the cargo or in any other respect, then the minimum liabilities and obligations imposed by said Act or law, such greater liability or obligation shall not be covered hereunder;

(m) *Limit of $500 per Package.* When cargo carried by the insured vessel is under a charter party, bill of lading, or contract of affreightment not subject or made subject to the Carriage of Goods by Sea Act of the United States or a law of any other country or similar import, liability hereunder shall be limited to such as would exist if said charter party, bill of lading, or contract of affreightment contained a clause exempting the Assured and the insured vessel from liability for losses arising from unseaworthiness provided that due diligence shall have been exercised to make the vessel seaworthy and properly manned, equipped and supplied, and a clause limiting the Assured's liability for total loss or damage to goods shipped to $500 per package, or in case of goods not shipped in packages, per customary freight unit, and providing for pro rata adjustment on such basis for partial loss or damage. The provisions of clauses (k), (l) and (m) herein may, however, be waived or altered by the Assurer on terms agreed, in writing.

(n) *Oral Contract.* In the event cargo is carried under an arrangement not reduced to writing, such cargo shall be deemed to be carried under a charter party, bill of lading, or contract of affreightment incorporating the terms and conditions of the War Shipping Administration uniform bill of lading in the present form as published in Vol. 7, No. 134, p. 5246–5251 of the FEDERAL REGISTER or as modified by the War Shipping Administration;

(o) *Assured's.* Where cargo on board the insured vessel is the property of the Assured, such cargo shall be deemed to be carried under a contract containing the protective clauses described in clauses (k), (l) and (m) herein; and such cargo shall be deemed to be fully insured under the usual form of cargo policy, and in case of loss of or damage to such cargo the Assured shall be insured hereunder in respect of such loss or damage only to the extent that he would have been if the cargo had belonged to another, but only in the event and to the extent that the loss or damage would not be recoverable from marine insurers under a cargo policy as above specified;

(p) *Land Transportation.* No liability shall exist hereunder for any loss, damage or expense in respect of cargo being transported on land or on another vessel;

(q) *Cargo on Dock.* No liability shall exist hereunder for any loss, damage or expense in respect of cargo before loading on or after discharge from the insured vessel caused by flood, tide, windstorm, earthquake, fire, explosion, heat, cold, deterioration, collapse of wharf, leaky shed, theft or pilferage unless such loss, damage or expense is caused directly by the insured vessel, her master, officers or crew;

(8) *Fines and Penalties.* Liability for fines and penalties for the violation of any laws of the United States, or of any state thereof, or of any foreign country: *Provided, however,* That the Assurer shall not be liable to indemnify the Assured against any such fines or penalties resulting directly or indirectly from the failure, neglect or fault of the Assured or its managing officers to exercise the highest degree of diligence to prevent a violation of any such laws.

(9) *Mutiny Misconduct.* Liability for expenses incurred in resisting any unfounded claim by the master or crew or other persons employed on board the insured vessel, or in prosecuting such persons or persons in case of mutiny or other misconduct; not including, however, *costs which would not reasonably be incurred by a private American vessel owner under similar circumstances, nor* costs of successfully defending claims elsewhere protected in this policy.

(10) *Quarantine Expenses.* Liability for extraordinary expenses, incurred in consequence of the outbreak of plague or other disease on the insured vessel, for disinfection of the vessel or of persons on board, or for quarantine expenses, not being the ordinary expenses of loading or discharging, nor the wages or provisions of crew or passengers: *Provided, however,* That no liability shall exist hereunder if the vessel be ordered to proceed to a port where it is known that she will be subjected to quarantine:

(11) *Putting in Expenses.* Liability for port charges incurred solely for the purpose of putting in to land an injured or sick seaman, and the net loss to the Assured in respect of bunkers, insurance stores and provisions as the result of the deviation.

(12) *Cargo's Propn. G/A.* Liability for Cargo's proportion of General Average, including special charges, so far as the Assured cannot recover the same from any other source: *Provided, however,* That if the charter party, bill of lading or contract of affreightment does not contain the negligence general average clause quoted below, the Assurer's liability hereunder shall be limited to such as would exist if such clause were contained therein, viz.:

Negligence G/A. Clause. "In the event of accident, danger, damage or disaster, before or after commencement of the voyage resulting from any cause whatsoever, whether due to negligence or not, for which, or for the consequence of which, the Carrier is not responsible, by statute, contract, or otherwise, the goods, the shipper and the consignee, jointly and severally, shall contribute with the Carrier in general average to the payment of any sacrifices, losses, or expenses of a general average nature that may be made or incurred, and shall pay salvage and special charges incurred in respect of the goods. If a salving ship is owned or operated by the Carrier, salvage shall be paid for as fully and in the same manner as if such salving ship or ships belonged to strangers."

(13) *Expenses and Law Costs.* Liability for costs, charges and expenses reasonably incurred and paid by the Assured in connection with any liability insured under this policy, provided that the Assured shall not be entitled to indemnity for the cost or expense of prosecuting or defending any claim or suit unless the same shall have been incurred with the approval in writing of the Assurer, or the Assurer shall be satisfied that such approval could not have been obtained under the circumstances without unreasonable delay, or that the expenses were reasonably and properly incurred. The cost and expense of prosecuting any claim in which the Assurer shall have an interest by subrogation or otherwise, shall be divided between the Assured and the Assurer, in proportion to the amounts which they would have been entitled to receive respectively, if the suit should be successful.

(14) If the master of the insured vessel shall be sued by reason of any event which imposes on the Assured a liability against which the Assured is indemnified under this policy, the Assured will pay the costs and expenses of the defense of such suit subject to the provisions of paragraph (13), and will indemnify the master of such vessel to the same extent as though he were an assured under this policy: *Provided, however,* That the Assurer shall not be liable to indemnify the master in excess of the amount (a) for which the owner of said vessel would have been liable, or to which such owner could have limited liability, if such owner has been sued instead of the master, or (b) for which the Assurer would be liable under this policy had the suit been brought against the owner of the vessel.

(15) Expenses which the Assured may incur under authorization of the Assurer in the interest of the Assurer.

GENERAL CONDITIONS AND LIMITATIONS

(16) *Prompt Notice of Claim.* In the event of any happening which may result in loss, damage or expense for which the Assurer may become liable, prompt notice thereof, on being known to the Assured, shall be given by the Assured to the Assurer, but failure to give such prompt notice because of wartime emergency conditions shall not prejudice this insurance.

The Assurer shall not be liable for any claim not presented to the Assurer with proper proofs of loss within twelve (12) months after payment by the Assured.

(17) *Time for Suit.* In no event shall suit on any claim be maintainable against the

Assurer unless commenced within eighteen (18) months after the loss, damage or expenses resulting from liabilities, risks, events, occurrences and expenditures specified under this policy shall have been paid by the Assured.

(18) *Settlement of Claims.* The Assured shall not make any admission of liability, either before or after any occurrence which may result in a claim for which the Assurer may be liable. The Assured shall not interfere in any negotiations of the Assurer for settlement of any legal proceedings in respect of any occurrences for which the Assurer is liable under this policy: *Provided, however,* That in respect of any occurrence likely to give rise to a claim under this Policy, the Assured is obligated to and shall take such steps to protect his and the Assurer's interests as would reasonably be taken in the absence of this or similar insurance. If the Assured shall fail or refuse to settle any claim as authorized by Assurer, the liability of the Assurer to the Assured shall be limited to the amount for which settlement could have been made.

(19) *Defense of Claims.* Whenever required by the Assurer, the Assured shall aid in securing information and evidence, *subject to any governmental limitations as to the confidential character of* such information or evidence, and in obtaining witnesses and shall cooperate with the Assurer in the defense of any claim or suit or in the appeal from any judgment, in respect of any occurrence as hereinbefore provided.

(20) *Assumed Contractual Liability.* Unless otherwise agreed by endorsement hereon, the Assurer's liability shall in no event exceed that which would be imposed on the Assured by law in the absence of contract: *Provided, however,* That the acceptance by the Assured of towage contract or agreement limiting the liability of towboats or their owners shall not affect the Assured's right of indemnity from the Assurer for any liability, loss, damage or expense covered under this policy.

(21) *Assignment.* No claim or demand against the Assurer shall be assigned or transferred, and no person, other than a receiver of the property or the estate of the Assured, shall acquire any right against the Assurer without the express consent of the Assurer: *Provided, however,* That this shall not affect the rights of any assignee under an assignment made by virtue of any governmental order or decree, in which event such assignee shall have and possess all of the rights of its predecessor in assignment.

(22) *Subrogation.* The Assurer shall be subrogated to all the rights which the Assured may have against any other person or entity, in respect of any payment made under this policy, to the extent of such payment, and the Assured shall, upon the request of the Assurer, execute all documents necessary to secure to the Assurer such rights.

(23) *Double Insurance.* The Assurer shall not be liable for any loss or damage against which, but for the insurance hereunder, the Assured is or would be insured under existing insurance excepting as provided in Paragraph (4) (a) hereof.

(24) *Limitation of Liability.* If and when the Assured under this policy has any interest other than as an owner or *bareboat charterer* of the insured vessel, in no event shall the Assurer be liable hereunder to any greater extent than if such Assured were the owner or *bareboat charterer* and were entitled to all the rights of limitation to which a shipowner is entitled.

(25) Notwithstanding anything to the contrary contained in this policy, the Assurer shall not be liable for any loss, damage, or expense sustained, directly or indirectly, by reason of:

(a) Loss, damage or expense to hull, machinery, equipment or fittings of the insured vessel, including refrigerating apparatus and wireless equipment, whether or not owned by the Assured;

(b) Cancelment or breach of any charter or contract, detention of the vessel, bad debts, insolvency, fraud of agents, loss of freight, passage money, hire, demurrage, or any other loss of revenue;

(c) Any loss, damage, sacrifice, or expense which would be payable under the terms of the American Institute Hull form of policy, 7/1/44 issued by the America Marine Hull Insurance Syndicate on hull, machinery, etc., whether or not the insured vessel is fully covered by insurance sufficient in amount to pay such loss, damage, sacrifice or expense.

(d) Capture, seizure, arrest, restraint or detainment, or the consequences thereof, or of any attempt thereat, or the consequences of hostilities or war-like operations, whether before or after the declaration of war;

(e) The insured vessel towing any other vessel or craft, unless such towage was to assist such other vessel or craft in distress to a port or place of safety: *Provided, however,* That this exception shall not apply to claims covered under paragraph (1) of this policy.

(f) For any claim for loss of life, personal injury or illness in relation to the handling of cargo where such claim arises under a contract of indemnity between the Assured and his sub-contractor.

In witness whereof, the War Shipping Administration has caused this policy to be signed by the Administrator, but it shall not be valid unless countersigned by or on behalf of the Director of Wartime Insurance.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[2d Rev. S. O. 210]

PART 95—CAR SERVICE

ICING AND REICING OF FRUITS AND VEGETABLES IN DESIGNATED SOUTHERN STATES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 22d day of July, A. D. 1944.

It appearing, that there is an acute shortage of ice in the South which is adversely affecting the movement of fruits and vegetables in refrigerator cars originating in the States of Alabama, Florida, Georgia, Kentucky, Mississippi, Louisiana (east of the Mississippi River), North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, resulting in congestion of traffic; in the opinion of the Commission an emergency exists requiring immediate action: It is ordered, That:

Half-stage icing—(a) (1) *Definition.* The term half-stage icing as used herein means using only the upper halves of the bunkers of refrigerator cars for carrying ice, this being accomplished by setting the ice grates at a point approximately midway between the bottom and top of the bunkers.

(a) (2) *Furnishing refrigerator cars equipped for half-stage icing for loading with Florida citrus.* When refrigerator cars equipped for half-stage icing are available at the point of origin when shipment is ordered to be initially iced after loading, and at the icing station where cars are to be initially iced when initial icing is ordered prior to loading, and the railroads can so furnish refrigerator cars equipped for half-stage icing without additional switching service in excess of that normally required for initial icing, all common carriers by railroad subject to the Interstate Commerce Act operating in the State of Florida, in complying with a shipper's order for a refrigerator car, shall give priority to the furnishing of and shall furnish refrigerator cars equipped for half-stage icing for loading with citrus fruit originating in the State of Florida, and shall furnish refrigerator cars not equipped for half-stage icing only when cars so equipped are not available as specified in this paragraph.

(a) (3) *Carriers required to furnish half-stage icing service on refrigerator cars equipped for half-stage icing.* No common carriers by railroad subject to the Interstate Commerce Act shall permit, accord or authorize other than half-stage icing service on any refrigerator car equipped for half-stage icing, ordered for loading with, or loaded with citrus fruit originating in the State of Florida when available and furnished in accordance with the provisions of paragraph (a) (2).

(b) *Icing and reicing on fruits and vegetables restricted to three-fourths bunker capacity.* No common carrier by railroad subject to the Interstate Commerce Act, on any refrigerator car loaded with fruits or vegetables originating in the States of Alabama, Florida, Georgia, Kentucky, Mississippi, Louisiana (east of the Mississippi River), South Carolina, North Carolina, Tennessee, Virginia, or West Virginia, shall initially ice or reice, or allow or permit initial icing or reicing, with more ice than is necessary to bring the ice in each bunker up to, but not above, three-fourths of that bunker's capacity. This paragraph shall have no application on cars restricted to half-stage icing under the provisions of paragraphs (a) (2) and (3).

(c) *Application.* The provisions of this order shall apply only to shipments billed on and after the effective date of this order originating in the States listed in paragraph (b) hereof, except that when a shipment has been unloaded under a transit arrangement the provisions of this order shall apply to such shipment if billed at the transit point on or after the effective date of this order.

(d) *Tariff provisions suspended.* The operation of all tariff rules, regulations, or charges insofar as they conflict with the provisions of this order is hereby suspended.

(e) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected thereby, in

substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

(f) *Special and general permits.* The provisions of this order shall be subject to any special or general permits issued by the Director of the Bureau of Service, Interstate Commerce Commission, Washington, D. C., to meet specific needs or exceptional circumstances. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)–(17))

It is further ordered, That this order shall become effective at 12:01 a. m., July 23, 1944, and shall supersede Revised Service Order No. 210 on the effective date hereof; that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

(1) Any pilchard vessel which has been chartered prior to July 23, 1944 for use in Alaskan waters as a salmon cannery tender or salmon packer or has been used for transporting salmon during any part of the month of July 1944, may continue operations necessary in the salmon industry pursuant to the terms of the charter, without obtaining a permit, from July 23, 1944 until that charter expires.

(2) Any pilchard vessel which has been used in fishing for herring in Alaskan waters during any part of the month of July 1944 may continue operations in that fishery without obtaining a permit from July 23, 1944 to September 30, 1944, but not beyond the end of the herring fishing season in any district where the vessel shall be fishing.

FEDERAL SECURITY AGENCY.

Food and Drug Administration.

[Docket No. FDC-41]

TOLERANCES FOR FLUORINE SPRAY RESIDUE ON APPLES AND PEARS

PROPOSED REGULATION

It is proposed that, by virtue of the authority vested in the Federal Security Administrator by provisions of the Federal Food, Drug, and Cosmetic Act (secs. 406, 701 (e); 52 Stat. 1046, 1055; 21 U.S.C. 346, 371 (e), 1940 ed.); the Reorganization Act of 1939 (53 Stat. 51 ff.; 5 U.S.C. 133–133v (Supp. V. 1939)); and Reorganization Plans No. I (53 Stat. 1423) and No. IV (54 Stat. 1234); and upon the basis of evidence of record at the hearing duly held pursuant to the notice issued on May 1, 1944 (9 F.R. 4654), the following order be made:

Findings of Fact

1. Fluorine is a gaseous chemical element. It and many of its compounds, among which are cryolite and other insecticides, are poisonous and deleterious substances. The fluorine in such compounds, even in small quantities, interferes with fundamental processes of living cells. Individuals vary in their susceptibility to its toxic effects. (R. pp. 81–82, 227, 230–238, 241, 244, 246–247, 250, 256–258, 259–261, 280, 317–322, 362, 369–388, 449–454, 456–458, 474, 483–486, 489, 613–614)[1]

2. When fluorine compounds are taken into the body in small amounts, most, if not all, of the fluorine is excreted, but when intake exceeds excretion storage of fluorine in the body results. When storage of fluorine occurs, injury to health may be anticipated. Fluorine is stored primarily in the bones and teeth, and its deleterious effects are most easily detected in those tissues. These effects are mottling of the enamel of the teeth, and abnormalities, including osteosclerosis, of the bones of the pelvis and the lumbar region of the spine, and of the tendenous insertions of bones. (R. pp. 237, 248–250, 259–268, 303–306, 449–454, 543–576, 709, 715–718, Govt. Ex. No. 17)

3. During their production apples and pears are subject to a number of insect pests, and different kinds of sprays are used to control different kinds of insects. Unless the insects are controlled by sprays the fruit becomes wormy and unmarketable. The codling moth causes the greatest difficulty and requires the most spraying for effective control. (R. pp. 9–15, 44)

4. For control of the codling moth, sprays made from lead arsenate or from cryolite are the only ones that are effective and practical. To these mineral oil is commonly added and acts in part as a codling moth ovicide. In the Northwest, where a large proportion of the apple and pear crops are produced, lead arsenate and cryolite are equally effective, whether used alone or in split schedules using lead arsenate for some sprays and cryolite for others. The methods and equipment used are the same for both types of spray. There are certain disadvantages in the use of lead arsenate spray which do not accompany the use of cryolite spray. (R. pp. 10, 12–20, 24, 44, 45, 46, 48–51, 53, 54, 65, 66, 81–82, 116, 130, 134, 725–726, 775–776, 778, 782)

5. The effectiveness of spray programs depends on the completeness of coverage of the fruit with the insecticide and the amount thereof which adheres to the fruit. Complete and sufficient coverage is obtained by repeating the sprays, and by adding oil and other materials to the spray. The number of sprays required depends on the season, geographic location, local situations, the time of ripening of the fruit, and the care used in applying the spray. A spray schedule effective for apples is also effective for pears. Ordinarily from 1 to 6 sprays are required for pears and 4 to 9 sprays are required for apples. Occasionally more than 9 sprays are required for apples. (R. pp. 17, 20–22, 23–27, 41, 46, 47, 52, 75, 83–86, 744–745)

6. The amount of fluorine in spray residue remaining on apples and pears at time of harvest increases with the number of fluorine sprays used, the decreasing length of time elapsing between the last of such sprays and harvest, and the use of substances which cause greater adherence of the spray to the fruit. The proportion of fluorine remaining on apples ranges from a few milligrams per kilogram to over 50 milligrams per kilogram. It is possible, therefore, for one fruit to bear more than 7 milligrams of fluorine. (R. pp. 76–80, 82–88, 159–164, 176–179, Govt. Exs. Nos. 6 and 7)

7. The spray residue remains on the surface of the fruit and most of it can be removed by washing processes in common use in the industry. One process uses only one washing and rinsing operation. In such process dilute hydrochloric acid is used as the washing solution. This process is efficient in removing spray residues from apples and pears grown under light spray schedules. In another process two washing and rinsing operations are used. In this process the fruit is first washed in a sodium silicate or soda ash solution and then in a dilute hydrochloric acid solution. This process is efficient in removing spray residues from such fruits grown under a heavy spray schedule, or when oils and stickers are added to the spray material, or when the spraying is continued late into the growing season. In both washing processes the spray residue is removed more effectively when the washing solutions are heated. The heating of the solutions tends to cause injury to the fruit which increases as the heat is increased. When the solutions are not heated to over 100° Fahrenheit, the amount of injury to the fruit is not material. The washing processes for apples are at least equally effective for pears. Efficient washing usually removes spray residue to such extent that the fluorine remaining on apples and pears is about 5 milligrams or less per kilogram without risk of excessive injury to the fruit. It can be reduced in practically all lots to 7 milligrams per kilogram without such risk. (R. pp. 60–65, 66–69, 74, 75, 76, 79–80, 82–88, 109, 141–142, 143, 145–148, 151–157, 171–172, 175, Govt. Exs. Nos. 4, 5, 6, and 7, O. P. Ex. No. 1)

8. Mottling from fluorine results only when intake of toxic amounts occurs during the process of growth and calcification of the teeth. In man the teeth are in the process of calcification during the first 12 years. Mottling differs greatly in degree. Very mild degrees disclose chalky white spots without transiucency. As the degree of severity increases the spots are more noticeable, become stained with a brownish color, and the enamel becomes brittle and pitted. When the fluorine intake is very low teeth are produced that are less resistant to caries than teeth produced on a somewhat higher fluorine intake. However, the margin between optimum and toxic amounts is very narrow. The toxic effect of fluorine increases as the intake is increased, regardless of whether it is ingested in food or water or both. At the lower levels of fluorine intake that produce toxic effects there are no material differences in the absorption, toxicity, and storage of the fluorine of the various fluorine compounds, including cryolite. At materially higher levels the absorption and storage decrease with the decreasing solubility of such compounds. (R. pp. 266–274, 279–280, 303, 317–319, 320–327, 339–340, 351–353, 359–360, 369–371, 390, 397–403, 405–411, 416–425, 429, 430–432, 434–443, 460–461, 474–475, 481–483, 534–535, 546–556, 591–601, 604–613, 655–660, 685–687, Govt. Exs. Nos. 8, 9, 10, and 16)

9. Fluorine compounds may enter the body by ingestion in water and food and by industrial exposure. The water supplies of several million persons in the United States contain 1 part per million or more of fluorine. The areas having such water supplies are distributed widely over the country. About a half million persons live in areas where the fluorine content of the water is 5 parts per million or more. Fluorine is a natural component of many common foods, and in the process of cooking food in fluorine-bearing water some of the fluorine in the water is transferred to the food. However, the amount of fluorine added to the diet by cooking is not significant unless the fluorine content of the water is very high. Industrial exposure is to mists, dusts, and fumes containing fluorine. A substantial number of persons are subjected to such exposure. The exposure of some of these persons is such that they are storing fluorine. The record does not show in what proportion of those exposed storage is occurring. (R. pp. 201–207, 209–210, 229–230, 303, 331–335, 358, 411–415, 443–446, 449, 471, 503–505, 528–534, 671–675, 675–680, 713–714, Govt. Exs. Nos. 11, 13, and 14)

10. When children ingest a sufficient amount of fluorine during the critical age period mottling results. The amount of drinking water ordinarily consumed by children during this period ranges from 390 cubic centimeters to 1,600 cubic centimeters per day. Such mottling occurs when the drinking water contains 1 part per million of fluorine or more. The ordinary adult daily diet, when the fluorine content of the water used in cooking is 0.3 part per million or less, contains approximately 0.5 milligram and not more than 1 milligram of fluorine. It is probable, therefore, that mottling of the enamel of the teeth results from a daily ingestion of somewhat less than 2 milligrams of fluorine per day. (R. pp. 329–331, 337, 359–360, 363–364, 411–415, 503–505, 520–528, 531–532, 533–534, 675–676, Govt. Exs. Nos. 12, 13, and 14)

11. The amount of apples and pears eaten as fresh fruit varies with the individual consumer and season of the year. Many persons consume few or no apples or pears, and some consume many. Apples vary in size, but ordinarily weigh from 1/7 to 1/10 of a kilogram each. The record does not disclose the proportions of apples and pears that are pealed before consumption. (R. pp. 501–503, 620–644, Govt. Ex. No. 15)

12. Whether the toxicity of fluorine to man is affected by or affects the toxicity of other substances is not known. Fluorine is rendered more toxic to rats by desiccated thyroid and the thyrotropic hormone of the anterior pituitary gland, and its toxicity is additive to that of cadmium. There is some industrial and consumer exposure to cadmium. (R. pp. 210–212, 475–481)

Conclusions

1. Fluorine and many of its compounds, including those used as insecticides for apples and pears, are poisonous and deleterious substances.

2. The addition of fluorine-containing sprays to apples and pears is required in the production of a large proportion of such fruits and residues thereof are unavoidable.

3. With efficient spraying and the efficient use of the washing processes so far developed it is not practicable to reduce the fluorine remaining as such residue on apples and pears below 7 milligrams per kilogram of fruit.

4. A considerable portion of the population is exposed to quantities of fluorine compounds that are toxic or near-toxic and any added amount of fluorine increases the hazard or degree of injury to which they are subjected. It is necessary for the protection of public health that the fluorine remaining as insecticidal residue on apples and pears shall be as low as is practicable.

Proposed Regulation

§ 120.1 *Limit for the quantity of fluorine remaining as insecticidal residue on apples and pears.* The quantity of fluorine remaining as insecticidal residue on apples and pears is hereby limited to not more than 7 milligrams of fluorine, calculated as F, per kilogram of each such fruit.

Any interested person whose appearance was filed at the hearing may, within 30 days from the date of publication of this proposed order in the FEDERAL REGISTER, file with the Hearing Clerk of the Federal Security Agency, Office of the Assistant General Counsel, Room 4148, South Building, 12th Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in the proposed order, and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which each exception is based. Such exceptions may be accompanied with a memorandum or brief in support thereof. Exceptions and accompanying memoranda or briefs should be submitted in quintuplicate.

COMMON CARRIERS

COORDINATED OPERATIONS IN GREATER KANSAS CITY, KANS. AND MO.

Upon consideration of a petition for the amendment of Appendix 2 to Supplementary Order ODT 6A-19, filed with the Office of Defense Transportation, and good cause appearing therefor, it is hereby ordered, that paragraphs 2 and 3 of Appendix 2 thereto be, and they are hereby, amended to read as follows:

2. *Area affected.* This plan shall be effective within the corporate limits of Kansas City and North Kansas City in Missouri, and Kansas City in Kansas. In addition thereto, the plan shall be made operative between the three named cities and such points in the suburban territory thereof insofar as it becomes possible to pool the movements of commodities by carriers operating regularly between points over established routes or territories. The suburban territory shall be the Kansas City Commercial Zone, as defined by the Interstate Commerce Commission in *Kansas City, Mo.-Kansas City, Kans., Commercial Zone*, 31 M. C. C. 5.

3. *Contemplated action.* In order to achieve further utilization of their transportation facilities, the carriers, parties hereto, shall place in effect the following plan of joint action for the purpose of handling all surplus tonnage and all unallocated freight except as provided in paragraph (c) with respect to collection and delivery service for the railroads and highway carriers and general call-and-demand service within that area defined in paragraph 2 of this plan. "Surplus tonnage" shall be defined to mean any tonnage that cannot be handled by any carrier from or to any railroad depot on the day in which the order for its movement is placed: *And provided further*, Such shipment is available prior to 12 noon of the day originated. Any other tonnage may be registered for handling by the Central Clearing Office.

(a) For the purpose of administering the provisions of this Joint Action Plan a Central Clearing Office shall be established at 405 Waltower Building. The cost of operating such Central Clearing Office shall be borne by the members participating in the plan on a pro-rata basis per truck operated.

(b) When any carrier shall by reason of any regular service to a shipper, file a routing order with the Central Clearing Office on such shipper, the Central Clearing Office shall honor such order and shall assign such transportation from or to such shipper's place of business to the carrier who filed the routing order.

(c) Where no such routing order has been filed with the Central Clearing Office on a shipper, or where any shipper shall cancel his routing order, then such business hauled from or to such shipper shall be handled by the carrier who shall be assigned to cover the territory in which shipment originates or to which such shipment is destined: *Provided*, That, (1) this paragraph (c) shall not be construed so as to guarantee any carrier the exclusive handling of merchandise originating within or destined to any territory and (2) that this paragraph (c) shall allow any shipper or railroad to designate two or more carriers to service the same shipper or railroad when practicable.

(d) Territories shall be allocated, insofar as possible, to reduce waste in operation. Upon assignment of a given territory to a carrier, such carrier shall be required to service within a reasonable time, such territory with respect to reported "surplus tonnage" originating within such zone or destined thereto and all unallocated freight except as provided in paragraph (c). A reasonable time shall be construed to mean not more than 24 hours for any shipment to or from any point within Kansas City or North Kansas City, Missouri, or Kansas City, Kansas, except points south of 48th Street in Kansas City, Missouri, where an additional 24 hours may be allowed for the handling of such traffic.

(e) Due to changes in conditions territories may be changed, for good cause, from time to time with the consent of the members participating in this plan. The initial territorial allotment of each of the participants to this plan shall be as shown on the map attached hereto.

(f) It shall be the duty of the Central Clearing Office to assign equipment to handle all "surplus tonnage" and it shall be the duty of every member to register all known "surplus tonnage" with the Central Clearing Office.

This Amendment 1 shall become effective August 9, 1944.

Issued at Washington, D. C., this 9th day of August 1944.

[Administrative Notice 4]

NOTICE TO GROWERS OF PROPOSED MAXIMUM PRICES FOR CABBAGE

Pursuant to the provisions of the Emergency Price Control Act of 1942, as amended, the Price Administrator hereby gives notice to growers of cabbage of the maximum prices he proposes to establish for cabbage:

F. o. b. shipping point price[1] of $55 per ton for the months of December through April; $50 per ton for the months of May through August; and $44 per ton for the months of September through November.

The prices named include all costs of harvesting, hauling, packing and inspection, and no additional charge may be made for containers or for any other materials furnished or services rendered. For sales in bulk the prices will be 3/10 of a cent less per pound than the named prices.

No person who does not pack and ship cabbage and who does not regularly operate a packing and shipping plant for that commodity, will be permitted to purchase acreage at a price which, after the cost of harvesting, hauling, packing and inspection, have been added, results in a price higher than the maximum price f. o. b. shipping point.

The above prices will be incorporated in an amendment having substantially the same form as Appendix H of Maximum Price Regulation No. 426, except that for each major producing area of cabbage a maximum price for f. o. b. shipping point sales will be provided.

However, for the periods between December through May, the Price Administrator, in addition, may name basing points, for sales delivered to wholesale receiving points, in any one or more of the following states, namely, California, Florida, Texas and Mississippi.

As in Appendix H of Maximum Price Regulation No. 426, maximum prices for sales delivered to wholesale receiving points will be the applicable shipping point price plus freight from the shipping point and plus protective services: *Provided, however*, That if the Price Administrator names basing points, the maximum prices will be the applicable shipping point price plus freight from the particular named basing point and plus protective services.

Issued this 9th day of August 1944.

Administrator.

[1] "Shipping point" means the place in or near the producing area where the cabbage being priced is prepared for shipment and first loaded on cars for rail shipment or on trucks for truck shipment. Prices established for shipping points are not grower ceiling prices unless the grower is the shipper.

[Savannah Order G–1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN SAVANNAH, GA., AREA

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Savannah District Office of Region IV of the Office of Price Administration by General Order No. 50 issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944. It is hereby ordered:

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt and cereal beverages including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating, or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of the following named counties of the State of Georgia: Appling, Atkinson, Bacon, Baker, Ben Hill, Berrien, Brantley, Brooks, Bryan, Bulloch, Burke, Calhoun, Camden, Candler, Charlton, Chatham, Clay, Clinch, Coffee, Colquitt, Columbia, Cook, Decatur, Dougherty, Early, Echols, Effingham, Emanuel, Evans, Glascock, Glynn, Grady, Irwin, Jeff Davis, Jefferson, Jenkins, Liberty, Lanier, Long, Lowndes, McDuffie, McIntosh, Miller, Mitchell, Montgomery, Pierce, Richmond, Screven, Seminole, Tattnall, Telfair, Tift, Thomas, Toombs, Treutlen, Turner, Ware, Warren, Wayne, Wheeler and Worth.

SEC. 3. *Ceiling prices.* (a) On and after June 15, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the applicable heading "All other brands not listed above" is not appropriate to such beverage, you may make application to the Savannah District Office of the Office of Price Administration requesting that such beverage be specifically included in Appendix A hereof. With or without such application the Savannah District Office of the Office of Price Administration may, at any time and from time to time, add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set forth in appendix hereof.

(c) You may not add any taxes to your ceiling prices set forth in Appendix A hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group, as set forth in Appendix A.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. You must figure the group to which you belong as follows:

(1) *Group 1–B.* Your establishment belongs to Group 1–B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 1–B establishments.

(2) *Group 2–B.* Your establishment belongs to Group 2–B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 2–B establishments, but were less than those provided in Appendix A hereof for Group 1–B establishments.

(3) *Group 3–B.* Your establishment belongs to Group 3–B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2–B establishments. All establishments not in operation during the base period of April 4–10, 1943 also belong to Group 3–B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1–B or Group 2–B, you may file an application with the Savannah District Office of the Office of Price Administration requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon and your establishment is reclassified, it must retain the classification of a Group 3–B seller, and must observe the ceiling prices as provided for that Group in Appendix A hereof. All such applications for reclassification must contain the following information:

(1) Name and address of the establishment and of its owner or owners.

(2) A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

(3) The selling prices by brand name of all beverages sold since the beginning of its operation.

(4) The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

(5) Any other information pertinent to such application, or which may be requested by the Office of Price Administration.

SEC. 5. *Filing with War Price and Rationing Board.* When you have figured your proper group under section 4 above, you must, on or before July 1, 1944, file with your War Price and Rationing Board a signed statement with name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meals, (Such sales remain under Restaurant Maximum Price Regulation 4–1).

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guest of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4, 1943 to April 10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4 to April 10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 4–1, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order No. 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating and drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught.

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

SEC. 11. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1–B", "OPA 2–B" or "OPA 3–B", whichever is applicable. You may use the card furnished you for this purpose by the War Price and Rationing Board.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same.

If you have customarily issued receipt or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relations to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation No. 359 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the meal remain subject to the provisions of Restaurant Maximum Price Regulation 4–1.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designed as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer".

(c) "On draught" means dispensed by a seller at retail from any container of ⅙ barrel or larger size.

(d) "Person" includes any individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Sales at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

(f) "Eating or drinking establishment" shall include any place, establishment or location, whether temporary or permanent, in which any prepared food item or meal, or any beverage is sold for immediate consumption on the premises or to be carried away without substantial change in form or substance. However, grocery and other stores that do not sell food items or meals, or beverages for immediate consumption on the premises are specifically excluded from this definition.

(g) "Other definitions". Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. (3) *Non-labeled bottles.* Any domestic malt beverage item (beer or ale) offered for sale or sold in bottles by any "eating or drinking place" subject to this order, which does not have the manufacturer's label affixed thereto, or the trade name or brand stamped, printed, or engraved or appearing in raised letters on the cap or bottle as proper identification, shall not be offered for sale or sold at a price higher than the lowest maximum price fixed herein for the size of bottle of domestic malt beverage (beer or ale) offered for sale or sold.

SEC. 10. *Less than maximum prices.* Lower prices than those established by this order may be charged, demanded, paid or offered.

SEC. 11. *Other brands of domestic malt beverages.* Any person subject to this order desiring to sell any domestic malt beverage of a trade name or brand not specifically priced by section 9 herein, shall determine the price of such domestic malt beverages in the following manner:

If the bona fide net cost of the unlisted brand of domestic malt beverage is $1.99 or less per case of 24 12-ounce bottles, the maximum retail ceiling price shall be 11¢ per 12 ounce bottle. Such unlisted brands of domestic malt beverage in the 32 ounce size, shall have a maximum retail ceiling price of 26¢ per 32 ounce bottle.

If the bona fide net cost of the unlisted brand of domestic malt beverage is $2.00 or more, per 24–12 ounce bottles, the maximum retail ceiling price shall be 16¢ per 12 ounce bottle. Such unlisted brands of domestic malt beverage in the 32 ounce size shall have a maximum retail ceiling price of 36¢ per 32 ounce bottle.

Domestic malt beverage served in any container other than 12 ounce or 32 ounce shall be priced on an exact quantity ratio basis adjusted to the nearest cent; such ratio shall be to either the 12 ounce size or the 32 ounce size of the same brand, whichever is most nearly comparable in size.

The retailer is required to maintain and make available to any authorized representative of the Office of Price Administration invoices, receipts, or other prima facie evidence, to substantiate such net cost, and, in addition, such evidence must identify the source of supply by name and address.

"Net cost" as that term is used herein, means the price charged by the wholesale supplier of domestic malt beverage to the retailer provided that such price is not in excess of the wholesale supplier's maximum ceiling price as determined under Maximum Price Regulation No. 259.

Within five days after determining the price for a new brand of malt beverage the seller shall report the price so determined to the Price Panel of the War Price and Rationing Board of the county in which said place of business is located, setting forth the brand, unit package, and net cost, and also the source of supply, whether jobber, wholesaler, manufacturer or distributor. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

SEC. 12. *Taxes.* The dollars-and-cents maximum prices for the beverage items listed in Section 9 hereof include all municipal, state and federal taxes except the federal cabaret tax. In addition to the prices listed herein the seller may charge the amount of the cabaret tax provided the following conditions are met:

(1) The seller is liable for payment of the cabaret tax on the sale being made.

(2) The seller actually pays the additional amount collected for this purpose.

(3) The seller states and collects the tax separately.

When the amount of the total sale, plus the exact amount of the tax results in a figure with a fractional cent, the amount to be collected shall be raised or lowered to the nearer even cent.

SEC. 13. *Evasion.* The price limitations set forth in this order shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale or delivery of, or relating to the sale of any beverage item, alone or in connection with any other commodity or by way of commission, service, transportation, or any charge or discount, premium, or other privilege, or by tying agreement or other trade understanding, or by any other means, manner, method, device, scheme, or artifice or otherwise.

SEC. 14. *Enforcement.* "Persons" violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages, provided by the Emergency Price Control Act of 1942, as amended.

SEC. 16. *Licensing.* The provisions of Licensing Order No. 1, requiring and automatically granting, a license to all persons who make sales under Price Control, are applicable to all sellers subject to this Regulation. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Region II Rev. Order G-34 Under RMPR 122, Amdt. 1]

PENNSYLVANIA ANTHRACITE IN NEW YORK REGION

Amendment No. 1 to Revised Order No. G-34 under Revised Maximum Price Regulation No. 122. Solid fuel sold and delivered by dealers. Permitted increases in maximum prices for Pennsylvania anthracite sold subject to area dollars-and-cents orders, based on higher mine costs for specified anthracite.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, Revised Order No. G-34 is amended in the following respects:

1. Paragraph (c) is amended to read as follows:

(c) *Application for additional price increase.* Any dealer whose receipts of Group I anthracite during the previous calendar month exceeded 75 percent, or whose receipts of Group II anthracite during the previous calendar month exceeded 30 percent, of all anthracite received by him during that month, may apply to the District Office of the Office of Price Administration, within whose jurisdiction he sells anthracite, for an additional increase. An application may also be filed where the dealer feels that the combined percentage of Group I and Group II anthracite received during the previous calendar month warrants an adjustment in maximum price beyond that authorized by the automatic increase provisions of paragraph (b).

Applications may be filed under this paragraph (c) between the first and tenth day of each month, based upon the proportions of anthracite having different mine costs received during the previous calendar month, and should request an adjustment for a one-month period. Such application shall be in writing and set forth the following:

(i) Total tonnage of anthracite received by the dealer during the previous calendar month.

(ii) Tonnage of Group I and Group II anthracite specified in paragraph (a) received during the previous calendar month, identified as described therein.

(iii) Proposed increases on anthracite sales above area ceiling prices.

(iv) Any other pertinent information the District Director may request.

The District Director will either grant or deny the application, in whole or in part, in the light of the estimated average increase in supplier's maximum prices for anthracite, based on dealer's total anthracite receipts during the previous calendar month, as compared with supplier's maximum prices established by § 1340.200 (a) (1) of Maximum Price Regulation No. 112. The order may incorporate appropriate provisions for recalculation of the permitted increase based upon changing mine costs.

2. Paragraph (d) is amended by adding the following order to the list of orders there enumerated.

Order No. G-45 under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122.

This Amendment No. 1 to Revised Order No. G-34 shall become effective August 1, 1944.

ANTHRACITE COAL IN NEW YORK REGION

Amendment No. 2 to Second Revised Order No. G-26 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Permitted increases in maximum prices for "Silver Brook", "Salem Hill", and other specified anthracite sold subject to designated area dollars-and-cents orders.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, Second Revised Order No. G-26 is amended in the following respects:

1. Paragraph (b) is amended to read as follows:

(b) *Alternative pricing provision; application for a price.* Dealers making sales of the anthracite specified in paragraph (a) (1), in communities subject to the area dollars-and-cents orders listed in paragraph (d), who prefer to commingle such anthracite with other anthracite and not to keep it separate in storage and delivery, and who would thereby not be eligible to take the automatic increases permitted under paragraph (a) hereof, may apply to the District Office of the Office of Price Administration, within whose jurisdiction they sell anthracite, for adjustment of their maximum prices for all anthracite sales to compensate for the increased cost of such specified anthracite.

An application may be filed between the first and tenth day of each month based upon the proportions of anthracite having different mine costs received during the previous calendar month and should request an adjusted price for a one-month period. Such application shall be in writing and set forth the following:

(i) Total tonnage of all anthracite received by the dealer during the previous calendar month.

(ii) Tonnage of anthracite specified in paragraph (a) (1) received during the previous calendar month.

(iii) State separately the tonnage of any higher cost anthracite received during the previous calendar month and subject to Regional Order No. G-34 (or any revisions thereof) under Revised Maximum Price Regulation No. 122, identifying such in the manner described therein.

(iv) Proposed increase above area ceiling price.

(v) A statement declaring that the applicant did not segregate higher cost anthracite during the previous calendar month and avail himself of the automatic increases under paragraph (a) hereof.

(vi) Any other pertinent information the District Director may request.

The District Director will either grant or deny the application, in whole or in part, in the light of the estimated average increase in supplier's maximum prices for anthracite, based on dealer's total anthracite receipts during the previous calendar month, as compared with supplier's maximum prices established by § 1340.200 (a) (1) of Maximum Price Regulation No. 112. The order may incorporate appropriate provisions for recalculation of the permitted increase based upon changing mine costs.

(c) *Unbranded beverages.* Your ceiling price for any bottled malt beverage which does not carry a brand or trade name at the time of sale shall be the lowest ceiling price established by paragraph (a) above for the same size bottle of malt beverage.

(d) *New and unlisted brands.* Your ceiling prices for new brands of malt beverages or brands which are not listed above must be determined in advance of sale by making application to the District Office of the Office of Price Administration. This office will establish your ceiling price or prices and notify you accordingly. Your application need not be in any set form but must include your name and address; the location and type of eating and drinking place; the trade name or brand of the beverage or drink for which you apply for a ceiling price; the size of the bottle or glass sold to consumers; and a description of the unit of purchase and the delivered cost per unit to you.

(e) *Addition of taxes.* The dollars-and-cents maximum prices for the beverage items listed in the preceding paragraphs of this section include all municipal, state and federal taxes, except the federal cabaret tax. In addition to the prices listed herein, you may charge the amount of cabaret tax provided the following conditions are met:

(1) You are liable for payment of a cabaret tax on the sale being made;

(2) You actually pay the additional amount collected for this purpose; and

(3) You state and collect the tax separately.

When the amount of the total sale plus the exact amount of the tax results in a figure with a fractional cent, the amount to be collected shall be raised to the next higher cent if the fraction is one-half cent or more and shall be reduced to the nearest lower cent if the fraction is less than one-half cent.

(f) *Evasion.* You must not evade the ceiling prices established by this section by any type of evasion, scheme or device. Among other things, you must not:

(1) Make any charge for the icing or cooling of the malt beverages covered by this order;

(2) Increase any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or any other special charges, or make such charges when they were not in effect in the seven-day period April 4 to April 10, 1943, except that a cover or minimum charge in effect during such period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve-month period;

(3) Require as a condition of sale of a beverage item covered by this order the purchase of other items or meals when such condition was not in effect during the period April 4 to April 10, 1943.

SEC. 3. *You must post prices.* You must post the prices of the malt beverages sold by you either by:

(a) Supplying menus or bills of fare to your customers containing the brand name, quantity and price of all malt beverages which are sold by you subject to this order, or

(b) Posting a sign in a place where it can easily be read by your customers. On the sign, you must show the brand name, quantity and prices of the malt beverages you are selling subject to this order.

SEC. 4. *Exempt sales.* Sales which are exempt by section 18 of Revised Restaurant Maximum Price Regulation 5-3 are likewise exempt by this order. Hotel room service sales are also exempt from this order, but remain subject to Revised Restaurant Maximum Price Regulation 5-3.

SEC. 5. *Licensing.* By Licensing Order 1, which is hereby incorporated in this order by reference, you are required to have a license with which you are automatically vested. No steps need be taken by you to procure this license, but if you violate this order, the license may be suspended so as to make it unlawful for you to do business during the period of suspension.

SEC. 6. *Definitions.* (a) "Malt beverage" means any malt beverage produced either within or without the continental United States which commonly goes by the name of beer or ale.

(b) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

[Directive, July 17, 1944,[1] Amdt. 1]

CANNED VEGETABLES, 1944

SUBSIDY PAYMENTS

The War Food Administrator having submitted certain information and recommendations to me on July 6, 1944, and the Price Administrator having submitted certain information and recommendations to me on July 15, 1944, with reference to a program for the payment of subsidies on eligible sales made during the period March 1, 1944 to April 30, 1945, both dates inclusive, on products processed from green peas, snap beans, sweet corn, and tomatoes I hereby find that:

1. The payment of the subsidy on canned green peas, snap beans, sweet corn, tomatoes, and tomato juice and on such other products of the four major vegetables as may later be included, will effectuate the purposes of the hold-the-line order, specifically, the policy established by Executive Orders 9250 and 9328;

2. The payment of the subsidy on completed sales of the specified canned products will greatly facilitate the administration of the subsidy program;

3. Under Maximum Price Regulation 306, which continues in effect, canners cannot comply with increases over 1943 support prices established by the 1944 grower support program without provision for a correspondingly higher subsidy;

4. The agreed pricing method for the 1944 pack of canned fruits and vegetables will be fulfilled.

The Office of Price Administration is hereby authorized and directed:

1. To establish civilian maximum prices for canned green peas, snap beans, sweet corn, tomatoes and tomato juice which will reflect approximately the average of prices established for such products in 1943;

2. To establish for all other products, except canned tomato soup and canned green pea soup, produced wholly or in part from the four major vegetables, civilian maximum prices at a level reflecting increases in raw material and other costs pursuant to my Directive of April 6, 1944;

3. To determine and furnish to the War Food Administration, as soon as calculations have been completed, the amount of subsidy necessary to maintain the 1943 level of prices;

4. To calculate this subsidy by computing the difference between the 1943 average price for civilian sales and the mid-point of the 1944 range of gross maximum prices.

The War Food Administration is hereby authorized and directed:

1. To absorb by the use of Commodity Credit Corporation funds the differential from the 1944 gross maximum price established by the Office of Price Administration for civilian sales of the five products named above;

2. To subsidize these five products, until the effective date of the new regulation for the 1944 pack of canned fruits and vegetables, by absorbing the increased cost of the raw material of the four major vegetables;

3. To subsidize canned tomato soup and canned green pea soup by continuing to absorb the increase by area between the average prices paid in 1942 and the 1944 grower support prices for processing for tomatoes and green peas used in producing these soups.

Dated this 8th day of August 1944.

Economic Stabilization Director.

which he has caused to be screened, sorted, hand-picked, polished, or otherwise cleaned for delivery in the dry, uncooked state, whether for his own account or the joint account of himself and another; or (ii) purchases, for his own account or for the joint account of himself and another, beans from a grower who caused such beans to be screened, sorted, hand-picked, polished, or otherwise cleaned for delivery in the dry, uncooked state. Any person who once qualifies as a country shipper within this definition shall thereafter be deemed to be a country shipper and subject to the terms and conditions of this order, regardless of the volume of his deliveries in succeeding months, unless he obtains a release from the Director.

(4) "Delivery" means the physical transfer of beans from a country shipper to a buyer. The transfer of beans by a country shipper to a carrier, truck, railroad car, or other vehicle for transportation to the buyer, regardless of the ownership or control of the carrier or vehicle being used for such transportation, shall constitute a delivery.

(5) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(6) "Director" means the Director of Distribution, War Food Administration.

(7) "Governmental agency" means (i) the armed services of the United States; (ii) the War Food Administration (including but not restricted to any corporate agency thereof); and (iii) any other instrumentality or agency designated by the War Food Administration.

(8) "Armed services of the United States" means the Army, Navy, Marine Corps, and Coast Guard of the United States, excluding, however, for the purposes of this order, United States Army post exchanges, United States Navy ships' service departments, United States Marine Corps post exchanges, and similar organizations.

(9) "Deliveries into civilian channels" means any delivery of beans to persons other than (i) governmental agencies; (ii) authorized purchasers; (iii) country shippers; or (iv) users of such beans for feed or seed purposes.

(b) *Restrictions on country shippers.* (1) Every country shipper shall, during each calendar month, set aside and thereafter hold for delivery to governmental agencies or authorized purchasers a quantity of Pea beans, Great Northern beans, Flat Small White beans, Cranberry beans, Small Red beans or Pinto beans equal to at least 25 percent of his total deliveries of such classes of beans into civilian channels during such calendar month, and a quantity of Small White beans, Light Red Kidney beans, Dark Red Kidney beans, Western Red Kidney beans, Pink beans or Baby Limas beans equal to at least 100 percent of his total deliveries of such classes of beans into civilian channels during such calendar month.

(2) The beans set aside pursuant to the provisions hereof shall be of U. S. No. 2 grade or better, as specified in the United States Standards for Beans.

(3) Beans set aside under this order may be sold to:

(i) Any governmental agency in response to announcements or notices by such agencies that offers for beans will be received;

(ii) Any authorized purchaser who furnishes a certificate in accordance with (c) hereof; or

(iii) Any country shipper who acquires such beans for the express purpose of resale and delivery to an authorized purchaser or governmental agency, and who furnishes a certificate in accordance with (c) hereof.

(4) Nothing in this order shall be applicable to beans sold and delivered exclusively for use as seed, in compliance with State and Federal seed laws, or exclusively for use as feed for poultry or livestock, provided the purchaser of such beans furnishes a certificate in accordance with (c) hereof.

(c) *Certificates required.* Every authorized purchaser or country shipper who purchases or accepts delivery of beans which have been set aside under this order, and every person who purchases or accepts delivery of any beans for use as seed or as feed for poultry or livestock, shall furnish to the seller a certificate in the form attached hereto as Exhibit A. A separate certificate shall be furnished for each delivery. Each certificate shall be signed by the buyer or his authorized representative and shall constitute a representation to the War Food Administrator. One copy of the certificate shall be delivered to the country shipper and one copy retained by the purchaser. All certificates shall be retained by the country shipper, for at least two years, for inspection by and delivery to the Director upon request. No country shipper shall be entitled to rely upon any such certificate if he knows or has reasonable cause to believe it to be false.

(d) *Contracts.* The restrictions hereof shall be observed without regard to the rights of creditors, prior contracts, existing contracts, payments made, or deliveries of beans made prior to the effective date hereof. This order shall not, however, be construed as reducing the amount of beans which any person is required to set aside or deliver or to have set aside and held for delivery to governmental agencies under the provisions of this order prior to the effective date of this amendment or any existing contract made with a governmental agency, but any quantity of beans delivered after the effective date of this order to any governmental agency or authorized purchaser, except beans required to be set aside pursuant to the provisions of this order prior to the effective date of this amendment for delivery to governmental agencies, shall be allowed as a credit to such person in determining the quantity of beans required to be set aside and held for delivery to governmental agencies pursuant to the provisions hereof.

(e) *Prior restrictions modified.* Beans in quantities less than a carlot (80,000 pounds) required to be set aside pursuant to the provisions of this order prior to July 1, 1943, may be sold and delivered to a country shipper if such country shipper certifies to the seller (and such certification shall be deemed to be a representation to an agency of the United States) that he will set aside and hold such beans, or a quantity of beans equivalent thereto, for delivery to a governmental agency in addition to the quantity of beans he is otherwise required to set aside under this order, as amended. Beans set aside prior to July 1, 1943, in quantities in excess of a carlot (80,000 pounds) may be sold and delivered in accordance with the provisions of paragraphs (b) (3) and (c) of this order, as amended.

(f) *Records and reports.* (1) The Director shall be entitled to obtain such information from and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in beans.

(g) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records, and other writings, premises, or stocks of beans of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(h) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship upon him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Director. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Director. After said review, the Director may take such action as he deems appropriate, which action shall be final.

(i) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using beans. Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(j) *Releases.* (1) The Director may, notwithstanding any of the provisions hereof, release any or all of the beans set aside pursuant to the provisions of this order.

(2) Upon application, the Director may release any person from the classification of a "country shipper" if the person seeking removal from such classification shows to the satisfaction of the Director (i) that his total deliveries of beans during each of the two calendar months next preceding the date of his application, exclusive of his deliveries to any country shipper, have not exceeded 20,000 pounds; (ii) that he is currently in compliance with the provisions of the order; (iii) that he has delivered or contracted to deliver to governmental agencies or authorized purchasers all of the beans required to be set aside except a quantity of less than a carlot; and (iv) that he does not intend to operate as a country shipper.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall be addressed to the Order Administrator, War Food Order No. 45, Grain Products Branch, Office of Distribution, War Food Administration, Washington 25, D. C. Ref.: WFO 45.

(l) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director, and may be redelegated by him to any employee of the United States Department of Agriculture.

(m) *Release of set aside peas and split peas.* Peas and split peas, set aside pursuant to the provisions of War Food Order No. 45, as amended, are hereby released and may be disposed of without regard to the restrictions of this order in effect prior to the effective date of this amendment.

(n) *Territorial scope.* This order shall apply within the 48 States and the District of Columbia.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 18, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-598]

FRANK COLLEY, SR.

Frank Colley, Sr., of Butler, Pennsylvania, in December, 1943, began and thereafter continued construction without permission of the War Production Board in remodeling a brick and frame two-story building to be used as a retail store and two-family apartment at a cost of approximately $8,000. This was a violation of Conservation Order L-41, which placed a limit of $200 on such construction. Frank Colley, Sr., in October, 1943, had filed an application with the War Production Board for authority to begin construction on these premises, which was denied about November 13, 1943, and his beginning and carrying on this construction was in willful violation of Conservation Order L-41.

This violation of Conservation Order L-41 has diverted critical materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States of America. In view of the foregoing, it is hereby ordered, that:

§ 1010.598 *Suspension Order No. S-598.* (a) Neither Frank Colley, Sr., his successors or assigns, nor any other person, shall do any construction on the premises at 324 South Main Street, Butler, Pennsylvania, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Frank Colley, Sr., his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 9th day of August 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1075—CONSTRUCTION

[Limited Preference Order P-55-c, Interpretation 1]

RULES GOVERNING CONSTRUCTION OF HOUSING PROJECTS AUTHORIZED BEFORE THE EFFECTIVE DATE OF P-55-C

The following interpretation is issued with respect to Limited Preference Order P-55-c:

Under paragraph (g) of P-55-c housing projects authorized before the effective date of P-55-c may be constructed under the provisions of the specific authorization or under the provisions of P-55-c, at the election of the owner. This means that the owner may, if he wishes, take advantage of any relaxation in the War Housing Critical List or War Housing Construction Standards appearing in Schedules I and II of P-55-c. He may also, if he wishes, take advantage of the method of using the preference rating and allotment symbol outlined in paragraphs (d) and (e) of P-55-c.

Paragraph (g) of P-55-c does not however authorize anyone to build a different kind of house than that authorized by the approval of his application except as explained above. The house must be built at the same location for which it was approved on the application; it must contain the same number of rooms, and must otherwise conform with the description of the project contained in the application as approved.

Issued this 10th day of August 1944.

Recording Secretary.

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L-240, as Amended Aug. 10, 1944]

NEWSPAPERS

§ 3133.6 *Limitation Order L-240—(a) The purpose of this order.* This order does two things: First, it limits the tonnage of print paper which may be used by a publisher in printing a newspaper. This is called his "consumption quota". Second, it limits the tonnage of print paper which may be ordered or accepted by a newspaper publisher. This is called his "delivery quota". A publisher's consumption quota is on a quarterly basis and his delivery quota is on a monthly basis.

Definitions and Explanations

(b) *Newspaper.* "Newspaper" means any publication generally recognized as a newspaper in the newspaper industry, regardless of the frequency of issuance. The term includes all supplements, inserts and other printed matter physically incorporated into a newspaper or delivered together with it.

Where two or more newspapers are published by the same publisher, whether in the same city or in different cities, each newspaper shall operate under a separate consumption quota and a separate delivery quota. In computing his consumption quota a publisher must make separate calculations for morning, evening and Sunday editions, but these figures must be consolidated into a single consumption quota for each newspaper, in accordance with the instructions contained in paragraph (k).

However, morning, evening, Sunday and other editions of the same newspaper shall operate under a single consumption quota and a single delivery quota.

In determining whether a publisher issues separate newspapers or separate editions of the same newspaper, the number and form of the reports customarily filed by the publisher with the Audit Bureau of Circulations will be controlling, in the absence of special circumstances. Thus, if a publisher filed consolidated statements with the Audit Bureau of Circulations covering morning, evening and Sunday issues, even if these issues had different names, different formats and different staffs, they will ordinarily be considered as a single newspaper for the purposes of this order. If a publisher filed separate statements with the Audit Bureau of Circulations covering his morning, evening, Sunday and other publications, they will ordinarily be considered as separate newspapers for the purposes of this order.

(c) *Camp papers and free distribution publications.* Army or Navy camp, post, station or unit "newspapers" or news sheets generally are not recognized as newspapers in the newspaper industry. They are covered by Order L-241 (commercial printing). Shopping guides, want ad periodicals and publications in newspaper format distributed free or at nominal cost also are not recognized as newspapers within the meaning of this order and are governed by Order L-241, Schedule II.

(d) *Publisher.* "Publisher" means a person who publishes a newspaper, including an individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(e) *Print paper.* "Print paper" means any grade, quality, type or basis weight of paper used in publishing a newspaper. The term includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber. It also includes roll wrappers, newsprint used as wrappers, identification sheets and labels for newspapers, and production waste, whether or not this waste is subsequently salvaged for other uses.

(f) *Use.* All production waste shall be included in the tonnage of print paper "used" in printing a newspaper. Transit damage shall not be included in a publisher's "use" of print paper. A roll of print paper is considered "used" when it is first opened and placed in production.

(g) *Net paid circulation.* "Net paid circulation" means the number of copies of a newspaper which have been sold (exclusive of bulk sales), as audited by the Audit Bureau of Circulations or (in the case of newspapers which are not members of the Audit Bureau of Circulations) as verified in accordance with the standards of the Audit Bureau of Circulations of January 1, 1942.

(h) *Inventory.* "Inventory" means all the print paper which is owned by a publisher or is available for his use. It includes the print paper which he has on hand, in storage, and in transit, and paper held for his use by a paper merchant, warehouseman or other person, regardless of its physical location.

(i) *Transfer of quotas—(1) Quotas established by different orders.* Quotas provided by one War Production Board order may not be used for the purposes set forth in any other order. Thus, for example, a publisher may not use for the printing of a newspaper any part of a consumption quota established under Orders L-241 (commercial printing), L-244 (magazines) or L-245 (books) and he may not permit any part of his consumption quota established under this order to be used for commercial printing, magazines or books. If a newspaper publisher also conducts a job printing business, he must keep these two operations separate for quota purposes. The amount of print paper which he is permitted to consume and the amount which he is limited by this order. The amount of print paper which he is permitted to consume and the amount which he is permitted to accept for his commercial printing business is limited by Order L-241.

(2) *Transfer of quotas to different persons.* The rules governing the assignability of quotas are set forth in Priorities Regulation 7a.

Consumption Quota

(j) *Allowable consumption.* In the first quarter of 1944, and in each calendar quarter after that, no publisher may use or cause to be used, in the publication of a newspaper, print paper in excess of:

(1) His quarterly consumption quota, which shall be computed in accordance with the instructions set forth in paragraph (k), plus

(2) Any less-than-quota savings carried over from previous calendar quarters, as provided in paragraph (l), plus

(3) Ex-quota tonnage, if any, which may have been granted on appeal for consumption in that quarter.

(k) *Computation of consumption quota—(1) Base tonnages.* Ascertain, separately, the tonnage of print paper comprising the net paid circulation of morning, evening, Sunday or other issues of the newspaper in the corresponding quarter of 1941. Add 3 per cent to each figure. (This 3 per cent is an arbitrary allowance to compensate for production waste and should be added whether the actual production waste in 1941 was greater or less than 3 per cent). These are the "base tonnages" for morning, evening, Sunday or other issues of the newspaper, which shall be adjusted in accordance with instructions 2, 3, and 4.

(2) *Circulation increase.* Ascertain, separately, the percentage increase or decrease in average net paid circulation of morning, evening, Sunday or other issues of the newspaper in the calendar year 1942 as compared with the calendar year 1941. (The average net paid circulation for each year shall be determined by adding together the average net paid circulation for each of the four quarters of the year and dividing by four).

(3) *Tonnage equivalent of circulation increase.* Apply, separately, the respective percentages of circulation increase or decrease determined under instruction number 2 to the respective base tonnages determined under instruction number 1 for morning, evening, Sunday or other issues of the newspaper.

(4) *Adjustment of base tonnages.* Adjust the respective base tonnages determined under instruction number 1 by adding or subtracting the number of tons represented by the percentage circulation gain or loss determined under instruction number 3.

(5) *Total adjusted base tonnage.* Total the respective base tonnages for morning, evening, Sunday or other issues of the newspaper determined under instruction number 1. Total the respective adjusted base tonnages for morning, evening, Sunday, or other issues of the newspaper determined under instruction number 4. The larger of these two totals is the publisher's "total adjusted base tonnage" from which the required reductions shall be applied.

(6) *Sliding scale of reductions.* Reduce the total adjusted base tonnage by the following sliding scale of percentage cuts:

(i) Deduct 4% of the amount over 25 tons but not over 125 tons.
(ii) Deduct 8% of the amount over 125 tons but not over 250 tons.
(iii) Deduct 12% of the amount over 250 tons but not over 500 tons.
(iv) Deduct 20% of the amount over 500 tons but not over 1000 tons.
(v) Deduct 24% of the amount over 1000 tons.

(7) *Consumption quota.* The balance remaining after subtraction of the above reductions from the total adjusted base tonnage determined under instruction number 5 is the publisher's consumption quota for the quarter.

(l) *Carry-over.* If a publisher uses less print paper than he is permitted to use in the fourth quarter of 1943, or in any calendar quarter after that, he may add this tonnage to his consumption quota in any succeeding quarter.

(m) *Exceptions for small newspapers.* The restrictions on the consumption of print paper established by this order do not apply to:

(1) *Special types of newspapers.* Any newspaper containing eight pages or less which is authorized to be admitted to the mails as second class matter under the provisions of section 521 of the Postal Laws and Regulations of 1940 (Title 39 U.S.C. sec. 229) pertaining to the publications of benevolent, fraternal, trades-union, professional, literary, historical, and scientific organizations and societies.

(2) *Newspapers using less than 25 tons per quarter.* Any newspaper which shall consume less than 25 tons of print paper in a calendar quarter, regardless of the tonnage of paper consumed previously. The publisher of any such newspaper is authorized, in addition, to increase his permitted usage by the tonnage of print paper consumed in printing copies of his newspaper furnished to the Armed Services of the United States, whether such copies are sold or are distributed free of charge.

Delivery Quota

(n) *Computation of delivery quota.* In January, 1944, and in each calendar month after that, no publisher may order or accept delivery of print paper in excess of his monthly delivery quota, which shall be computed in accordance with the following instructions:

(1) *Monthly base.* Total the publisher's consumption quotas for the third and fourth quarters of 1944. Add the ex-quota tonnage, if any, which may have been granted on appeal for use in the third and fourth quarters of 1944. Subtract the publisher's consumption in July 1944. Divide by 5.

(2) *Inventory ceiling.* The above amount shall be reduced accordingly if a publisher's inventory is, or by virtue of such order or acceptance will become, at the end of the current calendar quarter, greater than: (i) 40 days' supply for publishers in the states named in List A, (ii) 65 days' supply for publishers in the states named in List B, or (iii) 60 tons for publishers who would be limited to a smaller amount by subdivision (i) or (ii) above.

List A

Connecticut.	Nebraska.
District of Columbia.	New Hampshire.
Delaware.	New Jersey.
Illinois.	New York.
Indiana.	North Dakota.
Iowa.	Ohio.
Kansas.	Pennsylvania.
Kentucky.	Rhode Island.
Maine.	South Dakota.
Maryland.	Vermont.
Massachusetts.	Virginia.
Michigan.	West Virginia.
Minnesota.	Wisconsin.
Missouri.	

List B

Alabama.	New Mexico.
Arizona.	Nevada.
Arkansas.	North Carolina.
California.	Oklahoma.
Colorado.	Oregon.
Florida.	South Carolina.
Georgia.	Tennessee.
Idaho.	Texas.
Louisiana.	Utah.
Montana.	Washington.
Mississippi.	Wyoming.

In computing the maximum tonnage which a publisher may have in his inventory, he shall exclude any less-than-quota savings under his consumption quota carried over from previous quarters.

(3) *Computation of rate of consumption.* The number of days' supply shall be computed at the average daily rate of allowable consumption for the first six months of 1944.

(4) *Fractional carloads.* If a publisher's delivery quota for any month is less than one carload it may be increased to one full carload. If it is a whole number of carloads plus a fraction of another carload, the fraction may be added to his delivery quota for any succeeding month.

(5) *Transit damage.* If print paper in inventory is destroyed or damaged to such an extent that it becomes unusable in publishing his newspaper, whether this occurs while the paper is in transit or after it has reached its destination, the publisher may increase his delivery quota (but not his consumption quota) in the same or any subsequent month by an amount sufficient to replace such paper. It is immaterial whether or not the publisher is reimbursed for the destroyed or damaged paper by the shipper, the carrier, or an insurance company. It is also immaterial whether or not the publisher salvages all or part of the damaged paper for use other than in publishing his newspaper.

(6) *Report on transit damage.* Any publisher who increases his delivery quota to replace destroyed or damaged print paper in accordance with subparagraph 5 above shall, within 15 days after placing the order for such replacement, file a letter with the War Production Board stating the number of tons comprising the publisher's delivery quota for that month, the number of tons destroyed or damaged, the manner in which such print paper was rendered unfit for use in publishing his newspaper, and the number of tons ordered in excess of his delivery quota. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(o) *Exceptions.* (1) The provisions of paragraphs (n) (1), (n) (2), and (n) (3) do not apply to a publisher who receives print paper by Great Lakes or coastal water-borne shipments. Such a publisher may not order or accept delivery of a total amount of print paper by water, rail or otherwise in any calendar year (including both the open and the closed navigation season) in excess of his allowable consumption for that calendar year, and his inventory may not exceed 40 days' supply on May 1 of each calendar year.

(2) Permission to order or accept delivery of print paper in excess of the tonnage allowed under paragraph (n) may be granted by the War Production Board upon a written request for specific authorization stating the number of tons and the number of days' supply of print paper which the publisher has in inventory, the number of tons comprising his delivery quota, the number of additional tons he desires to order and accept, and the reasons why the denial of the request would create undue hardship.

(p) *Certification.* On and after December 24, 1943, each order by a publisher for delivery of print paper shall contain substantially the following certification, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order, and to receive the item(s) ordered for the purpose for which ordered.

No person may deliver print paper to a publisher except upon a delivery order which bears the above certification.

(q) *Copies of orders.* On and after March 1, 1944, the publisher of every newspaper which consumes 25 tons of print paper or more in any calendar quarter shall file with the War Production Board copies of all orders for the delivery of print paper placed by him or for his account. Such copies must be mailed within three days after the orders are placed. On or before March 15, 1944, every such publisher shall mail to the War Production Board copies of all orders for the delivery of print paper placed by him or for his account since January 1, 1944. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(r) *Intra-company transfers.* The foregoing restrictions apply not only to deliveries from one person to another, including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single enterprise to another branch, division, or section of the same or any other enterprise under common ownership or control.

Miscellaneous Provisions

(s) *Loans of print paper.* Any loan of print paper made by a publisher shall be reported to the War Production Board by letter within 15 days after the date of the loan. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(t) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(u) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in duplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(v) *Communications to the War Production Board.* All reports required to be filed hereunder, requests for specific authorization, appeals and other communications concerning this order shall be addressed to: War Production Board, Printing and Publishing Division, Washington 25, D. C. Ref: L-240.

(w) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[Conservation Order M-328, as Amended Aug. 10, 1944]

PROVISIONS APPLICABLE TO TEXTILES, CLOTHING AND RELATED PRODUCTS

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of textiles, clothing, leather and related products for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.118 *Conservation Order M-328—(a) Restrictions on preference ratings for textiles, clothing, leather, etc.* (This paragraph states conditions which must be met to make ratings for items on Schedule A valid. However, even though a rating is not valid for the items, this does not prevent anyone from filling a purchase order if he can do so without disregarding valid ratings on other purchase orders or disregarding other orders or directions of the War Production Board.)

No person shall apply, extend or give any effect to any preference rating heretofore or hereafter assigned, applied, or extended to the delivery of any item on Schedule A unless:

(1) The rating has been assigned by a preference rating form or letter issued by or under the authority of the War Production Board to a named applicant and the form or letter specifically describes the item and specifies the quantity, description and type which may be obtained by the rating. No rating assigned by any L, M, P or other order or by any regulation (such as CMP-5 or CMP-5A) shall be valid for any item on Schedule A, except as permitted by paragraphs (a) (2), (a) (3) or (a) (4). For example, the rating for any fabric to comply with this subparagraph must be assigned on a War Production Board form or letter naming the person to whom the rating is assigned and stating the yardage, type and construction of the fabric for which the rating is assigned. Ratings assigned on Forms CMPL-150, CMPL-200 or CMPL-201 are not valid for any Schedule A item unless the item is for military delivery as described in paragraph (a) (2), below.

(2) The rating has been assigned by or pursuant to a form, order or regulation of the War Production Board and is used to obtain the item for direct or ultimate delivery to, or for incorporation into any material for ultimate delivery to the Army or Navy of the United States (including military exchanges and service departments when the order bears the appropriate endorsement referred to in paragraph (c) of Priorities Regulation 17), the Maritime Commission or War Shipping Administration. A delivery to an establishment or ship operated under contract with one of those agencies is not in itself a direct or ultimate delivery to the Army, Navy, Maritime Commission or War Shipping Administration.

(3) The rating has been assigned by or pursuant to any supplement to this order or the particular order specified after the item on Schedule A.

(4) The material to be delivered is actually required as, or is required for incorporation in, a functioning part of industrial machinery and is one of the following numbered items on Schedule A: 1, 3 (except Seine cord, hawser cord and other cabled cord), 4, 12.

13. Steel tacks (except thumb tacks).

14. Synthetic rubber thread and products made therefrom.

(b) *How ratings must be applied and extended.* (1) Priorities Regulation 3 states rules and restrictions on the use of all preference ratings. When a rating is used, the standard certification described in Priorities Regulation 7 or the certification described in Priorities Regulation 3 must be put on a purchase order for a Schedule A item. In addition, the purchaser must use one of the following applicable certifications (with the blanks properly filled in):

(i) If the rating is assigned by an order listed on Schedule A, the special certification, if any, required by that order shall be added.

(ii) If the rating is assigned by an order listed on Schedule A, but the listed order does not require a special certification, the following shall be added:

This rating is assigned by Order _____.
[Insert number of order listed opposite the item on Schedule A.]

(iii) If the rating is assigned through the Foreign Economic Administration, the following shall be added:

This rating is assigned in connection with Export License No. _____ or Release Certificate No. _____.
[Insert license or release certificate number.]

(iv) In all other cases the following shall be added:

This rating can be used under M-328.

(2) No rating permitted by paragraph (a) (1), (a) (3) or (a) (4) above, which is applied to get a Schedule A item, shall be extended for any other Schedule A item. However, in the case of ratings permitted by paragraph (a) (1), the rating may be extended if the form or letter specifically permits the extension of the rating for and fully describes the other Schedule A item. (For example, a rating which is applied to get fabric may not be extended to get yarn, except that in a case where the rating is permitted by paragraph (a) (1), the rating may be extended if the form or letter states that it may and also states the specific quantity, count, etc. The rating may also be extended for yarn if the fabric is for an Army, Navy, Maritime Commission or War Shipping Administration order, as permitted by paragraph (a) (2). This paragraph shall not prevent the extension of a rating for finished fabrics to get fabrics in the gray state.

(c) *Specific directives.* The war Production Board may issue specific directions to individual producers or processors of items listed in Schedule A, with respect to the production, fabrication, processing or delivery of items to meet particular military or civilian requirements, and no producer or processor shall produce, fabricate, process, deliver or accept delivery contrary to directions.

(d) *Equitable distribution.* (This paragraph does not apply to sales by retailers, inasmuch as the Fair Distribution Policy for retailers is defined in Declaration of Policy of July 15, 1943.) Preference ratings are given to certain orders to further the war program. It is the policy of the War Production Board that items listed in Schedule A not required to fill rated orders shall be distributed equitably. In making such distribution due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filing of orders as between persons who meet the seller's regularly established prices and terms of sale or payment.

Under this policy every seller of the items, so far as practicable, should make available an equitable proportion of his merchandise to his customers periodically, without prejudice because of their size, location or relationship as affiliated outlets.

It is not the intention to interfere with established channels and methods of distribution unless necessary to meet war or essential civilian needs. If voluntary observance of the policy outlined is inadequate to achieve equitable distribution, the War Production Board may issue specific directions to named concerns. A failure to comply with a specific direction shall be deemed a violation.

(e) *Rejects, over-runs and seconds*—(1) *Definitions.* "Reject" means a Schedule A item which was obtained or produced with priorities assistance and which cannot be used for the purpose for which the priorities assistance was given, or which was made to fill a rated order and (i) is so defective that it will be refused if tendered, (ii) the purchaser has refused, or (iii) the purchaser has notified the seller will be refused because of defects, failure to deliver on time, or termination of the procurement of the United States Government or any of its agencies for which the product was ordered. The term includes seconds, over-runs, and by-products, but does not include waste, scrap or cuttings normally generated in a manufacturing process.

A "Second" is a Schedule A item which was obtained or produced with priorities assistance and which cannot be used for the purpose for which the priorities assistance was given, or which was made to fill a rated order, but not actually offered or tendered to the purchaser because not first quality goods.

An "Over-run" is a Schedule A item which was obtained or produced with priorities assistance and which cannot be used for the purpose for which the priorities assistance was given, or which was made to fill a rated order but not delivered because it is in excess of the quantity actually needed for the order which it was made to fill.

A "By-product" is anything produced in whole or in part from another reject.

"Priorities assistance" means a preference rating, allocation, specific direction, CMP allotment, or any other action of the War Production Board used to obtain a material or product.

(2) *No one may purposely make a reject.* No manufacturer, processor or converter shall manufacture, process or order any product on Schedule A which he knows or should know will be a reject. This paragraph does not prohibit the production of seconds, over-runs or by-products to the extent that they are unavoidable in the manufacturer's operations.

(3) *Restrictions on the disposition of rejects.* No manufacturer, processor or converter shall sell or deliver a reject listed on Schedules B or C, and no one may accept delivery of such reject except as permitted by this subparagraph (e) (3) or by the schedule on which it is listed.

NOTE: Undesignated paragraph under subparagraph (3) deleted Aug. 10, 1944.

Any item listed on Schedule A, but not listed on Schedules B or C, or covered as to disposition of rejects by M-310 or by any direction issued pursuant to this order, may be disposed of for use in the United States or to fill a rated order without regard to the limitations of § 944.11 of Priorities Regulation 1.

(4) *How to get needed permission to dispose of a reject.* Any manufacturer who under the terms of this order needs specific permission to dispose of a reject may apply by letter to the War Production Board stating (where applicable) the number of the contract, the amount of material to be produced under it, the kinds of such material, a detailed statement of quantities and kinds of rejects, a copy of the rejection, and a statement of the efforts he has made to dispose of the rejects to the buyer. If the War Production Board decides he ought to be allowed to dispose of the reject, it will give him specific instructions.

(5) *Effect of specific instructions on disposition.* The War Production Board may issue specific instructions in writing to anyone respecting the use and disposition of rejects. These instructions may relate to rejects not yet manufactured on the date of their issuance. They must be obeyed even if they conflict with other provisions of this order.

(6) *Reports.* Manufacturers of textile, clothing and leather products shall report their rejects at such times and in such manner as the War Production Board may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(7) *Records.* All persons affected by this order shall keep for at least two (2) years records showing the quantities and kinds of rejects produced by them and the disposition thereof.

SCHEDULE B—REJECTS WHICH MAY BE DELIVERED ONLY ON SPECIFIC AUTHORIZATION OF THE WAR PRODUCTION BOARD

NOTE: Schedule B amended Aug. 10, 1944.

Material obtained under Conservation Order M-385 or M-328B.

SCHEDULE C—REJECTS, IF NOT SECONDS OR SHORTS, WHICH MAY BE DELIVERED ONLY FOR USE IN THE UNITED STATES AND ONLY FOR THE SPECIFIED END USES STATED BELOW, OR TO FILL A RATED ORDER

8.5 oz. herringbone twill for footwear and foundation garments.

6 oz. combed twill for clothing.

7.5 oz combed navy twill for footwear and foundation garments.

8 oz. wind resistant poplin for foundation garments and clothing.

9 oz. sateen for foundation garments, footwear and clothing.

(f) *Exceptions from restrictions on "cutbacks" or terminations.* The War Production Board in any case where it finds that, by reason of cut-backs or terminations of Government contracts or subcontracts, compliance with any restriction on the manufacture, use, sale or delivery of any item on Schedule A would cause a loss of production or interfere with the filling of civilian orders, may grant temporary exceptions from such restriction.

NOTE: Paragraph (g), formerly (f), redesignated Aug. 10, 1944.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(2) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications.* All reports to be filed hereunder and communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C., Ref: M-326.

(4) *Appeals.* Any appeal from the provisions of paragraphs (c), (d) or (e) of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from, and stating fully the grounds of the appeal. An appeal for suspension of a direction under paragraph (c) may be made on the ground that compliance with the direction will result in production at a loss, provided that an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, requirements of a direction for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

Issued this 10th day of August 1944.

Recording Secretary.

INTERPRETATION 1

RATIONS FOR TWINE AND WRAPPING MATERIALS

Ratings for twine and other materials on Schedule A of M-326 used for wrapping must conform to the conditions specified in paragraph (a) of the order to be valid.

Such materials used to wrap products are not incorporated into the product which is wrapped. Therefore, a rating which can be used to get material to be incorporated into a product cannot be used to get twine with which to wrap the product even though the product is going to be delivered to one of the Government agencies mentioned in paragraph (a) (2). PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[MPR 426,[2] Amdt. 49]

FRESH FRUITS AND VEGETABLES FOR TABLE USE, SALES EXCEPT AT RETAIL

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Section 15 of Maximum Price Regulation 426 is amended in the following respects:

1. Appendix G is revoked.

2. Appendix K in section 15 of Maximum Price Regulation 426 is amended in the following respects:

a. In paragraph (a) the phrase "Apples (except lady apples and crab apples)" is added under the word "Grapes".

b. Paragraph (b) (3) is amended by adding an undesignated paragraph to read as follows:

"Standard container", in the case of apples, means any of the following listed containers which is closed and packed in accordance with the requirements specified for each:

Bushel basket of 2150.42 cu. in. capacity, faced and filled packed, "slightly slack" or tighter, with graded apples.

United States standard barrel of 7056 cu. in. capacity, faced and filled packed, "fairly tight" or tighter, with graded apples.

*Copies may be obtained from the Office of Price Administration.

[2] 8 F.R. 16409, 16294, 16519, 16423, 17372; 9 F.R. 790, 902, 1581, 2008, 2023, 2091, 2493, 4030, 4066, 4068, 4434, 4786, 4787, 4877, 5926, 5929, 6104, 6106, 6420, 6711, 7259, 7268, 7580, 7425, 7583, 7750, 7774, 7834, 8148, 9066, 9090.

Apple box WPB–L232 No. 1, with flexible top and bottom, tier-packed, "fairly tight" or tighter, with graded and individually wrapped apples.

Apple box WLB–L232 No. 2, Apple box WPB–L232 No. 3[1], Apple box WPB–L232 No. 58 — tier-packed or faced and filled packed, "fairly tight" or tighter, with graded apples.

[1] Apple box WPB–L232 No. 3 when packed with graded McIntosh apples, need not be tier-packed or faced and filled packed, but must be packed "fairly tight" or tighter with graded apples.

"Slightly slack", in the case of baskets, means that the apples are not below the level of the top of the basket but there is still some movement of the apples within the basket upon handling.

"Fairly tight", in the case of barrels, means that the pack is tight enough to prevent apples from moving within the barrel sufficiently to cause injury, but not as ideal as a tight pack, and likely to loosen sooner than normally should be the case. There will be very little bruising or crushing at the tail.

"Fairly tight", in the case of apple box WPB–L232 No. 1, means that the apples are packed tight enough to prevent them moving within the package sufficiently to cause injury under ordinary handling conditions.

"Fairly tight", in the case of apple box WPB–L232 No. 2, No. 3 and No. 58, means that the package is sufficiently filled to prevent any appreciable movement of the apples, and that the apples are in contact with the lid or cover.

To be a standard container the container must be packed "slightly slack" or tighter, or "fairly tight" or tighter, as the case may be, at the time of shipment from the shipping point, and thereafter until a government inspection certificate is secured showing that the container is "slightly slack" or tighter, "fairly tight" or tighter, as required for the particular standard container, and the container is marked with a lot number which is also described in the government inspection certificate. However, the condition that the container be packed "slightly slack" or tighter, or "fairly tight" or tighter, at the time of shipment from the shipping point shall be deemed satisfied where the particular goods are sold and placed in storage by the buyer prior to shipment from the shipping point, if the container is packed "slightly slack" or tighter, or "fairly tight" or tighter, as the case may be, at the time of delivery to the buyer.

c. A new subparagraph (3) is added to paragraph (c) to read as follows:

(3) *As to apples.* For the purposes of this appendix, standard containers shall be classified as follows:

CLASS D

(1) Bushel basket of 2150.42 cu. in. capacity — closed and faced and filled packed "slightly slack" or tighter.

(2) United States standard barrel of 7056 cu. in. capacity — closed and faced and filled packed "fairly tight" or tighter.

(3) Apple box WPB–L232 No. 1 — closed and tier-packed "fairly tight" or tighter.

(4) Apple box WPB–L232 No. 2, (5) Apple box WPB–L232 No. 3[1], (6) Produce box WPB–L232 No. 58 — closed and tier-packed or faced and filled packed "fairly tight" or tighter.

[1] Apple box WPB–L232 No. 3, when packed with graded McIntosh apples, need not be tier-packed or faced and filled packed, but must be packed "fairly tight" or tighter.

d. Paragraph (d) (4) is revoked and new subparagraphs (4) and (5) added to paragraph (d) to read as follows:

(4) *As to standard containers in Class D.* (i) The grower-packer shall plainly mark each standard container in Class D sold by him to show the following:

(1) The name and address of the grower-packer.

(2) The volume of the contents.

(ii) In addition, where apples have been placed in storage, each seller, including a grower-packer, shipping point distributor or carlot distributor, who ships the particular fruit being priced from the shipping point shall, at the time of shipment, plainly mark each standard container to show the following:

(1) The name and address of the shipper.

(2) The volume of the contents.

(5) *As to non-standard containers.* If a container would be a standard container in Class A except for the fact that it is not packed "fairly tight" or tighter, or if a container would be a standard container in Class B except for the fact that it has a net weight not within the weight ranges for the particular container, or if a container would be a standard container in Class C except for the fact that it has a net weight less than that specified for the particular container, or if the container would be a standard container in Class D except for the fact that it is not packed "slightly slack" or tighter, or "fairly tight" or tighter, as specified for the particular container, or if the fruit is in any other closed container, each seller, including a grower-packer, shipping point distributor or carlot distributor, prior to and including time of shipment from the shipping point, shall plainly mark the container to show the following:

(1) The name and address of the seller.

(2) A minimum net weight. This may be lower, but in no case higher than the actual net weight (a) at the time of sale, or (b) at the time of shipment from shipping point in the case of shipment before sale.

The weight-marking requirement does not apply to open containers. Section 14a (a) does not apply to this appendix.

e. Paragraph (e) (4) is revoked, paragraph (e) (5) is redesignated (e) (6), and subparagraphs (4) and (5) are added to paragraph (e) to read as follows:

(4) *Standard containers in Class D.* For standard containers in Class D, the maximum price is named in Column 5 or 6 of the applicable table in paragraph (f). However, the maximum price for any container which would be a standard container except for the fact that it is not packed in accordance with the requirements specified for standard containers of apples (see paragraph (b) (3)) shall in no event be greater than the maximum price for the standard container.

(5) *Non-standard containers.* (i) All fruit offered for sale in closed containers which do not meet the requirements of standard containers in Class A, Class B, Class C, or Class D shall be sold on the basis of actual net weight.

(ii) All fruit offered for sale in bulk or open containers shall be sold on a basis of actual net weight.

f. In paragraph (f), Table 3 is added to read as follows:

[RMPR 165, Rev. Supp. Service Reg. 30]

COMMISSION SELLING OF COAL

Supplementary Service Regulation No. 30 is redesignated Revised Supplementary Service Regulation No. 30 and is revised and amended to read as follows:

A statement of the considerations involved in the issuance of this Revised Supplementary Service Regulation No. 30, issued simultaneously herewith, has been filed with the Division of the Federal Register. For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders 9250 and 9328 Revised Supplementary Service Regulation No. 30 is hereby issued.

[1] Copies may be obtained from the Office of Price Administration.

[2] 8 F.R. 16794; 9 F.R. 584, 4606, 6107.

[3] 9 F.R. 1385.

§ 1499.2263 *Modification of maximum prices established by Revised Maximum Price Regulation No. 165 for commission selling of bituminous coal or Pennsylvania anthracite.* (a) If you engage in commission selling of bituminous coal or Pennsylvania anthracite, you are subject to this Revised Supplementary Service Regulation No. 30.

If, prior to November 29, 1943 and during any part of that year, you had in effect a contract with a mine specifying a commission in terms of percentage rate or rates of selling price by size, use or method of shipment, your maximum commission shall be such percentage rate or rates applied to the applicable October 1943 maximum price for sales of the corresponding sizes, uses and methods of shipment currently made from the same mine. If the commission was specified in terms of cents per ton for sales by sizes, uses or method of shipment, your maximum commission shall be such cents per ton for sales of the same sizes, uses or method of shipment currently made from the same mine.

If during October 1943 you sold none of the coals of a mine or if no coals of a size, or for a use, or by a method of shipment were covered by a contract you had in effect in October 1943 with a mine, your maximum commission shall be your maximum commission under Revised Maximum Price Regulation No. 165 applied to the same mine's applicable maximum price in effect in October 1943 by size, use or method of shipment, as the case may be, of the coals sold by you. Where the mine's maximum prices were first set after October 1943, your maximum commission shall be your maximum commission under Revised Maximum Price Regulation No. 165 applied to the schedule applicable maximum price in October 1943 for the price designation assigned the coals of such mine by the Office of Price Administration (as by price classification, price group, production group, or subdistrict number), or for the price designation applicable to the coals under § 1340.210 (a) (6) of Maximum Price Regulation No. 120.

If, prior to November 29, 1943 and during any part of that year, you had in effect a contract providing varying cents per ton commissions for the sale of various tonnages of a mine's production, and if the contract made no other provision for commissions, as by percentage rate of selling price, you may observe the terms of such contract in full as to the same mine only without regard to this Revised Supplementary Service Regulation No. 30.

(b) The Administrator may by order adjust your maximum price established under the first pricing rule of this Revised Supplementary Service Regulation No. 30 if you file an application in accordance with Revised Procedural Regulation No. 1 showing:

(1) That you entered into such contract with a producer initially in 1943;

(2) That both you and the producer substantially agreed in the same contract that the commission specified was to be temporary pending experience to be gained during a trial period by you as to selling costs or by the producer as to costs of production, or both, or otherwise; and

(3) That the commission charged in October 1943 was less than your maximum under Maximum Price Regulation No. 165.

An adjustment granted under this paragraph will not exceed your maximum commission under Revised Maximum Price Regulation No. 165.

(c) As used in this Revised Supplementary Service Regulation, the terms:

(1) "Bituminous coal" means coal sold subject to Maximum Price Regulation No. 120—Bituminous Coal Delivered from Mine or Preparation Plant.

(2) "Pennsylvania anthracite" means coal sold subject to Maximum Price Regulation No. 112—Pennsylvania Anthracite.

This Revised Supplementary Service Regulation No. 30 (§ 1499.2263) to Revised Maximum Price Regulation No. 165 shall become effective August 15, 1944.

NOTE: All record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 10th day of August 1944.

Administrator.

(6) Such well is drilled at least 330 feet from every lease line, property line, or subdivision line which separates any unconsolidated property interests; and

(7) Such well is drilled with due diligence to maintain a vertical well-bore.

(g) *Computation of attributable acreage.* (1) The acreage attributable to any well spudded on or before December 23, 1941, shall be determined by assigning to such well an acreage equivalent to that in the existing well density or drilling pattern contiguous to such well.

(2) The acreage attributable to any well spudded after December 23, 1941, shall be the same as the drilling unit assigned to the well pursuant to Conservation Order M-68, Petroleum Administrative Order No. 11, or any supplement or exception thereto, or any amendment thereof.

TITLE 42—PUBLIC HEALTH

Chapter I—United States Public Health Service, Federal Security Agency

PART 28—PAYMENTS TO PROVIDE TRAINING FOR NURSES

MISCELLANEOUS AMENDMENTS

Pursuant to the authority contained in Public Law 74, 78th Congress, approved June 15, 1943, as amended by Public Law 248, 78th Congress, approved March 4, 1944, providing for the training of nurses for the armed forces, governmental and civilian hospitals, health agencies and war industries, through grants to institutions providing such training, and for other purposes, and after conference with the Advisory Committee appointed by the Federal Security Administrator to represent the nursing profession, hospitals, and accredited nurses training institutions, §§ 28.4 (h), 28.5, and 28.7 (42 C.F.R. 28.1 (h); 28.5; 28.7) of the regulations of the Surgeon General, United States Public Health Service, governing payments to provide training for nurses are hereby amended to read as follows:

§ 28.1 *Definitions of terms used in the act and in these regulations*—(h) *Training period.* This term refers to the combined pre-cadet period, junior cadet period, and senior cadet period. With reference to a basic nursing curriculum for which a degree is given, this training period may not exceed thirty-six months in length.

§ 28.5 *Approval of plans and determination of allotments.* An institution desiring to receive an allotment under this act must submit to the Surgeon General, on forms provided by the Public Health Service, a proposed plan for participation in any of the programs defined above, including supporting budgets for the current Federal fiscal year. Students in the school may enroll in the Corps only when the plan goes into effect or on the first day of any succeeding month.

Plans for new programs or revised budgets for existing programs may be submitted for approval at any time during the Federal fiscal year. Consideration and approval of such plans or budgets will be contingent upon availability of funds for allotment.

A plan for training of nurses may be limited to basic student nurse training, or to postgraduate or refresher-nursing programs, or may include any or all of these. A plan submitted by any institution will be approved only if it conforms to the requirements of Public Law 74, 78th Congress, and to the requirements for participation set forth in §§ 28.2, 28.3, and 28.4, of these regulations. A plan may be approved by the Surgeon General for a period of three months, six months, or one year. Not less than thirty days before the end of such period the institution must submit a plan for the continuation of the program for approval by the Surgeon General. The Surgeon General may disapprove the plan for continued participation by the institution. In such event no further allotments will be made. If a plan is approved Federal funds will be allotted by the Surgeon General within the limits of available appropriations.

Allotments will be limited to the following:

(a) *Student nurse (basic) training program.* (1) Reasonable tuition and fees for pre-cadet and junior cadet nurses, and reasonable fees for senior cadet nurses.

(2) Reasonable maintenance for the student's first nine months in the training period: *Provided*, That during such first nine months the hours of student practice in the hospital do not exceed an average of twenty-four per week and that the hours of combined practice and class do not exceed forty-eight in any one week; *Provided further*, That the Surgeon General may in the case of schools in which combined pre-cadet and junior cadet periods are less than thirty months waive this limitation.

(3) Stipends of $15 per month for pre-cadet nurses and $20 per month for junior cadet nurses, which shall be paid by the school to the student at the end of each month or semi-monthly, depending upon the fiscal policies of the school. These allotments will not include stipends to senior cadet nurses. These must be paid by the institution to which an allotment was made or to which the senior cadet nurse was transferred for training.

(4) An amount covering the cost of outdoor uniforms and insignia not to exceed a reasonable amount to be determined by the Surgeon General; such allowances for uniforms and insignia may be expended only if such uniforms and insignia conform to the requirements as outlined in "Regulations for uniforms for U. S. Cadet Nurse Corps" as prescribed by the Surgeon General.

(b) *Refresher program.* Reasonable instructional costs and fees.

(c) *Postgraduate program.* Reasonable tuition, fees, and maintenance.

DEFINITIONS

§ 51.1 *Employees.* (a) For the purpose of statistical count and classification the word employees, as used in this part, is intended to include all persons in the service of the reporting company subject to its continuing authority to supervise and direct the manner of rendition of their service.

(b) All persons employed by the company as agents and paid exclusively on a commission basis should not be reported as employees of the company.

(c) Temporary, occasional, extra and similar employees should be included in the count of employees.

(d) Employees who are on paid vacations during the period for which information is required should be reported as regular employees.

(e) Employees on leave of absence or furloughs not paid for by the company should not be included in the statistical count and classification.

(f) Employees temporarily on leave on account of disability due to accident or sickness should be included in the statistical count and classification.

(g) Pensioners not required to render service should not be included as employees of the company. Pensioners recalled to service should be counted as regular employees and should be counted and classified in the occupational group in which they are employed.

COUNTING EMPLOYEES

§ 51.11 *Method; time at which counted.* Telephone companies are required to classify and count their employees, male and female separately, at two different times each year; viz, as of the end of each of the months of June and October. The last day of the month shall be considered the end of the month, except when it falls on a Sunday or a holiday, in which case the count shall be made as of the last preceding business day. Every person sustaining to the telephone company the relation of employee, as defined in § 51.1, shall be included in the count.

§ 51.12 *Joint employees.* (a) Each person (except as provided in paragraph (b)) concurrently engaged under a joint arrangement in the service of two or more telephone companies, shall be considered a joint employee and shall be counted by each telephone company involved in such joint service arrangement and represented in its return of the number of employees by a fraction based on the number of telephone companies served. For example, if such an employee is in the service of three telephone companies, each such company shall report him under the number of employees as one-third of an employee. If, however, the entire compensation of an employee concurrently engaged in the service of two or more telephone companies is borne by a single telephone company, he shall, for the purpose of these returns, be treated as an employee of that company and not as a "joint" employee.

(b) A person employed by and serving two or more telephone companies in the capacity of a general officer but acting independently for each company shall be counted and reported as one employee by each company. The term "general officer" as here used means an officer serving a company in such a capacity as that of president, vice president, secretary, treasurer, general counsel, general solicitor, controller, general auditor, general manager, or chief engineer.

INFORMATION REQUIRED

§ 51.21 *Scheduled weekly hours.* (a) The total number of weekly hours scheduled for employees at the end of October in each classification set forth in §§ 51.32 to 51.39, inclusive, shall be reported.

(b) Scheduled weekly hours are defined as an employee's regular tour of duty multiplied by the number of days, or fraction of days, scheduled to be worked during a week.

(c) For each occupational classification the total number of weekly hours scheduled shall include the hours of work of part-time and full-time employees.

(d) Full-time employees are those regularly assigned full time. Part-time employees are those regularly assigned shorter hours than a full-time schedule.

(e) Scheduled hours should include paid vacation and holiday hours.

(f) The hours of work of employees temporarily on leave on account of disability due to accident or sickness should be reported as the regularly scheduled hours of these employees.

§ 51.22 *Scheduled weekly compensation.* (a) The total amount of weekly compensation scheduled for employees at the end of October in each classification set forth in §§ 51.32 to 51.39 inclusive, shall be reported.

(b) Scheduled weekly compensation is defined as the wages scheduled to be paid for scheduled weekly hours as defined above in § 51.21 (b). This should include employee contributions for old age bene-

fits, unemployment insurance and similar deductions, paid vacation and holiday hours, the regularly scheduled weekly compensation of employees temporarily on leave due to disability or sickness, and the scheduled weekly compensation of both full-time and part-time employees.

(c) Payments scheduled to pensioners should not be included.

§ 51.23 *Hourly rate of pay.* (a) Persons in the employ of the company at the end of October in occupational groups outlined below in §§ 51.33 to 51.39 inclusive shall be classified according to their hourly rate of pay.

(b) The hourly rate of pay is defined as the scheduled weekly compensation, as described in § 51.22, divided by the scheduled weekly hours, as defined in § 51.21.

CLASSIFICATION ON BASIS OF CHARACTER OF SERVICE

§ 51.31 *Basis of classification.* Employees shall be classified with respect to character of service rendered in accordance with definitions of classes given below. OFFICE OF PRICE ADMINISTRATION.

[RMPR 342, Order 1]

NAIL KEG STAVES

APPROVAL OF MAXIMUM PRICES

Order No. 1 under section 6 of Revised Maximum Price Regulation 342. Nail kegs and nail keg staves and heading.

Applications have been made by principal producers representing more than 60 percent of the nail keg stave industry for increased prices on staves on the basis that present production costs will not permit production at present ceiling prices. The problem is general in nature, and the data supporting the individual applications are inadequate for general price action. Since maximum production of staves is necessary for use in nail kegs to package essential war commodities, and acquisition of necessary additional data will require some time, the granting of authorization to use adjustable pricing, pending receipt of additional information and further action by this Office, is deemed necessary to promote production and distribution of the commodities involved. The granting of such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

Therefore, under authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942,

as amended, and Executive Orders Nos. 9250 and 9328, and pursuant to section 6 of Revised Maximum Price Regulation 342; *It is ordered:*

(a) Sellers of nail keg staves under Revised Maximum Price Regulation 342 may sell and deliver, and any person may buy and receive from such sellers, nail keg staves at prices adjustable to those later established by the Office of Price Administration.

(b) However, prices in excess of the maximums currently established in the regulation may not be collected or paid, pending further action by this Office.

(c) This order shall expire at the end of 60 days from its effective date.

This order shall become effective August 10, 1944.

Issued this 9th day of August 1944.

SLACK STAVES

APPROVAL OF MAXIMUM PRICES

Order No. 1 under section 9 of Maximum Price Regulation 481. Slack Cooperage and Cooperage Stock.

Applications have been made by principal producers representing more than 60 percent of the slack cooperage stave industry for increased prices on staves on the basis that present production costs will not permit production at present ceiling prices. The problem is general in nature, and the data supporting the individual applications are inadequate for general price action. Since maximum production of staves is necessary for use in kegs and barrels to package essential war commodities, and acquisition of necessary additional data will require some time, the granting of authorization to use adjustable pricing, pending receipt of additional information and further action by this Office, is deemed necessary to promote production and distribution of the commodities involved. The granting of such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

Therefore, under authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, and pursuant to section 9 of Maximum Price Regulation 481; *It is ordered:*

(a) Sellers of slack staves under Maximum Price Regulation 481 may sell and deliver, and any person may buy and receive from such sellers, slack staves at prices adjustable to those later established by the Office of Price Administration.

(b) However, prices in excess of the maximums currently established in the regulation may not be collected or paid, pending further action by this Office.

(c) This order shall expire at the end of 60 days from its effective date.

This order shall become effective August 10, 1944.

Issued this 9th day of August 1944.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 8th day of August, A. D. 1944.

Notice is hereby given that an application has been filed with this Commission pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 by Southwestern Public Service Company ("Southwestern") for an order that it

has ceased to be a holding company upon consummation of the sale of its sole remaining subsidiary, Gulf Public Service Company. Applications and declarations concerning the sale of the latter company by Southwestern were approved by the Commission on August 3, 1944. Said application states that Southwestern consents and stipulates to such order of the Commission containing terms and conditions which will provide for the retention of jurisdiction by the Commission over Southwestern as to (1) the disposition by Southwestern of its interest in certain properties located in east-central Texas as required by the Commission's order dated July 8, 1942; (2) whether Southwestern may retain under section 11 (b) (1) of the act certain water and ice properties located in Oklahoma and Kansas; (3) the restriction of payment of common stock dividends unless provision has been made for a sinking fund for retirement of Southwestern's preferred stock contained in the Commission's order dated September 14, 1942, and (4) the condition in the Commission's order dated July 8, 1942 that Southwestern amortize the excess of cost of properties acquired in 1942 over the net values of such properties carried on the books of the sellers. Said application further requests that the Commission's order rescind and terminate the amended restriction on the payment by Southwestern of dividends on its common stock contained in the Commission's order of December 2, 1943 and the condition contained in the Commission's order of July 8, 1942 that no charge shall be made by Southwestern to its capital surplus account without the approval of the Commission.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held in respect to said matter and that said application shall not be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matter under the applicable provision of said act and rules and regulations of the Commission thereunder be held on August 24, 1944 at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause will be shown why such application shall be granted. Notice is hereby given to said above-named applicant and to all interested persons, said notice to be given to said applicant by registered mail and to all other persons by publication in the FEDERAL REGISTER. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by the rules of practice, Rule XVII, on or before August 21, 1944.

It is further ordered, That Charles S. Lobingier or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings at such time. The officer so designated to preside at such hearing is hereby authorized to exercise all power granted to the Commission under section 18 (c) of said act and to the trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by said application otherwise to be considered in this proceeding, particular attention will be directed at such hearing to the following matters and questions:

1. Whether the requested declaration of status is consistent with all applicable requirements of the act and rules thereunder;

2. Whether it is necessary or appropriate for the protection of investors to impose any terms and conditions and, if so, what terms and conditions should be imposed.

Issued this 9th day of August 1944.

S. W. ANDERSON,
Program Vice Chairman.

INTERPRETATION 1

EFFECT ON OUTSTANDING RATINGS

Priorities Directive 3 was revoked by Directive 27 effective January 1, 1944. At the same time Order M-149 was also revoked. Nevertheless, ratings assigned by the Foreign Economic Administration (or its predecessors, the Board of Economic Warfare and the Office of Economic Warfare) before that date may still be applied and extended. § 944.4 (a) of Priorities Regulation 1, regarding the effect of revocation of a preference rating order, does not apply since the ratings were not assigned by those instruments but by the Foreign Economic Administration or its predecessors under specific authorizations from the War Production Board, which remain in effect. The method of application and extension is now provided by Priorities Regulation 3. (Issued Feb. 25, 1944.)

[Directive 29, as Amended Aug. 11, 1944]

NATIONAL EMERGENCY SPECIFICATIONS FOR THE DESIGN, FABRICATION AND ERECTION OF STRESS GRADE LUMBER AND ITS FASTENINGS FOR BUILDINGS

Pursuant to the authority vested in me by Executive Orders No. 9024 of January 16, 1942, No. 9040 of January 24, 1942, and No. 9125 of April 7, 1942, and pursuant to the policy stated in the Joint Directive of the War Production Board and the War and Navy Departments dated May 20, 1942, and the Army and Navy Munitions Board "List of Prohibited Items for Construction Work", dated April 1, 1942, as revised and supplemented, the following policy is prescribed (1) for the War Production Board and for the Army, Navy, Maritime Commission, Reconstruction Finance Corporation, National Housing Agency, and (2) for all other Departments and Agencies in respect to war construction and the financing of war construction.

§ 905.2 *National Emergency specifications for design, fabrication and erection of stress grade lumber and its fastenings for buildings.* (a) "National Emergency Specifications for the Design, Fabrication and Erections of Stress Grade Lumber and its Fastenings for Buildings" issued by the War Production Board on August 9, 1943, as supplemented and corrected July 20, 1944 shall apply to and shall govern the design, fabrication and erection of all buildings in which stress grades of lumber are used, and which are constructed by, or the construction of which is financed by or must be approved by any of such departments or agencies. Such emergency specifications shall be used only in the design, fabrication and erection of buildings to the extent stress grades of lumber are used and the contracts for which are placed on and after November 1, 1943, but such departments and agencies are empowered to put this directive into immediate effect wherever possible. As used herein, "stress grade" lumber means lumber which has been graded for strength by a recognized lumber grading or inspection bureau or agency.

(b) Nothing herein shall prevent the Army, Navy, or Maritime Commission from specifying and using higher stresses than those set forth in such emergency specifications for any buildings which are under their control.

(c) With respect to any such contracts already placed by any of said departments or agencies, or entered into prior to November 1, 1943, the department or agency concerned shall review the contract promptly and shall change to said emergency specifications unless such change will result in a substantial delay in the war effort.

(d) Authority to depart from the provisions of this directive may, upon specific request, be granted by the War Production Board. Applications for such authority shall be submitted in writing with the application for permission to begin construction, or, if no such application is necessary, by letter addressed to: War Production Board, Conservation Division, Washington 25, D. C., Ref.: Directive 29.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-801]

SIMO REALTY COMPANY, INC. AND THE RITZI

Simo Realty Company, Inc., as owner, and Thelma Mogul Barsky, doing business as The Ritzi, as tenant, both of 3632 North Broad Street, Philadelphia, Pennsylvania, began construction on the remodeling of a store at 46-48 East Main Street, Norristown, Pennsylvania, on or about April 3, 1944, without authorization from the War Production Board, and continued construction until ordered to stop, at which time $1,500 had already been expended.

Both owner and tenant were aware of War Production Board restrictions on construction and doing this construction without authorization constituted a wilful violation of Conservation Order L-41, which has diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.601 *Suspension Order No. S-601.* (a) Neither Thelma Mogul Barsky, doing business as The Ritzi, her successors or assigns, nor Simo Realty Company, Inc., nor its successors or assigns, nor any other person, shall do any construction on the premises at 46-48 East Main Street, Norristown, Pennsylvania, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Thelma Mogul Barsky, doing business as The Ritzi, her successors or assigns, nor Simo Realty Company, Inc., nor its successors or assigns, nor any other person, from any restriction, prohibition, or provision contained in any order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance.

Issued this 10th day of August 1944.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Supplementary Order L–193–a, as Amended Aug. 11, 1944]

SPROCKET CHAIN, SPROCKET CHAIN ATTACHMENT LINKS AND SPROCKET CHAIN WHEELS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of sprocket chain, sprocket chain attachment links and sprocket chain wheels for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.53 *Supplementary Limitation Order L–193–a—(a) Definitions.* The definitions in General Limitation Order L–193 do not apply to this order. For the purpose of this order "sprocket chain" means any chain and attachment links except ladder chain, designed for the purpose of operating over toothed sprocket wheels.

(b) *Inventory limitations.* No person who, in the course of his business, purchases and incorporates sprocket chain or sprocket chain wheels into machinery or equipment manufactured in whole or in part by him, or who purchases such chain or wheels for resale as such, shall accept delivery thereof if his total inventory will, after acceptance, exceed what he reasonably expects to use or resell during the succeeding 45 days. No person may deliver sprocket chain or sprocket chain wheels if he knows or has reason to believe that such delivery will increase the recipient's inventory above this 45 day limitation.

(c) *Report required before accepting delivery of sprocket chain in excess of certain quantities.* (1) No person, except a distributor assigned a preference rating on Form WPB–547 (Formerly PD–1X), may accept delivery of more than the following quantities of sprocket chain during September 1944, or during any subsequent calendar month, unless he has first reported by letter to the War Production Board on or before the 20th day of the preceding calendar month the facts relating thereto set forth in Appendix A to this order:

Steel detachable type sprocket chain	$500
Malleable iron detachable type sprocket chain	500
Sprocket chain other than detachable type	1,000

Any such person who has ordered or who may order sprocket chain for delivery during September 1944, or any subsequent calendar month, in quantities in excess of those stated above, is forbidden to accept delivery thereof (even though it is a rated order or the purchaser has been authorized to accept delivery under any other order, regulation or certificate of the War Production Board) if he has not filed with the War Production Board the report required by this paragraph. A person who instructs his supplier to reduce, postpone or cancel shipment to the extent necessary to bring his monthly receipt of sprocket chain within the quantities herein specified, and does not accept delivery in excess of these quantities need not file the report. If a supplier knows or believes that a person who should file a report has not done so, he may not make deliveries of sprocket chain to such person. In the case of export business, the supplier or his customer may file the report.

(2) Until otherwise notified by the War Production Board, a person who has filed the report may receive sprocket chain during the calendar month covered

[1] Formerly Part 3115, § 3115.16.

by his report and may place orders or leave in effect orders previously placed for delivery in future months, to the extent permitted by any other applicable order, regulation or certificate of the War Production Board.

(3) The War Production Board may issue directions to any person requiring him to reduce, postpone or cancel his unfilled orders for delivery of sprocket chain during the calendar month covered by his report or any future calendar month, when it finds (i) that the deliveries which he has requested appear to be in excess of the minimum practicable amounts required to fulfill his authorized production schedule or in excess of the inventory permitted by paragraph (b) or (ii) that some adjustment in his receipts of sprocket chain is necessary in order to distribute the available production thereof equitably between him and other persons to assure more uniform fulfillment of approved programs. A copy of such direction will be sent by the War Production Board to the supplier.

NOTE: Paragraphs (d), (e), (f) and (g) formerly (c), (d), (e) and (f) redesignated Aug. 11, 1944.

(d) *Exemptions.* The provisions of paragraphs (b) and (c) do not apply to (1) Army maintenance depots, Navy yards, bases, stations and depots (2) minimum production runs,[1] or (3) automotive replacement parts, as defined in Order L–158, as amended.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

(f) *Appeals.* Any producer or purchaser of sprocket chain or sprocket chain wheels who believes that the terms of this order result in undue hardship may appeal by letter stating the relief requested and the reasons it is necessary.

(g) *Communications.* All appeals and other communications concerning this order should be addressed to the General Industrial Equipment Division, War Production Board, Washington 25, D. C., Ref: L–193–a.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1940.

Issued this 11th day of August 1944.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L–185, as Amended Aug. 11, 1944]

WATER HEATERS

The fulfillment of requirements for the defense of the United States has created a shortage of materials used in the manufacture of water heaters for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.51 *General Limitation Order L–185*—(a) *Definitions.* (1) "Direct fired water heater" means any device for the direct transference of heat produced by electricity or by the combustion of coal, wood, fuel oil or gas, or derived from solar rays, to the water of a hot water supply system. The term includes, but is not limited to, coils, side-arm water heaters, bucket-a-day stoves, laundry stoves (with cored water sections), dome type water heaters, steel hot water supply heaters, or service water tank heaters having not more than two cored water sections, automatic storage water heaters, instantaneous or continuous flow water heaters, underfired storage water heaters, electric water heaters, and solar water heaters. The term does not include any low pressure cast iron or steel boiler designed for the purpose of heating water to provide heat for the interior of a building by means of circulating steam or hot water.

(2) "Indirect water heater" means any device to which steam or hot water is piped for the transference of the heat of such steam or hot water to the water of a hot water supply system, or the water of a hot water space heating system. The term includes, but is not limited to, coils, side arm water heaters, submerged type water heaters or any indirect water heater (including tanks) commonly referred to as a storage water heater consisting of a heating element installed in a hot water storage tank for the purpose of heating and storing hot water for any use, and any indirect water heater consisting of a coil or a nest of tubes installed in a shell or pressure vessel having a diameter 12" or less (if other than circular in cross section and internal cross sectional area 113 sq. in. or less) and designed for the purpose of supplying hot water to a hot water supply system or a hot water space heating system. The term does not include any storage tank, the manufacture of which is governed by Limitation Order L–199, even though used in conjunction with any indirect water heater. It is not intended by the foregoing definition to include any product which is controlled by Limitation Order L–123.

(3) "Hot water supply system" means any system of supplying hot water used in whole or in part for bathing, washing, cleaning, cooking or other similar purposes. The term does not include any system for supplying hot water for specialized industrial or agricultural purposes.

(4) "Hot water space heating system" means any system which is designed for the purpose of heating the interior of a building or other structure (including ships) by utilizing the heat of hot water.

(5) "Metal jacket" means any metal covering, lining, or portion thereof (but not any metal band two inches or less in width used to support a jacket which holds dry insulation) for any direct fired or indirect water heater, except any metal covering, lining, or portion thereof which conducts flue gases, water, or steam through and to the outside of a direct fired or indirect water heater, and except any ferrous metal wire netting used as a base for the wet application of insulating material.

(6) "Copper base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(b) *Use of copper, stainless steel, and monel metal in manufacture.* No person shall use in the manufacture, fabrication, or assembly of any direct fired or indirect water heater, any copper, copper base alloy, stainless steel, or monel metal except:

(1) For repair parts not including tanks;

(2) For temperature, pressure, vacuum or electrical controls, safety devices or valves;

(3) For tank spuds or tappings;

(4) For coils and tubular units built with copper tubing of 1½" outside diameter or less, in indirect water heaters only. However, the shells, steam heads, tube plates and other cast parts of indirect water heaters shall be of ferrous metal, or non-metallic materials except that terminal outlets and spacer plates may be of a copper base alloy in which no primary tin or copper is used, and the alloy shall be of no higher grade than alloy 5A of the A. S. T. M. specification B–145–42–T.

The exceptions to the restrictions in the use of copper, stainless steel, or monel metal contained in paragraphs (b) (2) and (b) (4) thereof do not apply to the production of indirect water heaters designed for hot water space heating systems.

(5) For coils and terminal outlets for direct fired side-arm water heaters, except that any copper base alloy used in the production of terminal outlets may contain no primary tin or copper, and the alloy shall be of no higher grade than alloy 5A of the A. S. T. M. Specification B–145–42–T.

(6) For current carrying parts and heating elements for electric water heaters.

(c) *Use of copper, stainless steel, and monel metal in the installation of repair and replacement parts.* (1) No person shall in any repair or replacement use or install parts containing in the aggregate more than two pounds of copper or copper base alloy, stainless steel, or monel metal, if the weight of the copper, copper base alloy, stainless steel, or monel metal so used or installed exceeds by more than one pound the weight of copper, copper base alloy, stainless steel, or monel metal replaced. The restrictions in this subparagraph do not apply to the replacement of ferrous heating elements for direct or indirect water heaters.

(2) All copper and copper base alloy replaced in any repair shall be delivered by the person making the repair to a scrap dealer or other person specified under Copper Order M–9.

(d) *Manufacture of metal jackets.* No person shall manufacture or fabricate any metal jacket except: (1) From materials in his inventory on May 8, 1944; (2) From materials obtained from frozen, idle and excess inventories; (3) From allotted materials; or (4) From aluminum the use of which for making metal jackets is specifically authorized by the War Production Board pursuant to Order M–1–i.

(e) *Restrictions on production*—(1) *Water heaters except electric.* No person shall manufacture or assemble more units of direct fired (other than electric) or indirect water heaters than his quota, which for each calendar year, shall be determined by the percentage indicated on Schedule A of his 1941 unit production of the same classification of water heaters. However, regardless of the number of water heaters he may have produced before July 1, 1944, his quota for the period from that date through December 31, 1944, shall be ½ the quota for each calendar year. If additional production is necessary to fulfill the approved War Production Board program, any person may request authorization to exceed his quota by addressing a letter to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., stating his proposed additional production in units per quarter, and the War Production Board may authorize additional production on Form GA–1850. Where the applicant will need controlled materials in order to produce the additional equipment, the letter requesting authorization should be accompanied by an application on Form CMP–4B for the controlled materials.

(2) *Electric water heaters.* (i) No person shall manufacture or assemble any electric water heaters except to the extent authorized by the War Production Board on Form GA–1850. The War Production Board will authorize limited production so that the aggregate production of electric water heaters for each calendar year will not exceed 37 per cent of the aggregate production of the industry from July 1, 1940 through June 30, 1941, except that for the period from July 1, 1944, through December 31, 1944, the aggregate production shall not exceed 18½ per cent. Production will not be authorized in any plant where such production or labor requirement therefor will interfere with war production in that plant or in any other plant located in the same area.

(ii) A person wishing to make electric water heaters (other than those excepted by paragraph (f)), should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., reference L–185. This letter should state the proposed production in units per quarter. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by an application on Form CMP–4B for the controlled materials.

(iii) No person may manufacture or assemble electric water heaters in more than three sizes (based on water storage capacity) nor in more than one model in each size, but a change in the number or design of heating elements shall not constitute a change in size or model. Each person shall report in a letter the size and model designation of the electric water heaters he intends to produce. Each person shall thereafter produce only those sizes and models so reported unless written authorization is received from the War Production Board to produce any other models or sizes. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Exceptions to manufacturing restrictions.* The restrictions of this order do not apply to the production of water heaters or parts required by the Army, Navy, Maritime Commission, or War Shipping Administration, or by rules and regulations promulgated by the Coast Guard for merchant vessels, for use in ships, boats, planes, laundries, kitchens, hospitals, bakeries, or advance bases, or to fill orders authorized by the Maritime Commission on Form WPB–646. Water heaters produced under this paragraph (f) shall not be charged against the production quotas set forth in paragraphs (e) (1) and (e) (2).

(g) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB–1477 with the Field Office of the War Production Board, for the district in which is located the plant or branch of the appellant to which the appeal relates.

(h) *Communications.* All communications concerning this order, unless otherwise directed should be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Reference L–185.

(i) *Reports.* Manufacturers of water heaters shall report on or before the tenth day of each month on Form WPB–3717, following the instructions on the form. This reporting requirement has been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

Issued this 11th day of August 1944.

ASPHALT AND TARRED ROOFING PRODUCTS AND ASPHALT SHINGLES

The fulfillment of requirements for the defense of the United States has created a situation which will result in a shortage in the supply of materials and facilities used in the manufacture of asphalt and tarred roofing products and asphalt shingles for defense, for private account and for export, unless raw material, transportation facilities and manpower are conserved through the simplification and reductions of types of these products and shingles; and for those purposes the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3284.76 [1] *General Limitation Order L–228*—(a) *Definitions.* For the purpose of this order:

(1) "Asphalt and tarred roofing products" means dry felt made of organic fiber impregnated with bitumen, designed and constructed to be applied to the exterior surface of a building or structure for the purpose of weather-proofing such surface. Asphalt and tarred roofing products may be coated with a more viscous bitumen than that used in impregnating the dry felt and may be surfaced with granular material such as, but not limited to crushed rock, slate or quartz. Asphalt and tarred roofing products shall not include the following: Combination flashing material, pipe covering, felt or corrugated asphalt panel or siding board, building or sheathing papers, prefabricated weatherproofed sheathing, prefabricated weather proofed roof board, and 40" plasterers' felt.

(2) "Asphalt shingles" means dry felt manufactured from organic fiber impregnated with asphalt, designed and shaped for application in the form of shingles to the exterior surface of a building or structure for the purpose of weather-proofing such surface. Asphalt shingles may be coated with a more viscous asphalt than that used in impregnating the dry felt and may be surfaced with granular material such as, but not limited to crushed rock, slate or quartz.

(b) *General instructions.* No person shall manufacture, fabricate or process any asphalt and tarred roofing products or asphalt shingles except:

(1) To conform to the schedules of types, grades, weights, styles, finished sizes, or qualities listed on Schedule A hereto attached, or as permitted by the terms of said Schedule A; or

(2) When designed and constructed to be physically incorporated into railroad cars, motor vehicles, shoes, or products other than asphalt and tarred roofing products.

(c) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(d) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection, by duly authorized representatives of the War Production Board.

(e) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing Form WPB–1477 or a letter, in triplicate, with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. The appeal shall refer to the provision appealed from and state fully the grounds for the appeal.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

Where a person is limited, by the restrictions under any table of this schedule, to a specified number (usually one) of styles, designs, grades, qualities, widths, sizes, textures or finishes of a specified type of a product, he may not make any change from the styles, designs, grades, qualities, widths, sizes, textures or finishes which he is making on August 11, 1944, unless he is granted permission by the War Production Board after filing an appeal under paragraph (g) of this order.

Where the term "finished weight" is used in this schedule and a tolerance is allowed, the term means the weight which a person must use as his standard in manufacturing the particular item. The tolerance is permitted only to allow for uncontrollable manufacturing variations. In other words, the manufacturer must, in setting up his production facilities, aim at the finished weight specified in this order. However, if he cannot adhere rigidly to the specified weight because of uncontrollable manufacturing variations, a variation within the allowable tolerance will not be a violation of the order.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L-71, Direction 2]

DISTRIBUTION OF "B" HEARING AID BATTERIES

The following direction is issued pursuant to Limitation Order L-71:

(a) During the first and second calendar quarters of 1944, the War Production Board on Form WPB-2719 authorized five manufacturers to produce "B" hearing aid batteries. Because of Army and Navy requirements the War Production Board limited production during the third quarter so that about 90% of the total products will be produced by two manufacturers. The three manufacturers whose production of "B" hearing aid batteries has been curtailed are now making other batteries for delivery to the Army and Navy. By the use of cells rejected by the armed forces, it is expected that the production of "B" hearing aid batteries in the third calendar quarter will approximate the former total production. However, the restrictions on former producers have interfered with distribution and for that reason this direction is issued to the two manufacturers now authorized to produce in substantial quantities.

(b) (1) The following manufacturers are hereby directed to reserve the percentage of their production indicated of "B" hearing aid batteries during the period August 10, 1944 through September 30, 1944 for delivery as directed in writing by the War Production Board:

	Percent
Eastern Dry Battery Company, 44 West 18th Street, New York, New York	35
Ray-O-Vac Company, 2317 Winnebago Street, Madison, Wisconsin	45

(2) These manufacturers will be directed to distribute the reserve portion of their production to customers formerly supplied by the manufacturers whose production has been curtailed, whenever practical, in proportion to their purchases during the second calendar quarter of 1944. The War Production Board may also direct distribution of specified amounts of this reserve to meet emergencies to take care of individual cases.

(3) If because of changing military requirements it becomes possible to authorize other manufacturers to produce "B" hearing aid batteries or to authorize an increased production to the manufacturers whose production has been curtailed, or if it develops that certain distributors or certain areas are not receiving an equitable portion of the production, the War Production Board may change the directions from time to time.

Issued this 10th day of August 1944.

Recording Secretary.

CARDED GREY AND COLORED-YARN COTTON GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Revised Price Schedule No. 35 is amended in the following respects:

The text following the headnote of item (v) in Table VI is designated (a) and a new subdivision (b) is added to read as follows:

(b) In lieu of the maximum price set forth in this Table VI, the maximum price for any printed fabric made from woven-striped ticking purchased by Riverdale Manufacturing Company and put into refinishing process between March 15 and May 22, 1944 shall be determined by the following formula.

Riverdale Manufacturing Company shall: (i) select from the same general classification and price range as the pattern being priced under this paragraph, the pattern of the most nearly comparable construction for which a maximum price is established under § 1400.164 (b) (1) or (2) of Maximum Price Regulation No. 39; (ii) divided its maximum price for that pattern by the sum of its supplier's maximum price for the grey goods and the maximum price of the finishing operation which would be applicable under Maximum Price Regulation No. 128; and (iii) multiply the percentage so obtained by the sum of 15½ cents and the maximum price for refinishing of the ticking.

This amendment shall become effective August 16, 1944.

Issued this 11th day of August 1944.

(6) *Maximum prices in cents per net ton for high volatile coals for all railroad fuel uses.* The maximum prices for coals in Size Groups 1 to 10, inclusive, for all railroad fuel uses shall be the maximum price for the grade and size shipped as set forth in subparagraph (1) above, or $3.10 per ton, whichever is higher; and the maximum prices for coals in Size Groups 15 to 23, inclusive, for all railroad fuel uses shall be the maximum prices for the grade and size shipped as set forth in subparagraph (1) above.

Mines within Freight Origin Groups 61, 63, 64, 123, 124, 128, 150 may ship coal to the C & O Railway Company, screened to order, for use for all on-line railroad fuel uses at the maximum price for run of mine coals: *Provided*, That within a period of time, previously specified in a single purchase order or contract, but not in excess of 12 months, the shipments of any size of coal which will pass through a 2¾" round hole screen shall not exceed the amount specified in the single purchase order or contract which shall be based upon the previously determined screening percentages of the mine or mines involved. The Solid Fuels Branch of the Office of Price Administration shall be notified of the screening percentage determination in effect as of March 24, 1944, for all mines and as redetermined or established from time to time.

The maximum price for the excess coal over the determined percentage passing through a 2¾" round hole screen shall be the maximum price for the actual size and grade shipped.

Purchase orders or contracts shall apply to a specific producer and to one mine in order that percentages of plus and minus 2¾ inch coal supplied on the order or contract will be related to the percentages of such sizes actually being produced: *Provided, however*, That any producer with two or more mines may fulfill a single purchase order or contract from any or all of his mines where the screening percentages are the same and where the mines' maximum prices are the same or the purchase price is based on the mine with the lowest maximum price.

Each producer or his agent and each distributor selling coal at prices computed under this subparagraph shall state on all his invoices that the price charged has been computed under § 1340.219 (b) (6) of Maximum Price Regulation No. 120.

(7) *Maximum prices in cents per net ton for Cannel coal.* The maximum prices for rail, truck or wagon shipments to all destinations shall be as follows:

Cannel Coal—All Subdistricts

A producer, who was not rendering the service of supplying a chemical or oil treatment in the period October 1–15, 1941 and is now prepared to do so or a producer who was performing the service but was not charging for it, may charge an amount not in excess of 10 cents per net ton for such service where: First, the purchaser of the coal requires it; Second, the producer is equipped with adequate facilities for the treatment of coal; Third, the treatment is performed in an adequate and thorough manner; Fourth, the charge for the service is separately stated on the producer's invoice or other memorandum of sale; and Fifth, the producer has filed a report with the Solid Fuels Branch, Office of Price Administration, Washington 25, D. PART 1341—CANNED AND PRESERVED FOODS

[MPR 409,[1] Amdt. 11]

FROZEN FRUITS, BERRIES AND VEGETABLES (1943 PACK AND AFTER)

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation 409 is amended in the following respects:

1. Section 13 is amended to read as follows:

SEC. 13. *Position of brokers.* In accordance with trade custom, every broker shall be considered as the agent of the seller and not the agent of the buyer. In each case, the amount paid by the buyer to the seller plus any amount paid by the buyer to the broker shall not exceed the seller's maximum price, including allowable transportation actually paid by the seller or by the broker. In other words, the seller may not collect from the buyer any more than the maximum price, including allowable transportation so paid, less any amount which the buyer pays the broker.

The term "broker" includes a "finder".

2. Section 14 is amended to read as follows:

SEC. 14. *How a figured maximum price is established and how an established maximum price may be changed.* On and after the effective date of the regulation, a price figured for any item becomes established (that is, fixed) as the seller's maximum price as soon as he has either filed the price or disclosed it to any prospective customer, whether by sale, delivery, offer, or notice of any kind: *Provided*, That the figured price is not higher than the applicable pricing method allows. A maximum price for any item may be established only once, and it may not be changed by the seller except (a) with the written permission of the District Director of the Office of Price Administration for the area in which he is located in cases where the seller has figured his maximum price lower than the applicable pricing method allows, (b) in cases where a change in the regulation changes the seller's applicable pricing method, and (c) in cases where a packer is refiguring uniform maximum delivered prices as required by section 3 (k), and (d) in cases where a packer is establishing a uniform maximum price for an item packed by him in more than one factory, as permitted by section 3 (n). District Directors are authorized to give this permission.

If the seller wishes to disclose a price lower than the one he figured, he may establish the higher (figured) price as his maximum price at the time of the disclosure only by recording it and naming it as such, in ink on his books, before he discloses the lower price. A seller who has not figured a price for an item may deliver the item, but he may not receive payment for it until he has established

a maximum price in accordance with the rules of this section.

3. Section 18b is added to read as follows:

SEC. 18b. *Authority of regional and district offices to audit reports.* Any Regional Administrator of the Office of Price Administration, or any District Director authorized by his Regional Administrator, may (a) approve or disapprove reports filed with his office under the reporting provisions of this regulation, and (b) require any packer filing a report which does not comply with the reporting provisions to correct and resubmit his report.

4. Section 20 is added to read as follows:

SEC. 20. *Maximum prices for custom packing.* This section applies only to custom packing resulting in an item of frozen fruits or berries where the particular fresh fruit or berries packed were subject to maximum prices, under Maximum Price Regulation 425,[1] or covered by announced prices recommended by the Department of Agriculture for payment to growers, applying to the purchase by which they were acquired by the person for whom the custom packing is done.

(a) *Maximum prices.* The custom packer's maximum price for the services of custom packing an item of fruits or berries (including the furnishing of any packaging materials and additional ingredients) shall be the amount by which his maximum price for sales of the item on a no-storage basis exceeds the price paid for the particular fresh fruits or berries by the person for whom the custom packing is done, after conversion to cents per unit of the finished product. However, the custom packer's maximum price for his services shall not exceed the difference between his maximum price for the frozen product and the maximum price for the particular fruit or berry as established in Maximum Price Regulation 425, or if there is no such maximum price established by that regulation, the custom packer's maximum price for his services shall not exceed the difference between his maximum price for the frozen product and the price recommended by the Department of Agriculture for payment to growers for the particular fruit or berry.

(b) *Information required to be furnished and kept.* The person for whom the custom packing is done shall furnish the custom packer with a signed statement in writing, naming the amount paid for the fresh fruits or berries custom packed, the date on which and the name of the seller from whom they were purchased. This statement shall be furnished before the custom packing is begun, and the custom packer shall preserve the statement for examination by the Office of Price Administration or its authorized representatives at any reasonable time. However, if the fresh fruits or berries are acquired through the custom packer as agent of the purchaser, no statement is required, but the custom packer shall instead make and preserve a record of the same information for like examination.

(c) *Meaning of "custom packing".* In the regulation "custom packing" means any processing operation performed on fruits or berries owned by another, on a toll or contract basis (whether or not any packaging materials or additional ingredients are furnished), resulting in an item of frozen fruits or berries. "Custom packer" and "custom packed" shall be construed accordingly.

This amendment shall become effective August 16, 1944.

Issued this 11th day of August 1944.

Administrator.

PART 1346—BUILDING MATERIALS

[RPS 45, Amdt. 4]

ASPHALT OR TARRED ROOFING PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Price Schedule No. 45 is amended in the following respects:

1. A new paragraph (i) is added to § 1346.63 to read as follows:

(i) An amount equal to 3 percent may be added to the maximum net prices established under this § 1346.63, such added amount to be shown separately on every invoice.

2. A new § 1346.65 is added to read:

§ 1346.65 *Maximum prices for sales and deliveries by jobbers and dealers.* The maximum prices for sales and deliveries of asphalt or tarred roofing products by any person other than a manufacturer shall be established in accordance with the provisions of §§ 1499.2, 1499.3, and 1499.18 of the General Maximum Price Regulation, except that any person purchasing asphalt or tarred roofing products for resale in the same form may add to his maximum price established on or prior to August 17, 1944, an amount not exceeding the actual dollars-and-cents increased cost incurred by him by reason of the increase permitted manufacturers under Amendment No. 4 to Revised Price Schedule No. 45.

This amendment shall become effective August 17, 1944.

Issued this 11th day of August 1944.

PART 1356—COOKERS AND HEATERS

[MPR 64, Amdt. 1]

DOMESTIC COOKING AND HEATING STOVES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 64 is amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. *Prohibition against sales and purchases at prices higher than ceiling prices.* Regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and, in the course of trade or business, no person shall purchase or accept delivery of, a domestic cooking or heating stove at a price higher than the maximum price fixed by this regulation, or before the manufacturer has properly determined his maximum price under this regulation.

If, in violation of this provision, a sale, offer to sell, or delivery of a domestic cooking and heating stove is made before its maximum price has been properly established in accordance with this regulation, the maximum price applicable to the sale, offer to sell or delivery, shall be the correct ceiling price for the stove, properly determined in accordance with this regulation.

As used in this regulation, a domestic cooking or heating stove means a new stove of the type commonly used in households, camps, or trailers for cooking or heating purposes, regardless of the fuel or power used. It includes all space heaters other than floor and wall furnaces or heaters intended to be built into or permanently attached in a building. For example, it includes station heaters, caboose stoves, and school heaters. It does not include electric stoves under 2½ kw.

2. Section 2 (a) is amended to read as follows:

(a) This regulation covers all sales of domestic cooking and heating stoves by a manufacturer to any person. As used in this regulation, a "manufacturer" is (1) a person who operates a factory in which stoves are manufactured or assembled, or (2) a person who regularly sells private brand stoves to jobbers or distributors, or (3) a person who sells private brand stoves, patterns or dies for which he owns.

Under the circumstances set forth in section 11 of this regulation, an order under this regulation may also establish maximum prices for sales of stoves by wholesalers and retailers. Unless such an order has been issued, ceiling prices for sales by persons other than the manufacturer are governed by the provisions of the General Maximum Price Regulation, or Maximum Price Regulation No. 210.

3. Section 5 (h) is amended to read as follows:

(h) Changes in shape, size, or material of oil or gas burners, provided that

quality, efficiency, and BTU ratings are not reduced. These changes include changes in wick materials; they do not include the interchanging of dual gas burners and one-way gas burners.

4. Section 5 (n) is amended to read as follows:

(n) Omission or addition of thermometer, except on portable and stovepipe ovens.

5. Section 6 is amended to read as follows:

SEC. 6. *Reports, catalogues, and price lists.* (a) You must notify the Office of Price Administration, Washington, D. C., whenever you change the model designation of any stove in your line. This may be done by letter.

(b) Every manufacturer must file with the Office of Price Administration, Washington, D. C., a copy of every catalogue and price list for domestic cooking and heating stoves, issued by him on and after June 1, 1941. In addition on and after August 16, 1944 every manufacturer must file a copy of every notification he issues to the trade concerning new prices, changes in prices, or changes in discounts and allowances. Copies of these notifications must be filed within ten days after they have been issued to the trade.

6. Section 7 (a) (1) is amended to read as follows:

(1) Find the model of stove for which you have a ceiling price which is comparable to the stove being priced. The "comparable" model is the one which is like the stove being priced in design, construction, and fuel type, and which is closest to it in unit direct cost. If a stove on which "minor changes" have been made is subsequently used as the "comparable" model in pricing a new or changed model, the cost for the "comparable" model shall be computed on the basis of the cost to make the stove without the "minor changes".

7. Section 8 is amended to read as follows:

SEC. 8. *Ceiling prices fixed by special orders.* (a) If you cannot apply the formula in section 7 because you have no comparable model, then your ceiling price is the price specifically authorized by the Office of Price Administration, in line with the level of ceiling prices fixed by this regulation. Applications for the establishment of such prices must be made to the Office of Price Administration, Washington, D. C. You may not, except in the case of sales to the United States or Allied Governments (see section 9 below) sell, offer to sell, or deliver a stove for which a price must be fixed under this section prior to the specific authorization of a price by the Office of Price Administration.

(b) If a manufacturer proposes to sell a stove to a new class of purchaser to whom he did not quote a price during the period January 15 to June 1, 1941, then the ceiling price shall be the price specifically authorized in writing by the Office of Price Administration, Washington, D. C. The authorized price will make appropriate adjustments from the manufacturer's ceiling prices, for sales to the new class of purchaser, in line with the manufacturer's existing differentials, or if he has none, in line with the differentials prevailing in the trade generally for sales to the new class of purchaser. Applications for the establishment of prices to new classes of purchaser should be made by letter.

8. Section 10 is amended to read as follows:

SEC. 10. *Application for adjustment.* (a) Any manufacturer subject to this regulation may apply to the Office of Price Administration, Washington, D. C., for an adjustment of his maximum price for a particular stove or stoves. An adjustment may be granted if it appears that:

(1) The manufacturer's ceiling price is below his total cost to make and sell the stove; and

(2) The manufacturer's entire stove operation is being conducted at a loss or will be at a loss within 90 days; and

(3) The loss of the manufacturer's production of that stove would result in higher prices to consumers for the same or substantially the same stove.

(b) Any adjustment, if granted, will not be greater than the lower of the following amounts:

(1) An amount sufficient to eliminate the loss incurred in making and selling the stove.

(2) An amount sufficient to bring the maximum price of the article into line with the level of maximum prices established by this regulation for sales of competitive manufacturers' comparable stoves to the same class of purchaser and on the same terms and conditions of sale.

9. Section 11 is amended to read as follows:

SEC. 11. *Wholesale and retail prices.* Whenever the manufacturer's ceiling price has been determined or adjusted under this regulation, an order may be issued fixing ceiling prices, or a method of determining ceiling prices, for sales of the stove or stoves by wholesalers and retailers.

10. Section 12 is redesignated section 13.

11. Section 13 is redesignated section 14.

12. A new section 12 is added to read as follows:

SEC. 12. *Modification of provisions of Maximum Price Regulation No. 64.* The provisions of Maximum Price Regulation No. 64 as applied to classes of commodities or persons subject thereto may be modified by orders of general applicability issued under this section.

This amendment shall become effective on the 16th day of August 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 11th day of August 1944.

Administrator.

The maximum price ex dock any other port of entry shall be determined by adding to or subtracting from (as the case may be) the Miami, Florida, ex dock price the difference between (1) the April 29, 1944 actual cost of ocean freight, the cost of war risk insurance (figured for shipments made after June 25, 1944, at a cost not exceed the amount of the war risk insurance premium paid at rates in effect at the time of shipment, on a value representing 105% of the sum of the foreign invoice price, freight to the port of entry, and premiums paid for marine and war risk insurance) and marine insurance from the port of origin to Miami, Florida, and (2) the April 29, 1944 actual cost of ocean freight, war risk insurance (figured for shipments made after June 25, 1944 at the same rates) and marine insurance from the same port of origin to such other port of entry. The maximum price ex railroad car or any other type of carrier for any other point of entry on United States-Mexico border shall be determined by adding to or subtracting from (as the case may be) the Laredo, Texas, ex railroad car (or other type of carrier) price the difference between (1) the April 29, 1944 actual cost of transportation at lowest available common or contract carrier rate from the point of shipment to Laredo, Texas and (2) the April 29, 1944 actual cost of transportation at lowest available common or contract carrier rate from the same point of shipment to such other point of entry on United States-Mexico border.

This amendment shall become effective August 16, 1944.

AUTHORITY TO TERMINATE

§ 298.1 *Contracts by Director of Procurement Division.* The Director of the Procurement Division of the Commission is authorized to terminate work for the convenience or at the option of the Commission under any supply contract or purchase order entered into on behalf of the Commission by said Director.

§ 298.2 *Contracts by agents of the Commission.* Any individual, firm, or corporation authorized to enter into contracts for and on behalf and as agents of the Commission is authorized to terminate work under contracts so entered into under the optional provisions contained in such contracts.

§ 298.3 *Other contracts of the Commission.* Termination of work for the convenience and at the option of the Commission under any other contract of the Commission must be authorized by the Commission itself. Evidence of the Commission action will be in the form of a written or telegraphic notice signed by the Secretary or an Assistant Secretary of the Commission.

FAIR COMPENSATION AND INTEREST

§ 298.21 *Fixed-price supply contracts.* The Commission has determined that the provisions of the Uniform Termination Article for Fix-price Supply Contracts[1] provides for fair compensation to war contractors who hold fixed-price supply contracts with the Commission. The Director of the Procurement Division and the agents of the Commission referred to in § 298.2 hereof, are authorized to enter into an amendment of any such contract, irrespective of whether work thereunder has been terminated, so as to include such Article as a part of such contract.

§ 298.22 *Fixed-price supply subcontracts.* The Commission has determined that the Approved Termination Provision for Use in Fixed-price Orders or Subcontracts for the Manufacture of Supplies under Government War Contracts[2] provides for fair compensation to war contractors who hold such type of subcontracts. The officers of the Commission authorized to approve termination claims of subcontractors will approve the amendment of any subcontracts heretofore or hereafter entered into so as to incorporate therein such provisions. Such approvals shall not, however, be construed as a representation on the part of the Commission and the officer granting such approval that the particular subcontract is allocable to a prime contract with the Commission.

§ 298.23 *Other subcontracts and cost-plus-a-fee contracts.* Cost-plus-a-fee contracts heretofore entered into by the Commission and agreements for personal services contain provisions which provide for fair compensation. Wherever in the opinion of a war subcontractor a subcontract, other than a fixed-price supply subcontract, does not provide for such fair compensation, such subcontractor shall request the war contractor who has entered into the subcontract with him to amend such subcontract to provide for such fair compensation. Approval of such amendment may be granted by the officers of the Commission authorized to approve termination claims arising under subcontracts.

§ 298.24 *Interest allowable.* Interest on termination claims under a prime contract or subcontract shall be allowed in accordance with the provisions of subsection (f) of section 6 of the Act at the rate of 2½ per with the provisions of subsection (f) of section 6 of the Act at the rate of 2½ per centum per annum. Such interest shall not accrue prior to July 21, 1944, and may be denied or reduced in accordance with the provisions of such subsection (f). The amount of the contractor's or subcontractor's termination claim as finally approved in accordance with these regulations shall determine the amount of interest to be allowed subject, however, to the adjustments provided for in such subsection (f). A contractor shall be deemed to have unreasonably delayed the settlement of his termination claim if he shall have failed to file such claim with all required information, on the forms approved by the Commission, within thirty days of the date of notice of termination of work under his contract or such longer period as the Settlement Review Board of the Commission shall determine as a reasonable time for filing of the claim, or if he shall fail to furnish promptly on request such information and records as the Commission or its duly authorized representatives may reasonably require in connection with the examination of his claim. A subcontractor shall be deemed to have unreasonably delayed the settlement of his termination claim in the event he shall fail to file such claim with the war contractor who placed the subcontract within thirty days after the date of notice of termination of his subcontract, or such longer period as the Settlement Review Board shall deem reasonable, or shall fail to furnish promptly on request such information and records as the Commission or its duly authorized representatives may reasonably require in connection with their examination of the claim.

PRESENTATION OF CLAIMS

§ 298.41 *Approved forms.* The Commission has approved the use of certain forms for presentation of termination claims under war contracts. Copies of such forms may be obtained upon application to the Director of the Procurement Division, United States Maritime Commission, Washington 25, D. C.; the Regional Director of Construction, East Coast Region, 1015 Chestnut Street, Philadelphia 7, Pennsylvania; the Regional Director of Construction, Gulf-Great Lakes Region, United States Maritime Commission, 348 Baronne Street, New Orleans 12, Louisiana, or 310 So. Michigan Avenue, Chicago 4, Illinois; and the Regional Director of Construction, West Coast Region, United States Maritime Commission, Financial Center Building, Oakland 12, California.

§ 298.42 *Place for filing.* Termination claims arising under any contract entered into on behalf of the Commission by the Director, Procurement Division, should be filed with the Chief, Termination Section, Procurement Division, United States Maritime Commission, Washington 25, D. C. Termination claims arising under any contract entered into for and on behalf of the Commission by its agent should be filed with such agent. Termination claims arising under any prime contract for the construction of vessels should be filed with the Regional Director of Construction for the region in which the contractor was performing the contract work. Termination claims arising under any terminated subcontract should be filed with the war contractor who placed such subcontract, except in those cases where the claim is to be settled directly by the Commission as hereinafter provided.

[1] 9 F.R. 478,2251.
[2] 9 F. F. 6136.

SETTLEMENT OF CLAIMS

§ 298.61 *General policies.* The Commission approves the settlement so far as practicable of termination claims arising under war contracts by agreement. Agreements for such purpose may be entered into in the case of termination claims under both fixed-price and cost-plus-a-fee contracts. Audits shall be avoided to the extent consistent with the Government's interest. In certain cases the amount payable to the contractor may be based on an estimate of the amount of work completed by him with due regard to the probable cost of such work and the profits derived therefrom or on any other equitable basis approved by the Settlement Review Board or the Director of Contract Settlement. In determining fair compensation for termination claims the methods established under subsection (d) of section 6 of the Act shall be followed so far as practicable.

§ 298.62 *Fixed-price supply contracts.* A termination claim arising under a terminated fixed-price supply contract will be approved if the amount of such claim is not in excess of the amounts specified in subparagraphs (1), (2), and (3) of paragraph (d) of the aforementioned Uniform Termination Article for Fixed-price Supply Contracts (see § 298.21). The determination of such amounts may be made by agreement between the contractor and the officer of the Commission hereinafter designated to enter into settlements of termination claims under fixed-price supply contracts.

§ 298.63 *Contracts by Director of Procurement Division.* The Director of the Procurement Division and such Assistant Directors of that Division as he may designate and the Chief, Termination Section of the Procurement Division, to the extent that such authority may be delegated to them by said Director, are authorized to settle by agreement or determine without agreement termination claims arising under fixed-price supply contracts entered into on behalf of the Commission by the Director, Procurement Division, but no such agreement or determination shall become binding upon the Commission if the amount thereof shall exceed the sum of $5,000, unless it shall have been submitted to the Settlement Review Board and approved by such Board or not disapproved by it within thirty days of the date of its submission.

§ 298.64 *Contracts by agents of the Commission.* Termination claims arising under contracts entered into for and on behalf of the Commission by an individual, firm, or corporation acting as agent for the Commission may be settled by agreement or determined by such agent with approval of the Regional Director of Construction of the Commission, or such officer as he may designate, for the region in which the contract work was being performed; but no such agreement or determination shall be binding upon the Commission if the amount of the claim shall exceed the sum of $5,000, unless it shall have been submitted to the Settlement Review Board and approved by such Board or not disapproved by it within thirty days of the date of its submission.

§ 298.65 *Vessel and shipyard facilities contracts.* Termination claims arising under contracts for the construction of vessels or the construction of shipyard facilities may be settled by agreement or determined by the Regional Director of Construction, or such officer as he may designate, for the region in which the contract work was being performed. No such agreement or determination shall be binding upon the Commission unless it shall have been submitted to the Settlement Review Board and approved by such Board or not disapproved by it within thirty days of the date of its submission.

APPROVAL AND PAYMENT OF TERMINATION CLAIMS OF SUBCONTRACTORS

§ 298.81 *Authority of officers to approve.* The Director, Procurement Division of the Commission, and such Assistant Directors of the Division as he may designate and the Chief, Termination Section of the Procurement Division, to the extent that such authority may be delegated to them by said Director, are authorized to approve termination claims of subcontractors under fixed-price supply contracts or purchase orders entered into on behalf of the Commission by the Director, Procurement Division. The Regional Director of Construction, or such officer as he may designate, is authorized to approve termination claims under all other subcontracts. Such approvals may be granted, however, only in those cases where the claim is made upon forms approved by the Commission and the war contractor who has placed the subcontract furnished a certificate in the form approved by the Commission in respect of the reasonableness of the proposed settlement.

§ 298.82 *Review of and policy governing approval.* No approval of the termination claims of subcontractors, granted under the provisions of § 298.81 thereof, shall be binding upon the Commission if the amount of the claim shall exceed the sum of $5,000, unless it shall have been submitted to the Settlement Review Board and approved by such Board or not disapproved by it within thirty days of the date of its submission. In approving termination claims arising under fixed-price supply orders or subcontracts the officers of the Commission shall conform to the Statement of Policy Concerning Settlement of Claims under Terminated Fixed-Price Orders or Subcontracts for the Manufacture of Supplies under Government War Contracts, adopted by the Joint Contract Termination Board.[1]

§ 298.83 *Settlement without approval.* War contractors may make settlements of termination claims arising under subcontracts without approval in the event that (1) the amount of the claim does not exceed $5,000, and (2) authority has been granted by the Settlement Review Board so to settle claims, provided that any such authority may be revoked, at any time before the settlement is concluded, by notice in writing to the war contractor over the signature of the Chairman or Acting Chairman of such Board. Application for authority so to settle subcontract claims should be made to the Settlement Review Board, United States Maritime Commission, Washington 25, D. C. Except as hereinbefore provided, no settlement of the termination claims of subcontractors, made without approval, shall be binding.

§ 298.84 *Direct settlement by Commission.* Unless a different procedure is approved by the Settlement Review Board settlement of subcontractors' claims and payment thereof will be made by the war contractor who placed the subcontract. Where a subcontractor or an officer of the Commission charged with the settlement of termination claims is of the opinion that any such war contractor is not financially responsible or where the death or dissolution of the war contractor or other circumstances make it necessary for the protection of the interests of the subcontractor that settlement or payment be made directly with or to the subcontractor, such facts should be immediately reported to the Settlement Review Board. Such Board is authorized to provide for direct settlement or direct payment or to require that payments made to the war contractor on account of termination claims of his subcontractors be deposited in a controlled account established under a deposit agreement satisfactory to such Board.

§ 298.85 *Effect of appointment of trustee or receiver, etc.* In the event the bankruptcy or insolvency of any war contractor or the appointment of a trustee or receiver for such war contractor or his property shall have the effect of preventing collection of any termination claim of a subcontractor under such war contractor, all the facts in respect of such claims should be submitted to the Settlement Review Board in order that such Board may determine whether to recommend to the Commission the taking of any action pursuant to the provisions of Section 7 of the Act.

INTERIM FINANCING

§ 298.101 *Application for, authority to make, and approval of advance or partial payments.* Applications for advance or partial payments on account of the termination claim of a war contractor should be made to the officer or agent of the Commission hereinbefore designated to settle the termination claim of a prime contractor or approve the settlement of the termination claim of a subcontractor. Such application should be in the form of a certificate, forms of which may be obtained from the officers referred to in § 298.41 hereof. Where the war contractor making application is a prime contractor the officer authorized to settle by agreement or determine the amount of the claim is authorized to make ad-

[1] 9 F.R. 6135, 6483.

vance or partial payments in an amount not to exceed an aggregate of $5,000 on account of any single claim or $20,000 on account of all unsettled claims of any single contractor. Where application is made to an agent who entered into a contract for and on behalf of the Commission, the agent may make such payments within the amounts specified, with the approval of the officer authorized to approve the settlement of termination claims under such contracts not in excess of the amount of $5,000. Advance or partial payments in excess of an aggregate of $5,000 on account of any single claim or $20,000 on account of all unsettled claims of any single contractor, or to war contractors other than prime contractors, may be made only with the approval of the Settlement Review Board.

§ 298.102 *Amount of partial or advance payments.* The amount of the partial or advance payment shall equal (a) 100 per centum of the amount payable at the contract price on account of acceptable items completed but undelivered prior to the termination date under the terms of the contract or completed thereafter in accordance with the provision of the notice of termination, plus (b), an amount equal to 90 per centum of the cost of raw materials, purchased parts, supplies, direct labor, and manufacturing overhead allocable to the terminated portion of the war contract as shown on the certificate of the war contractor, plus (c) an amount equal to 90 per centum of other allowable costs including administrative overhead shown on the war contractor's certificate and allocable to the terminated portion of the war contract but not included in the foregoing. The officers of the Commission, agents, or Settlement Review Board charged with the duty of settling or approving the claim may, however, in their discretion reduce or deny any such advance or partial payment in the event such officers, agents, or Board shall have reason to believe that the certificate for advance payment incorrectly states any amount to be made the basis of such advance payment. In appropriate cases a check or audit of the war contractor's records may be required as a condition precedent to the making of the payment. Where advance or partial payments previously applied for and made shall not equal the foregoing amounts based on estimates made from time to time, additional payments which together with the payments theretofore made, are not in excess of such estimates may be applied for and made.

§ 298.103 *Loans, guaranties or Commitments.* Applications from war contractors for direct loans, as provided in section 9 of the act, shall be made to the Director of Finance, United States Maritime Commission, Washington 25, D. C. Applications for guaranties or commitments for guaranties from financing institutions shall be made to the Federal Reserve Banks in accordance with instructions and regulations issued by the Director of Contract Termination.

ADVANCE NOTICE

§ 298.121 *Notice to prime contractors and subcontractors.* The Commission will give each prime contractor, work under whose contract is terminated for the convenience or at the option of the Commission, such advance notice as is feasible and consistent with the national security without permitting unneeded production of performance. Promptly upon receipt of such notice the prime contractor should notify each subcontractor, work under whose subcontract is required to be terminated on account of the termination of work under the prime contract, stating what work thereunder is to be terminated and the reason therefor, and requesting that notice in turn be given to other war contractors work under whose subcontracts is required to be terminated on account of the termination of work under such subcontract. In the event that the cessation of work provided for in the notice of termination to the prime contractor will result in substantial injury to plant or property, such prime contractor shall immediately notify by telegram the officer of the Commission who sent the notice of termination. Such officer is authorized to modify the notice of termination in appropriate cases.

REMOVAL AND STORAGE OF MATERIALS

§ 298.141 *Statements and removal.* The statements of the termination inventory of a war contractor must be made upon forms approved for such purpose by the Commission. Copies of such forms may be obtained from any of the officers referred to in § 298.41 hereof. In the case of a war contractor who holds a prime fixed-price supply contract entered into by the Director, Procurement Division, or a subcontract under such a prime contract, the statements should be mailed to the Director, Procurement Division of the Commission, at the address indicated above, marked to the attention of "Chief, Termination Section". In the case of any other war contractor holding a prime contract with the Commission, or subcontractor under such a prime contract, the statement should be mailed to the Regional Director of Construction of the Commission for the region in which the prime contract work was being performed. Until such time as the Director of Contract Settlement has designated some other agency of the Government for such purpose the Commission will undertake so far as practicable to make removal as promptly as possible of termination inventory from the war contractor's plant which the war contractor does not desire to retain in accordance with an agreement reached with the Commission or the person who has placed the war contract with him.

§ 298.142 *Obligation of Commission as custodian.* The obligation of the Commission in respect of any termination inventory of a war contractor delivered into its custody shall be limited in the manner prescribed in section 12 of the Act.

§ 298.143 *Retention by or sale to war contractor.* Officers of the Commission, or agents with the approval of the officers authorized to approve their settlement of termination claims not in excess of the amount of $5,000, authorized to settle claims of prime contractors or approve claims of subcontractors are also authorized to approve the retention by or sale to the contractor or subcontractor as the case may be of termination inventories: *Provided that*, Where the credit or price received by the Government is less than the amount included for such inventory in the contractor's or subcontractor's claim, such approval shall be final only where the cost of such termination inventory so retained or sold is not in excess of $50,000 or approval of its sale or retention shall have been granted by the Settlement Review Board.

§ 298.144 *Government-owned machinery, tools, and equipment.* Whenever any war contractor no longer requires for the performance of any war work any Government-owned machinery, tools, or equipment made available by the Commission and installed in a plant or shipyard owned by him, such war contractor shall in the case of machinery, tools, and equipment installed in a shipyard notify by registered mail the Regional Director of Construction of the Commission for the region in which the shipyard is located, or in the case of machinery, tools, and equipment installed in any manufacturing plant notify by registered mail the Director, Procurement Division, United States Maritime Commission, Washington 25, D. C. In the event that within sixty days of the date of mailing such notice such machinery, tools, or equipment have not been removed or arrangements for such removal shall not have been made between representatives of the war contractor and the Commission, the war contractor shall notify the Chairman of the United States Maritime Commission of such fact by registered mail. In such event if removal of the machinery, tools, and equipment is not made within twenty days of the date of receipt of such notice the war contractor may remove and store all or part thereof in a safe warehouse either on his own premises or within a reasonable distance of his shipyard or plant. Upon making such removal the contractor should have an independent engineer or appraiser compile an inventory showing the exact condition of each article removed and where necessary should cause the article to be packed or treated with preservative substances. Until such time as custody of the machinery, tools, or equipment is accepted on behalf of the Commission the contractor shall have an obligation to see that all necessary precautions are taken for the preservation thereof. The Commission will be obligated to pay the cost of making an inventory of, removing, packing, transporting, and preserving such machinery, tools, and equipment to the extent such costs are reasonable, but only if the contractor shall promptly notify the Chairman of the Commission by registered mail of all ac-

tions taken by him in respect of such machinery, tools, and equipment. Any claim for reimbursement of costs must be supported by such reasonable evidence of the payment thereof as the Commission may require.

APPEAL

§ 298.161 *Findings.* The Settlement Review Board is authorized to make the findings provided for in section 13 of the act. Demands by a war contractor for the making of such findings should be addressed to the Settlement Review Board, United States Maritime Commission, Washington 25, D. C.

§ 298.162 *Appeal from findings.* Where a war contractor desires to appeal to the Commission from the findings made by the Settlement Review Board, the contractor should address by registered mail a letter to the Secretary, United States Maritime Commission, Washington 25, D. C. The Commission will then consider the protest of the contractor and in appropriate cases will set a date for hearing thereon either before the Commission or a special board to be designated by it.

§ 298.163 *Remand.* Any remand of a case involving the termination claim of a war contractor by the Appeal Board or a court pursuant to paragraph (3) of subsection (c) of section 13 of the Act should be addressed to the Secretary, United States Maritime Commission, Washington 25, D. C. The proceedings thereunder shall be such as may be authorized by the Commission.

§ 298.164 *Authority to agree to arbitrate.* The officers of the Commission authorized by these regulations to settle by agreement or determine, or in the case of contracts entered into for and on behalf of the Commission by its agents to approve the settlement of, the termination claims of war contractors in the case of claims not exceeding the sum of $5,000 and the Settlement Review Board in all other cases are authorized to enter into an agreement with a war contractor to submit all or any part of such a claim to arbitration, pursuant to subsection (e) of section 13 of the act.

§ 298.165 *Arbitration of dispute between war contractor and subcontractor.* Where a war contractor and his subcontractor desire to submit to the Commission a dispute between them concerning a termination claim of the subcontractor, pursuant to subsection (f) of section 13 of the act, they should submit such dispute to the Settlement Review Board for mediation or arbitration.

SETTLEMENT INDUCED BY FRAUD

§ 298.181 *Reports of fraud.* The Executive Director of the Commission is authorized to receive reports concerning fraud inducing a settlement of termination claims. A copy of any such report should be filed with the General Counsel and the Director of Finance. If the Executive Director should determine that the evidence is sufficient to indicate that the settlement was induced by fraud, he should report the matter to the Commission. If the Commission is of the opinion that the settlement was fraudulently induced, it shall report the facts to the Department of Justice for investigation and to the Comptroller General for his determination of the amount of the contract price to be withheld from any amounts owing the war contractor, pursuant to subsection (b) of section 16 and subsection (e) of section 18 of the act.

GENERAL

§ 298.201 *Exemptions from act.* The Commission hereby exempts from the provisions of the act any modification of a war contract pursuant to its terms for the purpose of changing plans or specifications applicable to the work without substantially reducing its extent.

§ 298.202 *Assistance to war contractors.* The Regional Attorneys, the Regional Auditors of Construction, and their respective assistants, and the auditors of the Commission at shipyards or manufacturing plants are authorized and directed to the extent not inconsistent with their other duties, as part of their official duties, to advise, aid, and assist war contractors in preparing and presenting termination claims and obtaining interim financing and in related matters.

§ 298.203 *Calculation of amount of termination claims.* In determining the amount of a termination claim of a war contractor for the purpose of fixing the authority to perform certain functions under these regulations, no deductions shall be made on account of credits for property chargeable to the Government or for advance or partial payments but amounts due for completed articles or work done at the contract price and for the discharge of the termination claims of subcontractors shall be deducted.

§ 298.204 *Orders and regulations of Director controlling.* The exercise of any authority or discretion and the performance of any duty or function conferred or imposed by these regulations shall be subject to the orders or regulations issued by the Director of Contract Settlement within the scope of the authority conferred upon him by the act. Such orders or regulations, whenever issued, must be complied with by all officers and employees of the Commission whose duties or functions are affected thereby. Anything contained in these regulations which may be inconsistent with any such order or regulation hereafter issued will be deemed amended so as to remove such inconsistency.

By order of the United States Maritime Commission.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the District of Columbia District Office of the Office of Price Administration by section 16 of Restaurant Maximum Price Regulation No. 2, it is hereby ordered:

SECTION 1. *Posting requirements.* If you own or operate an eating or drinking establishment, you must, on or before August 16, 1944, show on a poster to be supplied by the Office of Price Administration, your lawful ceiling prices for 40 food items, meals and beverages as set forth in this Order.

(a) First list on the poster as many of the food items and meals listed in Appendix A of this order, as you offer for sale and your ceiling prices for each.

(b) If you do not offer all the 40 items listed in the table in Appendix A, list first those which you do offer, placing them on the poster in the order in which they appear in Appendix A. (c) If you do not offer as many as 40 items, place on the poster all the items which you do offer and your ceiling price for each.

(d) (1) Some of the items you may be selling either as an a la carte item or as an entree as part of a meal (for example, pork chops as a single dish, or pork chops with one or more side dishes). If so, you may, if you prefer, list the item either as a table d'hote item or as an a la carte item (for example, you may list "pork chops with two vegetables and beverage" instead of just "pork chops.")

(2) If you list any a la carte items, put them at the head of your list.

(3) In listing meals, list the entree and then indicate the type of meal (for example, steak dinner, leg of lamb dinner, filet of sole lunch, vegetable plate luncheon).

(4) Some items in Appendix A are marked with an asterisk. These are group items. If all items within the group do not have the same ceiling price, you must list whatever particular item in the group is most frequently served by you, instead of listing the group (for example, instead of "baked bean dishes," you should list "pork and beans" or "frankfurters and beans" or "ham and beans," etc., depending upon the item that is most frequently served by you).

(e) All prices to be put on the poster are to be week-day prices. If the prices do not prevail on Sundays, the poster should bear a notation such as: "These prices in effect daily except Sunday."

(f) The list of individual items may be printed or hand lettered in ink on the poster in letters large enough so that it can be easily read by your customers.

(g) You must place the poster near the main entrance of your establishment, or in a conspicuous place so that it will be plainly visible to your customers.

In the matters of Niagara Hudson Power Corporation, New York Power and Light Corporation, Hudson Valley Fuel Corporation, File No. 70-930 and New York Power and Light Corporation, Niagara Hudson Power Corporation, File No. 70-934.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Niagara Hudson Power Corporation (Niagara Hudson), a subsidiary of The United Corporation, a registered holding company, and by New York Power and Light Corporation (New York Power) and Hudson Valley Fuel Corporation (Hudson Valley), both of the latter being subsidiaries of Niagara Hudson. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Niagara Hudson proposes to sell and New York Power proposes to purchase all of the outstanding securities of Hudson Valley, consisting of 67,000 shares of common stock (without par value). In consideration therefor, New York Power proposes to issue to Niagara Hudson 192,105 shares of its common stock having a stated value of $7,824,436.65. Thereafter, Hudson Valley will be merged into New York Power.

New York Power proposes to refinance its outstanding 240,727 shares of Cumulative Preferred Stock (114,639 shares of the 7% series, $100 par value, and 96,088 shares of $6 series without par value) by making an offer to the holders of such stock whereby they will be afforded the opportunity to exchange each share of stock held at present for one share of $100 par value Cumulative Preferred Stock, with a dividend rate not in excess of 5% per annum, plus a cash payment in an amount representing the difference between the redemption prices of the stocks outstanding at present and the offering price (to be not less than par and to be determined by competitive bidding) of the new Cumulative Preferred Stock. A total of 240,000 shares of the new stock will be issued. Any shares not exchanged will be called for redemption at the redemption price ($115 per share for the 7% and $105 per share for the $6 preferred stock).

Niagara Hudson proposes to exchange its holdings of 36,019 shares of 7% Preferred Stock and 19,181 shares of $6 Preferred Stock of New York Power pursuant to the offer of exchange and also proposes to cancel advances totaling $20,550,000 owed to it by New York Power, providing there be obtained a closing agreement executed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury to the effect that such cancellation will not result in any income taxable to New York Power.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters and that said declaration shall not become effective nor said application be granted except pur-

suant to further order of this Commission.

It further appearing to the Commission that the issues presented by the declaration and applications of Niagara Hudson, New York Power and Hudson Valley (File No. 70-930) and by New York Power, and Niagara Hudson (File No. 70-934) involve common questions of law and fact and should be consolidated and heard together;

It is ordered, That the proceedings in both matters be, and they hereby are, consolidated and that a consolidated hearing under the applicable provisions of the act and rules of the Commission promulgated thereunder be held on August 24, 1944, at 11 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. All persons desiring to be heard or otherwise wishing to participate in the proceeding shall file with the Commission, on or before August 18, 1944, a written request relative thereto, as provided by Rule XVII of the rules of practice of the Commission; and

It is further ordered, That Henry C. Lank or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matters. The officer so designated to preside at any such hearing is authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice; and

It is further ordered, That, without limiting the scope of the issues presented by such declarations and applications otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions;

(1) Whether the proposed consideration to be received and paid in connection with the proposed sale and acquisition of the securities of Hudson Valley is reasonable and bears a fair relation to the sum invested in or the earning capacity of the assets underlying the securities to be transferred.

(2) Whether the proposed acquisition by New York Power of Hudson Valley and the subsequent merger of Hudson Valley and New York Power will serve the public interest by tending toward the economical and efficient development of an integrated public utility system or will be detrimental to carrying out the provisions of section 11.

(3) Whether the proposed issue and sale of its new Cumulative Preferred Stock by New York Power is solely for the purpose of financing its business.

(4) Whether the acquisition of new preferred stock of New York Power by Niagara Hudson will tend toward the economical and efficient development of an integrated public utility system.

(6) The propriety of the proposed accounting treatment of the proposed transactions on the books of the applicants and declarants.

(7) Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms and conditions with reference to the proposed transactions, and if so, what the terms and conditions should be.

CONSOLIDATED ELECTRIC AND GAS CO. AND THE ISLANDS GAS AND ELECTRIC CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of August 1944.

Notice is hereby given that Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and its subsidiary, The Islands Gas and Electric Company ("Islands"), all of whose securities are owned by Consolidated, have filed a plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 relating to the distribution of the capital stock of Manila Gas Corporation ("Manila Gas"), to the holders of the $6 cumulative preferred stock of Consolidated by way of a partial liquidation, as hereinafter more particularly described.

All interested persons are referred to said plan, which is on file in the office of this Commission, for a statement of the transaction therein proposed, which may be summarized as follows:

Manila Gas, a Philippine corporation, is a gas utility company operating in Manila and other communities in the Philippine Islands. Manila Gas has outstanding $546,000 principal amount of First Mortgage 6% 20-year bonds, due July 1, 1945, which are publicly held, and 15,000 shares of capital stock (100 pesos par value) of which 5 shares are publicly held in the Philippine Islands, and the remainder is owned by Islands. The Manila Gas stock owned by Islands is pledged with the trustee under the inden-

ture securing the Islands 10-year 4% secured bonds, Series due March 1, 1953, of which $2,143,500 are outstanding.

Islands proposes to sell said Manila Gas stock to Consolidated for approximately $250,000 in cash and will deposit such cash proceeds under said indenture of Islands in connection with the release from the pledge of said stock. The funds so deposited with the trustee under the Islands indenture will be applied to the retirement of such Islands bonds, all of which are owned by Consolidated. Consolidated will then either apply said funds, or a like amount, with the trustee under the indenture securing the Southern Cities Utilities Company Bonds, (assumed by Consolidated) to acquire and retire outstanding bonds of Southern Cities Utilities Company publicly held, or in the alternative (if Consolidated desires such deposited cash for its corporate purposes), will secure the release, on the basis of credits, from the lien of the collateral trust indenture of Consolidated, of an equivalent principal amount of bonds of Southern Cities Utilities Company, and will surrender to the said trustee, such bonds for cancellation against the withdrawal of such deposited funds. If publicly held bonds are purchased, such bonds will be acquired by Consolidated in the open market or from holders thereof but without solicitation and at the lowest price obtainable, and such purchased bonds will be surrendered to the trustee for cancellation against the withdrawal of such deposited funds at bond cost, exclusive of accrued interest.

The Manila Gas stock to be purchased by Consolidated will be distributed to the holders of the $6 cumulative preferred stock by way of a palatial liquidation. Since transfer of certificates for the Manila Gas stock cannot be presently made on the company's stock transfer book, which are located in Manila, Consolidated proposes to deposit its certificates representing the Manila Gas stock with a financial institution under an agreement whereby such depository will hold such stock solely for the benefit of the preferred stockholders of Consolidated and issue to such stockholders transferable certificates of deposit entitling the holders thereof to a stock certificate or certificates for the appropriate number of shares of Manila Gas stock. It is proposed that each holder of Consolidated preferred stock will receive a certificate of deposit entitling him in respect of each share of such stock owned to 8/100 of a share of Manila Gas stock, plus a small fractional interest in the remaining Manila Gas stock.

There is pending a plan filed by Consolidated pursuant to section 11 (e) (File No. 54-40) which provides for the elimination of its outstanding preferred stock, Class A stock and common stock, and the issue of new common stock, 94.5% to the holders of the outstanding preferred and 5.5% to the holders of the outstanding Class A stock.

There is also pending before the Commission a plan filed by Consolidated pursuant to section 11 (e) (File No. 54-78) which provides for the payment in full of all outstanding debt securities of Consolidated by the delivery to the holders thereof of certain common stocks.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said application and declaration shall not be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on said matters under the applicable provisions of said act and rules of the Commission thereunder be held on August 22, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day, the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That any person desiring to be heard or otherwise wishing to participate in the proceedings, shall file with the Secretary of the Commission on or before August 17, 1944, his application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Charles S. Lobingier or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of this Commision shall serve notice of the aforesaid hearing by mailing a copy of this order to Consolidated Electric and Gas Company, The Islands Gas and Electric Company, to the Trustees under the indentures securing the debt securities of The Islands Gas and Electric Company, the Southern Cities Utilities Company, and Consolidated Electric and Gas Company by registered mail; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER.

It is further ordered, That, without limiting the scope of the issues presented by said application and declaration, particular attention shall be directed at said hearing to the following matters and questions:

(1) Whether the proposed plan to distribute Manila Gas Corporation's common stock, to be acquired by Consolidated Electric and Gas Company, to holders of Consolidated's $6 cumulative preferred stock (no par value) by way of partial liquidation is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to all persons affected thereby, particularly the public holders of debt securities, $6 cumulative preferred, and Class A stocks, of Consolidated;

(2) Whether the proposed sale by Islands of the common stock of Manila Gas to Consolidated meets the requirements of sections 12 (d) and 12 (f) of the act and the rules and regulations of this Commission promulgated thereunder;

(3) Whether the proposed acquisition of the Manila Gas stock by Consolidated meets the requirements of sections 9 and 10 of the act and the rules and regulations of this Commission promulgated thereunder;

(4) Whether the proposed use of the proceeds of the contemplated sale of the Manila Gas common stock and its release from the pledge under the Islands bonds, and the purchase and/or retirement of debt securities of the Consolidated system meet the requirements of section 12 (c) of the act and the rules and regulations of this Commission promulgated thereunder, and whether such purchases and/or retirement of the Consolidated debt securities are fair and equitable to the holders of said bonds and to the holders of other securities of Consolidated;

(5) Whether the accounting entries proposed to be made in connection with the proposed transactions are in accordance with sound accounting principles and are otherwise appropriate;

(6) Whether, if the proposed transactions, or any of them, are authorized, it is necessary or appropriate that terms or conditions be imposed in the public interest or for the protection of investors or consumers in connection with such authorization;

(7) Generally, whether, in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or of any rules, regulations, or orders of this Commission promulgated thereunder.

By the Commission.

SURPLUS WAR PROPERTY ADMINISTRATION.

[Reg. 8]

STANDARD GENERAL-PURPOSE MACHINE TOOLS

PRICING POLICY FOR SALE BY RFC

Scope of regulation. By Regulation No. 1, Reconstruction Finance Corporation was designated as the disposal agency for surplus war property of the type generally described as capital and producers' goods. Property so assigned includes machine tools.

The purpose of this regulation is to establish a pricing policy for the sale by Reconstruction Finance Corporation of standard general-purpose machine tools which have been used and which it has available for disposal as surplus.

The policy has been established on a fixed price basis so that prospective purchasers will be able to make current plans with reasonable certainty involving the purchase of surplus machine tools. The prices fixed are based on the original price of the machine tool at the plant of its manufacturer, depreciated over the period of its active use at rates which take into account, among other things, the usage which most such tools are undergoing in war production.

This regulation does not apply to special types of machine tools or to other production equipment.

This regulation shall become effective August 15, 1944. It is recommended that any arrangements made prior to that date for the sale of used standard general-purpose machine tools at prices differing from those set forth herein, be revised to conform to the prices herein set forth if they have not theretofore become contractually binding.

While this regulation applies only to sales of surplus machine tools, the Administration has been advised by the principal owning agencies that, in such sales of machine tools which have not been declared surplus as may be made by them, they intend to adhere to the prices herein set forth.

Definition. "Standard general-purpose machine tools" are machine tools being currently produced and are types used in civilian production; they consist of those listed in the Standard Commodity Classification, Vol. I, Major Group 34, Code Number 34 11000 to 34 19900, inclusive, with the exception of special machine tools designed for and used exclusively in the production of war material, such as:

Special gun reaming, rifling and chambering machines.
Gun boring and turning lathes.
Shell turning lathes.
Shell tappers.
Small arms ammunition machinery.
Special military tank manufacturing machine tools.
Special aircraft manufacturing machine tools.
Special shipbuilding machine tools.
Other special war production machine tools.

Price policy. All sales of used standard general-purpose machine tools, which have been declared surplus to Reconstruction Finance Corporation as disposal agency, shall be made at prices computed as follows: *Provided*, That all sales shall be made in conformity with all applicable War Production Board and Office of Price Administration regulations:

(1) The original price of the manufacturer of the machine tool, inclusive of electrical equipment and standard accessories shall be computed f. o. b. the plant of such manufacturer. If special tooling is to be sold with the machine tool, its original price shall be included, on the same basis.

(2) The period of active use of the machine tool shall be computed on the basis of the best information reasonably available. This period shall run from the estimated date the machine tool was

originally put in use to the date of sale, if the machine tool is then still in use. If the machine tool is not in use at the time of sale, the period shall run to the estimated date when the machine tool became idle.

(3) The price computed pursuant to paragraph (1) above shall be used as a base. The price at which the machine tool shall be offered for sale shall be computed by applying to that base the percentage appearing in Exhibit I to this regulation opposite the period of active use of the machine tool computed pursuant to paragraph (2) above. The percentage appearing in column B of Exhibit I shall be applied where the buyer is the person who is using the machine tool at the time of sale or, if the machine tool is then idle, the person who last used it, and the percentage appearing in column A shall be applied where the sale is to any other buyer.

(4) The price computed pursuant to paragraph (3) above shall be the sale price f. o. b. cars or trucks at the location of the machine tool at the time of sale.

Administrator.

Commodity Credit Corporation.

FLUID MILK

OFFER TO MAKE PAYMENTS IN FORT WAYNE, IND., MARKETING AREA

Offer of the Commodity Credit Corporation to make fluid milk payments in the Fort Wayne, Indiana, marketing area during the period August 1944 through June 1945.

Whereas, the Director of Economic Stabilization and the War Food Administrator of the United States have approved a Fluid Milk Payment Program for the purpose of insuring, in accordance with Executive Order No. 9250 of October 3, 1942, and Executive Order No. 9328 of April 8, 1943, the maximum necessary production and distribution of fluid milk and the maintenance of price ceilings with respect to such milk.

Now, therefore, Commodity Credit Corporation (hereinafter referred to as "Commodity"), a corporate agency of the United States, hereby offers, subject to the terms and conditions herein specified, to make payments to handlers on fluid milk disposed of by such handlers in the Fort Wayne, Indiana, marketing area.

1. Commodity will make a payment to each handler in the Fort Wayne, Indiana, marketing area, regardless of whether or not such handler purchases milk from producers, on Class I milk disposed of by such handler, as determined by Commodity or its designated agent, from August 1, 1944, through June 30, 1945, except, as determined by Commodity or its designated agent, (a) any such milk sold by such handler to another handler, (b) any such milk disposed of by such handler for use by the armed forces of the United States, (c) any such milk of such handler's own production, and (d) any such milk which is emergency milk. The rate of payment per hundredweight of milk shall be, in any calendar month computed as follows: From the Class I price determined for such month pursuant to Order No. 32 subtract $3.57.

2. Settlement hereunder shall be made on a monthly basis upon the presentation, within 90 days after the end of the calendar month for which payments are claimed, to, and approval by, Commodity, or such agent as it may designate, of a claim for payments, supported by a written statement by such handler, made under oath before a notary public or other official authorized by law to administer oaths, that (a) resale prices charged by him for milk for fluid consumption sold during the month for which payments are claimed did not exceed the resale price applicable to such sales pursuant to maximum price regulations of the Office of Price Administration, and (b) he has paid producers for all milk which he received from such producers during such month as required by Order No. 32. The documents presented pursuant to this section shall be in such form and contain such certification as Commodity may prescribe.

3. The performance by the handler of the terms and conditions set forth in this offer together with the submission to Commodity of a claim for payments by the handler, pursuant to this offer, shall constitute an acceptance of this offer for the month for which payments are claimed.

4. Each handler who files a claim for payments shall have accurate and complete books, records, and accounts with respect to his production, receipts, utilization, and sales of milk, and with respect to his sales receipts, costs of products, and operating costs, and shall keep such other books, records, and accounts and submit such reports as Commodity may require. Such books, records, and accounts shall be available for inspection by Commodity or its designated agent at any reasonable time.

5. This offer may be partially or wholly revoked or modified by publication of a notice thereof in the FEDERAL REGISTER by Commodity at any time, but, notwithstanding any such revocation or modification, settlement shall be made as provided in section 2 hereof with respect to any milk disposed of pursuant to the terms and conditions hereof prior to such revocation or modification.

6. Any handler with whom settlement is made pursuant to section 2 of this offer shall, by accepting such settlement, be deemed to have authorized the market administrator to deduct from any payments thereafter due to such handler under Order No. 32 and to pay to Commodity any amount which may be due Commodity by reason of the payment to the handler hereunder or under any similar offer of any amount determined by Commodity to have erroneously or improperly been paid to the handler.

7. *Definitions.* (a) The term "Order No. 32", as used herein, shall mean the order, as amended, issued by the War Food Administrator, regulating the handling of milk in the Fort Wayne, Indiana, marketing area.

(b) The terms "Fort Wayne, Indiana, marketing area," "Class I milk," and "emergency milk," as used herein, shall have the same meaning as is given such terms by Order No. 32.

(c) The term "handler," as used herein, shall have the same meaning as is given such term by Order No. 32, except that no person shall be deemed to be a handler within the meaning of this offer if (i) he has been determined by the Director of Distribution of the War Food Administration not to be fully in compliance with Order No. 32 insofar as it relates to prices payable to producers, or (ii) he has been determined by Commodity to have charged for milk for fluid consumption resale prices higher than the maximum prices applicable to such sales pursuant to the maximum price regulations of the Office of Price Administration during the month for which payments are claimed pursuant to this offer.

Samuel Aronowitz admits the violation as charged, does not desire to contest the same and has consented to the issuance of this order. Wherefore, upon the agreement and consent of Samuel Aronowitz, doing business under the trade name of Samar Construction Company, and upon the approval of the Regional Compliance Manager, the Regional Attorney and the Compliance Commissioner, *It is hereby ordered*, That:

(a) Deliveries of material to Samuel Aronowitz, doing business under the trade name of Samar Construction Company, or otherwise, his successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation, including allotments, shall be made to Samuel Aronowitz, doing business under the trade name of Samar Construction Company, or otherwise, his successors or assigns, of any material or product the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Samuel Aronowitz, doing business under the trade name of Samar Construction Company, or otherwise, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on August 10, 1944, and shall expire on November 10, 1944.

In Alaska, Eskimos and Indians may take, in any manner and at any time, and may possess and transport, auks, auklets, guillemots, murres, and puffins and their eggs and skins for use of themselves and their immediate families for food and clothing.

Regulation 8—Propagating, Scientific, and Other Permits

1. Any person without a permit may possess and transport for his own use, legally acquired live migratory waterfowl and the plumage and skins of legally taken migratory game birds, and such person may possess, dispose of, and transport for the making of fishing flies, bed pillows, and mattresses, and for similar commercial uses, but not for millinery nor ornamental use, feathers of wild ducks and wild geese legally killed or seized and condemned by Federal or State game authorities.

2. Permits for the taking, acquisition, and possession of live migratory birds and their eggs for propagating purposes, for the taking, acquisition and possession of migratory birds and their eggs, nests, or parts for scientific and other limited purposes, for the disposition and transportation of such birds, eggs, nests, parts, and their increase, and for the mounting or other preparation by a taxidermist of such birds, eggs or nests, may be issued under the direction of the Secretary, upon such terms and conditions, including the keeping of records and the making of reports, as he may deem are necessary for the protection of the species and consistent with the general purposes of these regulations.

3. Without obtaining a permit as otherwise required in Section 2 of this regulation, public museums, zoological parks and societies, and public scientific and educational institutions may acquire, possess, purchase, dispose of and transport migratory birds and their eggs, nests or parts. State or municipal game farms or city parks also may acquire, possess, dispose of, and transport live migratory waterfowl without a permit.

4. Applications for permits shall be in such form as may be prescribed by the Secretary, and shall be addressed to the Director of Fish and Wildlife Service, Chicago 54, Illinois.

5. Every package in which migratory birds or parts, nests or eggs thereof, are shipped wholly within a State or Territory or the District of Columbia, or in which such birds or parts or eggs thereof are transported by any means whatever from one State, Territory, or the District of Columbia, to, into, or through another State, Territory, or the District of Columbia, or to a foreign country, shall be plainly and clearly marked, labeled, or tagged on the outside thereof to show the name and address of the consignor and consignee, the contents of the package, the number of the permit under authority of which it is shipped or transported, and the purpose for which the birds or parts, nests or eggs are being shipped or transported.

Regulation 9—Permits to Kill Migratory Birds Injurious to Agriculture or Other Interests

Agriculture or other injury. When information is furnished the Secretary that any species of migratory bird has become, under extraordinary conditions, seriously injurious to agriculture or other interests in any extensive area, an investigation will be made to determine the nature and extent of the injury, whether the birds alleged to be doing the damage should be killed, and, if so, during what times, hours, and by what methods and means. Upon such determination an appropriate order will be made by the Secretary.

Whenever, by reason of a rapid decrease in the distribution and abundance of any species of migratory game birds during any open season specified in these regulations, the shortening of such season or the reduction of the daily bag and possession limits will operate to insure a continuing and normal supply of such species, then, in that event the applicable season or the daily bag and possession limits of such species shall be shortened or reduced to the extent determined necessary to insure such continuing and normal supply. Whenever, by reason of the destruction of valuable agricultural crops through the overabundance of any species of migratory game birds during either an open or closed season specified in these regulations, the lengthening of an open season or the increase of the daily bag and possession limits or a change in the manner, method or hours of such taking will operate to reduce the destruction of valuable agricultural crops, then, in such event the applicable season or daily bag and possession limits may be increased or the manner, method or hours of taking changed for such fixed period or time to the extent necessary to conserve such valuable agricultural crops. In no event shall any

season be lengthened to provide an open season of more than 3½ months.

The facts as to the decrease in distribution and abundance of any species of migratory game birds requiring a shortening of seasons or reductions of daily bag and possession limits, or as to the destruction of valuable agricultural crops requiring the lengthening of seasons or other remedial action, shall be determined by the Secretary and in accordance therewith he shall issue applicable orders which shall become effective when published in the FEDERAL REGISTER.

Specific injury. Upon receipt by the Director, or the Regional Director in the region where the injury occurs, of information from the owner, tenant, or sharecropper that migratory birds are injuring his crops or other interests on the land on which he resides, together with a statement of the location of the land, the nature of the crops or other interests being injured, the extent of such injury, and the particular species of birds committing the injury, an investigation will be made, and if it is determined from such investigation that the injury complained of is substantial and can be abated only by killing the birds, or some of them, permits to kill the birds may be issued by the Director or by the Regional Director, if authorized by the Director, in which permits will be specified the time during which, the means and methods by which, and the person or persons by whom the birds may be killed, and the disposition to be made of the birds so killed, and such other restrictions as may be deemed necessary and appropriate in the circumstances of the particular case.

Every person exercising any privilege granted in a permit issued by the Director or Regional Director shall keep an accurate record of all migratory birds killed by him and whenever requested by the Director or by the Regional Director shall submit promptly, on a form provided by the Fish and Wildlife Service for the purpose, a report correctly stating the species and the number of each species of migratory birds killed by him, and in any event shall submit such report to the Regional Director on or before January 10 of each year. Failure to submit a report as required by this regulation will be sufficient cause for revocation of the permit or withdrawal of any privilege accorded any person failing to make the report.

Regulation 10—State Laws for the Protection of Migratory Birds

Nothing in these regulations or in any permit issued thereunder shall be construed to permit the taking, possession, sale, purchase, or transportation of migratory birds, or parts, nests, or eggs thereof contrary to the laws and regulations of any State or Territory or the District of Columbia, made for the purpose of giving further protection to migratory birds, their nests, and eggs, when such laws and regulations are not inconsistent with the conventions between the United States and any other country for the protection of migratory birds or with the Migratory Bird Treaty Act and do not extend the open seasons for such birds beyond the dates prescribed by these regulations.

Regulation 11—Transportation of Game Mammals to and From Mexico

Game mammals or parts or products thereof, taken in and transported from a State, Territory, or the District of Columbia, may be transported to Mexico, if the importation thereof is not prohibited by law or regulation of that country, upon presentation to the collector of customs at the port of exit of the certificate of an official, warden, or other officer of the game department of such State, Territory, or District, that such game mammals, or parts or products thereof, which must be listed in the certificate, were taken or acquired, and are being transported in compliance with the laws and regulations of such State, Territory, or District.

Live game mammals authorized by a special permit issued by the Secretary of the Interior, pursuant to section 241 of the Penal Code, the administration of which section was in part transferred to said Secretary on July 1, 1939, pursuant to the Reorganization Act of 1939 (53 Stat. 561), to be imported, and the dead bodies of game mammals, or parts, or products thereof, proceeding from Mexico, if accompanied by a Mexican export permit, may be transported into the United States, but their possession in any State or Territory or the District of Columbia will be subject to the laws of such State, Territory, or District.

The Migratory Bird Treaty Act regulations approved August 11, 1939 (54 Stat. 2615), and all amendments thereof are hereby revoked, but all permits heretofore made or issued pursuant to said act and now in force authorizing the killing or other disposition of certain species of migratory birds when injurious to crops and other property and interests and the taking, possession, sale, purchase, exchange, or transportation of migratory birds and their nests and eggs for scientific purposes, and migratory waterfowl and their eggs for propagating purposes, are hereby continued and extended in full force and effect as permits adopted and approved or made or issued hereunder.

IN TESTIMONY WHEREOF, I have hereunto subscribed my name and caused the seal of the Department of the Interior to be affixed, this 25th day of July, 1944.

[SEAL] HAROLD L. ICKES,
Secretary of the Interior.

AND WHEREAS upon consideration it appears that approval of the foregoing regulations will effectuate the purposes of the aforesaid Migratory Bird Treaty Act:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby approve and proclaim the foregoing regulations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 27th day of July, in the year of our Lord [SEAL] nineteen hundred and forty-four, and of the Independence of the United States of America the one hundred and sixty-ninth.

FRANKLIN D ROOSEVELT

By the President:

TITLE 7—AGRICULTURE

Chapter IX—War Food Administration (Marketing Agreements and Orders)

PART 965—MILK IN THE CINCINNATI, OHIO, MARKETING AREA

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

Order amending the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area.

§ 965.1 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR, Cum. Supp. 900.1-900.17; 7 F.R. 3350, 8 F.R. 2815), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. It is hereby found upon the basis of the evidence introduced at the original hearing on said order and in addition to the other findings made prior to or at the time of the original issuance of said order (which findings are hereby ratified and affirmed, save only as such findings are in conflict with the findings hereinafter set forth), that:

(1) The order regulating the handling of milk in the said marketing area, as amended and as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Cincinnati, Ohio, marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in the said order, as amended and as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order, as amended and as hereby amended, regulates the handling of milk in the same manner, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of at least 50 percent of the volume of milk covered by this order, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the said order, as amended and as hereby amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of the order, as amended and as hereby amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period, were engaged in the production of milk for sale in the said marketing area.

Order Relative to Handling

It is hereby ordered, That such handling of milk in the Cincinnati, Ohio, marketing area as is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce shall from the effective date hereof be in compliance with the terms and conditions of the said order, as amended and as hereby amended; and the said order, as amended, is hereby amended as follows:

1. Delete § 965.6 (a) (1) (9 F.R. 825) and substitute therefor the following:

(1) Class I milk—$3.80.

2. Delete § 965.6 (a) (2) and substitute therefor the following:

(2) Class II milk—$3.35: *Provided,* That the price for Class II milk shall not be less than the price for Class III milk plus 15 cents.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-599]

D. APPLETON-CENTURY CO. INC.

D. Appleton-Century Co. Inc. is a corporation organized under the laws of the State of New York with an office and place of business at 35 West 32nd street, New York City and engaged in the business of publishing and selling books. During the calendar year 1942, the company caused to be put into process in the production of books 2,064,077 pounds of paper. Under Limitation Order L-245 the company was entitled to put into process for production of books during the year 1943 only 90 per cent of the amount of paper by weight put into process during 1942, or 1,857,699.3 pounds of paper. The company put into process during the year 1943 2,293,657 pounds of paper, an excessive use of 435,987.7 pounds. The company offers the explanation that confusion existed for months in its accounting department as a result of the illness and resignation of its treasurer, and that its records of paper consumption had always been compiled by dollar values and not by weight. The company was familiar with the terms of Order L-245 and while there was no deliberate intent on the part of the company to exceed its quota or otherwise violate Limitation Order L-245, its officers failed to take reasonably prudent steps to establish its quota early enough in the year to serve as a guide for the control of its operations and to prevent the substantial excess usage which concededly took place. This excessive use of paper has diverted scarce material to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.599 *Suspension order No. S-599.* (a) D. Appleton-Century Co. Inc., its successors and assigns, shall reduce its consumption of paper during the year 1944 so that the total amount of paper put into process in the calendar year 1944 shall be 435,987.7 pounds less than it would otherwise be permitted to put into process during 1944 under the provisions of Limitation Order L-245, unless otherwise authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve D. Appleton-Century Co. Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance and shall expire on December 31, 1944.

Issued this 11th day of August 1944.

Recording Secretary.

PART 3270—CONTAINERS

[Conservation Order M-290, Direction 5]

DELIVERIES OF SHEETS TO SHEET PLANTS UNDER THIRD QUARTER AUTHORIZATIONS AFTER OCTOBER 1, 1944

The following direction is issued pursuant to conservation Order M-290:

(a) If all of the conditions stated in this direction are fulfilled, a sheet plant may accept against third quarter authorizations deliveries of corrugated and solid fibre sheets, even though they were not delivered or in transit to it by September 30, 1944.

(1) The sheet plant must have placed its order, duly certified its accordance with Order M-290 (see paragraphs (c) and (d), for the sheets with its supplier prior to September 20, 1944, and must be entitled to accept the sheets, in so far as tonnage is concerned, within the authorization it received for the third quarter of 1944.

(2) The corrugated or solid fibre sheets must be made from containerboard which was delivered or in transit to the sheet supplier prior to October 1, 1944, pursuant to a duly certified purchase order carrying the sheet plant's authorization number in accordance with paragraph (c) of Order M-290.

(b) This direction supersedes, to the extent indicated, the statement contained in outstanding third quarter authorizations for containerboard to the effect that such authorizations lapse with respect to any containerboard not actually delivered or in transit to the consumer by the last day of the quarter covered by his application. In all other respects, the provisions of Order M-290 and all authorizations issued thereunder remain fully applicable.

Issued this 12th day of August 1944.

[General Conservation Order M-280, as Amended July 21, 1944, Amdt. 1]

MOISTURE VAPOR BARRIER MATERIAL

Section 3281.96 *General Conservation Order M-280* is hereby amended in the following respects:

I. Add the following two new paragraphs (a) (7) and (a) (8):

(7) "Ammunition container bag" means a container made of moisture vapor barrier material used to package ammunition for the Army and Navy of the United States.

(8) "Powder bag" means a container made of moisture vapor barrier material used to package gun powder for the Army and Navy of the United States.

II. Amend paragraph (b) (3) to read as follows:

(3) No person shall use any moisture vapor barrier material, moisture barrier bags or processed sheets except for ammunition container bags, powder bags and for packaging products which have been ordered by or for the account of the Army or Navy of the United States. These bags or processed sheets, other than ammunition container bags and powder bags, may be used only when the applicable specifications require Method II packaging (dehydration).

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L-240, Supp. 1, as Amended Aug. 12, 1944]

NEWSPAPERS

§ 3133.6a *General Limitation Order L-240, Supplement No. 1*—(a) *Purpose of appeal clause.* The serious shortage in the supply of print paper available for newspapers makes it necessary for publishers to reduce their consumption substantially, as provided in Order L-240. Such reductions may create serious hardships which, however, are unavoidable in time of war. Appeals are not granted to ameliorate, in individual cases, hardships applicable to an entire industry. They are granted only to provide relief, subject to the provisions of paragraphs (b) to (g), from certain undue and excessive hardships which would be created if the order were applied without modification to an exceptional set of circumstances. Appeals which do not establish such hardships shall be denied.

(b) *No automatic adjustments.* Paragraph (f) of this supplement describes the types of hardships for which quota adjustments shall be made by the War Production Board on appeal. These adjustments, however, are not automatic. A publisher who believes that his case is covered by one of the subparagraphs of paragraph (f) may not make his own adjustment of his consumption quota. No publisher may use any paper in excess of his consumption quota, computed in accordance with paragraphs (j) to (m) of Order L-240, unless he files an appeal for such relief and a grant is made in writing signed by the Recording Secretary of the War Production Board.

(c) *Adjustments of base tonnages.* Wherever appropriate, grants on appeal shall be made in the form of adjustments of a publisher's base tonnage which shall continue to be effective in future quarters, subject to re-examination and modification at any time by the War Production Board.

(d) *Effective date of base tonnage adjustments.* Adjustments of base tonnages are not retroactive. A publisher whose base tonnage is adjusted, on appeal, does not receive, by virtue of such adjustment, a "carry-over of unused tonnage" from any quarter before the issuance of the appeal grant.

(e) *Application of curtailments.* Constructive base tonnages granted on appeal are subject to the curtailments required by paragraph (k) of Order L-240 as amended from time to time.

(f) *Types of hardship for which relief shall be granted.* In passing upon appeals under Order L-240 the following standards shall govern:

(1) *Extraordinary population increase accompanied by circulation increase.* Where there has been extraordinary growth of population in a newspaper's trading area since December 31, 1942, its consumption quota shall be adjusted in order to permit the maintenance of adequate newspaper service in that trading area. The amount of tonnage to be granted shall be determined as follows: (i) the percentage of population growth in the newspaper's trading area since December 31, 1942 and the percentage of the newspaper's circulation growth in that area measured by the average for the first two quarters of 1944 over the average for the year of 1942, shall be ascertained. (ii) The newspaper's consumption quota shall be increased to the extent that the lower of these two figures exceeds 7½%. In other words, a newspaper must absorb the first 7½% of both population and circulation increase, and it will be granted ex-quota paper only to the extent that population or circulation increase exceeds 7½%, whichever percentage increase is smaller.

Population increase shall be determined on the basis of the best available evidence. In making such determination consideration may be given not only to census figures but also to ration book records, estimates of military authorities, local government officials, postal authorities, telephone, gas and electric companies, housing authorities, employment and labor agencies, transportation agencies, Chambers of Commerce and others. In trading areas where evidence of population increase is inconclusive, weight may be given to circulation increase as evidence of population increase. Increased circulation resulting from promotional sales efforts shall not be included.

Additional adjustment shall be made for newspapers in trading areas whose population has increased more than 50% since the last decennial census, in order to maintain adequate newspaper service in the trading area.

(2) *Extraordinary circulation increase.* Where a newspaper's average circulation for the second quarter of 1943 exceeds its average circulation for the year 1942 by more than 10%, the newspaper's consumption quota shall be increased to the extent of such circulation increase in excess of 10%, without the necessity of establishing any population increase. Increased circulation resulting from promotional sales efforts shall not be included.

(3) *Discontinuance or merger of newspapers.* Adjustments in consumption quota shall be made in order to maintain adequate newspaper service in a community where there has been a discontinuance or merger of newspapers.

(4) *Supplements added in 1941 or 1942.* Adjustments in consumption quota shall be made for newspapers which added supplements in 1941 or 1942. Such adjustments shall be made only to the extent that the newspaper's total content was increased by the addition of the supplements and such increase was not reflected in its base tonnage and only to the extent it appears that because of contractual relationships undue hardship would be caused by a failure to make such adjustments.

[Paragraphs (5), (6), (7) and (8) formerly (6), (7), (8) and (9). Former paragraph (5) deleted Aug. 12, 1944.]

(5) *Temporary suspension.* Newspapers which were forced to suspend publication temporarily during 1941 because of strikes, fires, or similar conditions shall be granted compensatory increases in their base tonnages, to the extent that it was impracticable to continue operations at another plant.

(6) *Change in roll size.* Publishers who reduced the width of their newsprint rolls in 1941 shall be granted compensatory increases in their base tonnages.

(7) *Increased frequency of issuance.* Publishers who increased the frequency of issuance of their newspapers in 1941 and 1942 shall be granted adjustments of their base tonnages to permit continued publication at the frequency of issuance established before Order L-240 was issued, on December 31, 1942.

(8) *Extraordinary hardships.* Appeal tonnage shall not be recommended by either the administrator or the Division Appeals Committee or granted by the Appeals Board for causes other than those enumerated in subparagraphs (1) to (7) of this paragraph (f) except where unforeseen, unusual, extraordinary or emergency conditions constituting undue and excessive hardship are proved. Certain factors which shall not be recognized as grounds for the granting of appeal tonnage are described in paragraph (g).

(g) *Factors which shall not be considered as grounds for granting appeals.* The following is a list of some of the factors which shall not be considered as grounds for the granting of tonnage on appeal. This list is not exclusive.

(1) The nature of a newspaper's contents.

(2) Diminished base period consumption because of financial conditions.

(3) Suspension of publication in 1941 or 1942 except as provided in paragraph (f) (5).

(4) Population or circulation increase, except as provided in paragraph (k) (2) of Order L-240 or paragraphs (f) (1) or (f) (2) of this supplement.

(5) Retarded circulation growth caused by a price increase in 1941 or 1942.

(6) Conservation of paper at any time except as provided in paragraph (f) (6).

[NOTE: Paragraphs (7) through (13) formerly (8) through (14). Former paragraph (7) deleted Aug. 12, 1944.]

(7) Change in number of advertising lines at any time, except as provided in paragraphs (f) (3) and (f) (4).

(8) Unsold copies or circulation returns.

(9) Special events such as war bond drives, recruiting drives, war news, political news, etc.

(10) Inability to maintain or increase advertising lines under existing quotas.

(11) The fact that additional tonnage was granted on appeal to a competitor.

(12) Request to use in a newspaper started since December 31, 1942, more tonnage than that permitted in paragraph (m) of Order L-240.

(13) Consumption of print paper in violation of Order L-240, whether or not such violation was wilful.

Procedure

(h) *How appeals are submitted.* Appeals from Order L-240 may be filed by addressing a letter in duplicate to the War Production Board, Printing and Publishing Division, Washington 25, D. C. Ref: L-240.

(i) *Form of appeals.* The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provision appealed from, the precise relief desired, the subdivision of paragraph (f) upon which the appellant relies, and the reasons why denial of the appeal would result in undue and excessive hardship.

(j) *Denials by administrator.* Appeals may be denied in the first instance by the administrator of the order.

(k) *Re-appeal from denial by administrator.* When an appeal has been denied by the administrator of the order, the appellant may re-appeal, within 15 days after the letter of denial is mailed, by addressing a letter to the War Production Board, Printing and Publishing Division, Washington 25, D. C. Ref: L-240. This letter may contain simply a request that the case be forwarded to the Appeals Board of the War Production Board. Any additional information which the appellant cares to submit at this time will also be forwarded to the Appeals Board.

(l) *Grant of appeals.* Although the administrator of the order may deny an appeal in the first instance, only the Appeals Board has the power to grant relief in individual cases from the provisions of the order.

(m) *Recommendation of grant by the administrator.* The administrator of the order may recommend that an appeal be granted in whole or in part. In that event the case shall be forwarded to the Appeals Board with the written recommendation of the administrator and the written concurrence or non-concurrence of each member of the Division Appeals

Committee, consisting of himself, the administrators of Orders L–241, L–244, and L–245, the Assistant Director of the Printing and Publishing Division for Labor, and representatives of the Office of Civilian Requirements and the Conservation Division..

(n) *Optional reference to Appeals Board by administrator.* The administrator of the order may, if he desires, refer a case to the Appeals Board with a recommendation of denial or with no recommendation at all.

(o) *Hearings by Appeals Board.* If the Appeals Board desires to obtain additional facts not contained in the file it may, in its discretion, hold a public hearing on any appeal. To the extent consistent with the necessity for emergency relief, a schedule of hearings shall be made up in advance. Information concerning the time and place of any scheduled hearing shall be available at the office of the Appeals Board at any time during business hours.

(p) *Conduct of hearing.* Hearings by the Appeals Board are open to the public. All interested parties may attend and, in the discretion of the Board, may be heard. The hearings are informal and the Board is not bound by legal rules of evidence. It is not necessary for an appellant to be represented by counsel although he may do so if he wishes.

(q) *Decision by Appeals Board.* The Appeals Board may grant or deny an appeal in whole or in part. It may also attach conditions to a grant.

(r) *Finality of decisions.* The decisions of the Appeals Board shall be final, unless that Board elects to reopen the case.

(s) *Publication of grants.* Grants on appeals shall be announced publicly at least every two weeks.

(t) *Announcement of grounds of decision.* Whenever a grant is made for "unforeseen, unusual, extraordinary or emergency conditions" under paragraph (f) (8), a brief memorandum of the basis of the decision shall be made public by the Appeals Board within two weeks, and the decision shall be treated as a precedent in future situations of an identical character.

(u) *Amendment of supplement.* Whenever a new standard is developed, the supplement shall be amended to set forth that standard.

(v) *Public files.* Public files shall be set up in all cases, including those filed before as well as after October 7, 1943, whether or not they resulted in a grant. They shall be available for public inspection at any time during the business hours of the War Production Board. The public files shall include:

1. All papers filed by the appellant in support of the appeal except those portions which contain confidential data.
2. All memoranda by War Production Board officials containing recommendations for or against the allowance of the appeal.
3. Copy of all letters of grant or denial.
4. A transcript of the record of any public hearing (or if the stenographic notes of the hearing have not been transcribed, a memorandum referring to the notes and stating how a transcript may be obtained).

(w) *False representations.* All grants on appeal are conditional upon the validity of the statements submitted in support thereof. Any person who wilfully conceals a material fact or furnishes false information in connection with an appeal, whether orally or in writing, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both, as provided in section (35) (A) of the United States Criminal Code.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-602]

THE WICHITA BEACON

The Wichita Beacon is a corporation with its principal office in Wichita, Kansas. It is engaged in the business of publishing a daily newspaper known as The Wichita Beacon. In the first, second, and third quarters of 1943, it used or caused to be used in the publication of its newspaper, 83.86 tons, 30.782 tons, and 9.99 tons respectively, of print paper in excess of its quotas for such quarterly periods as established by Limitation Order L-240 and in violation of that order. The officers of the company were familiar with the provisions of Limitation Order L-240 and the violations were wilful, but there were extenuating circumstances. This excessive use of paper has diverted scarce material to uses not authorized by the War Production

Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.602 *Suspension Order No. S–602.* (a) The Wichita Beacon, its successors or assigns, shall reduce its use of print paper during the balance of the third quarter of 1944 by 22.5 tons, during the fourth quarter of 1944 by 45 tons, and during the first quarter of 1945 by 22.5 tons under the consumption quota it would otherwise be entitled to use during those periods as specified by the provisions of Limitation Order L–240, unless otherwise authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve The Wichita Beacon, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance and shall expire on March 31, 1945.

Issued this 11th day of August 1944.

PART 1346—BUILDING MATERIALS

[RMPR 206,[1] Amdt. 5]

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 206 is amended in the following respects:

1. Section 4.1 is amended to read as follows:

SEC. 4.1 *Maximum prices for "pick-up basis" and for "less-than-carload shipments by rail."* (a) (1) Any manufacturer making sales on a "pick-up basis," f. o. b. factory, from a factory located within the Eastern Area, as defined in section 5.1 of this regulation, or any manufacturer making sales in "less-than-carload shipments by rail" delivered to a destination point within such area, may increase his established March 1942 maximum price by an amount not in excess of an amount determined in the following manner: Reduce the discounts established during the month of March 1942 for sales of sewer pipe products covered by discount numbers 1 to 7, inclusive, by 3 points, those covered by discount numbers 8 to 16, inclusive, by 4 points, of the tables of list prices set forth in section 5.2 of this regulation.

(2) In the case of sales of sewer pipe products sold f. o. b. factory on a "pick-up basis" or for "less-than-carload shipments by rail" within the States of Iowa, Minnesota, North Dakota, South Dakota, and Zones 3 and 4 in the State of Wisconsin, as defined in section 8.1 below, sellers may add 11.4 percent to the highest prices charged during the month of March 1942 for the same quality, kind, and quantity of sewer pipe products delivered to purchasers of the same class.

(3) In the case of sales of sewer pipe products sold f. o. b. factory on a "pick-up basis" or for "less-than-carload shipments by rail" within the East Central Area, as defined in section 7.1 below, sellers may add 8 percent to the highest price charged during the month of March 1942 for the same quality, kind, and quantity of sewer pipe products delivered to purchasers of the same class.

(4) Maximum prices for the sale of sewer pipe products sold f. o. b. factory on a "pick-up basis," except the St. Louis Metropolitan Area, and for "less-than-carload shipments by rail" into all areas of the United States not specifically covered by subparagraphs (1), (2), and (3) above, shall be a price not in excess of the highest price charged for delivery on a "pick-up basis" and for "less-than-carload shipment by rail" during the month of March 1942 for the same quality, kind, and quantity of sewer pipe products delivered to purchasers of the same class.

(b) Maximum prices for the sale of sewer pipe products sold f. o. b. factory on a "pick-up basis" and/or "delivered" for the St. Louis Metropolitan Area are established in section 8.4 (e) of this regulation.

The term "pick-up basis" when used in reference to a sale means a transaction in which a purchaser takes delivery of sewer pipe products at the factory and removes the sewer pipe products from the factory by conveyance provided by the purchaser.

The term "less-than-carload shipment" means a shipment or quantity of vitrified clay sewer pipe and allied products which totals less than the minimum weight as set forth in the tariffs of railroad carriers upon which the railroad carload rate from the point of shipment to the point of destination is based.

PART 1413—SOFTWOOD LUMBER PRODUCTS

[MPR 381,[1] Amdt. 5]

STOCK SCREEN GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

1. In section 3, paragraph (c) is relettered (d) and a new paragraph (c) is added to read as follows:

(c) *Addition to maximum prices for retail sales.* When a regular dealer purchases from other than a factory or factory warehouse and pays inbound common carrier freight from his normal sources of supply in excess of $0.75 per hundred pounds, the regular dealer may increase his maximum prices for retail sales of screen doors or extension window screens or knocked-down window screen frames by 2 percent of list price, and he may increase his maximum prices for retail sales of combination doors by 3 percent of list price.

2. In section 4 (a), sub-paragraph (2) is amended to read as follows:

(2) In sales to distributors, when the shipment originates at any place other than a factory or factory warehouse:

(i) The seller cannot charge for delivery when delivery is made by the seller's own truck.

(ii) When shipment is made by common carrier, any seller who allowed freight in March 1942 must allow freight to the same extent as he did in March 1942, but not in excess of $0.75 per hundred pounds. Sellers who allowed no freight in March 1942 may continue to allow no freight.

3. Section 7 is amended to read as follows:

SEC. 7. *Records and reports*—(a) *Records.* Sellers must keep records which will show a complete description of the items of stock screen goods sold, the name and address of the buyer (except in retail sales), the date of the sale and the price. Buyers must keep similar records, including the name and address of the seller (except in retail sales). These records must be kept for two years, covering any month in which the seller or buyer sold or bought $200 or more of stock screen goods.

(b) *Reports.* All regular dealers who increase their retail prices on screen doors, extension window screens or combination doors in accordance with the provisions of section 3 (c) shall report to the Lumber Branch, Office of Price Administration, Washington 25, D. C. the names of their regular suppliers of these products, the origin and destination of inbound shipments, the freight rates per hundred pounds, the amount of freight allowed by the supplier, and the quantity of screen goods and combination doors received from such regular suppliers. Such reports shall be made by September 1, 1944 to cover the period July 1, 1943 to June 30, 1944. No report shall be required for any period after June 30, 1944, except that a seller who advances his prices under section 3 (c) after, but not before, December 31, 1944, shall submit a report giving the above information for the most recently completed twelve month period prior to such price advance.

This amendment shall become effective August 17, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1418—TERRITORIES AND POSSESSIONS

[MPR 373,[1] Amdt. 75]

HOME BUILDING MATERIALS IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

MPR 373 is amended in the following respects:

[1] 8 F.R. 6159, 7198; 9 F.R. 2300, 4608, 6915.

[1] 8 F.R. 5388, 6359, 6849, 7200, 7457, 8064, 8550, 10270, 10666, 10984, 11247, 11437, 11849, 12299, 12703, 13023, 13342, 13500, 14139, 14305, 14688, 15253, 15369, 15851, 15852, 16866, 16997, 15862, 17201; 9 F.R., 173, 393, 580, 584, 1158, 1487, 1489, 1528, 1530, 2177, 2659, 5168, 5438, 5482, 6259, 6810, 6813, 6814, 6818, 6885, 7262, 7424.

1. A new section 69 is added to read as follows:

Sec. 69. *Maximum prices for sales of home building materials at wholesale*—(a) *What is covered by this section.* This section establishes maximum prices for sales at wholesale of the home building materials listed in Appendix A.

(b) *Wholesalers' maximum prices.* If you are a wholesaler of any home building material item listed in Appendix A, your maximum prices shall be determined as follows:

(1) For out of stock sales of any item manufactured outside the Territory of Hawaii (i. e. all items except those listed under the classification Brick):

First, add the manufacturer's selling price and your "landing cost," computed in accordance with the provisions of paragraph (e). Then multiply this amount by the applicable multiplication factor listed in Appendix A for the particular item and class of purchaser involved. The resulting price shall be your maximum price.

(2) For sales on a drop shipment basis of any item manufactured outside the Territory of Hawaii (i. e. all items except those listed under the classification Brick):

Your maximum price shall be the maximum price established by sections 2 and 3 of the General Maximum Price Regulation for the Territory of Hawaii.

(3) For sales of any locally manufactured item (i. e. all items listed under the classification Brick): Add the manufacturer's selling price and the applicable dollars and cents markup listed in Appendix A for the particular item and class of purchaser involved. The resulting price shall be your maximum price.

(4) For sales of any item purchased from another wholesaler: If you purchase any home building material item from another wholesaler, you must secure a written record of your supplier's maximum price, and your maximum price shall be your supplier's maximum price.

(c) *Effect of changes in the manufacturer's selling price.* All changes in the manufacturer's selling prices shall be reflected in the computation of your maximum price under paragraph (b) above, as of the date merchandise is received in the Territory at the adjusted price. For example, your manufacturer of Wall Board reduces his selling price from $29.00 MBM to $28.00 MBM. At the time you receive a new purchase of this item from him in the Territory at the reduced price, i. e., $28.00 MBM, you must reflect this figure in establishing your maximum price for sales of that item in accordance with the provisions of subparagraphs (b) (1) and (b) (3). Accordingly, the reduced price ($28.00 MBM) shall be used in computing your maximum price regardless of whether or not you have stocks on hand at the time which have been purchased at the higher price. The same rule applies in the computation of your maximum price when your manufacturer's selling price has increased: *Provided*, That such increased price shall not exceed the established maximum price for sales by your supplier to you.

(d) *Inability to price.* If you are unable to determine your maximum price for any article covered by this section under the pricing provisions set forth in paragraph (b), above, you shall apply the provisions of section 9a of this regulation to determine your maximum price.

(e) *"Landing cost" for items imported from outside the Territory of Hawaii.* (1) "Landing cost" for items imported from outside the Territory of Hawaii shall be computed by adding the amounts permitted in subdivisions (i) through (v) set forth below. If any of the amounts, or any part thereof, specified in any of these subdivisions, has already been included in another subdivision, it may not again be added.

(i) An amount equal to the transportation charges, if any, actually incurred by the purchaser for transportation from the mainland point at which the purchaser received delivery to the mainland port of shipment (including Federal transportation tax and terminal charges) not in excess of public (common or contract) carrier rates.

(ii) An amount equal to mainland storage charges and insurance in connection therewith actually incurred by the purchaser. The charges for storage and insurance in connection therewith in excess of three months shall not be included.

(iii) An amount equal to cartage charges actually incurred by the purchaser for cartage from warehouse to dock in port of shipment, not in excess of public (common or contract) carrier rates.

(iv) An amount equal to charges for ocean freight, War Risk and Marine insurance actually incurred by the purchaser, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of War Risk insurance exceeds the rates charged by the War Shipping Administration shall be included, but the type of coverage is at the discretion of the buyer and seller.

(v) An amount equal to cartage charges in the Port of Entry in the Territory of Hawaii from dock to the establishment of the purchaser, computed at a rate not in excess of prevailing (common or contract) carrier rates: *Provided*, That the commodity is moved from the dock at the purchaser's expense.

(2) Weighted average "landing cost". If an identical item on hand in the wholesaler's stock has two or more different "landing costs," then the landing cost for the item may, at the option of the seller, be determined by calculating a weighted average "landing cost" for the entire inventory of that identical item on hand. Weighted average "landing cost" shall be calculated as follows:

(i) Each different "landing cost" shall be multiplied by the number of units having such "landing cost." The products of such multiplication shall be added and the sum thereof divided by the total number of units for which the weighted average "landing cost" is desired. The quotient or result of such division is the weighted average "landing cost."

(f) *"Landing cost" in cases of inter-island shipments.* In the case that any item covered by this section is shipped from one island to another island in the Territory of Hawaii, the "landing cost" for such inter-island shipment may be added only after the maximum prices for such items have been computed under paragraph (b) above. "Landing cost" for inter-island shipments will be computed by adding the amounts permitted in subparagraph (1) through (3) set forth below.

(1) An amount equal to cartage charges actually incurred for cartage from warehouse to dock in the island from which the item was shipped, not in excess of prevailing public (common or contract) carrier rates.

(2) An amount equal to charges for ocean freight, War Risk and Marine insurance actually incurred for shipment between the islands, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of War Risk insurance exceeds rates charged by the War Shipping Administration shall not be included, but the type of coverage is at the discretion of the buyer and seller.

(3) An equal amount to cartage charges on the island of final destination, from dock to the establishment of the purchaser, computed at a rate not in excess of prevailing public (common or

contract) carrier rates, *Provided*, That the commodity is moved from the dock at the wholesaler's expense.

(g) *Delivery charges.* (1) No charge shall be made for deliveries within a radius of 5 miles of the seller's warehouse or place of business of any of the home building materials listed in Appendix A, except those items specifically listed therein as sold on a f. o. b. basis; for example, cement in quantities of 100 bags. However, you may not refuse to make free delivery within the free zone unless it was not your practice as a seller during April 1942 to make free deliveries in this zone.

(2) For deliveries of items listed in Appendix A as priced on a f. o. b. basis, and for deliveries of all other items listed in Appendix A to points beyond a radius of 5 miles of the wholesaler's warehouse or place of business, the wholesaler may add an amount not in excess of the charges currently made by public (common or contract) carriers for similar services, except that in the case of sales of brick the wholesaler must add the delivery charges set forth in Appendix A for that item. Any charges made for delivery must be separately stated and shown on the invoice used in connection with the sale.

(h) *Records and invoices.* The following provisions regarding records and invoices shall apply in lieu of the provisions of paragraphs (a) and (c) of section 10 of this regulation.

(1) Purchase records: If you make sales at wholesale of any article listed and described in Appendix A, you must keep and make available for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each purchase of each such article, showing

(i) The date of purchase and the date of receipt.

(ii) The name and address of the seller.

(iii) A description of the article purchased.

(iv) The price paid or charged.

(v) The quantity purchased.

(vi) All data including the purchase, freight and other invoices or memoranda reflecting the charges incurred by you in arriving at your landing cost.

(2) Sales invoices: If you make sales of any item listed in Appendix A at wholesale, you shall invoice each sale of each such item. The original invoice shall be delivered to the buyer and shall state:

(i) Date of sale.

(ii) The name and address of the seller and buyer.

(iii) Itemized list of the articles sold.

(iv) A complete description of the articles sold, including grade, quantity, size, make or any other pertinent specification.

(v) The price charged or received.

(vi) All delivery charges.

A copy of this invoice shall be made and kept by you for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect.

(i) *Definitions.* When used in this section, the term

(1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it f. o.b. factory, less all allowable discounts and allowances except cash discounts up to 2%, and before the addition of any premium or other charge permitted under the Second Revised Maximum Export Regulation.

(2) "Out of stock sales" means sales of items which the seller carries in stock, sells out of stock and which were invoiced and shipped to the establishment of the seller.

(3) "Sales on a drop shipment basis" means sales of items which the seller does not carry in stock, which were not sold out of stock and which were not shipped to the establishment of the seller.

(4) "Sale at wholesale" means a sale by any person who maintains warehouse stock or renders a selling service, and who buys any home building material item listed in Appendix A and resells it, without materially changing its form, to plantations, industrial users, the United States Government, or any agency thereof, contractors, builders or retail dealers.

2. Appendix A is added to read as follows:

Paragraph (b) is redesignated paragraph (c) and a new paragraph (b) is added to read as follows:

(b) *Adjustment of maximum prices.* (1) The Office of Price Administration may adjust any maximum price established under this section for any manufacturer of wet corn milling products in bulk whose continued production is considered necessary to maintain essential supply, and who demonstrates that an adjustment is necessary in order:

(i) To cover its total cost of wet corn milling operations if its current over-all profits before income taxes are less than its corresponding base period profits (1936–1939); or

(ii) To cover its direct costs of wet corn milling operations if its current over-all profits before income taxes are as great as or greater than its corresponding base period profits.

(2) Applications for adjustment under this paragraph shall be filed by the manufacturer with the Office of Price Administration, Washington, D. C., in the manner prescribed by Revised Procedural Regulation No. 1, and shall contain the following information:

(iv) If the applicant is engaged in activities other than wet corn milling, his profit and loss statement for his wet corn milling operations during the most recent six months period. The statement of wet corn milling operations should show separately:

PART 1418—TERRITORIES AND POSSESSIONS

[MPR 378,[1] Amdt. 76]

GROCERY ITEMS IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 41a is amended to read as follows:

SEC. 41a. *Maximum prices at wholesale for certain grocery items*—(a) *What this section covers.* This section sets maximum prices at wholesale for all grocery items listed and described in paragraph (n) of this section.

(b) *Maximum prices for grocery items imported directly from the mainland.* In the case of sales of any grocery items covered by this section, which are imported directly from the mainland, except any items imported from the mainland which are purchased from the Federal Surplus Commodities Corporation, or any items which are received from or via any other island in the Territory, the wholesaler shall calculate his maximum price for each item (that is, for each kind, brand, grade, variety, container type and container size) as follows:

(1) The wholesaler shall first ascertain his "landed cost" for the item he is pricing by adding the amounts permitted in subdivisions (i) through (vi) set forth below. If any of the amounts, or any part thereof, specified in any of these subdivisions has already been included in another subdivision, it may not again be added.

(i) An amount equal to the mainland seller's selling price, less all discounts and allowances except the discount for prompt payment up to 2%, and the customary swell and label allowances as received, and promotional allowances to the extent received in the calendar year 1941: *Provided*, That in all cases where the purchase is made from and billed by a local representative or agent of a mainland manufacturer, the wholesaler must obtain from such local representative or agent a written statement of his mainland principal's maximum price for the items sold.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery to the mainland port of shipment, including Federal transportation tax, terminal charges, demurrage, and extra charges for shipment in less than carload lots.

(iii) An amount equal to mainland storage charges and insurance in connection therewith actually incurred by the wholesaler.

(iv) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included in the event that the difference between the two rates exceeds 1%, but the type of coverage is at the discretion of the buyer or seller.

(vi) An amount equal to cartage charges in the port of entry in the Territory of Hawaii, from dock to the wholesaler's warehouse or to the ultimate purchaser's establishment, computed at a rate of $1.20 per ton, weight or measurement: *Provided*, That the merchandise is moved from the dock at the wholesaler's expense.

(2) When the item which the wholesaler is pricing is listed in Table A of this section, he shall then add to his "landed cost" computed in accordance with the provisions of paragraph (b) (1) above, the markup set forth in Table A for that item. When the item is not listed in Table A, the wholesaler shall divide such "landed cost" by the applicable division factor set forth in Table B of this section. The resulting price shall be the wholesaler's maximum, price for that item.

(c) *Maximum prices for grocery items purchased from the Federal Surplus Commodities Corporation.* In the case of sales of any grocery items covered by this section which are purchased from the Federal Surplus Commodities Corporation, the wholesaler shall calculate his maximum price for each item (that is, for each kind, brand, grade, variety, container type and container size) as follows:

(1) The wholesaler shall first ascertain his "landed cost" for the item he is pricing by adding the amounts permitted in subdivisions (i) and (ii) set forth below. If any of the amounts, or any part thereof, specified in either of these subdivisions has already been included in the other subdivision, it may not again be added.

(i) An amount equal to the net price paid to the Federal Surplus Commodities Corporation.

(ii) An amount equal to cartage charges computed at a rate of $1.20 per ton, weight or measurement, for cartage from the Federal Surplus Commodities Corporation's warehouse, or from the dock, to the wholesaler's warehouse or to the ultimate purchaser's establishment, *Provided*, That the merchandise is moved from the dock or Federal Surplus Commodities Corporation's warehouse at the wholesaler's expense.

(2) When the item which the wholesaler is pricing is listed in Table A of this section, he shall then add to his "landed cost", computed in accordance with the provisions of paragraph (c) (1) above, the markup set forth in Table A for that item. When the item is not listed in Table A, the wholesaler shall divide such "landed cost" by the applicable division facter set forth in Table B of this section. The resulting price shall be the wholesaler's maximum price for that item.

(d) *Maximum prices for grocery items purchased from manufacturers or producers located on the same island as the wholesaler.* In the case of sales of any grocery items covered by this section which are purchased from a manufacturer or producer located on the same island as the wholesaler, the wholesaler shall calculate his maximum price for each item (that is, for each kind, brand, grade, variety, container type and container size) as follows:

(1) The wholesaler shall first ascertain his "landed cost" for the item he is pricing by adding the amounts permitted in subdivisions (i) and (ii) set forth below. If any of the amounts, or any part thereof, specified in either of these subdivisions has already been included in the other subdivision, it may not again be added.

(i) An amount equal to the manufacturer's or producer's selling price, less all discounts and allowances, except the discount for prompt payment up to 2%, and the customary swell and label allowances as received, and promotional allowances to the extent received in the calendar year 1941.

(ii) An amount equal to cartage charges for cartage from the manufacturer's or producer's establishment to the wholesaler's warehouse or to the ultimate purchaser's establishment, computed at a rate of $1.20 per ton, weight or measurement, provided, that the merchandise is moved from the manufacturer's or producer's establishment at the wholesaler's expense.

(2) When the item which the wholesaler is pricing is listed in Table A of this section, he shall then add to his "landed cost", computed in accordance with paragraph (d) (1) above, the markup set forth in Table A for that item. When the item is not listed in Table A, the wholesaler shall divide such "landed Cost" by the applicable division factor set forth in Table B of this section. The resulting price shall be the wholesaler's maximum price for that item.

(e) *Maximum prices for grocery items received from or via another Island in the Territory of Hawaii.* In the case of sales of any grocery items covered by this section which have been received from or via another Island in the Territory of Hawaii, the wholesaler shall calculate his maximum price for each item (that is, for each kind, brand, grade, variety, container type and container size) as follows:

(1) The wholesaler shall first ascertain his "landed cost" for the item he is pricing by adding the amounts permitted in subdivisions (i) through (iv), set forth below. If any of the amounts, or any part thereof, specified in any of these subdivisions has already been included in another subdivision, it may not again be added.

(i) An amount equal to the seller's selling price, less all discounts and allowances except the discount for prompt payment up to 2%, and the customary swell and label allowances as received, and promotional allowances to the extent received in the year 1941, *Provided*, That in the event the wholesaler has purchased the item from another wholesaler and the supplier has sold the item at less than his maximum wholesale price, the buyer may include in his "landed cost" the full amount of his supplier's maximum wholesale price in lieu of the price actually paid.

(ii) An amount equal to cartage charges for cartage from the warehouse of the seller or from the manufacturer's shipping point to dock in the Island from which the item is shipped calculated at a rate of $1.20 per ton, weight or measurement, except in cases where the seller's maximum price regularly includes delivery to the dock.

(iii) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler for shipment between the Islands, and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included in the event that the difference between the two rates exceeds 1%, but the type of coverage is at the discretion of the buyer or seller.

(iv) An amount equal to cartage charges in the port of entry in the Island on which the purchasing wholesaler is located from dock to the wholesaler's warehouse or to the ultimate purchaser's establishment, computed at a rate of $1.20 per ton, weight or measurement, *Provided*, That the merchandise is moved from the dock at the wholesaler's expense.

(2) When the item which the wholesaler is pricing is listed in Table A of this section, he will then add to his "landed cost," computed in accordance with the provisions of paragraph (e) (1) above, the markup set forth in Table A for that item. When the item is not listed in Table A, the wholesaler shall divide the "landed cost" by the applicable division factor set forth in Table B of this section. The resulting price shall be the wholesaler's maximum price for that item.

(f) *Error account.* In computing the maximum wholesale price for the sale of any item covered by this section, when the actual amount of any charge, except the invoice cost, which is to be used in the computation of such price, is at that time unascertainable with respect to a particular shipment of any such item, the wholesaler may estimate the amount of the charge for the purpose of determining the maximum price only in case he fulfills the following conditions:

(1) That he set up an "error account."

(2) That when the actual amount of the charge becomes known he shall immediately include in this account the difference between the actual amount and the estimated amount.

(3) That if the difference is an amount in excess of the actual amount, then the amount of such difference shall be deducted in calculating the maximum price for any item on hand or received in the next shipment;

(4) That if the difference is an amount less than the actual amount, then the amount of such difference may be added in calculating the maximum price for any item on hand or received in the next shipment;

(5) That the error account show how the differences are applied.

(g) *Special services.* In appropriate cases where special service is rendered, the wholesaler may make application to the Office of Price Administration, Honolulu 2, T. H., for an additional margin based upon the cost of service, and the Territorial Director of the Office of Price Administration for the Territory of Hawaii may authorize an additional margin for such service.

(h) *Weighted average "landed cost."* If an identical item (that is, the same kind, brand, grade, variety, container type and container size) in the wholesaler's inventory on hand has two or more different landed costs, then the "landed cost" for the item may be determined by calculating a weighted average "landed cost" for the entire inventory of that item on hand. Weighted average "landed cost" shall be calculated as follows: Each different "landed cost" shall be multiplied by the number of units having such "landed cost." The products of such multiplication shall be added and the sum thereof divided by the total

number of the units for which a weighted average "landed cost" is desired. The quotient or result of such division is the weighted average "landed cost." This provision is permissive and not mandatory.

(i) *Customary units of sale and fractional prices.* Any maximum prices, calculated in accordance with the provisions of this section, shall be based on the wholesaler's customary unit of sale (that is, per case, box, bag, dozen, or the like). All such calculations resulting in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

(j) *Delivery charges.* No extra charges may be added by the wholesaler to the purchaser for delivery, except as follows:

(1) *Customary delivery charges.* In cases where it was the custom of the seller to make an extra charge for delivery during the calendar year 1941, the seller may upon approval of the Office of Price Administration, Honolulu 2, T. H., add to his maximum price an amount not in excess of local commercial trucking rates for such delivery.

(2) *Island of Maui.* For delivery in the Hana section of the Island of Maui of salt and any item bearing a margin of 9% or less as set forth in Table B, and all items listed in Table A, a wholesaler may add a hauling charge in amount not in excess of $5.00 per ton, weight or measurement. However, in cases where cartage charges to the ultimate purchaser's establishment have been included in the computation of the "landed cost", no extra delivery charges may be added. Zone 1 of the Island of Hawaii shall comprise the area of Puna and South Hilo, as defined by section 7620 of the Revised Laws of Hawaii, 1935.

(k) *Multiple wholesaling.* Except as otherwise provided herein, the maximum price for any wholesaler other than the primary wholesaler of any grocery items covered by this section, shall be the maximum price of the primary wholesaler in the Territory of Hawaii. The primary wholesaler in the Territory of Hawaii making the importation or local purchase, shall furnish any wholesaler purchasing from him a written statement of his "landed cost", and of the maximum wholesale price determined in accordance with the provisions of this section, and thereafter in case of any further sales to other wholesalers, the seller shall furnish to the buyer a statement of the primary wholesaler's maximum price. This provision applies to all sales at wholesale except the following:

(1) *Sales to peddlers.* Where a wholesaler has purchased any such grocery items from another wholesaler in the Territory of Hawaii, the maximum wholesale price for sales by the second or subsequent wholesaler to peddlers (itinerant retail merchants) shall be the net price actually paid to the first wholesaler, plus 5%. The wholesaler shall furnish the peddler with a statement of the first wholesaler's maximum price or prices for the grocery items sold.

(l) *Records and reports.* The provisions of section 10 of this regulation relating to records and reports, shall not apply to this section 41a.

(ii) *Error account.* Every person who maintains an Error Account in accordance with the provisions of paragraph (f) of this section, shall keep and maintain in a form suitable for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, an account setting forth all credits and debits to the account, together with date of the entry and the reason for such entry.

(iii) *Invoices.* Every person making a sale at wholesale of any grocery items covered by this section 41a shall deliver to the buyer an invoice or sales slip setting forth a full and complete description of the grocery items sold, including name of brand, size of container, number of retail units in the wholesale units, name and address of buyer and seller, discounts allowed, quantity sold, the price paid or charged and the date of sale. In addition to the foregoing, whenever a sale is made of any cereals, pet foods, dehydrated soups or vegetables or paste products at a price that is lower than the wholesaler's maximum price, the wholesaler shall set forth on his invoice to the buyer not only the price charged but also his maximum price computed in accordance with the provisions of this section.

(2) *Reports.* Every person making a sale of any grocery items covered by this section shall prepare and file with the Office of Price Administration the following reports:

(i) *OPA Form THP 9, notification of changes in maximum prices established under Maximum Price Regulation No. 373, section 41a.* Any seller, whose maximum wholesale price for any grocery item is determined by this section, and whose maximum price per wholesale unit has changed by an amount equal to one-half cent or more per retail unit since last reported to the Office of Price Administration, or since May 22, 1944, if no report has been filed for that item since that date, shall report such change in price to the District Office of the Office of Price Administration on the Island on which the seller is located, on OPA Form THP 9, prior to any sales of the item at the new maximum wholesale price. However, such report need be filed only in the case that three hundred or more wholesale units were received in one shipment by a wholesaler on the Island of Oahu, or one hundred or more wholesale units were received in one shipment by a wholesaler on any other Island in the Territory of Hawaii, and where these items are to be sold to retail grocery stores.

(ii) Any other reports that the Office of Price Administration, Honolulu 2, T. H., may from time to time require.

Chapter XIV—War Contracts Price Adjustment Board

RENEGOTIATION REGULATIONS[1]

The changes and additions to Parts 1602, 1603, 1604, 1605, 1607 and 1608 of this chapter set forth below are also contained in Revision 9 of the Renegotiation Regulations, dated August 4, 1944.

JOSEPH M. DODGE,
Chairman.

PART 1602—PROCEDURE FOR RENEGOTIATION

SUBPART B—PRELIMINARY INFORMATION REQUIRED OF CONTRACTORS

1. In § 1602.223 paragraph (a) is amended and paragraph (c) is added, as follows:

§ 1602.223 *Letter of preliminary inquiry*—(a) *Unassigned contractors.* The War Contracts Board, through the Assignments and Statistics Branch, may send to contractors and subcontractors who are identified by it as probably subject to renegotiation proceedings (except those who have been previously assigned) a "Letter of Preliminary Inquiry" (see § 1607.702 (a) and (c)). Since the form appearing at § 1607.702 (a) allows a period of thirty days for answering, it will not be used within 30 days of the time for filing prescribed by the 1943 act. The "Letter of Preliminary Inquiry," sent by the Assignments and Statistics Branch, will be to determine whether or not the contractor should be assigned for renegotiation and to what Department or Service, if any, such assignment should be made. The filing of the "Standard Form of Contractor's Report" will constitute compliance with the requirement for mandatory filing under § 1602.222, if filed within the time prescribed by the 1943 act. [RR 223.1]

* * * * * * *

(c) *Follow-up.* The form appearing at § 1607.702 (d) will be used with respect to contractors who have not made response to a "Letter of Preliminary Inquiry" within the time prescribed for filing under subsection (c) (5) (A) of the 1943 act. Such follow-up letters will be sent by the office which sent the "Letter of Preliminary Inquiry" with appropriate variation in signature. [RR 223.3]

2. Section 1602.224 is amended to read as follows:

§ 1602.224 *Contractor's information and work sheet for renegotiation.* The War Contracts Board, through the Department or Service to which any contractor or subcontractor is assigned, may send to such contractor or subcontractor a form designed to assist him in preparing information when it is contemplated that formal renegotiation proceedings will be carried to conclusion (see § 1602.242). The form prepared for the use of supply contractors is the "Contractor's Information and Work Sheet for Renegotiation" (see § 1607.722) and that for construction contractors, architects and engineers is the "Construction Contractors, Architects, and Engineers Information and Work Sheet for Renegotiation" (see § 1607.724). [RR 224]

SUBPART D—CONDUCT OF RENEGOTIATION

Sections 1602.241 and 1602.242 are amended to read as follows:

§ 1602.241 *Commencement of renegotiation.* Renegotiation proceedings are

commenced by the mailing, by registered mail, of reasonable notice of the time and place of a conference to be held with respect to the renegotiation. (See § 1608.-801.) A form which may be used for such purpose is set forth in § 1607.721 Such notice shall be given in all cases of renegotiations with respect to fiscal years ending after June 30, 1943, and in the absence of unusual circumstances such notice shall be given prior to the time a conference is held for the purpose of discussing the refund. In any case where a conference is unnecessary by reason of the progress which has been made in renegotiation prior to the sending out of the formal notice, the notice should be sent, but the conference can be waived by agreement with the contractor. [RR 241]

§ 1602.242 *Data presented by contractor.* The contractor should be prepared to present all the factual data pertinent to the consideration of his case. In this connection, reference is made to the information required in the mandatory financial statement (§ 1602.220 and following) and to other chapters hereof. Suitable forms, designed to help contractors in assembling data of significance in renegotiation, are set out at §§ 1607.722 and 1607.724. These forms are not mandatory, but indicate the type of information required of a contractor to supplement what he supplied on the mandatory financial statement (see § 1607.701). Manufacturers and supply contractors should use the "Contractor's Information and Work Sheet for Renegotiation" (see § 1607.722), and construction contractors, architects and engineers should use the "Construction Contractors, Architects, and Engineers Information and Work Sheet for Renegotiation" (See § 1607.724). (See also § 1602.224.) [RR 242]

PART 1603—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS

SUBPART A—FISCAL YEAR BASIS FOR RENEGOTIATION AND EXCEPTIONS

In § 1603.311 paragraph (b) is amended by the addition of a reference at the end thereof, and paragraph (c) is amended, as follows:

§ 1603.311 *Allocation of excessive profits in cases of consolidated renegotiation.* • • •

(b) Excessive profits must be allocated among the corporations or enterprises included in the renegotiation, and the renegotiation agreement must disclose the allocation. If excessive profits have been realized and the renegotiation agreement merely imposes liability generally on the entire consolidated group for the profits found to be excessive, without fixing the separate liability, then the members of the group may not be allowed a deduction from their income for Federal tax purposes for the amount of excessive profits to be eliminated under the agreement, or a tax credit under section 3806 of the Internal Revenue Code. The excessive profits must be so allocated even though some or all of the members of the consolidated group participate in filing a consolidated Federal tax return. (See § 1607.741 (b) (2)).

(c) The form and method of execution of the renegotiation agreement in the case of a consolidated renegotiation is described in § 1605.502 (m).

• • • • •

SUBPART D—MANDATORY EXEMPTIONS AND EXCLUSIONS FROM RENEGOTIATION

1. In § 1603.346 paragraph (b) is amended to read as follows:

§ 1603.346. *Construction contracts awarded as a result of competitive bidding.* • • •

(b) *Interpretation and application of exemption.* (1) This section of the 1943 act is applicable only to amounts received or accrued for fiscal years ending after June 30, 1943 (regardless of the date when the contract was made) under any contract which meets all of the following conditions:

(i) The contract is a contract with a Department (i. e., is a prime contract). The exemption has no direct applicability to subcontracts—but see paragraphs §§ 1603.347 and 1603.356 (b) for the principles governing exemption of subcontracts under prime contracts as to which this exemption is applicable.

(ii) The contract is for the construction of a building, structure, improvement or other similar facility. The exemption has no applicability to contracts for the furnishing of materials or supplies even if such materials or supplies are to be used in the construction of a building, structure, improvement or similar facility; nor has the exemption any applicability to contracts for the furnishing or installation of machinery or equipment.

(iii) The contract was awarded as a result of competitive bidding. A contract will be deemed to have been awarded as a result of competitive bidding only if (*a*) there has been published advertising or such other solicitation for bids as would open the bidding to all qualified bidders who could have been reasonably expected to bid on a job of the size, character and location concerned, (*b*) bids are received from two or more independent, responsible and qualified bidders in actual competition with each other, (*c*) the contract is let to the lowest qualified bidder, and (*d*) the contract price was not in excess of the low bid received.

(2) In distinguishing a contract for the construction of a building, structure, improvement or facility from a contract for the furnishing or installation of machinery and equipment, regard is to be had to the subject matter of the contract. If the subject matter of the contract would, as the subject matter of a subcontract, constitute machinery or equipment within the principles stated in § 1603.335 (b) (2) and (5) of these regulations, the contract will not be deemed to be a contract for the construction of a building, structure, improvement or facility, but will be regarded as a contract for the furnishing or installation of machinery or equipment. In a case where the construction of a building, structure, improvement or facility and the furnishing or installation of machinery or equipment are embraced within a single contract, the undertaking for the construction job may be severed from the agreement to furnish or install the machinery or equipment and an appropriate finding made as to that portion of the entire contract which may properly be deemed exempt.

(3) If a construction contract is exempt from renegotiation under the provisions of this paragraph, all modifying instruments thereto providing for additional or different construction of buildings, structures, improvements or facilities to be performed at or adjacent to the site of the original project are considered a part of the original construction contract and therefore are exempt from renegotiation, *provided, however,* That the aggregate contract prices of all such modifying instruments do not exceed one-third of the contract price of the original construction contract.

(4) Determination whether this exemption is applicable to any particular contract shall be made by the Department or Service conducting the renegotiation in which such contract is involved upon the basis of the principles referred to in the preceding subparagraphs of this paragraph. [RR 346.2]

2. In § 1603.347 paragraph (b) is amended to read as follows:

§ 1603.347 *Subcontracts under exempt contracts and subcontracts.* • • •

(b) *Interpretation and application of exemption.* (1) It should be noted that the exemption applies only where the subcontract is under a contract or subcontract exempted by paragraph (1) of subsection (i) of the 1943 act. Thus, subcontracts under prime contracts or subcontracts exempted under the discretionary exemptions authorized by subsection (i) (4) of the 1943 act, the exemption measured by renegotiable volume under subsection (c) (6), or any other exemption or exclusion contained in the 1943 act, are not exempted by this provision. (See § 1603.348 (e).)

(2) In any case involving the renegotiable status of a subcontract under a prime contract the exempt status of which (by reason of the possible application of § 1603.346 (b) has not been determined, the procedure shall be as follows: The Department or Service conducting the renegotiation of such subcontract shall advise the Assignments and Statistics Branch of the identity of the prime contract, the exempt status of which is subject to question. The Assignments and Statistics Branch shall thereupon inform the Department or Service to which the prime contractor has been assigned for renegotiation and such Department or Service shall thereupon determine whether such prime contract is exempt under the provisions of §1603.346 (b) and shall notify the Assignments and Statistics Branch of such determination and the said Branch shall thereupon notify the Department or Service conducting the renegotiation of the subcontract. In the event that such prime contractor has not been, and will not be, assigned for renegotiation, or if previously assigned and such assignment has been cancelled, the Assignments and Statistics Branch shall so notify the Department or Service conducting the renegotiation of the subcontract and such Department or Service shall determine whether the prime contract would be entitled to exemption under the provisions of § 1603.346 (b) and shall notify the Assignments and Statistics Branch of such determination. [RR 347.2]

2. In § 1603.348 paragraphs (b) (2) and (c) are amended to read as follows:

§ 1603.348 *Annual receipts under statutory minimum.* • • •

(b) *Computation of aggregate receipts and accruals.* • • •

(2) Affiliate is used in this section to refer to a person who controls or is controlled by or under common control with the contractor. Total receipts or total billings under cost-plus-fixed-fee contracts are included in gross receipts or accruals in computing the limits referred to in this section. For the purpose of applying this provision of the Act gross receipts and accruals will be computed without the elimination of inter-company sales.

• • • • •

(c) *No reduction by refund below exemption.* (1) In connection with the renegotiation of contracts and subcontracts (other than subcontracts referred to in subsection (a) (5) (B) of the 1943 act), no determination of excessive profits after adjustment for state income taxes shall be made in an amount greater than that which, when deducted from the aggregate amount of gross receipts or accruals referred to in paragraph (b) (1) (ii) will reduce them below $500,000.

(2) In connection with the renegotiation of subcontracts referred to in subsection (a) (5) (B) of the 1943 act, no determination of excessive profits after adjustment for state income taxes shall be made in an amount greater than that which, when deducted from the aggregate amount of gross receipts or accruals referred to in paragraph (b) (1) (i) will reduce them below $25,000.

(3) In the case of a fiscal year of less than twelve months, ending after June 30, 1943, these rules are applied on a prorated basis.

(4) In the renegotiation of contractors who are subject to renegotiation by reason of the common control provisions of the 1943 act (see paragraph (a) of this section) the refund may reduce the aggregate amount of gross receipts or accruals of any member below the floor specified in subparagraph (1) or (2) of this paragraph but the aggregate of the recoveries from such contractors after adjustment for state income taxes must not reduce the combined adjusted sales of the contractors below the minimum referred to in this paragraph. In the case of companies renegotiated on a consolidated basis the combined adjusted sales will be computed without the elimination of inter-company sales (see paragraph (b) (2)).

(5) Except in those cases where prior to the commencement of renegotiation a contractor makes a retroactive price reduction or refund, applicable to the period which is the subject of renegotiation, in an amount at least equivalent to the maximum recovery permitted under the preceding provisions of this paragraph (so that if renegotiation proceedings were conducted there could be no recovery by reason of such limitation) the amount of excessive profits will be estimated by the renegotiating agency in the first instance without regard to the possible final effect of the above limitation on the amount of recovery.

(6) In applying the provisions of this paragraph to any case in which an adjustment for state income taxes is required (see § 1603.389), excessive profits shall first be determined and the appropriate adjustment for state income taxes shall be made without regard to any limitations imposed by this paragraph upon the amount of refund. The limitations of this paragraph shall then be applied in determining the amount to be refunded. [RR 348.3]

SUBPART E—PERMISSIVE EXEMPTIONS FROM RENEGOTIATION

1. Paragraph (c) of § 1603.355 is amended to read as follows:

§ 1603.355 *Contracts and subcontracts when effective competition is likely to exist.* • • •

(c) *Application of exemption to construction contracts and subcontracts.* (1) The War Contracts Board has found that competitive conditions affecting the making of construction contracts and subcontracts entered into subsequent to June 30, 1943, were such as to result in effective competition with respect to the contract or subcontract price where all of the following conditions exist,

(i) the contract or subcontract is one for the construction of a building, structure, improvement or other similar facility. The exemption has no applicability to contracts or subcontracts for the furnishing of materials or supplies even if such materials or supplies are to be used in the construction of a building, structure, improvement or similar facility; nor has the exemption any applicability to contracts or subcontracts for the furnishing or installation of machinery or equipment.

(ii) the contract or subcontract did not constitute a substitute for or a revision or extension of an existing contract or subcontract entered into on or before June 30, 1943;

(iii) the work covered by the contract was substantially the same as the work for which the bids were requested;

(iv) bids were received from two or more independent, responsible and qualified bidders in actual competition with each other; and

(v) the contract or subcontract was let to the lowest qualified bidder; at a price not in excess of the low bid;

or where the subcontract is a construction contract which (*a*) meets the conditions prescribed in subdivision (i) above, and (*b*) is a subcontract under a contract or subcontract exempt from renegotiation under the foregoing provisions of this paragraph.

(2) In distinguishing a contract or subcontract for the construction of a building, structure, improvement or facility from a contract or subcontract for the furnishing or installation of machinery or equipment, the principles of § 1603.346 (b) (2) will be followed.

(3) If a construction contract or subcontract is exempt from renegotiation under the provisions of this paragraph, all modifying instruments thereto providing for additional or different construction of buildings, structures, improvents or similar facilities at or adjacent to the site of the original project are considered a part of the original construction contract or subcontract and therefore are exempt from renegotiation: *Provided, however,* That the aggregate contract prices of all such modifying instruments do not exceed one-third of the contract price of the original construction contract or subcontract.

(4) Determination whether this exemption is applicable to any particular contract or subcontract shall be made by the Department or Service conducting the renegotiation in which such contract or subcontract is involved upon the basis of the principles referred to in the preceding subdivisions of this paragraph. [RR 355.3]

2. Paragraph (b) of § 1603.356 is amended to read as follows:

§ 1603.356 *Subcontracts as to which it is not administratively feasible to determine and segregate profits.* • • •

(b) *Exemption.* (1) The War Contracts Board has found that it is not administratively feasible to determine and segregate the profits attributable to activities subject to renegotiation from those not so subject in the case of the following subcontracts:

(i) Subcontracts directly or indirectly under a prime contract to which the provisions of § 1603.346 (b) are applicable as to only a portion of the amounts received or accrued therefrom, due to the fact that a portion of such amounts were received or accrued in a fiscal year ending prior to July 1, 1943;

(ii) Subcontracts directly or indirectly under any modifying instrument of the general type described in § 1603.345 (b) (4) (regardless of whether such modifying instrument is exempted under that paragraph) which modifies a contract to which the provisions of § 1603.346 (b) are applicable; and

(iii) Subcontracts for the construction of a building, structure, improvement or other similar facility directly or indirectly under any modifying instrument of the general type described in § 1603.-355 (c) (2) (regardless of whether such modifying instrument is exempted from renegotiation under § 1603.355 (c)).

The War Contracts Board has therefore exempted the foregoing subcontracts from all the provisions of the 1943 act.

(2) Since the powers of the War Contracts Board under subsection (i) (4) (F) (paragraph (a)) are applicable only to amounts received or accrued for fiscal years ending after June 30, 1943, the exemptions made by this paragraph are applicable only to amounts received or accrued under such subcontracts for fiscal years ending after June 30, 1943.

(3) In determining whether a subcontract is one for the construction of a building, structure, improvement or other similar facility, the principles of § 1603.346 (b) shall be applied. [RR 356.2]

3. Section 1603.358 is amended by changing "quintuplicate" to "triplicate". The section, as amended, reads as follows:

§ 1603.358 *Requests for exemption.* All requests or petitions for the exemption by general classes or types of contracts and subcontracts for a standard commercial article or of contracts or subcontracts where it is claimed there is "effective competition" or of other general classes or types of contracts under subsection (i) (4) of the 1943 act should be made in writing in triplicate and addressed to the War Contracts Price Adjustment Board at the address specified in § 1607.791 (e), and should be supported by a full statement of facts setting forth the basis for the requested exemption. [RR 358]

SUBPART F—LIMITATIONS ON COMMENCEMENT AND COMPLETION OF RENEGOTIATION

Sections 1603.362 and 1603.363 are amended by the addition of references. The sections, as amended, read as follows:

§ 1603.362 *Commencement of renegotiation proceedings.* Unless renegotiation proceedings are commenced either, (1) within one year after the close of the fiscal year in which the excessive profits were received or accrued, or (2) within one year after the statement required under subsection (c) (5) of the 1943 act is filed with the War Contracts Board, whichever is later, the liability of the contractor or subcontractor for the fiscal year involved will be discharged. Under subsection (c) (1) of the Renegotiation Act of 1943 the mailing of notice by registered mail of the time and place of a conference to be held with respect to the determination of excessive profits constitutes the commencement of the renegotiation proceeding (see §1602.241). [RR 362].

§ 1603.363 *Completion of renegotiation proceedings.* Renegotiation must be completed by the making of an agreement or the entry of an order within one year following the commencement of the renegotiation proceeding, or the liability of the contractor or subcontractor for the fiscal year involved will be discharged. The one year period of limitation on completion of renegotiation proceedings does not apply, however, to the review by the War Contracts Board of an order made by a Secretary of a Department or any officer or agency to whom his authority in this respect has been redelegated. Also, the one year period may be extended by mutual agreement. A form which may be used for such extension is set out in § 1607.725, and reference is made to § 1608.821 (a) concerning authority to execute the same. The formalities for its execution are similar to the formalities for the execution of a renegotiation agreement (see § 1605.502 (l) including subparagraph (5)). [RR 363]

SUBPART H—COSTS ALLOCABLE AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

1. In paragraph (d) of § 1603.381 subparagraph (5) is added as follows:

§ 1603.381 *Statutory provisions and general regulations.* • • •

(d) *Profit, cost allocation and allowance; general.* • • •

(5) *Costs previously allowed in renegotiation.* No item of cost shall be deemed "properly chargeable" against or "allocable" to renegotiable business to the extent that such item has, in a previous renegotiation, been charged against or allocated to renegotiable business in determining excessive profits, nothwithstanding that such item may be a deduction or exclusion under Chapters 1 and 2E of the Internal Revenue Code in computing taxable net income for the taxable period corresponding to the fiscal period covered by the current renegotiation. [RR 381.4]

2. In § 1603.382 (f) (2) subdivision (iii) is amended to read as follows:

§ 1603.382 *Salaries, wages and other compensation.*

(f) *Pension, annuity, stock bonus and profit sharing plans.* • • •

(2) • • •

(iii) The payments on account of the plan, to be allowed as deductions for Federal income tax purposes, must actually have been paid within the taxable year except that as to payments into a qualified plan, a taxpayer on an accrual basis of accounting is deemed to have made a payment on the last day of the year if the payment is on account of such taxable year and is made within 60 days after the close of the taxable year of accrual.

• • • • • •

3. Section 1603.389 (a) is amended by the addition of a reference at the end thereof. The paragraph, as amended, reads as follows:

§ 1603.389 *State income taxes*—(a) *In general.* Under subsection (a) (4) (B) of the 1943 act, taxes measured by income cannot be allowed as items of cost for purposes of renegotiation. However, this subsection provides specifically that in determining the amount of excessive profits to be eliminated, proper adjustment shall be made on account of the taxes measured by income (other than Federal taxes) so excluded, which are attributable to non-excessive renegotiable profits. The amount of any such adjustment will in no case exceed that part of such taxes actually payable which is payable because of the inclusion in income of the non-excessive renegotiable profits. The term "taxes measured by income" is interpreted to mean taxes which vary in accordance with the amount of net income of the taxpayer. Such term does not include taxes imposed upon or measured by gross income, gross receipts or sales. Such taxes measured by net income are herein referred to generally as "state income taxes" although actually they may not be designated as "income taxes" in the legislation imposing such taxes, and although they may be imposed by political sub-divisions other than a state. For the effect of the floor provision limiting refunds of excessive profits, see § 1603.348 (c) (6). [RR 389.1]

• • • • • •

PART 1604—DETERMINATION AND ELIMINATION OF EXCESSIVE PROFITS

SUBPART A—PRINCIPLES AND FACTORS IN DETERMINING EXCESSIVE PROFITS

Section 1604.407 (c) is amended by the addition of a reference in subparagraph (1). The subparagraph, as amended, reads as follows:

§ 1604.407 *Cost - plus - fixed - fee contracts.* • • •

(c) *Treatment of disallowed costs and adjustment of fees.* (1) Disallowances of costs under cost-plus-fixed-fee contracts made in accordance with the terms of the contracts will, except as noted below, be deducted from the fee. If, however, any part of the amounts so disallowed are determinable business expenses which would otherwise necessarily have been incurred for the continued operation of the business as an enterprise and, if such amounts are deductions of the character permitted under the applicable provision of the Internal Revenue Code and the contractor has fixed-price business, the amount of such disallowances may be allocated to fixed-price renegotiable and non-renegotiable business in proper proportions. Reference is made to § § 1605.506 (f) and 1607.741 (b) (7), relating to waiver of claims under a cost-plus-fixed-fee contract when the amount of the item disallowed under such contract is allowed as a cost against renegotiable business.

• • • • • •

PART 1605—AGREEMENTS AND STATEMENTS

SUBPART A—AGREEMENTS AND CLEARANCES

1. Section 1605.502 is amended in the following respects: Paragraph (b) is amended; subparagraph (8) is added to paragraph (e); in paragraph (l) subparagraph (2) is amended, subparagraph (5) is redesignated (6), and a new (5) is added; and paragraph (m) is added, as follows:

§ 1605.502 *Standard form of agreement.* • • •

(b) *Article 1: Profits to be eliminated.* The agreed dollar amount of excessive profits to be eliminated, after giving effect, in accordance with subsection (a) (4) (B) of the 1943 act, to any adjustment for taxes, other than Federal taxes, measured by income, will be set forth in Article E. Ordinarily such amount will be the excessive profits determined to have been received or accrued during a particular fiscal year under all of the contractor's contracts and subcontracts subject to renegotiation. When the renegotiation covers only contracts and subcontracts completed during a fiscal year or has been conducted only with respect to certain contracts and subcontracts, the language used in Article 1 should be modified accordingly. When the amount of refund is limited by the application of the provisions of § 1603.348 (c), an appropriate statement to that effect will be included in Article I of the Renegotiation Agreement (see suggested form of statement in footnote to Article 1, § 1607.741 (a). [RR 502.2]

• • • • • •

(e) *Article 4: Terms of payment.* • • •

(8) Provision is made in the standard form of renegotiation agreement for the payment of interest on defaulted installments. (See § 1607.741 (a) (4) and (b) (5)). The rate specified in the agreement is "the rate provided by law in the District of Columbia as the rate which is applicable in the absence of express contract as to the rate of interest." (See § 1608.807.) [RR 502.5]

• • • • • •

(l) *Formalities of execution.* • • •

(2) The form and method of execution of the renegotiation agreement in the case of a consolidated renegotiation is described in paragraph (m).

• • • • • •

(5) If the authority of the person signing the agreement is based upon a written instrument or court order or provision of law (as where the agreement is executed on behalf of a corporation in dissolution, or an estate or trust, or where the authority derives from a power-of-attorney), the agreement should be accompanied or supported by proper evidence of such authority.

(6) The Department conducting the renegotiation has authority to depart from the requirements of this paragraph in its discretion.

(m) *Consolidated renegotiation; agreement, form and execution.* If a group consists of affiliated enterprises, other than parent and subsidiary corporations, the standard form of agreement should be rewritten to include as parties thereto all members of the group to which are allocated any amount of the excessive profits and it must be executed by each such member of the group. If the group consists of parent and subsidiary corporations, the renegotiating agency may require the standard form of agreement to be re-written to include as parties thereto, in addition to the parent corporation, all subsidiaries to which are allocated any amounts of the excessive profits and each such subsidiary must execute the agreement. The renegotiating agency may, however, use the standard form of agreement executed only by the parent corporation. In such event, the following procedure will be followed: (1) the variation in Article 2 set forth in § 1607.741 (b) (2) shall be included in the agreement; (2) Exhibit B to the agreement must contain a clause by which each subsidiary to which is allocated any portion of the excessive profits agrees to pay such portion; (3) Exhibit B must be duly executed by each such subsidiary and an appropriate resolution authorizing such execution must be furnished (see paragraph (l); and (4) Exhibit B will also provide that payment by the parent corporation will be applied ratably to satisfy the liability of each member of the group. A form of Exhibit B to be used where the foregoing clauses are required, is set forth in § 1607.742 (b) (2). [RR 502.13]

2. In § 1605.506 paragraph (f) is redesignated (g) and a new paragraph (f) is inserted, as follows:

§ 1605.506 *Additional provisions; variations.* • • •

(f) *Waiver of claims under cost-plus-fixed-fee contracts.* If an item of cost is allowed in renegotiation for an item for which a claim for reimbursement under a cost-plus-fixed-fee contract has been made and disallowed by the Government, the contractor should waive and release such claim under the cost-plus-fixed-fee contract involved to the extent that the amount of the claim is allowed as a cost against renegotiable business (see § 1604.407 (c)). There is set out in § 1607.741 (b) (7) an appropriate form of clause relating to such claims. The form of clause may be varied to fit the particular case. [RR 506.6]

PART 1607—FORMS FOR RENEGOTIATION

SUBPART A—FORMS RELATING TO IDENTIFICATION, ASSIGNMENT AND CANCELLATION OF CASES

(Letterhead of Appropriate Department or Section)

GENTLEMEN:

Price Adjustment Boards and Sections have been established for the conduct of statutory proceedings for the renegotiation of contracts and subcontracts. Renegotiation with respect to contractors whose fiscal years ended on or before June 30, 1943 is controlled by the Renegotiation Act of 1942 as amended by the retroactive provisions of the Renegotiation Act of 1943. Renegotiation with respect to fiscal years ended after June 30, 1943 is controlled by the Renegotiation Act of 1943. Copies of both Acts are enclosed herewith.

The matter of conducting your statutory renegotiation proceedings has been assigned to this office.

Unless the amount of your business during your latest complete fiscal year was less than the statutory minimum as defined by subsection (c) (6) of the Act applicable to your business for that year, you are required by law to furnish the information called for by the "Standard Form of Contractor's Report." On the basis of the information thus presented, a determination will be made as to whether or not further renegotiation proceedings will be necessary.

To assist you in determining whether or not your business exceeded the statutory minimum as defined in the statutes referred to, your attention is invited to the "Instructions for Preparation of Standard Form of Contractor's Report" which accompany this communication.

The enclosed "Standard Form of Contractor's Report" is requested pursuant to the statutory power to obtain information deemed necessary under the Act. Your filing of this "Standard Form of Contractor's Report" in satisfactory form will be deemed a compliance with the statutory provision requiring the filing by contractors and subcontractors of a financial statement under the first sentence of subsection (c) (5) (A) of the 1943 Act, if filed within the time prescribed in such Act.

The "Standard Form of Contractor's Report" is to be filed with the undersigned, in duplicate, within thirty days of the date of this letter.[1] If your concern reports on a fiscal year basis for federal income tax purposes, the Report prepared should cover the same period.

If all of the information called for by this form has been furnished the Price Adjustment Agency to which the contractor has been assigned, refer to the final paragraph of instructions.

A separate letter or statement, in duplicate, containing any comments which you believe pertinent with respect to statutory renegotiation as it affects you will be appreciated.

2. In § 1607.704 (a) the third paragraph of the statement by contractor is amended by changing "receipts and accruals" to "receipts or accruals" and by changing "agencies or subcontracts" to "agencies and subcontracts", as follows:

§ 1607.704 *Forms for cancellation of assignment*—(a) *Statement by contractor of non-applicability.*

STATEMENT BY CONTRACTOR

NON-APPLICABILITY OF THE RENEGOTIATION ACT OF 1943

• • • • • •

In making this certification recognition is given to the fact that in order to qualify for exemption it is necessary that both of the above conditions should be met; i. e., that the total of receipts or accruals under contracts with the above-named Departments or agencies and subcontracts as defined in the Act (excluding commissions and other income below mentioned) does not exceed $500,000 *and* that the total of commissions and other income within the meaning of subsection (a) (5) (B) of the Act does not exceed $25,000. Accordingly, we do not intend to file a financial statement in conformity with the provisions of the first sentence of subsection (c) (5) (A) of the Act. If we have been assigned for statutory renegotiation, we request that such assignment be cancelled.

SUBPART B—FORMS RELATING TO OPERATION OF RENEGOTIATION

Section 1607.724 is added as follows:

§ 1607.724 *Construction contractors, architects, and engineers information and work sheet for renegotiation*—(a) *Instructions for preparation.*

[1] Omit "within thirty days of the date of this letter" if this letter is being sent within thirty days of the time for filing prescribed by the 1943 Act.

CONSTRUCTION CONTRACTORS, ARCHITECTS, AND ENGINEERS INFORMATION AND WORK SHEET FOR RENEGOTIATION.

Information indicated in parts I and II herein is required for renegotiation under the Renegotiation Act, as amended. Any part of this information which the contractor has submitted, either in the "Standard Form of Contractor's Report (for Construction Contractors, Architects, and Engineers)" or in connection with a previous renegotiation, may be omitted, provided reference is made to the manner, time, and place of its submission. If any statements or information designated are inapplicable in a particular case, the contractor should so state and give the reason therefor. In financial statements all cents may be omitted. The contractor should so indicate if he prefers to discuss with the renegotiation authorities the methods of segregation of gross earnings and allocation of costs and expenses. In such cases, the contractor should submit all other information requested herein.

The contractor should certify that all information and data (subject to qualifications, if any, specifically set forth) are true and correct to the best of his knowledge and belief.

PART I—INSTRUCTIONS FOR PREPARATION OF EXHIBITS

The enclosed exhibits are provided for the contractor's use in this connection. Should he submit in some other form his income data separated as between renegotiable and nonrenegotiable business, these exhibits should be used as guides.

Exhibit I

For an interpretation of items entering into renegotiable and nonrenegotiable business, respectively, refer to "Standard Form of Contractor's Report (for Construction Contractors, Architects, and Engineers)," Instructions 3, 4, and 6.

Line 1. Gross earnings. Enter total dollar volume of all work done under prime contracts, subcontracts, and purchase orders and other earnings, segregated as indicated by the columnar headings. For lump-sum and unit-price contracts (column A) show total contract price. For cost-plus-fixed-fee contracts (column B) show total reimbursements and fees earned. On joint venture lump-sum and unit-price contracts enter contractor's proportionate share of the total contract price (column C). On joint-venture cost-plus-fixed-fee contracts enter his proportionate share of the reimbursable costs and fees (column C). (Joint ventures are renegotiated as separate entities.) Column D is to be used only by contractors who report for tax purposes on other than the completed contract basis, but who prepare this exhibit I on a completed contract basis.

Line 2. Job costs. Enter in each column the job costs applicable to the corresponding contract earnings entered on line 1. For cost-plus-fixed-fee contracts (column B) include both reimbursable and direct nonreimbursable costs. For joint-venture contracts (column C) show proportionate share of costs.

Lines 5, 8, and 9. General and administrative expenses; other income; other deductions. Allocate to the classifications indicated for each column in accordance with the most equitable method in view of the particular situation.

Line 11. Rental income from owned equipment (net). Enter on this line in column E the renegotiable portion of the net amount (gross less applicable costs and expenses) received or accrued from the rental of equipment owned by the contractor; in column F the nonrenegotiable portion of such net earnings; and in column G the sum of the amounts entered in columns E and F, respectively. If these amounts are significant, the contractor should support them by a separate schedule showing gross earnings from such rentals, distributed between renegotiable and nonrenegotiable business, and costs and expenses applicable to each classification, with resultant net earnings as shown in columns E, F, and G, respectively.

Line 13. Sales and other earnings. Enter on this line in column E the renegotiable portion of the net income from sales and services not included in columns A to D, inclusive; in column F the nonrenegotiable portion of such income; and in column G the sum of the amounts entered in columns E and F, respectively. The contractor should support these amounts by a separate schedule showing net sales and/or income from services, cost of sales and/or services, expenses applicable to each classification, and resultant net profits, as shown in columns E, F, and G, respectively.

Lines 14, 15, 16, 17, and 18. Amounts on these lines are to be entered in column G only.

Supporting schedules. Furnish supporting schedules as directed on the back of exhibits I and IA (also IB if applicable).

PART II—GENERAL INFORMATION

A. One copy each of the following:

1. Balance sheets as of the close of the year under review and each of the three (3) preceding years, and related analyses of surplus or net worth.
2. Income statement as regularly prepared, for the year under review.
3. Federal income and excess profits tax returns filed for the year under review.
4. Detailed or long form audit report, if available.

B. *Information relative to affiliates:*

1. A statement showing the names and addresses of the contractor's parent, subsidiary, and affiliated companies and organizations, with a brief description of the character of their business, the nature and extent of their affiliation, and an expression of the contractor's opinion as to whether or not, during the year under review, they had business subject to the Renegotiation Act, and as to which should be consolidated for purposes of renegotiation.
2. If the financial statements are submitted on a consolidated basis, similar financial statements for each subsidiary included in such consolidation.
3. The basis of setting intercompany prices (including rentals) when affiliates or subsidiaries are not consolidated.
4. A statement of sales and rentals to and purchases and rentals from subsidiaries and affiliates.

Instructions. The terms "affiliates" and "affiliated companies and organizations" means all persons under the control of or controlling, or under common control with the contractor.

C. A statement or schedule, amplified by adequate explanations, with respect to each of the following:

1. Type and approximate value of any materials or other assistance received from the Government or prime contractors;
2. The effect of raw material exemptions and "excess inventory" calculations provided for in subsection (i) of the Act;
3. Sales of materials and rentals of equipment to subcontractors entering into repurchases from them;
4. Interdepartmental sales not eliminated;
5. Any basic changes during the year under review in accounting methods, depreciation rates, and/or methods, of inventory valuation;
6. Volume of direct renegotiable earnings from contracts with the subsidiaries of Reconstruction Finance Corporation (Defense Plant Corporation, Defense Supplies Corporation, Metals Reserve Co. and Rubber Reserve Co.), and the amount of profits therefrom. (If profits on such earnings are not segregated on the books, best estimate should be given);
7. A brief description of any bonus, pension trust, or other employee compensation plans in effect during the year under review, with comment as to how they are applicable to personnel for which compensation data are specifically supplied (officers, highly paid employees, etc.), and showing the dates that such plans were adopted. State whether approval has been obtained from the Bureau of Internal Revenue.
8. The latest taxable year examined by the Bureau of Internal Revenue and any significant changes made in taxable income or invested capital as a result of examinations made by the Bureau since 1 January 1942;
9. Any changes in excess profits tax credit claimed or to be claimed under section 721 or 722 of the Internal Revenue Code;
10. If royalties in excess of $25,000 were paid or accrued during the year under review, the names of significant payees and amounts of payments. Similarly, if the contractor received royalties in excess of $25,000, the names of licensees and amounts received from each;
11. Any revaluation of assets or recapitalization during the year under review;
12. Stockholders owning over 10 percent of voting stock and stockholdings of officers and key executives;
13. Financial interest in any subcontractor, supplier of material, or any concern from which construction plant or equipment has been acquired or rented during the year under review;
14. If the reporting entity is a joint venture, a certified copy of the joint-venture agreement;
15. Schedule showing name, address, and amount paid or accrued to each person, other than full-time employees, for obtaining or attempting to obtain contracts with any of the Departments named in the Act;
16. Any other matters with particular reference to those factors set forth in section (a) (4) (A) of the 1943 Act.

Instructions. Since each of the subjects listed above requires development in some detail for purposes of renegotiation, in order that full value can be given to the contractor's contribution to the conduct of the war, the contractor should give careful consideration to the preparation of his statements relative thereto. While such statements may be amplified at a meeting with representatives of the War Contracts Price Adjustment Board, it is desirable that they be presented in writing before such meeting.

TITLE 50—WILDLIFE

Chapter IV—Office of the Coordinator of Fisheries

[Order 1956, Amdt. 1]

PART 401—PRODUCTION OF FISHERY COMMODITIES OR PRODUCTS

ALLOCATION OF HALIBUT WITHIN PORTS

Order No. 1956 of the Secretary of the Interior, issued June 13, 1944, (9 F.R. 6780) entitled "Allocation of Halibut Within Ports" is hereby amended as follows:

Paragraph (b) is amended by adding the following sentence at the end thereof: "Orderly production and marketing of the products of the fishery depend upon the equitable allocation of the catch among primary dealers, but all persons affected by this order are expected to cooperate in supplying the requirements of the armed services and by furthering the distribution of halibut available for civilian use to the principal distributing and consuming centers in substantially the normal percentages of supply."

Paragraph (c) (2) is amended to read as follows:

(2) "Dealer" means any person buying or taking delivery of halibut in wholesale quantities for his own account or the account of others, within fifty miles of the coastal or inland waters of Alaska, Washington, Oregon or California, except retailers and other buyers for resale direct to the ultimate consumer; the term also includes any person soliciting or making arrangements for any such sale or delivery as is described in the preceding clause, even though at a port other than where the sale or delivery or both are actually completed.

Paragraph (d) is amended to read as follows:

(d) *Permits required for dealers.* No person shall operate as a dealer, as defined in paragraph (c) (2) above, nor purchase halibut nor take delivery thereof from another person, within the geographical limits described in that paragraph except in accordance with a permit issued pursuant to this order by the Fishery Coordinator or his representative. Each permit shall authorize operation at one port only; but the same dealer may have several permits for operation at different ports. Such permits shall be shown by the permittee on request to any person from whom the permittee proposes to purchase halibut. No fisherman or any other person shall deliver or sell halibut to any dealer except in accordance with such a permit. Any person soliciting or making arrangements for such sales or deliveries as are described in paragraph (c) (2) shall be considered to be operating as a dealer at the port where such activity occurs, though the sale or delivery or both are actually completed at some other port."

Paragraph (h) (1) is amended to read as follows, with the approval of the Bureau of the Budget:

(1) All dealers shall keep and preserve for not less than two years accurate records concerning purchases of halibut from fishermen and others, and sales of halibut to secondary dealers and others, showing for each transaction the data, the name and address of the other party, and the amount of halibut involved, by species.

Issued this 10th day of August 1944.

Acting Secretary of the Interior.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

Correction

In the table for Chafin Branch Coal Co., in F. R. Doc. 44–8313, appearing at page 6375 of the issue for Saturday, June 10, 1944, the price classification for Size Group No. 7 should be "N".

[Administrative Notice 5]

NOTICE TO GROWERS OF PROPOSED MAXIMUM PRICES FOR BEETS

Pursuant to the provisions of the Emergency Price Control Act of 1942 as amended the Price Administrator hereby gives notice to growers of the maximum price he proposes to establish for beets.

For November through May the maximum price, f. o. b. country shipping points, in Texas, will be $1.35 per half L. A. crate, in bunches with tops, per bushel without tops (topped) or per fifty pound bag without tops (topped). For sales delivered at any wholesale receiving point any quantity the maximum price will be the above price plus freight from Brownsville, Texas, to the wholesale receiving point. The Administrator may name maximum prices f. o. b. shipping points in other states for this period. However, such prices will not be lower than the above-mentioned price.

From June through October the maximum price, f. o. b. shipping points in all states for beets as described in the above paragraph will be $1.35.

Appropriate allowances will be made to cover protective services.

No person who does not pack and ship beets and who does not regularly operate a packing and shipping plant for that commodity, will be permitted to purchase acreage at a price which, after adding the cost of harvesting, hauling, packing and inspection, results in a price higher than the applicable maximum price f. o. b. country shipping point.

The above prices may be incorporated in an amendment to Maximum Price Regulation No. 426 in substantially the same form as Appendix H.

Note: "Country shipping point" means the place in or near the producing area where the beets being priced are prepared for shipment and first loading on cars for rail shipments or on trucks for truck shipment. Prices established for shipping points are not grower ceiling prices unless the grower is the shipper.

Issued this 14th day of August 1944.

Acting Administrator.

Approved: August 12, 1944.
